Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p> <p>Portfolio rebalancing in case of passive breach:</p> <p>As per Clause 2.9 of the SEBI Master Circular and the clarifications/ guidelines issued by AMFI/ SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.</p> <p>In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9.3 and 2.9.4 of SEBI Master Circular.</p>
Investment Strategy	<p>Investment Strategy for Equity Investments</p> <p>The Scheme is an open-ended Scheme that aims to provide long term capital growth by investing primarily in a well-diversified portfolio of companies that are selected based on the criteria of Value Investing. Value investing is an investment strategy where stocks are selected that trade for less than their intrinsic values.</p> <p>The Scheme proposes to carefully accumulate a portfolio of stocks, which are available at a discount to its intrinsic value through a process of Discovery. The Discovery Process would be through identification of such stocks, which have attractive valuations in relation to earnings or book value or current and/or future IDCWs and are available at a price, which can be termed as a bargain. This may constitute stocks, which have depreciated for a short</p>

period due to some exceptional circumstance or due to market correction phase or due to lack of interest in investing in a sector, which has significantly underperformed the market. Such stocks are considered to have intrinsic value because of their business models and show potential for smart growth in the future. Intrinsic value of a stock is determined through analyzing the financial statements of the companies and parameters such as EPS (Earnings per Share), the Book Value per share, free cashflow yield relative to repo rate, replacement cost, EV/EBITDA multiple which is available at significant discount to their historical averages, understanding the competition land-scape and business structure of these companies. The universe of stocks for this Scheme will be defined as those stocks whose prices are low relative to their fundamentals, their historic performance, their book values, their earnings and cash flow potential, current and/or future IDCWs, having positive earnings momentum.

For investment, AMC would use industry specific valuation measures to evaluate companies in every sector in order to select the most attractive companies for the portfolio.

The Scheme may use various techniques/strategies using derivative instruments for hedging as well as non-hedging purpose. Below is summary of some of the techniques which fund can employ. Please refer to Statement of Additional Information (SAI) for detailed description of derivative strategies.

Equity Derivatives

1) Index/ Stock spot - Index/ Stock Futures:

- The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio
- Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase

2) Index/ Stock options

- The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase.

3) Stock Arbitrage

- This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavor to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market.

4) Index Arbitrage:

- Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium.
- The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated

5) Corporate Action / Event Driven Strategies:

A. IDCW Arbitrage

- At the time of declaration of IDCW, the stock futures / options market can provide a profitable opportunity. Generally, the stock prices decline by the IDCW amount when the stock becomes ex-IDCW.

B. Buy-Back/ Open Offer Arbitrage

- When the Company announces the buy-back or open offer of its own shares, there could be opportunities due to price differential in buyback price and traded price.

C. Merger

- When the Company announces any merger, amalgamation, hive off, de-merger, etc, there could be opportunities due to price differential in the cash and the derivative market.

6) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment manager is expecting a market correction, the Investment manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels

7) Reverse Arbitrage:

- This strategy will be adopted if the cash price of a stock (say "XYZ") is reasonably greater than single stock futures of XYZ, and then the Investment Manager may sell cash position in XYZ and buy single stock futures of XYZ. In this case the Investment Manager will still be having a long-term view on the stock XYZ but is able to minimize the cost of holding of XYZ

Fixed Income Derivatives

1) Interest Rates Swap

- The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure

2) Interest Rate Futures (IRF)

- IRFs can be used for hedging the underlying cash positions.

3) Forward Rate Agreement (FRA)

- An FRA is an off balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount.
- FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

For detailed derivative strategies, please refer to SAI.

Strategy for Fixed Income Securities

The Investment Manager will conduct in-house research in order to identify various investment opportunities. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value

	<p>creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological knowhow and transparency in corporate governance. The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, FITCH etc. or in unrated debt securities which the Investment Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment.</p> <p>Portfolio Turnover</p> <p>Portfolio turnover is defined as the lower of the aggregate value of purchases or sales as a percentage of the corpus of a scheme during a specified period of time. This will exclude purchases and sales of money market securities. The Scheme is open ended, with subscriptions and redemptions expected on a daily basis, resulting in net inflow/outflow of funds, and on account of the various factors that affect portfolio turnover; it is difficult to give an estimate, with any reasonable amount of accuracy.</p> <p>Therefore, the Scheme has no specific target relating to portfolio turnover.</p>
Risk Profile of the scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>1) Risk of substantial redemption, 2) Risks associated with segregated portfolio, 3) Risks associated with transacting in scheme units through stock exchange mechanism, 4) Risk associated with principles of efficient portfolio management 5) Risk factors related to Taxation of overseas investments 6) Risks associated with Equity and Equity-related securities / investments, 7) Risk associated with Securities Lending & Borrowing and Short Selling, 8) Risks Associated with Trading In Equity Derivatives, 9) Risks associated with investments in REITs & InvITs, 10) Risk Factors associated with investments in Debt Securities and Money Market Securities, 11) Risk factors associated with investment in debt instruments having structured obligations /credit enhancements, 12) Risk factors associated with investment in unrated securities, 13) Risk factors associated with investment in special feature bonds, 14) Risk factors associated with investment in Tri-Party Repo, 15) Risk associated with investments in repo of corporate debt securities, 16) Risk factors associated with investments in Perpetual Debt Instrument (PDI), 17) Risks associated with segregated portfolio, 18) Risks associated with investments in Securitized Assets, 19) Risks Associated with fixed income Derivatives, 20) Risk factors with respect to imperfect hedging using interest rate futures, 21) Risks associated with Depository Receipts, 22) Risk management for risk associated with Depository Receipts</p> <p>For details on risk factors and risk mitigation measures, please refer SID.</p> <p><u>Risk Mitigation Strategies:</u></p> <p>I. Risks associated with Equity investments:</p> <p>i. Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any.</p> <p>ii. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low.</p>

	<p>iii. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme</p> <p>II. Risks associated with favorable taxation of equity-oriented Scheme:</p> <p>Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.</p> <p>III. Risks associated with Stock Lending:</p> <p>The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p> <p>IV. Risks associated with Equity Derivative investments:</p> <p>The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.</p> <p>V. Risks associated with fixed income Derivative investments:</p> <p>Investment managers will ensure adherence to the limits and the guidelines as issued by SEBI / RBI from time to time for forward rate agreements and interest rate swaps and other fixed income derivative products.</p> <p>VI. Risks associated with Debt Securities and Money Market Securities:</p> <p>i. Market Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations.</p> <p>Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other.</p> <p>ii. Credit Risk: Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than</p>
--	---

	<p>government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and operating strength of the issuer.</p> <p>iii. Rating Migration Risk: The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues.</p> <p>iv. Interest Rate Risk: The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives.</p> <p>v. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.</p> <p>vi. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme.</p> <p>VII. Risks associated with Investments in REITs and InvITs:</p> <p>The Investment Manager endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed by the Investment Manager. The Investment Manager also relies on its own research as well as third party research. This involves one-to-one meetings with the managements, attending conferences and analyst meets and also tele-conferences. The analysis will focus, amongst others, on the predictability and strength of cash flows, value of assets, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, etc.</p> <p>VIII. Risk associated with investments in repo of corporate debt securities</p> <p>The Investment Manager will endeavor to manage counterparty risk in corporate debt repos by dealing only with counterparties having strong credit profiles or through tri-party corporate repos done on the exchange platforms. The collateral risk is mitigated by restricting participation in repo transactions only in AA and above rated money market and corporate debt securities, where potential for downgrade/default is low. In addition, appropriate haircuts are applied on the market value of the underlying securities to adjust for the illiquidity and interest rate risk on the underlying instrument.</p> <p>IX. Risk Associated with overseas mutual funds / ETFs and Index securities:</p> <p>i. Liquidity Risk on account of investments in overseas funds: The investments are made in international funds, which provide daily liquidity.</p> <p>ii. Expense Risks associated with investments in overseas funds: The aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.</p> <p>iii. Portfolio Disclosure Risks associated with investments in overseas fund: Although full portfolio disclosure is not available at the end of each month, top ten holdings as well as sector holdings are made available at the end of each month for the overseas fund. Full portfolio holdings can be obtained from underlying Overseas funds generally with a three-month lag i.e. March portfolio can be obtained at the end of June</p> <p>iv. Investment Policy and/or fundamental attribute change risks associated with investments in overseas funds: Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However,</p>
--	--

	<p>there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.</p> <p>v. Monitoring overseas investment limits:</p> <p>The Investment Manager will keep monitoring the overseas investments limits. In case of an adverse event the Investment Manager may initiate appropriate action like investing across other areas as permitted by the scheme document or any other action to ensure that the investor interest is safeguarded.</p> <p>X. Risk management for risk associated with Depository Receipts</p> <p>Should there be investments in ADRs/GDRs of Indian companies or foreign securities, the investment process of the fund manager will ensure that a comprehensive company specific due diligence is performed.</p>

Notes to Table:

^In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may also charge the following to the Scheme of the Fund under Regulation 52 (6A):

- a. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions.

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

- b. Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:
 - i. 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
 - ii. 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investors".

The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.

Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

- c. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable

Expense Structure for Direct Plan -

	<p>Direct Plan will have lower expense ratio than Regular Plan of the Scheme. The expenses under Direct Plan shall exclude the distribution and commission expenses and additional expenses for gross new flows from specified cities under regulation 52(6A)(b). All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a Regular Plan.</p> <p>For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund (www.dspim.com) .</p> <p>Actual expenses for the previous financial year (2023-2024):</p> <table><tr><td>Direct Plan</td><td>Regular Plan</td></tr><tr><td>0.75%</td><td>1.52%</td></tr></table> <p>The maximum limit of recurring expenses that can be charged to the Scheme would be as per Regulation 52 of the SEBI (MF) Regulation, 1996. Note 1- Mutual Fund schemes (except Index Funds and ETFs) may write call options only under a covered call strategy for constituent stocks of NIFTY 50 and BSE SENSEX subject to the following:

- a. The total notional value (taking into account strike price as well as premium value) of call options written by a scheme shall not exceed 15% of the total market value of equity shares held in that scheme.
- b. The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.
- c. At all points of time the Mutual Fund scheme shall comply with the provisions at (a) and (b) above. In case of any passive breach of the requirement at (a), the respective scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the said scheme.
- d. In case a Mutual Fund scheme needs to sell securities on which a call option is written under a covered call strategy, it must ensure compliance with (a) and (b) above while selling the securities.
- e. In no case, a scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts.
- f. The premium received shall be within the requirements prescribed in terms of Clause 12.25.2 of SEBI Master Circular i.e. the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the scheme.
- g. The exposure on account of the call option written under the covered call strategy shall not be considered as exposure for the purpose of cumulative gross exposure.
- h. The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the respective scheme(s) until the position is closed or expired.

Note 2- All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

Note 3 -Pending deployment of the funds of the Scheme:

Pending deployment of the funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular. The AMC may invest funds of the Scheme in short term deposits of scheduled commercial banks, subject to following conditions:

1. "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
2. Such short-term deposits shall be held in the name of the Scheme.
3. The Scheme shall not invest more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, investing of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not invest more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not invested in the short term deposits of a bank which has invested in the Scheme.
6. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
7. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market. Such deposits shall be held in the name of the Scheme.

Indicative table is subset of primary asset allocation table mentioned above and both shall be read in conjunction.

Stock Lending:

In accordance with clause 12.11 of the SEBI Master Circular, the Mutual Fund may engage in stock lending. The AMC shall comply with all reporting requirements and the Trustee shall carry out periodic review as required by SEBI guidelines. Stock lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation. The securities lent will be returned by the borrower on expiry of the stipulated period. The Investment Manager will apply the following limits, should it desire to engage in Stock Lending:

- Not more than 20% of the net assets of a Scheme can generally be deployed in Stock Lending.
- Not more than 5% of the net assets of a Scheme can generally be deployed in Stock Lending to any single intermediary.

Cumulative gross exposure -

As per clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through Equity & equity related instruments, Debt, Money market instruments, units of REITs & InvITs, derivative positions and other permitted securities/assets and such other securities/assets as may be permitted by the Board/SEBI from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Rebalancing of deviation due to short term defensive consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations in accordance with clause 1.14.1.2 of the SEBI Master Circular. The intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.

It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

Portfolio rebalancing in case of passive breach:

	<p>As per clause 2.9 of the SEBI Master Circular and the clarifications/ guidelines issued by AMFI/ SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.</p> <p>In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Clause 2.9.3 and 2.9.4 of the SEBI Master Circular.</p>
Investment Strategy	<p>Investment Strategy for Equity Investments</p> <p>The investment objective of the Scheme is to generate long term capital appreciation by actively investing in equity and equity related securities of large cap, mid cap and small cap companies. The Scheme will maintain a minimum exposure of 25% of its total assets in each market cap category viz. Large cap, Mid cap & Small cap. The Scheme may also invest upto 25% of its total assets in debt and money market securities. The Scheme will remain diversified across key sectors and economic variables. Currently the large cap companies are the 1st-100th, mid cap companies are 101st - 250th and small cap companies are 251st company onwards in terms of full market capitalisation. The list of stocks would be as per the list published by AMFI in accordance with the said circular and updated on half yearly basis.</p> <p>The portfolio construction will be based on a “bottom up” approach as well as a “top down” approach.</p> <p>From a bottom up standpoint, the fund Manager will evaluate amongst other things</p> <ul style="list-style-type: none"> - The business environment that a company operates in - The opportunity for growth in its chosen areas - Capital efficiency - capability of the management to execute and scale up the business - capital allocation strategy and - valuation of the company based on fundamentals like discounted cash flows, PE ratios, EV/ Sales multiples and various other valuations tools. <p>From a top down standpoint, the fund manager will evaluate mega trends, changes, reforms expected to be witnessed in India and evaluate investment opportunities that could benefit from these trends over the long term.</p> <p>Portfolio Turnover</p> <p>Portfolio turnover is defined as the lower of the aggregate value of purchases or sales as a percentage of the corpus of a scheme during a specified period of time. This will exclude purchases and sales of money market securities. The Scheme is open ended, with subscriptions and redemptions expected on a daily basis, resulting in net inflow/outflow of funds, and on account of the various factors that affect portfolio turnover; it is difficult to give an estimate, with any reasonable amount of accuracy.</p> <p>Therefore, the Scheme has no specific target relating to portfolio turnover.</p> <p>Derivative Strategy</p> <p>The Scheme may use various techniques/strategies using derivative instruments for hedging as well as non-hedging purpose. Below is summary of some of the instruments / techniques which fund can employ. Please refer to Statement of Additional Information (SAI) for detailed description of derivative strategies.</p> <p><u>Equity Derivatives</u></p>

1) Index/ Stock spot - Index/ Stock Futures:

- The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio
- Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase

2) Index/ Stock options

The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase.

3) Stock Arbitrage

This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavour to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market.

4) Index Arbitrage:

- Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium.
- The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated

5) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment Manager is expecting a market correction, the Investment Manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment Manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels.

6) Reverse Arbitrage:

This strategy will be adopted if the cash price of a stock (say "XYZ") is reasonably greater than single stock futures of XYZ, and then the Investment Manager may sell cash position in XYZ and buy single stock futures of XYZ. In this case the Investment Manager will still be having a long-term view on the stock XYZ but is able to minimize the cost of holding of XYZ.

7) Covered Call

The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. This strategy is also employed when the Fund Manager has a short-term neutral view on the asset and for this reason holds the asset long and simultaneously takes a short position via covered call option strategy to generate income from the option premium.

For detailed derivative strategies, please refer to SAI.

Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any. ii. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low. iii. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme <p><i>Risks associated with favorable taxation of equity-oriented Scheme:</i></p> <p>Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.</p> <p><i>Risks associated with Stock Lending:</i></p> <p>The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p>

Risks associated with Equity Derivative investments:

The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.

Risks associated with Debt Securities and Money Market Securities:

- i. **Market Liquidity Risk:** The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations.

Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other.

- ii. **Credit Risk:** Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and operating strength of the issuer.
- iii. **Rating Migration Risk:** The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues.
- iv. **Interest Rate Risk:** The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives.
- v. **Re-investment Risk:** The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.
- vi. **Term Structure of Interest Rates (TSIR) Risk:** The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme.

Risks associated with Investments in REITs and InvITs:

The Investment Manager endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed by the Investment Manager. The Investment Manager also relies on its own research as well as third party research. This involves one-to-one meetings with the managements, attending conferences and analyst meets and also tele-conferences. The analysis will focus, amongst others, on the predictability and strength of cash flows, value of assets, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, etc.

	<p>Risk Associated with overseas mutual funds / ETFs and Index securities:</p> <p>i. Liquidity Risk on account of investments in overseas funds: The investments are made in international funds, which provide daily liquidity.</p> <p>ii. Expense Risks associated with investments in overseas funds: The aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.</p> <p>iii. Portfolio Disclosure Risks associated with investments in overseas fund: Although full portfolio disclosure is not available at the end of each month, top ten holdings as well as sector holdings are made available at the end of each month for the overseas fund. Full portfolio holdings can be obtained from underlying Overseas funds generally with a three-month lag i.e. March portfolio can be obtained at the end of June</p> <p>iv. Investment Policy and/or fundamental attribute change risks associated with investments in overseas funds: Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However, there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.</p> <p>v. Monitoring overseas investment limits:</p> <p>The Investment Manager will keep monitoring the overseas investments limits. In case of an adverse event the Investment Manager may initiate appropriate action like investing across other areas as permitted by the scheme document or any other action to ensure that the investor interest is safeguarded.</p> <p>Risk management for risk associated with Depository Receipts</p> <p>Should there be investments in ADRs/GDRs of Indian companies or foreign securities, the investment process of the fund manager will ensure that a comprehensive company specific due diligence is performed.</p>

Notes to Table 1:

^In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may also charge the following to the Scheme of the Fund under Regulation 52 (6A):

- a. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions.

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

- b. Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:
 - i. 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
 - ii. 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investors".

The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.

Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

- c. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable

GST on investment and advisory fees:

- a) AMC may charge GST on investment and advisory fees of the Scheme in addition to the maximum limit of TER as per the Regulation 52(6) and (6A).
- b) GST on expenses other than investment and advisory fees: AMC may charge GST on expenses other than investment and advisory fees of the Scheme, if any within the maximum limit of TER as per the Regulation under 52(6) and (6A).
- c) GST on brokerage & transaction cost: GST on brokerage and transaction costs which are incurred for the purpose of execution of trade, will be within the limit of expenses as per the Regulation 52(6) and (6A).

Others:

In accordance with Clause 10.1.12.(a) of the SEBI Master Circular, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall be paid from the scheme only within the regulatory limits and not from the books of the AMC, or by the trustee or sponsors.

Provided that the expenses that are very small in value but high in volume (as provided by AMFI in consultation with SEBI) may be paid out of AMC's books. Such expenses can be paid out of AMC's books at actuals or not exceeding 2 bps of the Scheme AUM, whichever is lower.

Further with regards to the cost of borrowings in terms of Regulation 44(2), the same shall be adjusted against the portfolio yield of the Scheme and borrowing costs in excess of portfolio yield, if any, shall be borne by the AMC.

Disclosure relating to changes in TER:

In accordance with Clause 10.1.8 of the SEBI Master Circular, the AMC shall prominently disclose TER on daily basis on the website www.dspim.com. Further, changes in the base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A)(b), 52(6A)(c) of SEBI (Mutual Funds) Regulations, 1996 and Goods and Services Tax on investment and advisory fees) in comparison to previous base TER charged to any scheme/plan shall be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change.

The notices of change in base TER shall be updated on the website at least three working days prior to effecting such change Provided that any decrease in TER in a mutual fund scheme due to various regulatory requirements, would not require issuance of any prior notice to the investors.

The prior intimation/notice shall not be required for any increase or decrease in base TER due to change in AUM and any decrease in base TER due to various regulatory requirements.

A. Illustrative example for estimating expenses for a scheme with corpus of 100 crores:

The AMC in good faith has estimated and summarized in the below table for each Scheme, the expenses on a corpus size of Rs. 100 crores. The actual total expenses may be more or less than as specified in the table below. The below expenses are subject to inter-se change and may increase/decrease as per actuals, and/or any change in the Regulations.

Table 2: The estimated total expenses as a % of daily net assets of the Scheme are as follows:

Indicative Expense Heads	% of daily net assets
Investment Management & Advisory Fee	Upto 2.25%
Audit fees/fees and expenses of trustees	
Custodial Fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost towards investor education & awareness (at least 0.02 percent)	
Brokerage & transaction cost pertaining to distribution of units	
GST on expenses other than investment and advisory fees	
GST on brokerage and transaction cost	
Brokerage & transaction cost over and above 0.12 percent and 0.05 percent for cash and derivative market trades, respectively.	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c)	Upto 2.25%
Additional expenses under regulation 52 (6A) (c)\$	Upto 0.05%
Additional expenses for gross new inflows from specified cities under regulation 52(6A)(b)	Up to 0.30%

*The Trusteeship fees as per the provisions of the Trust Deed are subject to a maximum of 0.02% of the average net Trust Funds per annum. It has been decided by the Trustee to charge the Trusteeship Fees in proportion to the net assets of each of the Scheme of the Mutual Fund. The Trustee reserves the right to change the method of allocation of Trusteeship fees for the Scheme, from time to time.

\$The nature of expenses can be any permissible expenses including management fees. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c) shall not be charged to the schemes where the exit load is not levied or applicable

The goods and service tax on Investment Management and Advisory fees will depend on the total amount charged as Investment Management and Advisory fees. Currently it is chargeable at 18% on Investment Management and Advisory Fees.

Expense Structure for Direct Plan -.

Direct Plan will have lower expense ratio than Regular Plan of the Scheme. The expenses under Direct Plan shall exclude the distribution and commission expenses and additional expenses for gross new flows from specified cities under regulation 52(6A)(b). All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a Regular Plan.

The above expense structures are indicative in nature. Actual expenses could be lower than mentioned above.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly.

For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund.

Note 2 -Investment in Short-Term Deposits-

Pending deployment of funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular. The AMC may invest funds of the Scheme in short-term deposits of scheduled commercial banks, subject to following conditions:

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.
3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.
6. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.
7. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Indicative table is subset of primary asset allocation table mentioned above and both shall be read in conjunction.

Cumulative gross exposure -

As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

	<p>Stock lending</p> <p>Subject to SEBI (MF) Regulations and the applicable guidelines issued by SEBI, the Mutual Fund may engage in stock lending. The AMC shall comply with all reporting requirements and the Trustee shall carry out periodic review as required by SEBI guidelines. Stock lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation. The securities lent will be returned by the borrower on expiry of the stipulated period.</p> <p>The Investment Manager will apply the following limits, should it desire to engage in Stock Lending:</p> <ol style="list-style-type: none"> 1. Not more than 20% of the net assets of a Scheme can generally be deployed in Stock Lending. 2. Not more than 5% of the net assets of a Scheme can generally be deployed in Stock Lending to any single intermediary. <p><u>Portfolio Rebalancing:</u></p> <p>a. <u>Action with respect to passive breaches:</u></p> <p>As per Clause 2.9 of the SEBI Master Circular and the clarifications/ guidelines issued by AMFI/ SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.</p> <p>In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9.3 and 2.9.4 of SEBI Master Circular.</p> <p>b. <u>Action with respect to breaches arising due to defensive consideration:</u></p> <p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.</p>
Investment Strategy	<p>Strategy for Equity Securities</p> <p>The Investment Manager will select equity securities on a bottom-up, stock-by-stock basis, with consideration given to low price-to-earnings, price to-book, and price-to-sales ratios, as well as improving margins, asset turns, and cash flows, amongst others.</p> <p>The Investment Manager will use a disciplined quantitative analysis of financial operating statistics. In picking out individual investment opportunities for the portfolio, among the defined universe eligible for investment, the Investment Manager will seek both value and growth. Value is discerned when the Investment Manager believes that the long term growth potential of a company is not fully reflected in the market price of the company's securities and which potential it seeks to better every year capitalising on its various strengths, which could mean strong brand equity, growing market share, strong management and technological excellence, among others. Growth stocks, as the term suggests, are those stocks that are currently in the growth phase. The super-normal growth could be due to a new product, a new process, growing market share, stronger</p>

	<p>brand equity, technological breakthrough and unique or predominant position in a market, among other factors.</p> <p>The Investment Manager will conduct in-house research in order to identify various investment opportunities. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance.</p> <p>Under normal market conditions, at least 80% of the portfolio of the Scheme will be invested in equity and equity related securities. The remaining portion of the portfolio of the Scheme will be invested in debt securities and money market securities. This component of the portfolio will provide the necessary liquidity to meet redemption needs and other liquidity requirements of the Scheme. Debt securities include, but are not limited to, non-convertible debentures, zero coupon securities, non-convertible portion of convertible debentures, floating rate bonds, debt instruments, and any other such instruments as may be permitted by RBI/SEBI/ such other Regulatory Authority from time to time.</p> <p>Strategy for Fixed Income Securities</p> <p>The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, FITCH etc. or in unrated debt securities which the Investment Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment.</p> <p>Portfolio Turnover</p> <p>Portfolio turnover is defined as the lower of the aggregate value of purchases or sales, as a percentage of the average corpus of the Scheme during a specified period of time. This will exclude purchases and sales of money market securities.</p> <p>The portfolio turnover in the Scheme will be a function of the inflows in the form of subscriptions into the Scheme and outflows in the form of redemptions from the Scheme, as well as the market opportunities available to the Investment Manager. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio(s). It will be the endeavor of the Investment Manager to keep portfolio turnover rates as low as possible. However, there are trading opportunities that present themselves from time to time, where in the opinion of the Investment Manager, there is an opportunity to enhance the total returns of the portfolio. The Investment Manager will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived therefrom. Although the exchange-traded equity derivatives contracts in India are available upto 3 months, the liquidity is predominantly in the one month contracts (near month contracts).</p>
Risk Profile of the scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>Scheme specific risk factors are summarized below:</p> <p>Risks associated with transacting in scheme units through stock exchange mechanism, efficient portfolio management, favorable taxation of certain scheme in India, Taxation of overseas investments, Equity and Equity-related securities / investments, Securities Lending & Borrowing and Short Selling, , Debt Securities and Money Market Securities, debt instruments having structured obligations /credit enhancements, unrated securities, special feature bonds, Tri-Party Repo, Perpetual Debt Instrument (PDI),</p>

	<p>Securitized Assets, , Overseas Securities, overseas mutual funds / ETFs / Index Funds, mid-cap and small-cap companies, Depository Receipts.</p> <p>For detailed risk factors, refer SID.</p> <p>RISK MITIGATION STRATEGIES:</p> <p>Risks associated with Equity investments:</p> <ol style="list-style-type: none"> i. Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any. ii. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low. iii. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme <p>Risks associated with favorable taxation of equity-oriented Scheme: Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.</p> <p>Risks associated with Stock Lending: The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p> <p>Risks associated with Debt Securities and Money Market Securities:</p> <ol style="list-style-type: none"> i. Market Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. <p>Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like</p>
--	---

	<p>10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other.</p>
	<p>ii. Credit Risk: Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and operating strength of the issuer.</p>
	<p>iii. Rating Migration Risk: The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues.</p>
	<p>iv. Interest Rate Risk: The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives.</p>
	<p>v. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.</p>
	<p>vi. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme.</p>
	<p>Risk Associated with overseas mutual funds / ETFs and Index securities:</p>
	<p>i. Liquidity Risk on account of investments in overseas funds: The investments are made in international funds, which provide daily liquidity.</p>
	<p>ii. Expense Risks associated with investments in overseas funds: The aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.</p>
	<p>iii. Portfolio Disclosure Risks associated with investments in overseas fund: Although full portfolio disclosure is not available at the end of each month, top ten holdings as well as sector holdings are made available at the end of each month for the overseas fund. Full portfolio holdings can be obtained from underlying Overseas funds generally with a three-month lag i.e. March portfolio can be obtained at the end of June</p>
	<p>iv. Investment Policy and/or fundamental attribute change risks associated with investments in overseas funds: Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However, there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.</p>
	<p>v. Monitoring overseas investment limits:</p> <p>The Investment Manager will keep monitoring the overseas investments limits. In case of an adverse event the Investment Manager may initiate appropriate</p>

	<p>action like investing across other areas as permitted by the scheme document or any other action to ensure that the investor interest is safeguarded.</p> <p>Risk management for risk associated with Depository Receipts</p> <p>Should there be investments in ADRs/GDRs of Indian companies or foreign securities, the investment process of the fund manager will ensure that a comprehensive company specific due diligence is performed.</p>

scheme/plan shall be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change.

The notices of change in base TER shall be updated on the website at least three working days prior to effecting such change Provided that any decrease in TER in a mutual fund scheme due to various regulatory requirements, would not require issuance of any prior notice to the investors.

The prior intimation/notice shall not be required for any increase or decrease in base TER due to change in AUM and any decrease in base TER due to various regulatory requirements.

A. Illustrative example for estimating expenses for a scheme with corpus of 100 crores:

The AMC in good faith has estimated and summarized in the below table for each Scheme, the expenses on a corpus size of Rs. 100 crores. The actual total expenses may be more or less than as specified in the table below. The below expenses are subject to inter-se change and may increase/decrease as per actuals, and/or any change in the Regulations.

Table 2: The estimated total expenses as a % of daily net assets of the Scheme are as follows:

Expense Heads	% of daily net assets
Investment Management and Advisory Fee	Upto 2.25%
Audit fees /Fees and expenses of trustees*	
Custodial fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling expense including agent commission and Statutory advertisement

*The Trusteeship fees as per the provisions of the Trust Deed are subject to a maximum of 0.02% of the average net Trust Funds per annum. It has been decided by the Trustee to charge the Trusteeship Fees in proportion to the net assets of each of the Scheme of the Mutual Fund. The Trustee reserves the right to change the method of allocation of Trusteeship fees for the Scheme, from time to time.

	<p>\$The nature of expenses can be any permissible expenses including management fees. Further, as per Para 10.1.7 of SEBI Master Circular, schemes wherein exit load is not levied, the scheme shall not be eligible to charge the above-mentioned additional expenses.</p> <p>The goods and service tax on Investment Management and Advisory fees will depend on the total amount charged as Investment Management and Advisory fees. Currently it is chargeable at 18% on Investment Management and Advisory Fees.</p> <p>Expense Structure for Direct Plan - .</p> <p>Direct Plan will have lower expense ratio than Regular Plan of the Scheme. The expenses under Direct Plan shall exclude the distribution and commission expenses and additional expenses for gross new flows from specified cities under regulation 52(6A)(b). All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a Regular Plan.</p> <p>The above expense structures are indicative in nature. Actual expenses could be lower than mentioned above.</p> <p>The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly.</p> <p>For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund.</p> <p>II. Note 2 -Investment in Short-Term Deposits-

Pending deployment of funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular. The AMC may invest funds of the Scheme in short-term deposits of scheduled commercial banks, subject to following conditions:

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.
3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.
6. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.
7. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Indicative table is subset of primary asset allocation table mentioned above and both shall be read in conjunction.

Cumulative gross exposure -

As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt, derivative positions, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Stock lending

Subject to SEBI (MF) Regulations and the applicable guidelines issued by SEBI, the Mutual Fund may engage in stock lending. The AMC shall comply with all reporting requirements and the Trustee shall carry out periodic review as required by SEBI guidelines. Stock lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation. The securities lent will be returned by the borrower on expiry of the stipulated period.

The Investment Manager will apply the following limits, should it desire to engage in Stock Lending:

1. Not more than 20% of the net assets of a Scheme can generally be deployed in Stock Lending.
2. Not more than 5% of the net assets of a Scheme can generally be deployed in Stock Lending to any single intermediary.

Rebalancing of deviation due to short term defensive consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.

It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

Portfolio Rebalancing:

a. Action with respect to passive breaches:

As per Clause 2.9 of the SEBI Master Circular and the clarifications/ guidelines issued by AMFI/ SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.

In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9.3 and 2.9.4 of SEBI Master Circular.

b. Action with respect to breaches arising due to defensive consideration:

	<p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p> <p>The classification of stocks based on market capitalisation shall be as per the list prepared by AMFI which would be updated every six months based on the data as on the end of June and December of each year. Subsequent to any updation in the list, the Scheme shall rebalance its portfolio (if required), in line with updated list, within a period of one month.</p>
Investment Strategy	<p>Strategy for Equity Securities</p> <p>The investment direction will be in line with the Investment Manager's views on the macro economy with a particular focus on the micro impact of economic reforms, restructuring and mergers & acquisition activity. The aim of this Scheme is to strongly outperform plain vanilla equity funds which are far more diversified in their portfolio weightage, to minimise risk. It is the Investment Manager's belief that though such concentrated investments could be subject to considerable risks, they present attractive long term investment opportunity.</p> <p>The Investment Manager prefers adopting a top-down approach with regard to investment in equity and equity related securities. This approach encompasses an evaluation of key economic trends and a diligent study of various investment opportunities within the specified sectors in each Scheme. In picking out individual investment opportunities for the portfolio, the Investment Manager will seek both value and growth. Value is discerned when the Investment Manager believes that the inherent worth or long-term growth potential of a company is not fully reflected in the share price of the company. Growth stocks, as the term suggests, are those stocks that are currently in the growth phase. Such growth in earnings could be due to a new product, a new process, growing market share, stronger brand equity, technological breakthrough and unique or predominant position in a market, among other factors.</p> <p>The Investment Manager will conduct in-house research in order to identify value and growth stocks. The analysis will focus, among other things, on the historical and current financial condition of the company, capital structure, business prospects, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research and technological know-how and transparency in corporate governance. The quality or strength of management would be a key focus area.</p> <p>Strategy for Fixed Income Securities</p> <p>The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, etc. or in unrated debt securities which the Investment Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment.</p> <p>Fixed Income research by the Investment Manager will emphasise credit analysis, in order to determine credit risk. Credit analysis will focus on the issuer's historical and current financial condition, current and anticipated cash flow and borrowing requirements, value of assets in relation to historical cost, strength of management, responsiveness to business conditions, credit standing, future business prospects as well as current and anticipated operating results, among other things. The Investment Manager will also analyse various economic trends in seeking to determine the likely future course of interest rates.</p> <p><u>Derivative Strategies</u></p>

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

The Scheme may use various techniques/strategies using derivative instruments for hedging as well as non-hedging purpose. Below is summary of some of the techniques which fund can employ.

Equity Derivatives

1) Index/ Stock spot - Index/ Stock Futures:

- The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio
- Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase.

2) Index/ Stock options

- The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase.

3) Stock Arbitrage

- This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavor to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market.

4) Index Arbitrage:

- Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium.
- The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated

5) Corporate Action / Event Driven Strategies:

I. IDCW Arbitrage

- At the time of declaration of IDCW, the stock futures / options market can provide a profitable opportunity. Generally, the stock prices decline by the IDCW amount when the stock becomes ex-IDCW.

II. Buy-Back/ Open Offer Arbitrage

- When the Company announces the buy-back or open offer of its own shares, there could be opportunities due to price differential in buyback price and traded price.

III. Merger

- When the Company announces any merger, amalgamation, hive off, de-merger, etc, there could be opportunities due to price differential in the cash and the derivative market.

6) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment manager is expecting a market correction, the Investment manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels

7) Reverse Arbitrage:

- This strategy will be adopted if the cash price of a stock (say “XYZ”) is reasonably greater than single stock futures of XYZ, and then the Investment Manager may sell cash position in XYZ and buy single stock futures of XYZ. In this case the Investment Manager will still be having a long-term view on the stock XYZ but is able to minimize the cost of holding of XYZ.

Fixed Income Derivatives

1) Interest Rates Swap

- The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure

2) Interest Rate Futures (IRF)

- IRFs can be used for hedging interest rate exposure.

3) Forward Rate Agreement (FRA)

- An FRA is an off balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount.
- FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA.

Portfolio Turnover

Portfolio turnover is defined as the lower of the aggregate value of purchases or sales, as a percentage of the average corpus of the Scheme during a specified period of time. This will exclude purchases and sales of money market securities.

The portfolio turnover in the Scheme will be a function of the inflows in the form of subscriptions into the Scheme and outflows in the form of redemptions from the Scheme, as well as the market opportunities available to the Investment Manager. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio(s). It will be the endeavor of the Investment Manager to keep portfolio turnover rates as low as possible. However, there are trading opportunities that present themselves from time to time, where in the opinion of the Investment Manager, there is an opportunity to enhance the total returns of the portfolio. The Investment Manager will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived therefrom. Although the exchange-traded equity derivatives contracts in India are available upto 3 months, the liquidity is predominantly in the one month contracts (near month contracts).

Risk Profile of the scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>Scheme specific risk factors are summarized below:</p> <p>Risks associated with transacting in scheme units through stock exchange mechanism, efficient portfolio management, favorable taxation of certain scheme in India, Taxation of overseas investments, Equity and Equity-related securities / investments, Securities Lending & Borrowing and Short Selling, Equity Derivatives, REITs & InvITs, Debt Securities and Money Market Securities, debt instruments having structured obligations /credit enhancements, unrated securities, special feature bonds, Tri-Party Repo, Perpetual Debt Instrument (PDI), Securitized Assets, fixed income Derivatives, imperfect hedging using interest rate futures, Overseas Securities, overseas mutual funds / ETFs / Index Funds, mid-cap and small-cap companies, Depository Receipts.</p> <p>For detailed risk factors, refer SID.</p> <p>Risk Mitigation Strategies:</p> <p>Risks associated with Equity investments:</p> <ol style="list-style-type: none"> i. Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity . Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any. ii. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low. iii. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme <p>Risks associated with favorable taxation of equity-oriented Scheme: Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.</p> <p>Risks associated with Stock Lending: The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p>
-----------------------------------	--

	<p>Risks associated with Equity Derivative investments: The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.</p> <p>Risks associated with fixed income Derivative investments: Investment managers will ensure adherence to the limits and the guidelines as issued by SEBI / RBI from time to time for forward rate agreements and interest rate swaps and other fixed income derivative products.</p> <p>Risks associated with Debt Securities and Money Market Securities:</p> <ol style="list-style-type: none"> i. Market Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other. ii. Credit Risk: Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and operating strength of the issuer. iii. Rating Migration Risk: The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues. iv. Interest Rate Risk: The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives. v. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested. vi. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme. <p>Risks associated with Investments in REITs and InvITs: The Investment Manager endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed by the Investment Manager. The Investment Manager also relies on its own research as well as third party research. This involves one-to-one meetings</p>

with the managements, attending conferences and analyst meets and also tele-conferences. The analysis will focus, amongst others, on the predictability and strength of cash flows, value of assets, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, etc.

Risk Associated with overseas mutual funds / ETFs and Index securities:

- i. **Liquidity Risk on account of investments in overseas funds:** The investments are made in international funds, which provide daily liquidity.
- ii. **Expense Risks associated with investments in overseas funds:** The aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.
- iii. **Portfolio Disclosure Risks associated with investments in overseas fund:** Although full portfolio disclosure is not available at the end of each month, top ten holdings as well as sector holdings are made available at the end of each month for the overseas fund. Full portfolio holdings can be obtained from underlying Overseas funds generally with a three-month lag i.e. March portfolio can be obtained at the end of June
- iv. **Investment Policy and/or fundamental attribute change risks associated with investments in overseas funds:** Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However, there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.

v. Monitoring overseas investment limits:

The Investment Manager will keep monitoring the overseas investments limits. In case of an adverse event the Investment Manager may initiate appropriate action like investing across other areas as permitted by the scheme document or any other action to ensure that the investor interest is safeguarded.

Risk management for risk associated with Depository Receipts

Should there be investments in ADRs/GDRs of Indian companies or foreign securities, the investment process of the fund manager will ensure that a comprehensive company specific due diligence is performed.

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

- b. Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:
- i. 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
 - ii. 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investors".

The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.

Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

- c. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable

GST on investment and advisory fees:

- a) AMC may charge GST on investment and advisory fees of the Scheme in addition to the maximum limit of TER as per the Regulation 52(6) and (6A).
- b) GST on expenses other than investment and advisory fees: AMC may charge GST on expenses other than investment and advisory fees of the Scheme, if any within the maximum limit of TER as per the Regulation under 52(6) and (6A).
- c) GST on brokerage & transaction cost: GST on brokerage and transaction costs which are incurred for the purpose of execution of trade, will be within the limit of expenses as per the Regulation 52(6) and (6A).

Others:

In accordance with clause 10.1.12.(a) of the SEBI Master Circular, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall be paid from the scheme only within the regulatory limits and not from the books of the AMC, or by the trustee or sponsors.

Provided that the expenses that are very small in value but high in volume (as provided by AMFI in consultation with SEBI) may be paid out of AMC's books. Such expenses can be paid out of AMC's books at actuals or not exceeding 2 bps of the Scheme AUM, whichever is lower.

Further with regards to the cost of borrowings in terms of Regulation 44(2), the same shall be adjusted against the portfolio yield of the Scheme and borrowing costs in excess of portfolio yield, if any, shall be borne by the AMC.

Disclosure relating to changes in TER:

In accordance with clause 10.1.8 of the SEBI Master Circular, the AMC shall prominently disclose TER on daily basis on the website www.dspim.com. Further, changes in the base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A)(b), 52(6A)(c) of SEBI (Mutual Funds) Regulations, 1996 and Goods and Services Tax on investment and advisory fees) in comparison to previous base TER charged to any scheme/plan shall be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change.

The notices of change in base TER shall be updated on the website at least three working days prior to effecting such change Provided that any decrease in TER in a mutual fund scheme due to various regulatory requirements, would not require issuance of any prior notice to the investors.

The prior intimation/notice shall not be required for any increase or decrease in base TER due to change in AUM and any decrease in base TER due to various regulatory requirements.

A. Illustrative example for estimating expenses for a scheme with corpus of 100 crores:

Note 2 -Investment in Short-Term Deposits-

Pending deployment of funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular. The AMC may invest funds of the Scheme in short-term deposits of scheduled commercial banks, subject to following conditions:

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.
3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.
6. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.
7. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Cumulative gross exposure -

As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt, derivative positions, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. Stock lending-

	<p>Subject to SEBI (MF) Regulations and the applicable guidelines issued by SEBI, the Mutual Fund may engage in stock lending. The AMC shall comply with all reporting requirements and the Trustee shall carry out periodic review as required by SEBI guidelines. Stock lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation. The securities lent will be returned by the borrower on expiry of the stipulated period.</p> <p>The Investment Manager will apply the following limits, should it desire to engage in Stock Lending:</p> <ol style="list-style-type: none"> 1. Not more than 20% of the net assets of a Scheme can generally be deployed in Stock Lending. 2. Not more than 5% of the net assets of a Scheme can generally be deployed in Stock Lending to any single intermediary. <p><u>Portfolio Rebalancing:</u></p> <p>a. <u>Action with respect to passive breaches:</u></p> <p>As per Clause 2.9 of the SEBI Master Circular and the clarifications/ guidelines issued by AMFI/ SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.</p> <p>In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9.3 and 2.9.4 of SEBI Master Circular.</p> <p>b. <u>Action with respect to breaches arising due to defensive consideration:</u></p> <p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p>
Investment Strategy	<p>Strategy for Equity Securities</p> <p>The Investment Manager will be adopting a top down approach, which will encompass an evaluation of key economic trends, the analysis of various sectors in the economy leading to an outlook on their future prospects and a diligent study of various investment opportunities within the favoured sectors. In picking out individual investment opportunities for the portfolio, the Investment Manager will seek both value and growth. Value is discerned when the Investment Manager believes that the long-term growth potential of a company is not fully reflected in the market price of the company's securities and which potential it seeks to better every year capitalising on its various strengths, which could mean strong brand equity, high market share, strong management and technological excellence among others. Such companies are core holdings in any equity portfolio since they seldom fail to deliver good returns over the long term. Growth stocks, as the term suggests, are those stocks that are currently in the growth phase. The super-normal growth could be due to a new product, a new</p>

	<p>process, growing market share, stronger brand equity, technological breakthrough and unique or predominant position in a market, among other factors.</p> <p>The Investment Manager will conduct in-house research in order to identify value and growth stocks. The analysis will focus, among others, on the historical and current financial condition of the company, capital structure, business prospects, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research and technological know-how and transparency in corporate governance. The quality or strength of management would be a key focus area.</p> <p>Strategy for Fixed Income Securities</p> <p>The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE etc. or in unrated debt securities which the Investment Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment.</p> <p>Derivative Strategies</p> <p>Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.</p> <p>The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.</p> <p>The Mutual Fund may use the following strategies while trading in derivatives for the purpose of efficient portfolio management:</p> <p>Equity Derivatives</p> <p>1) Index/ Stock spot - Index/ Stock Futures:</p> <ul style="list-style-type: none"> • The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio • Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase <p>2) Index/ Stock options</p> <ul style="list-style-type: none"> • The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase. <p>3) Stock Arbitrage</p> <ul style="list-style-type: none"> • This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavour to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market. <p>4) Index Arbitrage:</p>
--	---

	<ul style="list-style-type: none"> • Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium. • The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated. <p>5) Reverse Arbitrage: This strategy will be adopted if the cash price of a stock (say “XYZ”) is reasonably greater than single stock futures of XYZ, and then the Investment Manager may sell cash position in XYZ and buy single stock futures of XYZ. In this case the Investment Manager will still be having a long-term view on the stock XYZ but is able to minimize the cost of holding of XYZ.</p> <p>6) Portfolio Hedging: This strategy will be adopted:</p> <ul style="list-style-type: none"> • If in an already invested portfolio of a Scheme, the Investment Manager is expecting a market correction, the Investment Manager may sell Index Futures to insulate the portfolio from the market related risks. • If there are significant inflows to the Scheme and the market expectations are bullish, the Investment Manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels. <p><u>Fixed Income Derivatives</u></p> <p>1) Interest Rates Swap</p> <ul style="list-style-type: none"> • The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure <p>2) Interest Rate Futures (IRF)</p> <ul style="list-style-type: none"> • IRFs can be used for hedging the underlying cash positions. <p>3) Forward Rate Agreement (FRA)</p> <ul style="list-style-type: none"> • An FRA is an off-balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount. • FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA. <p>For detailed derivative strategies, please refer to SAI.</p>
Risk Profile of the scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>Scheme specific risk factors are summarized below:</p> <p>Risks associated with transacting in scheme units through stock exchange mechanism, efficient portfolio management, favorable taxation of certain scheme in India, Taxation of overseas investments, Equity and Equity-related securities / investments, Securities Lending & Borrowing and Short Selling, Equity Derivatives, Debt Securities and Money Market Securities, debt instruments having structured obligations /credit enhancements, unrated securities, special feature bonds, Tri-Party Repo, Perpetual Debt Instrument (PDI), segregated portfolio, Securitized Assets, fixed income Derivatives, mid-cap and small-cap companies, Depository Receipts.</p>

	<p>For details on risk factors and risk mitigation measures, please refer SID.</p> <p>RISK MITIGATION STRATEGIES:</p> <p>Risks associated with Equity investments:</p> <ul style="list-style-type: none"> i. Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any. ii. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low. iii. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme <p>Risks associated with favorable taxation of equity-oriented Scheme: Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.</p> <p>Risks associated with Stock Lending: The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p> <p>Risks associated with Equity Derivative investments: The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.</p> <p>Risks associated with fixed income Derivative investments: Investment managers will ensure adherence to the limits and the guidelines as issued by SEBI / RBI from time to time for forward rate agreements and interest rate swaps and other fixed income derivative products.</p> <p>Risks associated with Debt Securities and Money Market Securities:</p> <ul style="list-style-type: none"> i. Market Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. 	<p>managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations.</p> <p>Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other.</p> <p>ii. Credit Risk: Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and operating strength of the issuer.</p> <p>iii. Rating Migration Risk: The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues.</p> <p>iv. Interest Rate Risk: The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives.</p> <p>v. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.</p> <p>vi. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme.</p> <p>Risk management for risk associated with Depository Receipts</p> <p>Should there be investments in ADRs/GDRs of Indian companies or foreign securities, the investment process of the fund manager will ensure that a comprehensive company specific due diligence is performed.</p>

^In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may also charge the following to the Scheme of the Fund under Regulation 52 (6A):

- a. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions .

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

- b. Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:
 - i. 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
 - ii. 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investors".

The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.

Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

- c. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable

GST on investment and advisory fees:

- a) AMC may charge GST on investment and advisory fees of the Scheme in addition to the maximum limit of TER as per the Regulation 52(6) and (6A).
- b) GST on expenses other than investment and advisory fees: AMC may charge GST on expenses other than investment and advisory fees of the Scheme, if any within the maximum limit of TER as per the Regulation under 52(6) and (6A).

- c) GST on brokerage & transaction cost: GST on brokerage and transaction costs which are incurred for the purpose of execution of trade, will be within the limit of expenses as per the Regulation 52(6) and (6A).

Others:

In accordance with clause 10.1.12.(a) of the SEBI Master Circular, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall be paid from the scheme only within the regulatory limits and not from the books of the AMC, or by the trustee or sponsors.

Provided that the expenses that are very small in value but high in volume (as provided by AMFI in consultation with SEBI) may be paid out of AMC's books. Such expenses can be paid out of AMC's books at actuals or not exceeding 2 bps of the Scheme AUM, whichever is lower.

Further with regards to the cost of borrowings in terms of Regulation 44(2), the same shall be adjusted against the portfolio yield of the Scheme and borrowing costs in excess of portfolio yield, if any, shall be borne by the AMC.

Disclosure relating to changes in TER:

In accordance with clause 10.1.8 of the SEBI Master Circular, the AMC shall prominently disclose TER on daily basis on the website www.dspim.com. Further, changes in the base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A)(b), 52(6A)(c) of SEBI (Mutual Funds) Regulations, 1996 and Goods and Services Tax on investment and advisory fees) in comparison to previous base TER charged to any scheme/plan shall be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change.

The notices of change in base TER shall be updated on the website at least three working days prior to effecting such change. Provided that any decrease in TER in a mutual fund scheme due to various regulatory requirements, would not require issuance of any prior notice to the investors.

The prior intimation/notice shall not be required for any increase or decrease in base TER due to change in AUM and any decrease in base TER due to various regulatory requirements.

A. Illustrative example for estimating expenses for a scheme with corpus of 100 crores:

The AMC in good faith has estimated and summarized in the below table for each Scheme, the expenses on a corpus size of Rs. 100 crores. The actual total expenses may be more or less than as specified in the table below. The below expenses are subject to inter-se change and may increase/decrease as per actuals, and/or any change in the Regulations.

Table 2: The estimated total expenses as a % of daily net assets of the Scheme are as follows:

Expense Heads	% of daily net assets
Investment Management and Advisory Fee	Upto 2.25%
Audit fees /Fees and expenses of trustees*	
Custodial fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling expense including agent commission and Statutory advertisement	

Cost related to investor communications	
Cost of fund transfer from location to location	
Cost towards investor education & awareness (at least 0.02 percent)	
Brokerage & transaction cost pertaining to distribution of units	
Goods & Services Tax on expenses other than investment and advisory fees	
Goods & Services Tax on brokerage and transaction cost	
Brokerage & transaction cost over and above 0.12 percent and 0.05 percent for cash and derivative market trades, respectively.	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c)	Upto 2.25%
Additional expenses under regulation 52 (6A) (c) \$	Upto 0.05%
Additional expenses for gross new inflows from specified cities under regulation 52(6A)(b)	Up to 0.30%

*The Trusteeship fees as per the provisions of the Trust Deed are subject to a maximum of 0.02% of the average net Trust Funds per annum. It has been decided by the Trustee to charge the Trusteeship Fees in proportion to the net assets of each of the Scheme of the Mutual Fund. The Trustee reserves the right to change the method of allocation of Trusteeship fees for the Scheme, from time to time.

\$The nature of expenses can be any permissible expenses including management fees. Further, as per Para 10.1.7 of SEBI Master Circular, schemes wherein exit load is not levied, the scheme shall not be eligible to charge the above-mentioned additional expenses.

The goods and service tax on Investment Management and Advisory fees will depend on the total amount charged as Investment Management and Advisory fees. Currently it is chargeable at 18% on Investment Management and Advisory Fees.

Expense Structure for Direct Plan - .

Direct Plan will have lower expense ratio than Regular Plan of the Scheme. The expenses under Direct Plan shall exclude the distribution and commission expenses and additional expenses for gross new flows from specified cities under regulation 52(6A)(b). All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a Regular Plan.

The above expense structures are indicative in nature. Actual expenses could be lower than mentioned above.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly.

For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund.

Note 2 -Investment in Short-Term Deposits-

Pending deployment of funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular. The AMC may invest funds of the Scheme in short-term deposits of scheduled commercial banks, subject to the following conditions:

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.
3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.
6. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
7. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Indicative table is subset of primary asset allocation table mentioned above and both shall be read in conjunction.

Cumulative gross exposure -

As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt, derivative positions, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/

	<p>31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.</p> <p><u>Stock lending -</u> Subject to SEBI (MF) Regulations and the applicable guidelines issued by SEBI, the Mutual Fund may engage in stock lending. The AMC shall comply with all reporting requirements and the Trustee shall carry out periodic review as required by SEBI guidelines. Stock lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation. The securities lent will be returned by the borrower on expiry of the stipulated period.</p> <p>The Investment Manager will apply the following limits, should it desire to engage in Stock Lending:</p> <ol style="list-style-type: none"> 1. Not more than 20% of the net assets of a Scheme can generally be deployed in Stock Lending. 2. Not more than 5% of the net assets of a Scheme can generally be deployed in Stock Lending to any single intermediary. <p><u>Portfolio Rebalancing:</u></p> <p>a. <u>Action with respect to passive breaches:</u></p> <p>As per Clause 2.9 of the SEBI Master Circular and the clarifications/ guidelines issued by AMFI/ SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.</p> <p>In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9.3 and 2.9.4 of SEBI Master Circular.</p> <p>b. <u>Action with respect to breaches arising due to defensive consideration:</u></p> <p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p>
Investment Strategy	<p>Strategy for Equity Securities</p> <p>The Scheme will have a “non-diversified” portfolio and will invest primarily in the common stocks of companies that are selected for their growth potential and which are valued at a reasonable price. The Fund Manager will use a combination of top-down and bottom-up analysis to identify sector and stock weightages in the portfolio. Top down analysis involves an analysis of the macro-environment in order to understand the business cycle that various sectors are exposed to. It also involves understanding sector trends such as scale of opportunity, pricing power, volume changes, government policy, international trends etc. Bottom-up analysis involves an analysis of company specific factors such as size, competitive position, scalability, management quality, operational efficiency, financial parameters, valuation, etc. The Fund</p>

Manager will also consider the prevailing stock market conditions in the overall portfolio construction process.

Strategy for Debt and Money Market Securities

The Fund Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, FITCH etc. or in unrated debt securities which the Fund Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment. The securities mentioned above could be listed, unlisted, privately placed, secured, unsecured, rated or unrated (subject to the rating or equivalency requirements discussed above) and of any maturity. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placements, rights offers or through negotiated deals.

At the discretion of the Fund Manager, the Scheme may also make investments in ADR/GDR and Foreign Securities in accordance with and upto the limits specified by RBI and SEBI from time to time, subject to all approvals vide clause 12.19 of the SEBI Master Circular and all applicable regulations/guidelines/directives/notifications, as may be stipulated by SEBI from time to time.

Derivatives Strategies

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

The Mutual Fund may use the following strategies while trading in derivatives for the purpose of efficient portfolio management:

Equity Derivatives

1) Index/ Stock spot - Index/ Stock Futures:

- The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio
- Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase

2) Index/ Stock options

- The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase.

3) Stock Arbitrage

- This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavour to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market.

4) Index Arbitrage:

- Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium.

- The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated

5) Reverse Arbitrage:

- This strategy will be adopted if the cash price of a stock (say “XYZ”) is reasonably greater than single stock futures of XYZ, and then the Investment Manager may sell cash position in XYZ and buy single stock futures of XYZ. In this case the Investment Manager will still be having a long-term view on the stock XYZ but is able to minimize the cost of holding of XYZ.

6) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment Manager is expecting a market correction, the Investment Manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment Manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels.

Fixed Income Derivatives

1) Interest Rates Swap

- The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure

2) Interest Rate Futures (IRF)

- IRFs can be used for hedging the underlying cash positions.

3) Forward Rate Agreement (FRA)

- An FRA is an off-balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount.
- FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA.

For detailed derivative strategies, please refer to SAI.

Portfolio Turnover

Portfolio turnover is defined as the lower of the aggregate value of purchases or sales, as a percentage of the average corpus of the Scheme during a specified period of time. This will exclude purchases and sales of money market securities.

The portfolio turnover in the Scheme will be a function of the inflows in the form of subscriptions into the Scheme and outflows in the form of redemptions from the Scheme, as well as the market opportunities available to the Investment Manager. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio(s). It will be the endeavor of the Investment Manager to keep portfolio turnover rates as low as possible. However, there are trading opportunities that present themselves from time to time, where in the opinion of the Investment Manager, there is an opportunity to enhance the total returns of the portfolio. The Investment Manager will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived therefrom. Although the exchange-traded equity derivatives contracts in India are available upto 3 months, the liquidity is predominantly in the one month contracts (near month contracts). The portfolio turnover of the Scheme is expected to be high as the Scheme will be making investments using equity derivatives, which would require frequent transactions (including rollovers) on account of the tenor of contracts. There is however no specific target relating to portfolio turnover.

Risk Profile of the scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>Scheme specific risk factors are summarized below:</p> <p>Risks associated with transacting in scheme units through stock exchange mechanism, efficient portfolio management, favorable taxation of certain scheme in India, Taxation of overseas investments, Equity and Equity-related securities / investments, Securities Lending & Borrowing and Short Selling, Equity Derivatives, REITs & InvITs, Debt Securities and Money Market Securities, debt instruments having structured obligations /credit enhancements, unrated securities, special feature bonds, Tri-Party Repo, Perpetual Debt Instrument (PDI), Securitized Assets, fixed income Derivatives, imperfect hedging using interest rate futures, Overseas Securities, overseas mutual funds / ETFs / Index Funds, mid-cap and small-cap companies, investing in underlying ETFs, Depository Receipts, Security Concentration Risk.</p> <p><u>RISK MITIGATION STRATEGIES</u></p> <p>Risks associated with Equity investments:</p> <ol style="list-style-type: none"> Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme <p>Risks associated with favorable taxation of equity-oriented Scheme: Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.</p> <p>Risks associated with Stock Lending: The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p> <p>Risks associated with Equity Derivative investments: The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.</p>
-----------------------------------	--

	<p>Risks associated with fixed income Derivative investments: Investment managers will ensure adherence to the limits and the guidelines as issued by SEBI / RBI from time to time for forward rate agreements and interest rate swaps and other fixed income derivative products.</p> <p>Risks associated with Debt Securities and Money Market Securities:</p> <ul style="list-style-type: none"> i. Market Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. <p>Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other.</p> <ul style="list-style-type: none"> ii. Credit Risk: Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and operating strength of the issuer. iii. Rating Migration Risk: The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues. iv. Interest Rate Risk: The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives. v. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested. vi. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme. <p>Risks associated with Investments in REITs and InvITs:</p> <p>The Investment Manager endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed by the Investment Manager. Notes to Table:

^In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may also charge the following to the Scheme of the Fund under Regulation 52 (6A):

- a. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions .

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:

- i. 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
- ii. 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investors".

The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.

Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable

GST on investment and advisory fees:

- a) AMC may charge GST on investment and advisory fees of the Scheme in addition to the maximum limit of TER as per the Regulation 52(6) and (6A).
- b) GST on expenses other than investment and advisory fees: AMC may charge GST on expenses other than investment and advisory fees of the Scheme, if any within the maximum limit of TER as per the Regulation under 52(6) and (6A).
- c) GST on brokerage & transaction cost: GST on brokerage and transaction costs which are incurred for the purpose of execution of trade, will be within the limit of expenses as per the Regulation 52(6) and (6A).

Others:

In accordance with clause 10.1.12.(a) of the SEBI Master Circular, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall be paid from the scheme only within the regulatory limits and not from the books of the AMC, or by the trustee or sponsors.

Provided that the expenses that are very small in value but high in volume (as provided by AMFI in consultation with SEBI) may be paid out of AMC's books. Such expenses can be paid out of AMC's books at actuals or not exceeding 2 bps of the Scheme AUM, whichever is lower.

Further with regards to the cost of borrowings in terms of Regulation 44(2), the same shall be adjusted against the portfolio yield of the Scheme and borrowing costs in excess of portfolio yield, if any, shall be borne by the AMC.

Disclosure relating to changes in TER:

In accordance with clause 10.1.8 of the SEBI Master Circular, the AMC shall prominently disclose TER on daily basis on the website www.dspim.com. Further, changes in the base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A)(b), 52(6A)(c) of SEBI (Mutual Funds) Regulations, 1996 and Goods and Services Tax on investment and advisory fees) in comparison to previous base TER charged to any scheme/plan shall be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change.

The notices of change in base TER shall be updated on the website at least three working days prior to effecting such change. Provided that any decrease in TER in a mutual fund scheme due to various regulatory requirements, would not require issuance of any prior notice to the investors.

The prior intimation/notice shall not be required for any increase or decrease in base TER due to change in AUM and any decrease in base TER due to various regulatory requirements.

A. Illustrative example for estimating expenses for a scheme with corpus of 100 crores:

The AMC in good faith has estimated and summarized in the below table for each Scheme, the expenses on a corpus size of Rs. 100 crores. The actual total expenses may be more or less than as specified in the table below. The below expenses are subject to inter-se change and may increase/decrease as per actuals, and/or any change in the Regulations.

Table 2: The estimated total expenses as a % of daily net assets of the Scheme are as follows:

Expense Head	% of daily net assets
Investment Management and Advisory Fee	Upto 2.25%
Audit fees /Fees and expenses of trustees*	
Custodial fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling expense including agent commission and Statutory advertisement	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost towards investor education & awareness (at least 0.02 percent)	
Brokerage & transaction cost pertaining to distribution of units	

Goods & Services Tax on expenses other than investment and advisory fees	
Goods & Services Tax on brokerage and transaction cost	
Brokerage & transaction cost over and above 0.12 percent and 0.05 percent for cash and derivative market trades, respectively.	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c)	Upto 2.25%
Additional expenses under regulation 52 (6A) (c)\$	Upto 0.05%
Additional expenses for gross new inflows from specified cities under regulation 52(6A)(b)	Up to 0.30%

*The Trusteeship fees as per the provisions of the Trust Deed are subject to a maximum of 0.02% of the average net Trust Funds per annum. It has been decided by the Trustee to charge the Trusteeship Fees in proportion to the net assets of each of the Scheme of the Mutual Fund. The Trustee reserves the right to change the method of allocation of Trusteeship fees for the Scheme, from time to time.

\$The nature of expenses can be any permissible expenses including management fees. Further, as per Para 10.1.7 of SEBI Master Circular, schemes wherein exit load is not levied, the scheme shall not be eligible to charge the above-mentioned additional expenses.

The goods and service tax on Investment Management and Advisory fees will depend on the total amount charged as Investment Management and Advisory fees. Currently it is chargeable at 18% on Investment Management and Advisory Fees.

Expense Structure for Direct Plan -.

Direct Plan will have lower expense ratio than Regular Plan of the Scheme. The expenses under Direct Plan shall exclude the distribution and commission expenses and additional expenses for gross new flows from specified cities under regulation 52(6A)(b). All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a Regular Plan.

The above expense structures are indicative in nature. Actual expenses could be lower than mentioned above.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly.

For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund.

16.	Unrated debt and money market instruments	Upto 5% (refer Note 1)	Clause 12.1 of the SEBI Master Circular
17.	Short Term Deposit	Refer Note 2	Clause 12.16 of the SEBI Master Circular

Note 1 - All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

Note 2 -Investment in Short-Term Deposits-

Pending deployment of the funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular, the AMC may invest funds of the Scheme in short term deposits of scheduled commercial banks, subject to following conditions:

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.
3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.
6. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
7. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Indicative table is subset of primary asset allocation table mentioned above and both shall be read in conjunction.

Cumulative gross exposure -

As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt, derivative positions, Real Estate Investment Trusts (REITs), Infrastructure Investment

Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Stock lending

Subject to SEBI (MF) Regulations and the applicable guidelines issued by SEBI, the Mutual Fund may engage in stock lending. The AMC shall comply with all reporting requirements and the Trustee shall carry out periodic review as required by SEBI guidelines. Stock lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation. The securities lent will be returned by the borrower on expiry of the stipulated period.

The Investment Manager will apply the following limits, should it desire to engage in Stock Lending:

1. Not more than 20% of the net assets of a Scheme can generally be deployed in Stock Lending.
2. Not more than 5% of the net assets of a Scheme can generally be deployed in Stock Lending to any single intermediary.

Portfolio Rebalancing:

a. Action with respect to passive breaches:

As per Clause 2.9 of the SEBI Master Circular and the clarifications/ guidelines issued by AMFI/ SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.

In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9.3 and 2.9.4 of SEBI Master Circular.

b. Action with respect to breaches arising due to defensive consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.

It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

The classification of stocks based on market capitalisation shall be as per the list prepared by AMFI which would be updated every six months based on the data as on the end of June and December of each year. Subsequent to any updation in the list, the Scheme shall rebalance its portfolio (if required), in line with updated list, within a period of one month.

Investment Strategy	<p>Strategy for Equity Securities</p> <p>The Investment Manager will select equity securities on a bottom-up, stock-by-stock basis, with consideration given to low price-to-earnings, price-to-book, and price-to-sales ratios, as well as growth, improving margins, asset turns, and cash flows, amongst others. The Investment Manager will use a disciplined quantitative analysis of financial operating statistics. In picking out individual investment opportunities for the portfolio, among the defined universe eligible for investment, the Investment Manager will seek both value and growth. Value is discerned when the Investment Manager believes that the long term growth potential of a company is not fully reflected in the market price of the company's securities and which potential it seeks to better every year capitalising on its various strengths, which could mean strong brand equity, growing market share, strong management and technological excellence, among others. Growth stocks, as the term suggests, are those stocks that are currently in the growth phase. The super-normal growth could be due to a new product, a new process, growing market share, stronger brand equity, technological breakthrough and unique position in a market, among other factors. The endeavor of the Investment Manager will be to pick stocks which could become potential leaders in their respective fields in the future.</p> <p>Strategy for Fixed Income Securities</p> <p>The Investment Manager will conduct in-house research in order to identify various investment opportunities. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological knowhow and transparency in corporate governance.</p> <p>The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, FITCH etc. or in unrated debt securities which the Investment Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment.</p> <p>Derivative Strategies</p> <p>Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.</p> <p>The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.</p> <p>The Scheme may use various techniques/strategies using derivative instruments for hedging as well as non-hedging purpose. Below is summary of some of the techniques which fund can employ. Please refer to Statement of Additional Information (SAI) for detailed description of derivative strategies.</p> <p><u>Equity Derivatives</u></p> <p>1) Index/ Stock spot - Index/ Stock Futures:</p> <ul style="list-style-type: none"> • The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio • Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid
----------------------------	--

market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase

2) Index/ Stock options

- The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase.

3) Stock Arbitrage

- This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavor to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market.

4) Index Arbitrage:

- Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium.
- The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated

5) Reverse Arbitrage:

- This strategy will be adopted if the cash price of a stock (say “XYZ”) is reasonably greater than single stock futures of XYZ, and then the Investment Manager may sell cash position in XYZ and buy single stock futures of XYZ. In this case the Investment Manager will still be having a long-term view on the stock XYZ but is able to minimize the cost of holding of XYZ.

6) Corporate Action / Event Driven Strategies:

I. IDCW Arbitrage

- At the time of declaration of IDCW, the stock futures / options market can provide a profitable opportunity. Generally, the stock prices decline by the IDCW amount when the stock becomes ex-IDCW.

II. Buy-Back/ Open Offer Arbitrage

- When the Company announces the buy-back or open offer of its own shares, there could be opportunities due to price differential in buyback price and traded price.

III. Merger

- When the Company announces any merger, amalgamation, hive off, de-merger, etc, there could be opportunities due to price differential in the cash and the derivative market.

7) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment manager is expecting a market correction, the Investment manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels

Fixed Income Derivatives

1) Interest Rates Swap

	<ul style="list-style-type: none"> The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure <p>2) Interest Rate Futures (IRF)</p> <ul style="list-style-type: none"> IRFs can be used for hedging the underlying cash positions. <p>3) Forward Rate Agreement (FRA)</p> <ul style="list-style-type: none"> An FRA is an off balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount. FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA. <p>For detailed derivative strategies, please refer to SAI.</p> <p>Portfolio Turnover</p> <p>Portfolio turnover is defined as the lower of the aggregate value of purchases or sales, as a percentage of the average corpus of the Scheme during a specified period of time. This will exclude purchases and sales of money market securities.</p> <p>The portfolio turnover in the Scheme will be a function of the inflows in the form of subscriptions into the Scheme and outflows in the form of redemptions from the Scheme, as well as the market opportunities available to the Investment Manager. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio(s). It will be the endeavor of the Investment Manager to keep portfolio turnover rates as low as possible. However, there are trading opportunities that present themselves from time to time, where in the opinion of the Investment Manager, there is an opportunity to enhance the total returns of the portfolio. The Investment Manager will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived therefrom. Although the exchange-traded equity derivatives contracts in India are available upto 3 months, the liquidity is predominantly in the one month contracts (near month contracts).</p>
<p>Risk Profile of the scheme</p>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>Scheme specific risk factors are summarized below:</p> <p>Risks associated with transacting in scheme units through stock exchange mechanism, efficient portfolio management, favorable taxation of certain scheme in India, Taxation of overseas investments, Equity and Equity-related securities / investments, Securities Lending & Borrowing and Short Selling, Equity Derivatives, REITs & InvITs, Debt Securities and Money Market Securities, debt instruments having structured obligations /credit enhancements, unrated securities, special feature bonds, Tri-Party Repo, Perpetual Debt Instrument (PDI), Securitized Assets, fixed income Derivatives, imperfect hedging using interest rate futures, Overseas Securities, overseas mutual funds / ETFs / Index Funds, underlying ETFs, mid-cap and small-cap companies, Depository Receipts.</p> <p>For details on Risk Factors, please refer SID.</p> <p>RISK MITIGATION STRATEGIES:</p> <p>Risks associated with Equity investments:</p> <ol style="list-style-type: none"> Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market

	<p>liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any.</p> <p>ii. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low.</p> <p>iii. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme</p> <p>Risks associated with favorable taxation of equity-oriented Scheme: Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.</p> <p>Risks associated with Stock Lending: The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p> <p>Risks associated with Equity Derivative investments: The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.</p> <p>Risks associated with fixed income Derivative investments: Investment managers will ensure adherence to the limits and the guidelines as issued by SEBI / RBI from time to time for forward rate agreements and interest rate swaps and other fixed income derivative products.</p> <p>Risks associated with Debt Securities and Money Market Securities:</p> <p>i. Market Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations.</p> <p>Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other.</p> <p>ii. Credit Risk: Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review</p>

	<p>internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and operating strength of the issuer.</p> <p>iii. Rating Migration Risk: The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues.</p> <p>iv. Interest Rate Risk: The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives.</p> <p>v. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.</p> <p>vi. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme.</p> <p>Risks associated with Investments in REITs and InvITs:</p> <p>The Investment Manager endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed by the Investment Manager. The Investment Manager also relies on its own research as well as third party research. This involves one-to-one meetings with the managements, attending conferences and analyst meets and also tele-conferences. The analysis will focus, amongst others, on the predictability and strength of cash flows, value of assets, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, etc.</p> <p>Risk Associated with overseas mutual funds / ETFs and Index securities:</p> <p>i. Liquidity Risk on account of investments in overseas funds: The investments are made in international funds, which provide daily liquidity.</p> <p>ii. Expense Risks associated with investments in overseas funds: The aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.</p> <p>iii. Portfolio Disclosure Risks associated with investments in overseas fund: Although full portfolio disclosure is not available at the end of each month, top ten holdings as well as sector holdings are made available at the end of each month for the overseas fund. Full portfolio holdings can be obtained from underlying Overseas funds generally with a three-month lag i.e. March portfolio can be obtained at the end of June</p> <p>iv. Investment Policy and/or fundamental attribute change risks associated with investments in overseas funds: Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However, there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.</p> <p>v. Monitoring overseas investment limits:</p> <p>The Investment Manager will keep monitoring the overseas investments limits. In case of an adverse event the Investment Manager may initiate appropriate action like investing across other areas as permitted by the scheme document or any other action</p>

(ii) Recurring Expenses	<p>These are the fees and expenses incurred for operating the Scheme. These expenses include and are not limited to Investment Management and Advisory Fee charged by the AMC, Registrar’s fee, Marketing and selling costs etc., as given in the Table 2 which summarizes estimated annualized recurring expenses as a % of daily net assets of the Scheme.</p> <p>This section outlines various expenses that will be borne by the Scheme. The information provided below would assist the investor in understanding the expense structure of the Scheme, types of different fees / expenses, their percentage the investor is likely to incur on purchasing and selling the Units of the Scheme.</p>																								

The AMC has estimated that upto 2.25 % of the daily net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund.

Operating & recurring expenses under regulation 52 (6) & 52 (6A):

The Scheme may charge expenses within overall limits as specified in the Regulations except those expenses which are specifically prohibited. The annual total of all charges and expenses of the Scheme shall be subject to the following limits, defined under Regulation 52 of SEBI MF regulations:

Table 1: Limit as prescribed under regulation 52 of SEBI MF regulations for equity oriented scheme:

Slab Rates	As a % of daily net assets as per Regulation 52(6) (c)	Additional TER as per Regulation 52 (6A) (c)^	Additional TER as per Regulation 52 (6A) (b)^
on the first Rs.500 crores of the daily net assets	2.25%	0.05%	0.30%
on the next Rs.250 crores of the daily net assets	2.00%	0.05%	0.30%
on the next Rs.1,250 crores of the daily net assets	1.75%	0.05%	0.30%
on the next Rs.3,000 crores of the daily net assets	1.60%	0.05%	0.30%
on the next Rs.5,000 crores of the daily net assets	1.50%	0.05%	0.30%
On the next Rs.40,000 crores of the daily net assets	Total expense ratio reduction of 0.05% for every increase of Rs.5,000 crores of daily net assets or part thereof	0.05%	0.30%
On balance of the assets	1.05%	0.05%	0.30%

Notes to Table:

^In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may also charge the following to the Scheme of the Fund under Regulation 52 (6A):

- a. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions .

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

- b. Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:
 - i. 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
 - ii. 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from “retail investors”.

The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.

Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

- c. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable

GST on investment and advisory fees:

- a) AMC may charge GST on investment and advisory fees of the Scheme in addition to the maximum limit of TER as per the Regulation 52(6) and (6A).
- b) GST on expenses other than investment and advisory fees: AMC may charge GST on expenses other than investment and advisory fees of the Scheme, if any within the maximum limit of TER as per the Regulation under 52(6) and (6A).
- c) GST on brokerage & transaction cost: GST on brokerage and transaction costs which are incurred for the purpose of execution of trade, will be within the limit of expenses as per the Regulation 52(6) and (6A).

Others:

In accordance with clause 10.1.12.(a) of the SEBI Master Circular, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall be paid from the scheme only within the regulatory limits and not from the books of the AMC, or by the trustee or sponsors.

Provided that the expenses that are very small in value but high in volume (as provided by AMFI in consultation with SEBI) may be paid out of AMC's books. Such expenses can be paid out of AMC's books at actuals or not exceeding 2 bps of the Scheme AUM, whichever is lower.

Further with regards to the cost of borrowings in terms of Regulation 44(2), the same shall be adjusted against the portfolio yield of the Scheme and borrowing costs in excess of portfolio yield, if any, shall be borne by the AMC.

Disclosure relating to changes in TER:

In accordance with clause 10.1.8 of the SEBI Master Circular, the AMC shall prominently disclose TER on daily basis on the website www.dspim.com. Further, changes in the base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A)(b), 52(6A)(c) of SEBI (Mutual Funds) Regulations, 1996 and Goods and Services Tax on investment and advisory fees) in comparison to previous base TER charged to any scheme/plan shall be communicated to

investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change.

The notices of change in base TER shall be updated on the website at least three working days prior to effecting such change Provided that any decrease in TER in a mutual fund scheme due to various regulatory requirements, would not require issuance of any prior notice to the investors.

The prior intimation/notice shall not be required for any increase or decrease in base TER due to change in AUM and any decrease in base TER due to various regulatory requirements.

A. Illustrative example for estimating expenses for a scheme with corpus of 100 crores:

The AMC in good faith has estimated and summarized in the below table for each Scheme, the expenses on a corpus size of Rs. 100 crores. The actual total expenses may be more or less than as specified in the table below. The below expenses are subject to inter-se change and may increase/decrease as per actuals, and/or any change in the Regulations.

Table 2: The estimated total expenses as a % of daily net assets of the Scheme are as follows:

Note 2 -Investment in Short-Term Deposits-

Pending deployment of the funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular, the AMC may invest funds of the Scheme in short term deposits of scheduled commercial banks, subject to following conditions:

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.
3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.
6. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
7. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Indicative table is subset of primary asset allocation table mentioned above and both shall be read in conjunction.

Cumulative gross exposure -

As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt, derivative positions, Real Estate Investment Trusts (REITs), Infrastructure

	<p>Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/IMD-II/DOF3/OW/P/2021/31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.</p> <p><u>Stock lending</u> Subject to SEBI (MF) Regulations and the applicable guidelines issued by SEBI, the Mutual Fund may engage in stock lending. The AMC shall comply with all reporting requirements and the Trustee shall carry out periodic review as required by SEBI guidelines. Stock lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation. The securities lent will be returned by the borrower on expiry of the stipulated period.</p> <p>The Investment Manager will apply the following limits, should it desire to engage in Stock Lending:</p> <ol style="list-style-type: none"> 1. Not more than 20% of the net assets of a Scheme can generally be deployed in Stock Lending. 2. Not more than 5% of the net assets of a Scheme can generally be deployed in Stock Lending to any single intermediary. <p><u>Portfolio Rebalancing:</u></p> <p>a. <u>Action with respect to passive breaches:</u></p> <p>As per Clause 2.9 of the SEBI Master Circular and the clarifications/ guidelines issued by AMFI/ SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.</p> <p>In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9.3 and 2.9.4 of SEBI Master Circular.</p> <p>b. <u>Action with respect to breaches arising due to defensive consideration:</u></p> <p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p>
Investment Strategy	<p>Strategy for Equity Securities</p> <p>The Investment Manager will use a disciplined quantitative analysis of financial operating statistics. In picking out individual investment opportunities for the portfolio, among the defined universe eligible for investment, the Investment Manager will seek</p>

both value and growth. Value is discerned when the Investment Manager believes that the long term growth potential of a company is not fully reflected in the market price of the company's securities and which potential it seeks to better every year capitalising on its various strengths, which could mean strong brand equity, growing market share, strong management and technological excellence, among others. Growth stocks, as the term suggests, are those stocks that are currently in the growth phase. The super-normal growth could be due to a new product, a new process, growing market share, stronger brand equity, technological breakthrough and unique position in a market, among other factors.

The Investment Manager will conduct in-house research in order to identify various investment opportunities. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological knowhow and transparency in corporate governance.

Strategy for Debt and Money Market Securities

The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency authorised to carry out such activity, such as CRISIL, ICRA, CARE etc. or in unrated debt securities, which the Investment Manager believes to be of equivalent quality. Where investment in unrated debt securities is sought to be made, the specific approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment. In-house research by the Investment Manager will emphasize on credit analysis, in order to determine credit risk.

Derivative Strategies

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

The Scheme may use various techniques/strategies using derivative instruments for hedging as well as non-hedging purpose. Below is summary of some of the techniques which fund can employ.

Equity Derivatives

1) Index/ Stock spot - Index/ Stock Futures:

- The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio
- Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase.

2) Index/ Stock options

- The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase.

3) Stock Arbitrage

- This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavor to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market.

4) Reverse Arbitrage:

- This strategy will be adopted if the cash price of a stock (say “XYZ”) is reasonably greater than single stock futures of XYZ, and then the Investment Manager may sell cash position in XYZ and buy single stock futures of XYZ. In this case the Investment Manager will still be having a long-term view on the stock XYZ but is able to minimize the cost of holding of XYZ.

5) Index Arbitrage:

- Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium.
- The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated

6) Corporate Action / Event Driven Strategies:

I. IDCW Arbitrage

- At the time of declaration of IDCW, the stock futures / options market can provide a profitable opportunity. Generally, the stock prices decline by the IDCW amount when the stock becomes ex-IDCW.

II. Buy-Back/ Open Offer Arbitrage

- When the Company announces the buy-back or open offer of its own shares, there could be opportunities due to price differential in buyback price and traded price.

III. Merger

- When the Company announces any merger, amalgamation, hive off, de-merger, etc, there could be opportunities due to price differential in the cash and the derivative market.

7) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment manager is expecting a market correction, the Investment manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels

Fixed Income Derivatives

1) Interest Rates Swap

- The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure

2) Interest Rate Futures (IRF)

	<ul style="list-style-type: none"> IRFs can be used for hedging the underlying cash positions. <p>3) Forward Rate Agreement (FRA)</p> <ul style="list-style-type: none"> An FRA is an off balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount. FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA. <p>For detailed derivative strategies, please refer to SAI.</p> <p>Portfolio Turnover Portfolio turnover is defined as the lower of the aggregate value of purchases or sales, as a percentage of the average corpus of the Scheme during a specified period of time. This will exclude purchases and sales of money market securities.</p> <p>The portfolio turnover in the Scheme will be a function of the inflows in the form of subscriptions into the Scheme and outflows in the form of redemptions from the Scheme, as well as the market opportunities available to the Investment Manager. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio(s). It will be the endeavor of the Investment Manager to keep portfolio turnover rates as low as possible. However, there are trading opportunities that present themselves from time to time, where in the opinion of the Investment Manager, there is an opportunity to enhance the total returns of the portfolio. The Investment Manager will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived therefrom. Although the exchange-traded equity derivatives contracts in India are available upto 3 months, the liquidity is predominantly in the one month contracts (near month contracts).</p>
Risk Profile of the scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>Scheme specific risk factors are summarized below:</p> <p>Risks associated with transacting in scheme units through stock exchange mechanism, efficient portfolio management, favorable taxation of certain scheme in India, Taxation of overseas investments, Equity and Equity-related securities / investments, Securities Lending & Borrowing and Short Selling, Equity Derivatives, REITs & InvITs, Debt Securities and Money Market Securities, debt instruments having structured obligations /credit enhancements, unrated securities, special feature bonds, Tri-Party Repo, Perpetual Debt Instrument (PDI), Securitized Assets, fixed income Derivatives, imperfect hedging using interest rate futures, Overseas Securities, overseas mutual funds / ETFs / Index Funds, mid-cap and small-cap companies, Depository Receipts.</p> <p>RISK MITIGATION STRATEGIES: Risks associated with Equity investments:</p> <ol style="list-style-type: none"> Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific

	<p>concentration risk relatively low.</p> <p>iii. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme</p> <p>Risks associated with favorable taxation of equity-oriented Scheme: Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.</p> <p>Risks associated with Stock Lending: The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p> <p>Risks associated with Equity Derivative investments: The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.</p> <p>Risks associated with fixed income Derivative investments: Investment managers will ensure adherence to the limits and the guidelines as issued by SEBI / RBI from time to time for forward rate agreements and interest rate swaps and other fixed income derivative products.</p> <p>Risks associated with Debt Securities and Money Market Securities:</p> <p>i. Market Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations.</p> <p>Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other.</p> <p>ii. Credit Risk: Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking</p>
--	---

	<p>into consideration the financial statements and operating strength of the issuer.</p> <p>iii. Rating Migration Risk: The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues.</p> <p>iv. Interest Rate Risk: The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives.</p> <p>v. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.</p> <p>vi. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme.</p> <p>Risks associated with Investments in REITs and InvITs:</p> <p>The Investment Manager endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed by the Investment Manager. The Investment Manager also relies on its own research as well as third party research. This involves one-to-one meetings with the managements, attending conferences and analyst meets and also tele-conferences. The analysis will focus, amongst others, on the predictability and strength of cash flows, value of assets, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, etc.</p> <p>Risk Associated with overseas mutual funds / ETFs and Index securities:</p> <p>i. Liquidity Risk on account of investments in overseas funds: The investments are made in international funds, which provide daily liquidity.</p> <p>ii. Expense Risks associated with investments in overseas funds: The aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.</p> <p>iii. Portfolio Disclosure Risks associated with investments in overseas fund: Although full portfolio disclosure is not available at the end of each month, top ten holdings as well as sector holdings are made available at the end of each month for the overseas fund. Full portfolio holdings can be obtained from underlying Overseas funds generally with a three-month lag i.e. March portfolio can be obtained at the end of June</p> <p>iv. Investment Policy and/or fundamental attribute change risks associated with investments in overseas funds: Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However, there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.</p> <p>v. Monitoring overseas investment limits:</p> <p>The Investment Manager will keep monitoring the overseas investments limits. In case of an adverse event the Investment Manager may initiate appropriate action like investing across other areas as permitted by the scheme document or any other action to ensure that the investor interest is safeguarded.</p>

In case of joint holding in folios, transactions with similar holding pattern will be aggregated. The principle followed for such aggregation will be similar as applied for compilation of Consolidated Account Statement (CAS). 5. All transactions will be aggregated where investor holding pattern is same as stated in point no.4 above. 6. Only transactions in the same Scheme of the Fund shall be clubbed. It will include transactions at Plans/Options level (i.e. Regular Plan, Direct Plan, IDCW Option, Growth Option, etc). 7. Transactions in the name of minor received through guardian will not be aggregated with the transaction in the name of same guardian. However, two or more transactions in folios of a minor received through same guardian will be considered for aggregation. 8. In the case funds are received on separate days and are available for utilization on different business days before the cut off time, the applicable NAV shall be of the Business day/s on which the cleared funds are available for utilization for the respective application amount. 9. Irrespective the date and time of debit to the customer bank accounts, the date and time of actual credit in the Scheme's bank account, which could be different due settlement cycle in the banking industry, would be considered for applicability of NAV. <p>Investors are advised to make use of digital/electronic payment to transfer the funds to the Scheme's bank account</p>

Notes to Table:

^In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may also charge the following to the Scheme of the Fund under Regulation 52 (6A):

- a. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions .

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

- b. Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:
 - i. 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
 - ii. 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

	<p>* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from “retail investors.</p> <p>The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.</p> <p>Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.</p> <p>c. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable</p> <p>GST on investment and advisory fees:</p> <p>a) AMC may charge GST on investment and advisory fees of the Scheme in addition to the maximum limit of TER as per the Regulation 52(6) and (6A).</p> <p>b) GST on expenses other than investment and advisory fees: AMC may charge GST on expenses other than investment and advisory fees of the Scheme, if any within the maximum limit of TER as per the Regulation under 52(6) and (6A).</p> <p>c) GST on brokerage & transaction cost: GST on brokerage and transaction costs which are incurred for the purpose of execution of trade, will be within the limit of expenses as per the Regulation 52(6) and (6A).</p> <p><u>Others:</u></p> <p>In accordance with clause 10.1.12.(a) of the SEBI Master Circular, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall be paid from the scheme only within the regulatory limits and not from the books of the AMC, or by the trustee or sponsors.</p> <p>Provided that the expenses that are very small in value but high in volume (as provided by AMFI in consultation with SEBI) may be paid out of AMC’s books. Such expenses can be paid out of AMC’s books at actuals or not exceeding 2 bps of the Scheme AUM, whichever is lower.</p> <p>Further with regards to the cost of borrowings in terms of Regulation 44(2), the same shall be adjusted against the portfolio yield of the Scheme and borrowing costs in excess of portfolio yield, if any, shall be borne by the AMC.</p> <p><u>Disclosure relating to changes in TER:</u></p> <p>In accordance with clause 10.1.8 of the SEBI Master Circular, the AMC shall prominently disclose TER on daily basis on the website www.dspim.com. Further, changes in the base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A)(b), 52(6A)(c) of SEBI (Mutual Funds) Regulations, 1996 and Goods and Services Tax on investment and advisory fees) in comparison to previous base TER charged to any scheme/plan shall be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change.</p>
--	---

The notices of change in base TER shall be updated on the website at least three working days prior to effecting such change. Provided that any decrease in TER in a mutual fund scheme due to various regulatory requirements, would not require issuance of any prior notice to the investors.

The prior intimation/notice shall not be required for any increase or decrease in base TER due to change in AUM and any decrease in base TER due to various regulatory requirements.

A. Illustrative example for estimating expenses for a scheme with corpus of 100 crores:

The AMC in good faith has estimated and summarized in the below table for each Scheme, the expenses on a corpus size of Rs. 100 crores. The actual total expenses may be more or less than as specified in the table below. The below expenses are subject to inter-se change and may increase/decrease as per actuals, and/or any change in the Regulations.

Table 2: The estimated total expenses as a % of daily net assets of the Scheme are as follows:

Pending deployment of the funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular, the AMC may invest funds of the Scheme in short term deposits of scheduled commercial banks, subject to following conditions:

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.
3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.
6. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
7. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Indicative table is subset of primary asset allocation table mentioned above and both shall be read in conjunction.

	<p><u>Cumulative gross exposure -</u> As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt, derivative positions (including fixed income derivatives), Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.</p> <p><u>Stock lending</u> Subject to SEBI (MF) Regulations and the applicable guidelines issued by SEBI, the Mutual Fund may engage in stock lending. The AMC shall comply with all reporting requirements and the Trustee shall carry out periodic review as required by SEBI guidelines. Stock lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation. The securities lent will be returned by the borrower on expiry of the stipulated period.</p> <p>The Investment Manager will apply the following limits, should it desire to engage in Stock Lending:</p> <ol style="list-style-type: none"> 1. Not more than 20% of the net assets of a Scheme can generally be deployed in Stock Lending. 2. Not more than 5% of the net assets of a Scheme can generally be deployed in Stock Lending to any single intermediary. <p><u>Portfolio Rebalancing:</u></p> <p>a. <u>Action with respect to passive breaches:</u></p> <p>As per Clause 2.9 of the SEBI Master Circular and the clarifications/ guidelines issued by AMFI/ SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.</p> <p>In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9.3 and 2.9.4 of SEBI Master Circular.</p> <p>b. <u>Action with respect to breaches arising due to defensive consideration:</u></p> <p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p>
Investment Strategy	Strategy for Equity Securities

The Investment Manager will be adopting a top down approach, which will encompass an evaluation of key economic trends, the analysis of various sectors in the economy leading to an outlook on their future prospects and a diligent study of various investment opportunities within the favoured sectors. In picking out individual investment opportunities for the portfolio, the Investment Manager will seek both value and growth. Value is discerned when the Investment Manager believes that the long-term growth potential of a company is not fully reflected in the market price of the company's securities and which potential it seeks to better every year capitalising on its various strengths, which could mean strong brand equity, high market share, strong management and technological excellence among others. Such companies are core holdings in any equity portfolio since they seldom fail to deliver good returns over the long term. Growth stocks, as the term suggests, are those stocks that are currently in the growth phase. The super-normal growth could be due to a new product, a new process, growing market share, stronger brand equity, technological breakthrough and unique or predominant position in a market, among other factors.

The Investment Manager will conduct in-house research in order to identify value and growth stocks. The analysis will focus, among others, on the historical and current financial condition of the company, capital structure, business prospects, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research and technological know-how and transparency in corporate governance. The quality or strength of management would be a key focus area.

Strategy for Fixed Income Securities

The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, Fitch, etc. or in unrated debt securities which the Investment Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment.

Derivative Strategies

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

The Scheme may use various techniques/strategies using derivative instruments for hedging as well as non-hedging purpose. Below is summary of some of the techniques which fund can employ.

Equity Derivatives

1) Index/ Stock spot - Index/ Stock Futures:

- The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio
- Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase

2) Index/ Stock options

- The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase.

3) Stock Arbitrage

- This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavor to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market.

4) Index Arbitrage:

- Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium.
- The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated

5) Corporate Action / Event Driven Strategies:

I. IDCW Arbitrage

- At the time of declaration of IDCW, the stock futures / options market can provide a profitable opportunity. Generally, the stock prices decline by the IDCW amount when the stock becomes ex-IDCW.

II. Buy-Back/ Open Offer Arbitrage

- When the Company announces the buy-back or open offer of its own shares, there could be opportunities due to price differential in buyback price and traded price.

III. Merger

- When the Company announces any merger, amalgamation, hive off, de-merger, etc, there could be opportunities due to price differential in the cash and the derivative market.

6) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment manager is expecting a market correction, the Investment manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels

7) Reverse Arbitrage:

This strategy will be adopted if the cash price of a stock (say "XYZ") is reasonably greater than single stock futures of XYZ, and then the Investment Manager may sell cash position in XYZ and buy single stock futures of XYZ. In this case the Investment Manager will still be having a long-term view on the stock XYZ but is able to minimize the cost of holding of XYZ.

Fixed Income Derivatives

1) Interest Rates Swap

- The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure

2) Interest Rate Futures (IRF)

- IRFs can be used for hedging interest rate exposure.

3) Forward Rate Agreement (FRA)

	<ul style="list-style-type: none"> • An FRA is an off balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount. • FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA. <p>For detailed derivative strategies, please refer to SAI.</p> <p>Portfolio Turnover</p> <p>Portfolio turnover is defined as the lower of the aggregate value of purchases or sales, as a percentage of the average corpus of the Scheme during a specified period of time. This will exclude purchases and sales of money market securities.</p> <p>The portfolio turnover in the Scheme will be a function of the inflows in the form of subscriptions into the Scheme and outflows in the form of redemptions from the Scheme, as well as the market opportunities available to the Investment Manager. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio(s). It will be the endeavor of the Investment Manager to keep portfolio turnover rates as low as possible. However, there are trading opportunities that present themselves from time to time, where in the opinion of the Investment Manager, there is an opportunity to enhance the total returns of the portfolio. The Investment Manager will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived therefrom. Although the exchange-traded equity derivatives contracts in India are available upto 3 months, the liquidity is predominantly in the one month contracts (near month contracts).</p>
Risk Profile of the scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>Scheme specific risk factors are summarized below:</p> <p>Risks associated with transacting in scheme units through stock exchange mechanism, principles of efficient portfolio management, favorable taxation of certain scheme in India, Taxation of overseas investments, Equity and Equity-related securities / investments - Price Risk, Liquidity Risk for listed securities, Liquidity Risk on account of unquoted and unlisted securities, Securities Lending & Borrowing and Short Selling, Trading In Equity Derivatives, REITs & InvITs, Debt Securities and Money Market Securities, investment in debt instruments having structured obligations / credit enhancements, unrated securities, special feature bonds, Tri-Party Repo, Perpetual Debt Instrument (PDI), Securitized Assets, fixed income Derivatives, imperfect hedging using interest rate futures, Overseas Securities, overseas mutual funds / ETFs / Index Funds, Depository Receipts.</p> <p>For details on risk factors, kindly refer SID.</p> <p>Risk Mitigation Strategies: Risks associated with Equity investments:</p> <ol style="list-style-type: none"> Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low.

- iii. **Market Risk:** The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme

Risks associated with favorable taxation of equity-oriented Scheme:

Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.

Risks associated with Stock Lending:

The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.

Risks associated with Equity Derivative investments:

The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.

Risks associated with fixed income Derivative investments:

Investment managers will ensure adherence to the limits and the guidelines as issued by SEBI / RBI from time to time for forward rate agreements and interest rate swaps and other fixed income derivative products.

Risks associated with Debt Securities and Money Market Securities:

- i. **Market Liquidity Risk:** The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations.

Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other.

- ii. **Credit Risk:** Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and op

erating strength of the issuer.

- iii. **Rating Migration Risk:** The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues.
- iv. **Interest Rate Risk:** The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives.
- v. **Re-investment Risk:** The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.
- vi. **Term Structure of Interest Rates (TSIR) Risk:** The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme.

Risks associated with Investments in REITs and InvITs:

The Investment Manager endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed by the Investment Manager. The Investment Manager also relies on its own research as well as third party research. This involves one-to-one meetings with the managements, attending conferences and analyst meets and also tele-conferences. The analysis will focus, amongst others, on the predictability and strength of cash flows, value of assets, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, etc.

Risk Associated with overseas mutual funds / ETFs and Index securities:

- i. **Liquidity Risk on account of investments in overseas funds:** The investments are made in international funds, which provide daily liquidity.
- ii. **Expense Risks associated with investments in overseas funds:** The aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.
- iii. **Portfolio Disclosure Risks associated with investments in overseas fund:** Although full portfolio disclosure is not available at the end of each month, top ten holdings as well as sector holdings are made available at the end of each month for the overseas fund. Full portfolio holdings can be obtained from underlying Overseas funds generally with a three-month lag i.e. March portfolio can be obtained at the end of June
- iv. **Investment Policy and/or fundamental attribute change risks associated with investments in overseas funds:** Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However, there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.
- v. **Monitoring overseas investment limits:**

The Investment Manager will keep monitoring the overseas investments limits. In case of an adverse event the Investment Manager may initiate appropriate action like investing across other areas as permitted by the scheme document or any other action to ensure that the investor interest is safeguarded.

Risk management for risk associated with Depository Receipts

	Should there be investments in ADRs/GDRs of Indian companies or foreign securities, the investment process of the fund manager will ensure that a comprehensive company specific due diligence is performed.

	Rs.5,000 crores of daily net assets or part thereof		
On balance of the assets	1.05%	0.05%	0.30%

Notes to Table:

[^]In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may also charge the following to the Scheme of the Fund under Regulation 52 (6A):

- a. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions.

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

- b. Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:
 - i. 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
 - ii. 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investors".

The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.

Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

- c. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable

GST on investment and advisory fees:

- a) AMC may charge GST on investment and advisory fees of the Scheme in addition to the maximum limit of TER as per the Regulation 52(6) and (6A).
- b) GST on expenses other than investment and advisory fees: AMC may charge GST on expenses other than investment and advisory fees of the Scheme, if any within the maximum limit of TER as per the Regulation under 52(6) and (6A).
- c) GST on brokerage & transaction cost: GST on brokerage and transaction costs which are incurred for the purpose of execution of trade, will be within the limit of expenses as per the Regulation 52(6) and (6A).

Others:

In accordance with clause 10.1.12.(a) of the SEBI Master Circular, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall be paid from the scheme only within the regulatory limits and not from the books of the AMC, or by the trustee or sponsors.

Provided that the expenses that are very small in value but high in volume (as provided by AMFI in consultation with SEBI) may be paid out of AMC's books. Such expenses can be paid out of AMC's books at actuals or not exceeding 2 bps of the Scheme AUM, whichever is lower.

Further with regards to the cost of borrowings in terms of Regulation 44(2), the same shall be adjusted against the portfolio yield of the Scheme and borrowing costs in excess of portfolio yield, if any, shall be borne by the AMC.

Disclosure relating to changes in TER:

In accordance with clause 10.1.8 of the SEBI Master Circular, the AMC shall prominently disclose TER on daily basis on the website www.dspim.com. Further, changes in the base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A)(b), 52(6A)(c) of SEBI (Mutual Funds) Regulations, 1996 and Goods and Services Tax on investment and advisory fees) in comparison to previous base TER charged to any scheme/plan shall be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change.

The notices of change in base TER shall be updated on the website at least three working days prior to effecting such change. Provided that any decrease in TER in a mutual fund scheme due to various regulatory requirements, would not require issuance of any prior notice to the investors.

The prior intimation/notice shall not be required for any increase or decrease in base TER due to change in AUM and any decrease in base TER due to various regulatory requirements.

A. Illustrative example for estimating expenses for a scheme with corpus of 100 crores:

The AMC in good faith has estimated and summarized in the below table for each Scheme, the expenses on a corpus size of Rs. 100 crores. The actual total expenses may be more or less than as specified in the table below. The below expenses are subject to inter-se change and may increase/decrease as per actuals, and/or any change in the Regulations.

Table 2: The estimated total expenses as a % of daily net assets of the Scheme are as follows:

Expense Head	% of daily net assets
Investment Management and Advisory Fee	Upto 2.25%
Audit fees /Fees and expenses of trustees*	
Custodial fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling expense including agent commission and Statutory advertisement	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost towards investor education & awareness (at least 0.02 percent)	
Brokerage & transaction cost pertaining to distribution of units	
Goods & Services Tax on expenses other than investment and advisory fees	

Goods & Services Tax on brokerage and transaction cost	
Brokerage & transaction cost over and above 0.12 percent and 0.05 percent for cash and derivative market trades, respectively.	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c)	Upto 2.25%
Additional expenses under regulation 52 (6A) (c)\$	Upto 0.05%
Additional expenses for gross new inflows from specified cities under regulation 52(6A)(b)	Up to 0.30%

*The Trusteeship fees as per the provisions of the Trust Deed are subject to a maximum of 0.02% of the average net Trust Funds per annum. It has been decided by the Trustee to charge the Trusteeship Fees in proportion to the net assets of each of the Scheme of the Mutual Fund. The Trustee reserves the right to change the method of allocation of Trusteeship fees for the Scheme, from time to time.

\$The nature of expenses can be any permissible expenses including management fees. Further, as per Para 10.1.7 of SEBI Master Circular, schemes wherein exit load is not levied, the scheme shall not be eligible to charge the above-mentioned additional expenses.

The goods and service tax on Investment Management and Advisory fees will depend on the total amount charged as Investment Management and Advisory fees. Currently it is chargeable at 18% on Investment Management and Advisory Fees.

Expense Structure for Direct Plan - .

Direct Plan will have lower expense ratio than Regular Plan of the Scheme. The expenses under Direct Plan shall exclude the distribution and commission expenses and additional expenses for gross new flows from specified cities under regulation 52(6A)(b). All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a Regular Plan.

The above expense structures are indicative in nature. Actual expenses could be lower than mentioned above.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly.

For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund.

II. Illustration of impact of expense ratio on scheme's returns:

Note 1-

Mutual Fund schemes (except Index Funds and ETFs) may write call options only under a covered call strategy for constituent stocks of NIFTY 50 and BSE SENSEX subject to the following:

a. The total notional value (taking into account strike price as well as premium value) of call options written by a scheme shall not exceed 15% of the total market value of equity shares held in that scheme.

b. The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.

c. At all points of time the Mutual Fund scheme shall comply with the provisions at (a) and (b) above. In case of any passive breach of the requirement at (a), the respective scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the said scheme.

d. In case a Mutual Fund scheme needs to sell securities on which a call option is written under a covered call strategy, it must ensure compliance with (a) and (b) above while selling the securities.

e. In no case, a scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts

f. The premium received shall be within the requirements prescribed in terms of Clause 12.25.2 of SEBI Master Circular i.e. the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the scheme.

g. The exposure on account of the call option written under the covered call strategy shall not be considered as exposure.

h. The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the respective scheme(s) until the position is closed or expired.

Note 2-

All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

Note 3- Short Term Deposit

Pending deployment of funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular. The AMC may invest funds of the Scheme in short-term deposits of scheduled commercial banks, subject to following conditions:

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.
3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.
6. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.
7. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Cumulative Gross Exposure

As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt, derivative positions, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit

Portfolio Rebalancing:

Rebalancing of deviation due to short term defensive consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.

It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

	<p>Portfolio rebalancing in case of passive breach:</p> <p>As per Clause 2.9 of the SEBI Master Circular and clarifications/ guidelines issued by AMFI / SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.</p> <p>In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Clause 2.9 of the SEBI Master Circular.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p>
Investment Strategy	<p>Investment Strategy for Equity Investments</p> <p>The Scheme is an active equity scheme. The Investment Manager prefers adopting a top-down approach with regard to investment in equity and equity related securities. This approach encompasses an evaluation of key economic trends and a diligent study of various investment opportunities within the specified sectors in each scheme. In picking out individual investment opportunities for the portfolio, the Investment Manager will seek both value and growth. Value is discerned when the Investment Manager believes that the inherent worth or long-term growth potential of a company is not fully reflected in the share price of the company. Growth stocks, as the term suggests, are those stocks that are currently in the growth phase. Such growth in earnings could be due to segment opportunity, additional product, additional distribution, growing market share, stronger brand equity, technological breakthrough and unique or predominant position in specific markets or sub-segments, among other factors. The Investment Manager will conduct in-house research in order to identify value and growth stocks. The analysis will focus, among other things, on the historical and current financial condition of the company, balance sheet structure, business prospects, strength of management, and responsiveness to business conditions, brand equity, market share, competitive edge, technological advantage and transparency in corporate governance. The quality or strength or management would be key focus area.</p> <p>Strategy for Fixed Income Securities</p> <p>The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, FITCH etc. or in unrated debt securities which the Investment Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment.</p> <p>Trading in Derivatives</p> <p>The Scheme may use various techniques/strategies using derivative instruments for hedging as well as non-hedging purpose. Below is summary of some of the instruments / techniques which fund can employ. Please refer to Statement of Additional Information (SAI) for detailed description of derivative strategies.</p> <p><u>Equity Derivatives</u></p> <p>1) Index/ Stock spot - Index/ Stock Futures:</p> <ul style="list-style-type: none"> The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio

- Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase

2) Index/ Stock options

- The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase.

3) Stock Arbitrage

- This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavour to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market.

4) Index Arbitrage:

- Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium.
- The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated

5) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment Manager is expecting a market correction, the Investment Manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment Manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels.

6) Covered Call

- The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. This strategy is also employed when the Fund Manager has a short-term neutral view on the asset and for this reason holds the asset long and simultaneously takes a short position via covered call option strategy to generate income from the option premium.

Fixed Income Derivatives

1) Interest Rates Swap

- The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure

2) Interest Rate Futures (IRF)

- IRFs can be used for hedging the underlying cash positions.

3) Forward Rate Agreement (FRA)

- An FRA is an off-balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the

	<p>interest rate actually prevailing on that future date, calculated on an agreed notional principal amount.</p> <ul style="list-style-type: none"> FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA. <p>Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.</p> <p>The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.</p> <p>Portfolio Turnover</p> <p>Portfolio turnover is defined as the lower of the aggregate value of purchases or sales as a percentage of the corpus of a scheme during a specified period of time. This will exclude purchases and sales of money market securities. The Scheme is open ended, with subscriptions and redemptions expected on a daily basis, resulting in net inflow/outflow of funds, and on account of the various factors that affect portfolio turnover; it is difficult to give an estimate, with any reasonable amount of accuracy.</p> <p>Therefore, the Scheme has no specific target relating to portfolio turnover.</p>
<p>Risk Profile of the scheme</p>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>1) Risks associated with transacting in scheme units through stock exchange mechanism 2) Risk associated with principles of efficient portfolio management 3) Risk associated with favorable taxation of certain scheme in India 4) Risk factors related to Taxation of overseas investments, 5) Risks associated with Equity and Equity-related securities / investments 6) Risk associated with Securities Lending & Borrowing and Short Selling 7) Risks Associated with Trading In Equity Derivatives 8) Risks associated with investments in REITs & InvITs 9) Risk Factors associated with investments in Debt Securities and Money Market Securities 10) Risk associated with investments in debt instruments having Structured Obligations / Credit Enhancements, 11) Risk factors associated with investment in Tri-Party Repo, 12) Risks associated with Overseas Securities 13) Risk associated with investments in overseas mutual funds / ETFs / Index Funds 14) Risk associated with Depository Receipts 15) Risk of Investing in Specific Sectors, 16) Risks Associated with fixed income Derivatives. 17) Risk of substantial redemption 18) Risks associated with Covered Calls 19) Risks associated with segregated portfolio</p> <p>For details on risk factors and risk mitigation measures, please refer SID.</p> <p><u>Risk Mitigation Strategies</u></p> <p>Risks associated with Equity investments:</p> <ol style="list-style-type: none"> Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any. Concentration Risk: The Scheme will try and mitigate this risk by investing across

	<p>large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low.</p> <p>iii. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme</p> <p>Risks associated with favorable taxation of equity-oriented Scheme: Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.</p> <p>Risks associated with Stock Lending: The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p> <p>Risks associated with Equity Derivative investments: The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.</p> <p>Risks associated with fixed income Derivative investments: Investment managers will ensure adherence to the limits and the guidelines as issued by SEBI / RBI from time to time for forward rate agreements and interest rate swaps and other fixed income derivative products.</p> <p>Risks associated with Debt Securities and Money Market Securities:</p> <p>i. Market Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations.</p> <p>Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other.</p> <p>ii. Credit Risk: Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into</p>

	<p>consideration the financial statements and operating strength of the issuer.</p> <p>iii. Rating Migration Risk: The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues.</p> <p>iv. Interest Rate Risk: The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives.</p> <p>v. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.</p> <p>vi. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme.</p> <p>Risks associated with Investments in REITs and InvITs:</p> <p>The Investment Manager endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed by the Investment Manager. The Investment Manager also relies on its own research as well as third party research. This involves one-to-one meetings with the managements, attending conferences and analyst meets and also tele-conferences. The analysis will focus, amongst others, on the predictability and strength of cash flows, value of assets, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, etc.</p> <p>Risk Associated with overseas mutual funds / ETFs and Index securities:</p> <p>i. Liquidity Risk on account of investments in overseas funds: The investments are made in international funds, which provide daily liquidity.</p> <p>ii. Expense Risks associated with investments in overseas funds: The aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.</p> <p>iii. Portfolio Disclosure Risks associated with investments in overseas fund: Although full portfolio disclosure is not available at the end of each month, top ten holdings as well as sector holdings are made available at the end of each month for the overseas fund. Full portfolio holdings can be obtained from underlying Overseas funds generally with a three-month lag i.e. March portfolio can be obtained at the end of June</p> <p>iv. Investment Policy and/or fundamental attribute change risks associated with investments in overseas funds: Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However, there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.</p> <p>v. Monitoring overseas investment limits:</p> <p>The Investment Manager will keep monitoring the overseas investments limits. In case of an adverse event the Investment Manager may initiate appropriate action like investing across other areas as permitted by the scheme document or any other action to ensure that the investor interest is safeguarded.</p>

	<p>vi. Risk management for risk associated with Depository Receipts</p> <p>Should there be investments in ADRs/GDRs of Indian companies or foreign securities, the investment process of the fund manager will ensure that a comprehensive company specific due diligence is performed.</p>

Notes to Table:

^In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may also charge the following to the Scheme of the Fund under Regulation 52 (6A):

- a. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions.

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

- b. Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:
 - i. 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
 - ii. 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investors".

The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.

Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

- c. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable

Expense Structure for Direct Plan -

Direct Plan will have lower expense ratio than Regular Plan of the Scheme. The expenses under Direct Plan shall exclude the distribution and commission expenses and additional expenses for gross new flows from specified cities under regulation 52(6A)(b). All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a Regular Plan.

1. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

Note 2: Short Term Deposit

Pending deployment of funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular. The AMC may invest funds of the Scheme in short-term deposits of scheduled commercial banks, subject to the following conditions:

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.
3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.
6. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
7. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Cumulative Gross Exposure

	<p>As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt, derivative positions, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.</p> <p>Portfolio Rebalancing:</p> <p>Rebalancing of deviation due to short term defensive consideration:</p> <p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p> <p>Portfolio rebalancing in case of passive breach:</p> <p>As per Clause 2.9 of the SEBI Master Circular and clarifications/ guidelines issued by AMFI / SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.</p> <p>In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Clause 2.9 of the SEBI Master Circular.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p>
<p>Investment Strategy</p>	<p>Strategy for Equity Securities</p> <p>The Investment Manager prefers adopting a top-down approach with regard to investment in equity and equity related securities. This approach encompasses an evaluation of key economic trends and a diligent study of various investment opportunities within the specified sectors in each Scheme. In picking out individual investment opportunities for the portfolio, the Investment Manager will seek both value and growth. Value is discerned when the Investment Manager believes that the inherent worth or long-term growth potential of a company is not fully reflected in the share price of the company. Growth stocks, as the term suggests, are those stocks that are currently in the growth phase. Such growth in earnings could be due to a new product, a new process, growing market share, stronger brand equity, technological breakthrough and unique or predominant position in a market, among other factors.</p> <p>The Investment Manager will conduct in-house research in order to identify value and growth stocks. The analysis will focus, among other things, on the historical and current financial</p>

condition of the company, capital structure, business prospects, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research and technological know-how and transparency in corporate governance. The quality or strength of management would be a key focus area.

Derivative Strategies

The Scheme may use various techniques/strategies using derivative instruments for hedging as well as non-hedging purpose. Below is summary of some of the techniques which fund can employ. Please refer to Statement of Additional Information (SAI) for detailed description of derivative strategies.

Equity Derivatives

1) Index/ Stock spot - Index/ Stock Futures:

- The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio
- Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase

2) Index/ Stock options

- The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase.

3) Stock Arbitrage

- This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavor to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market.

4) Index Arbitrage:

- Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium.
- The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated

5) Corporate Action / Event Driven Strategies:

I. IDCW Arbitrage

- At the time of declaration of IDCW, the stock futures / options market can provide a profitable opportunity. Generally, the stock prices decline by the IDCW amount when the stock becomes ex-IDCW.

II. Buy-Back/ Open Offer Arbitrage

- When the Company announces the buy-back or open offer of its own shares, there could be opportunities due to price differential in buyback price and traded price.

III. Merger

- When the Company announces any merger, amalgamation, hive off, de-merger, etc, there could be opportunities due to price differential in the cash and the derivative market.

6) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment manager is expecting a market correction, the Investment manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels

7) Reverse Arbitrage:

- This strategy will be adopted if the cash price of a stock (say “XYZ”) is reasonably greater than single stock futures of XYZ, and then the Investment Manager may sell cash position in XYZ and buy single stock futures of XYZ. In this case the Investment Manager will still be having a long-term view on the stock XYZ but is able to minimize the cost of holding of XYZ.

Fixed Income Derivatives

1) Interest Rates Swap

- The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure

2) Interest Rate Futures (IRF)

- IRFs can be used for hedging interest rate exposure.

3) Forward Rate Agreement (FRA)

- An FRA is an off-balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount.

FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

For detailed derivative strategies, please refer to SAI.

Strategy for Fixed Income Securities

Fixed Income research by the Investment Manager will emphasise credit analysis, in order to determine credit risk. Credit analysis will focus on the issuer's historical and current financial condition, current and anticipated cash flow and borrowing requirements, value of assets in relation to historical cost, strength of management, responsiveness to business conditions, credit standing, future business prospects as well as current and anticipated operating results, among other things. The Investment Manager will also analyse various economic trends in seeking to determine the likely future course of interest rates. The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE etc. or in unrated debt securities, which the Investment Manager believes to be of equivalent quality. Where investment in unrated debt securities is sought to be made, specific approval of the Committee/Board of Directors of the AMC and the Trustee shall be obtained prior to investment.

Representative Index

DSP Healthcare Fund, a sector specific Scheme, shall focus on investing in pharmaceutical, healthcare and associated companies as mentioned earlier, keeping 'BSE Healthcare Index' (the Index) as the representative index. The Scheme shall have the flexibility to invest in stocks that are outside the composition of the Index but are within the investment focus of the Scheme. The Scheme may broadly follow the composition of the Index without necessarily tracking it. In accordance with clause 12.5.1 of SEBI Master Circular, the Scheme being a sector specific Scheme, the upper ceiling on equity investments in a company by the Scheme shall be the weightage of the company in the representative sectoral index i.e., the Index as disclosed above or 10% of the NAV of the Scheme, whichever is higher.

The Trustees reserves the right to change the Index, if any other appropriate/suitable index is available at a future date, in accordance with SEBI (MF) Regulations.

The composition of the Index is given below for reference. Investors are requested to note that the composition and weightage of the scrips in the index may be modified by The Stock Exchange, Mumbai, from time to time.

Risk Mitigation Strategies

Risks associated with Equity investments:

- i. **Liquidity Risk:** The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any.
- ii. **Concentration Risk:** The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low.
- iii. **Market Risk:** The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme

Risks associated with favorable taxation of equity-oriented Scheme:

Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.

Risks associated with Stock Lending:

The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.

Risks associated with Equity Derivative investments:

The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.

Risks associated with fixed income Derivative investments:

Investment managers will ensure adherence to the limits and the guidelines as issued by SEBI / RBI from time to time for forward rate agreements and interest rate swaps and other fixed income derivative products.

Risks associated with Debt Securities and Money Market Securities:

	<p>i. Market Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations.</p> <p>Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other.</p> <p>ii. Credit Risk: Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and operating strength of the issuer.</p> <p>iii. Rating Migration Risk: The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues.</p> <p>iv. Interest Rate Risk: The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives.</p> <p>v. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.</p> <p>vi. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme.</p> <p>Risks associated with Investments in REITs and InvITs:</p> <p>The Investment Manager endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed by the Investment Manager. The Investment Manager also relies on its own research as well as third party research. This involves one-to-one meetings with the managements, attending conferences and analyst meets and also tele-conferences. The analysis will focus, amongst others, on the predictability and strength of cash flows, value of assets, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, etc.</p> <p>Risk Associated with overseas mutual funds / ETFs and Index securities:</p> <p>i. Liquidity Risk on account of investments in overseas funds: The investments are made in international funds, which provide daily liquidity.</p> <p>ii. Expense Risks associated with investments in overseas funds: The aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.</p> <p>iii. Portfolio Disclosure Risks associated with investments in overseas fund: Although full portfolio disclosure is not available at the end of each month, top ten holdings as well as sector holdings are made available at the end of each month for the overseas</p>
--	--

	<p>fund. Full portfolio holdings can be obtained from underlying Overseas funds generally with a three-month lag i.e. March portfolio can be obtained at the end of June</p> <p>iv. Investment Policy and/or fundamental attribute change risks associated with investments in overseas funds: Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However, there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.</p> <p>v. Monitoring overseas investment limits: The Investment Manager will keep monitoring the overseas investments limits. In case of an adverse event the Investment Manager may initiate appropriate action like investing across other areas as permitted by the scheme document or any other action to ensure that the investor interest is safeguarded.</p>

Notes to Table:

^In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may also charge the following to the Scheme of the Fund under Regulation 52 (6A):

- a. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions.

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

- b. Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:
 - i. 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
 - ii. 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investors".

The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.

Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

- c. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable

Expense Structure for Direct Plan -

Direct Plan will have lower expense ratio than Regular Plan of the Scheme. The expenses under Direct Plan shall exclude the distribution and commission expenses and additional expenses for gross new flows from specified cities under regulation 52(6A)(b). All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a Regular Plan.

Note-

1. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

Note 2: Short Term Deposit

Pending deployment of funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular. The AMC may invest funds of the Scheme in short-term deposits of scheduled commercial banks, subject to the following conditions:

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.
3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.

	<p>6. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.</p> <p>7. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.</p> <p>The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.</p> <p>Cumulative Gross Exposure</p> <p>As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt, derivative positions, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.</p> <p>Portfolio Rebalancing:</p> <p>Rebalancing of deviation due to short term defensive consideration:</p> <p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p> <p>Portfolio rebalancing in case of passive breach:</p> <p>As per Clause 2.9 of the SEBI Master Circular and clarifications/ guidelines issued by AMFI / SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.</p> <p>In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Clause 2.9 of the SEBI Master Circular.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p>
Investment Strategy	<p>Strategy for Equity Securities</p> <p>In respect of the investments envisaged by the scheme in equity and equity related securities, as mentioned in, "How Will the Scheme(s) allocate its Assets?", the Investment Manager will generally adhere to the following policies:</p>

- (i) The Investment Manager will select equity securities on a bottom-up, stock-by-stock basis, with consideration given to low price to- earnings, price-to-book and price-to-sales ratios, as well as growth, improving margins, asset turns and cash flows, amongst others.
- (ii) The Investment Manager will use a disciplined quantitative analysis of financial operating statistics. In picking out individual investment opportunities for the portfolio, among the defined universe eligible for investment, the Investment Manager will seek both value and growth. Value is discerned when the Investment Manager believes that the long term growth potential of a company is not fully reflected in the market price of the company's securities and which potential it seeks to better every year, capitalizing on its various strengths, which could mean strong brand equity, growing market share, strong management and technological excellence, among others. Growth stocks, as the term suggests, are those stocks that are currently in the growth phase. The super-normal growth could be due to a new product, a new process, growing market share, stronger brand equity, technological breakthrough and unique position in a market, among other factors. The endeavor of the investment Manager will be to pick stocks which could become potential leaders in their respective fields in the future.
- (iii) The Investment Manager will conduct in-house research in order to identify various investment opportunities. The company-wise analysis will focus, among others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earning growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance.

Strategy for Fixed Income Securities

The Investment Manager will invest only in those debt securities which are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, FITCH etc., or in unrated debt securities which the Investment Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to the investment.

Trading in Derivatives

The Scheme may use various techniques/strategies using derivative instruments for hedging as well as non-hedging purpose. Below is summary of some of the instruments / techniques which fund can employ. Please refer to Statement of Additional Information (SAI) for detailed description of derivative strategies.

Equity Derivatives

1) Index/ Stock Futures:

- The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio
- Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase

2) Index/ Stock options

- The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase.

3) Stock Arbitrage

- This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavour to simultaneously sell the future at a premium on a quantity

neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market.

4) Index Arbitrage:

- Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium.
- The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated

5) Reverse Arbitrage:

This strategy will be adopted if the cash price of a stock (say “XYZ”) is reasonably greater than single stock futures of XYZ, and then the Investment Manager may sell cash position in XYZ and buy single stock futures of XYZ. In this case the Investment Manager will still be having a long-term view on the stock XYZ but is able to minimize the cost of holding of XYZ.

6) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment Manager is expecting a market correction, the Investment Manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment Manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels.

Fixed Income Derivatives

1) Interest Rates Swap

- The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure

2) Interest Rate Futures (IRF)

- IRFs can be used for hedging the underlying cash positions.

3) Forward Rate Agreement (FRA)

- An FRA is an off-balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount.
- FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

For detailed derivative strategies, please refer to SAI.

Portfolio Turnover:

	<p>Portfolio turnover is defined as the lower of the aggregate value of purchases or sales, as a percentage of the average corpus of the Scheme during a specified period of time. This will exclude purchases and sales of money market securities.</p> <p>The portfolio turnover in the Scheme will be a function of the inflows in the form of subscriptions into the Scheme and outflows in the form of redemptions from the Scheme, as well as the market opportunities available to the Investment Manager. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio(s). It will be the endeavor of the Investment Manager to keep portfolio turnover rates as low as possible. However, there are trading opportunities that present themselves from time to time, where in the opinion of the Investment Manager, there is an opportunity to enhance the total returns of the portfolio. The Investment Manager will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived therefrom. Although the exchange-traded equity derivatives contracts in India are available upto 3 months, the liquidity is predominantly in the one month contracts (near month contracts).</p>
Risk Profile of the scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>1) Risks associated with transacting in scheme units through stock exchange mechanism 2) Risk associated with principles of efficient portfolio management 3) Risk associated with favorable taxation of certain scheme in India 4) Risk factors related to Taxation of overseas investments, 5) Risks associated with Equity and Equity-related securities / investments 6) Risk associated with Securities Lending & Borrowing and Short Selling 7) Risks Associated with Trading In Equity Derivatives 8) Risk Factors associated with investments in Debt Securities and Money Market Securities 9) Risk associated with investments in debt instruments having Structured Obligations / Credit Enhancements, 10) Risk associated with investment in unrated security, 11) Risk factors associated with Investment in special feature bonds, 12) Risk associated with investment in Tri-Party Repo, 13) Risks associated with Overseas Securities 14) Risk associated with investments in overseas mutual funds / ETFs / Index Funds 15) Risks associated with underlying BGF schemes, 16) Risk associated with Depository Receipts 17) Risk factors associated with investments in Perpetual Debt Instrument (PDI), 18) Risks associated with investments in Securitized Assets. 19) Risks Associated with fixed income Derivatives. 20) Risk of substantial redemption.</p> <p>For details on risk factors and risk mitigation measures, please refer SID.</p> <p><u>Risk Mitigation Strategies: Risks associated with Equity investments:</u></p> <ol style="list-style-type: none"> i. Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any. ii. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low. iii. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company- wise

analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme

Risks associated with favorable taxation of equity-oriented Scheme:

Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.

Risks associated with Stock Lending:

The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.

Risks associated with Equity Derivative investments:

The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.

Risks associated with fixed income Derivative investments:

Investment managers will ensure adherence to the limits and the guidelines as issued by SEBI / RBI from time to time for forward rate agreements and interest rate swaps and other fixed income derivative products.

Risks associated with Debt Securities and Money Market Securities:

- i. **Market Liquidity Risk:** The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations.

Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other.

- ii. **Credit Risk:** Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and operating strength of the issuer.
- iii. **Rating Migration Risk:** The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues.
- iv. **Interest Rate Risk:** The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the

	<p>investment objectives.</p> <p>v. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.</p> <p>vi. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme.</p> <p>Risk Associated with overseas mutual funds / ETFs and Index securities:</p> <p>i. Liquidity Risk on account of investments in overseas funds: The investments are made in international funds, which provide daily liquidity.</p> <p>ii. Expense Risks associated with investments in overseas funds: The aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.</p> <p>iii. Portfolio Disclosure Risks associated with investments in overseas fund: Although full portfolio disclosure is not available at the end of each month, top ten holdings as well as sector holdings are made available at the end of each month for the overseas fund. Full portfolio holdings can be obtained from underlying Overseas funds generally with a three-month lag i.e. March portfolio can be obtained at the end of June</p> <p>iv. Investment Policy and/or fundamental attribute change risks associated with investments in overseas funds: Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However, there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.</p> <p>v. Monitoring overseas investment limits:</p> <p>The Investment Manager will keep monitoring the overseas investments limits. In case of an adverse event the Investment Manager may initiate appropriate action like investing across other areas as permitted by the scheme document or any other action to ensure that the investor interest is safeguarded.</p> <p>vi. Risks associated with investments in BGF-SEF and BGF-WEF:</p> <p>To the extent of the investments in BGF-SEF and BGF-WEF by the Scheme, the risks of BGF-SEF and BGF-WEF will exist. The investors should note that these risks cannot be defeased as these are international funds managed by BlackRock. However, as part of our due diligence, we have chosen funds, which have long term performance track record, stability of fund management team and are accredited by third party funds evaluators like S&P, Morningstar and OBSR.</p> <p>vii. Risk management for risk associated with Depository Receipts</p> <p>Should there be investments in ADRs/GDRs of Indian companies or foreign securities, the investment process of the fund manager will ensure that a comprehensive company specific due diligence is performed.</p>

Note-

Note 1-

Mutual Fund schemes (except Index Funds and ETFs) may write call options only under a covered call strategy for constituent stocks of NIFTY 50 and BSE SENSEX subject to the following:

- a. The total notional value (taking into account strike price as well as premium value) of call options written by a scheme shall not exceed 15% of the total market value of equity shares held in that scheme.
- b. The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.
- c. At all points of time the Mutual Fund scheme shall comply with the provisions at (a) and (b) above. In case of any passive breach of the requirement at (a), the respective scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the said scheme.
- d. In case a Mutual Fund scheme needs to sell securities on which a call option is written under a covered call strategy, it must ensure compliance with (a) and (b) above while selling the securities.
- e. In no case, a scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts
- f. The premium received shall be within the requirements prescribed in terms of Clause 12.25.2 of SEBI Master Circular i.e. the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the scheme.
- g. The exposure on account of the call option written under the covered call strategy shall not be considered as exposure.
- h. The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the respective scheme(s) until the position is closed or expired.

Note 2-

All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

Note 3- Short Term Deposit

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.

3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.
6. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.
7. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Cumulative Gross Exposure

As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt, derivative positions, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Portfolio Rebalancing:

Rebalancing of deviation due to short term defensive consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.

It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

Portfolio rebalancing in case of passive breach:

As per Clause 2.9 of the SEBI Master Circular and clarifications/ guidelines issued by AMFI / SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.

In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Clause 2.9 of the SEBI Master Circular.

It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

Investment Strategy

What is a factor model and why do factors work and why the preference for a multi-factor approach?

Factor strategies (also known as smart beta) today combine active and passive investing models providing the investors with the tools to express investment preferences and philosophies in an efficient manner.

Driven primarily by underperformance and shrinking alpha particularly in the large cap space, such strategies have, in recent years, gained tremendous popularity particularly in developed markets.

Globally, some of the most researched factors and the reasons for the risk-premia associated with them are the following:

Table 1: Illustration of globally most researched factors and reasons for associated risk premia

Factor	Performance/Risk drivers
Growth	<ul style="list-style-type: none"> Premium associated with companies that have consistently delivered on Earnings growth. Since most of the present value of these companies comes from future cash-flows, they are most susceptible to changes in interest rates (discount rate) and the growth outlook.
Quality	<ul style="list-style-type: none"> Well run companies with high earnings visibility. Companies that typically avoid over leveraging and are perceived as being less risky. Perception of lower risk brings down cost of capital, improving margins and increasing return on equity.
Value	<ul style="list-style-type: none"> Typically highly leveraged companies with lower ability to withstand macro shocks. Value premium can be viewed as a compensation for macro risk.
Technical Factors (Momentum, Sentiment)	<ul style="list-style-type: none"> Trend-based factors seek to profit from the persistence of prevailing trends in the market that are caused by psychological influences that influence investor behavior Sentiment analysis is used to identify the overall attitude of investors towards a particular stock or the overall market. Sentiment analysis uses published articles, reports and commentaries pertaining to certain stocks.
Macro Factors	<p>Macroeconomic factors capture broad risks that exist across asset classes. For example:</p> <ul style="list-style-type: none"> Economic growth - exposure to the business cycle Real rates - risk of interest rate movements Inflation - exposure to changes in prices Credit - default risk from lending to companies
New factor research using machine learning	<p>Over the past few years, application of machine learning in the field of investment is attracting a lot of attention. A large amount of research has been conducted in this area with promising results.</p> <p>Machine learning is an umbrella term used for methods and algorithms that allow machines to uncover patterns without explicit programming instructions. In the case of stock selection, modelers supply a variety of factors that might help in forecasting future returns and use Machine Learning Algorithms to learn which factors matter and how they are related to future returns. They can uncover complex patterns and hidden relationships, including non-linear and contextual relationships that are often difficult or impossible to detect with linear analysis.</p>

How to measure factor exposures?

Exposures to various factors can be measured in several ways using fundamental, price, macro and non-traditional data sets. The below list is not an exhaustive list. As markets evolve and data availability as well as academic research becomes more sophisticated, the universe of factors and definitions and measurements keeps evolving.

Table 2: Example of commonly used descriptors for factors (this is not an exhaustive list).

Factor	Descriptors
Growth	<ul style="list-style-type: none"> • Historical Earnings Growth • Estimated Consensus Earnings Growth • Growth in revenues • Growth in assets
Quality	<ul style="list-style-type: none"> • Return-on-Equity (ROE) • Earnings Growth Variability • Return-on-Invested Capital (ROIC)
Value	<ul style="list-style-type: none"> • Price/Book ratio • Estimated FY1 Price/Earnings ratio • Dividend Yield • Free-Cashflow Yield • EV/EBITDA • Price/Sales ratio
Momentum	<ul style="list-style-type: none"> • 12 month price returns • 6 month price returns
Macro	<ul style="list-style-type: none"> • Sensitivity to interest rates • Sensitivity to inflation

The factors used in the quant model have been selected based on extensive back-tests to establish whether they have historically generated excess returns over time.

The factors are also selected such that there is a combination of factors to create a multi-factor model.

DSP Quant Fund: Investment Strategy and Model Implementation

Our endeavor is to create an automated stock picking and weighting model that generates portfolio which maximize characteristics of the chosen factors while adhering to liquidity and risk concentration constraints.

The fund will predominantly invest in stocks from a universe of BSE 200 TRI selected based on quantitative measures like data availability, liquidity, market cap etc. Subsequently, the quant model will identify stocks within the universe that display the chosen factors such as value, quality, momentum, growth, etc. based on the quant model parameters. The model parameters may be modified as per the market regime.

Why BSE 200 as benchmark?

The Scheme will predominantly invest in stocks selected from a universe of BSE 200. We opine that BSE 200 represents a universe of reasonably liquid, well researched companies. The vast number of active funds in the large cap space are also benchmarked to BSE 200 for the same reason.

Importance of negative 'exclusion' criteria:

Our backtests suggest that not owning 'poorly run companies' is also a significant source of outperformance over the long term.

We narrow down the universe by applying objective criteria that excludes companies that are either very illiquid or score poorly on governance standards, excessive leverage or past drawdown behaviour or capital allocation or return metrics or on operating parameters consistently etc.

Benefits of Multi-factor portfolio construction approach:

- We select factors based on academic research, economic rationale and based on extensive backtests to establish whether they have historically generated excess returns over time. We also try to balance out the factors such that the combination can be expected to have a balanced performance in both 'bull' and 'bear' markets.

- Since individual factors go through phases of outperformance and underperformance over a business cycle, it is imperative for a multifactor strategy to have a mix of 'pro-cyclical' and 'defensive' factors to have a balanced performance in different market conditions. Our final factor selection is also influenced by this fact.

Combination of factors helps the resultant portfolio have balanced return profile across all market regimes and avoids cyclicity of performance often associated with single-factor models.

Determination of final portfolio constituents and weights:

The quant model will identify stocks that display the chosen factors such as value, quality, momentum, growth, etc. based on the model parameters. The model parameters may be modified as per the market regime.

The process from universe selection to portfolio construction would be largely systematic and optimized with the aim of maximizing the return within prudent risk constraints.

The weights are primarily optimised around prudent diversification, with inputs from volatility observed, consideration of portfolio churn etc.

Stock level weights in the portfolio to be capped at 10%, (avoid concentration, ensure liquidity/capacity)

The portfolio of the Scheme will be reviewed constantly and rebalanced on at least monthly basis based on the output of the model. The fund manager will review, update and maintain the model on an ongoing basis and make changes as and when necessary.

Although the scheme will predominantly invest in stocks as per the quant model theme, it retains the flexibility to take some exposure beyond the theme based on the Fund manager's discretion. The Fund manager may use some discretion to adapt investment rules/factors to novel market phases, at inflection points and to manage volatility.

The AMC may review and modify the quant model if such changes are considered to be in the best interest of unit holders. However, such changes shall be within the overall contours of the Investment Strategy.

Enable writing of call options under a covered call strategy:

Enable scheme to write call options under a covered call strategy in accordance with SEBI (Mutual Funds) Regulations, 1996 and in line with clause 12.25.8 of the SEBI Master Circular.

Benefits of Writing of Call Option Under a Covered Call Strategy

A call option gives the holder (buyer) the right but not the obligation to buy an asset by a certain date for a certain price. Covered calls are an options strategy where a person holds a long position in an asset and writes (sells) call options on that same asset.

The strategy offers the following benefits:

- 1) Generating additional returns in the form of option premium in a range bound market.
- 2) Down side protection to the extent of premium collected - Since the fund manager sells a call option on a stock already owned by the mutual fund scheme, the downside from fall in the stock price would be lower to the extent of the premium earned from the call option.

Thus, a covered call strategy involves gains for unit holders in case the strategy plays out in the right direction.

Illustration I - Covered Call strategy using stock call options:

A fund manager buys equity stock of ABC Ltd. for Rs. 1000 and simultaneously sells a call option on the same stock at a strike price of Rs. 1100. Further. it is assumed that the scheme has earned a premium

of Rs. 50 and the fund manager is of the opinion that the stock price will not exceed Rs. 1100, during the expiry period of the option

Scenario 1: Stock price exceeds as 1100

The call option will get exercised and the fund manager will sell the stock to settle his obligation on the call at Rs. 1100 (earning a return of 10% on the stock purchase price. Also, since the scheme has earned a premium of Rs. 50, this has reduced the purchase cost of the stock Rs. 1000 - Rs. 50 - Rs 950. Hence, the Net Gain - Rs. 150 (Rs 100 stock appreciation + Rs 50 call option premium) (However, please note that in a scenario where the stock once reaches Rs. 1300, investment in long only equity would be more beneficial than a covered call strategy as the net gain under the covered call strategy would be Rs. 150, against a net gain of Rs. 300 under a pure long only equity strategy

Illustration II: Stock prices stays below Rs.1100

The call option will not get exercised and will expire worthless. The premium earned on call option will generate alpha for the scheme. Hence, the Net Gain is Rs. 50

Derivative Strategies

Equity Derivatives

1) Index/ Stock spot - Index/ Stock Futures:

- The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio
- Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase

2) Index/ Stock options

- The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase.

3) Stock Arbitrage

- This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavor to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market.

4) Index Arbitrage:

- Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium.
- The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated

5) Corporate Action / Event Driven Strategies:

I. IDCW Arbitrage

- At the time of declaration of IDCW, the stock futures / options market can provide a profitable opportunity. Generally, the stock prices decline by the IDCW amount when the stock becomes ex-IDCW.

II. Buy-Back/ Open Offer Arbitrage

- When the Company announces the buy-back or open offer of its own shares, there could be opportunities due to price differential in buyback price and traded price.

III. Merger

- When the Company announces any merger, amalgamation, hive off, de-merger, etc, there could be opportunities due to price differential in the cash and the derivative market.

6) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment manager is expecting a market correction, the Investment manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels

7) Covered Call

- The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. This strategy is also employed when the Fund Manager has a short-term neutral view on the asset and for this reason holds the asset long and simultaneously takes a short position via covered call option strategy to generate income from the option premium.

Fixed Income Derivatives

1) Interest Rates Swap

- The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure

2) Interest Rate Futures (IRF)

- IRFs can be used for hedging interest rate exposure.

3) Forward Rate Agreement (FRA)

- An FRA is an off balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount.
- FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Portfolio Turnover

Portfolio turnover is defined as the lower of the aggregate value of purchases or sales as a percentage of the corpus of a scheme during a specified period of time. This will exclude purchases and sales of money market securities. The Scheme is open ended, with subscriptions and redemptions expected on a daily basis, resulting in net inflow/outflow of funds, and on account of the various factors that affect portfolio turnover; it is difficult to give an estimate, with any reasonable amount of accuracy.

Therefore, the Scheme has no specific target relating to portfolio turnover.

Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any. ii. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low. iii. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and operating strength of the issuer. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. 	The Investment Manager will endeavor to manage counterparty risk in corporate debt repos by dealing only with counterparties having strong credit profiles or through tri-party corporate repos done on the exchange platforms. The collateral risk is mitigated by restricting participation in repo transactions only in AA and above rated money market and corporate debt securities, where potential for downgrade/default is low. In addition, appropriate haircuts are applied on the market value of the underlying securities to adjust for the illiquidity and interest rate risk on the underlying instrument.

Applicable NAV	Applicable NAV is the Net Asset Value per Unit at the close of the Business Day on which a valid application is accepted and time stamped. An application will be considered accepted on a Business Day, subject to it being complete in all respects and received and time stamped upto the relevant cut-off time as specified below, at any of the official points of acceptance of transactions. Applications received via post or courier at any of the centres will be accepted on the basis of when the application is time stamped by the centre and not on the basis of date and time of receipt of the post or the courier.								
	In accordance with the clause 8.4.6.2 of the SEBI Master Circular, in respect of purchase of units of mutual fund schemes (except liquid and overnight schemes), closing NAV of the day shall be applicable on which the funds are available for utilization irrespective of the size and time of receipt of such application.								
	Pursuant to above, the NAV applicability for purchase/switch-in/ subscription in the Scheme will be subject to following clauses:								

1. Application for purchase/subscription/switch-in is received before the applicable cut-off time on a Business Day.
2. Funds for the entire amount of purchase/subscription/switch-in as per the application is credited before the cut-off time to the bank account of the Scheme in which subscription is made.
3. The funds are available for utilization before the cut-off time the Scheme.

Particulars	Applicable NAV
Where the valid application is received upto cut-off time of 3.00 p.m. on a business day at the official point(s) of acceptance and funds for the entire amount of subscription/purchase are available for utilization upto 3.00 p.m. on the same Business Day.	Closing NAV of same Business Day shall be applicable
Where the valid application is received upto cut-off time of 3.00 p.m. on a business day at the official point(s) of acceptance and funds for the entire amount of subscription/purchase are available for utilization after 3.00 p.m. on the same Business Day or on any subsequent Business Day	Closing NAV of such subsequent Business Day on which the funds are available for utilization prior to 3.00 p.m.
Where the valid application is received after cut-off time of 3.00 p.m. on a business day at the official point(s) of acceptance and funds for the entire amount of subscription/purchase/switch-in are available for utilization upto 3.00 p.m. on the same Business Day.	Closing NAV of subsequent Business Day shall be applicable
(b) Redemption and Switch-out	
Particulars	Applicable NAV
Where the valid application is received on any Business Day at the official points of acceptance of transactions upto 3.00 p.m.	NAV of the same day
Where the valid application is received after 3.00 p.m.	NAV of the next Business Day.

Transaction through online facilities/ electronic mode: The time of transaction done through various online facilities/electronic modes offered by the AMC, for the purpose of determining the applicability of NAV, would be the time when the request of purchase/sale/switch of units is received in the servers of AMC/RTA as per terms and conditions of such facilities.

With respect to investors who transact through the stock exchange, Applicable NAV shall be reckoned on the basis of the time stamping as evidenced by confirmation slip given by stock exchange mechanism.

Applicable Net Asset Value in case of Multiple applications/transactions received under all open-ended Schemes of the Fund: All transactions as per conditions mentioned below shall be aggregated and closing NAV of the day on which funds for respective transaction (irrespective of source of funds) are available for utilization.

- a. All transactions received on same Business Day (as per cut-off timing and Time stamping rule).
- b. Aggregation of transactions shall be applicable to the Scheme.
- c. Transactions shall include purchases, additional purchases and exclude Switches, SIP/STP and trigger transactions.

	<p>d. Aggregation of transactions shall be done on the basis of investor/s/Unit Holder/s Permanent Account Number (PAN). In case of joint holding in folios, transactions with similar holding pattern will be aggregated. The principle followed for such aggregation will be similar as applied for compilation of Consolidated Account Statement (CAS).</p> <p>e. All transactions will be aggregated where investor holding pattern is same as stated in point no.4 above.</p> <p>f. Only transactions in the same Scheme of the Fund shall be clubbed. It will include transactions at Plans/Options level (i.e. Regular Plan, Direct Plan, IDCW Option, Growth Option, etc).</p> <p>g. Transactions in the name of minor received through guardian will not be aggregated with the transaction in the name of same guardian. However, two or more transactions in folios of a minor received through same guardian will be considered for aggregation.</p> <p>h. In the case funds are received on separate days and are available for utilization on different business days before the cut off time, the applicable NAV shall be of the Business day/s on which the cleared funds are available for utilization for the respective application amount.</p> <p>i. Irrespective the date and time of debit to the customer bank accounts, the date and time of actual credit in the Scheme's bank account, which could be different due settlement cycle in the banking industry, would be considered for applicability of NAV.</p> <p>j. Investors are advised to make use of digital/electronic payment to transfer the funds to the Scheme's bank account.</p> <p>Note for switching: Where there is a switch application from one scheme to another, 'Switch out' shall be treated as redemption in one scheme and the Applicable NAV based on the cut off time for redemption and payout rules shall be applied. Similarly, the 'switch in' shall be treated as purchase and the Applicable NAV based on the cut off time for purchase and realization of funds by the 'switch in' scheme related rules shall be applied.</p> <p>Where an application is received and time stamping is done after the cut-off time, the request will be deemed to have been received on the next Business Day.</p>

Notes to Table:

^In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may also charge the following to the Scheme of the Fund under Regulation 52 (6A):

- a. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions.

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

- b. Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:
- 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
 - 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investors."

The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.

Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

- c. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable

Expense Structure for Direct Plan -

Direct Plan will have lower expense ratio than Regular Plan of the Scheme. The expenses under Direct Plan shall exclude the distribution and commission expenses and additional expenses for gross new flows from specified cities under regulation 52(6A)(b). Indicative table is subset of primary asset allocation table mentioned above and both shall be read in conjunction.

Note-

1. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

Note 2: Short Term Deposit

Pending deployment of funds of the Scheme shall be in terms of clause 12.16 of the SEBI Master Circular. The AMC may invest funds of the Scheme in short-term deposits of scheduled commercial banks, subject to the following conditions:

1. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
2. Such deposits shall be held in the name of the Scheme.
3. The Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
4. The Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
5. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.
6. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
7. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Cumulative Gross Exposure

As per Clause 12.24 of the SEBI Master Circular, the cumulative gross exposure through equity, debt, derivative positions, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities, Repo on Government Securities and any other securities as may be allowed under the regulations prevailing from time to time subject to the regulatory approval, if any, having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

	<p>Portfolio Rebalancing:</p> <p>Rebalancing of deviation due to short term defensive consideration:</p> <p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term on defensive considerations as per Clause 1.14.1.2 of the SEBI Master Circular; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days.</p> <p>It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.</p> <p>Portfolio rebalancing in case of passive breach:</p> <p>As per Clause 2.9 of the SEBI Master Circular and clarifications/ guidelines issued by AMFI / SEBI from time to time, in the event of deviation from mandated asset allocation mentioned, passive breaches (i.e. occurrence of instances not arising out of omission and commission of AMC), shall be rebalanced within 30 business days. Where the portfolio is not rebalanced within above mentioned period, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.</p> <p>In case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Clause 2.9 of the SEBI Master Circular.</p>
<p>Investment Strategy</p>	<p>Strategy for Equity Securities</p> <p>It is the Investment Manager's belief that India's future GDP growth will be strongly influenced by the ongoing process of economic reforms. The economic reforms process involves structural changes in various sectors and companies, including but not restricted to, encouraging private investment, de-regulation of pricing, government aided programs and change towards private ownership. The primary objective of these initiatives is to accelerate the pace of investment and therefore attract investment capital. Increase in investment capital may result in value creation out of new investments and value unlocking out of existing investments. Such value creation could be reflected through increased corporate profits and better market capitalisation. The Mutual Fund seeks to capture this value creation potential and therefore will endeavor to participate in the likely upside to market capitalisation. With regard to economic reforms, the focus will be on companies/sectors which are likely to be affected by policy change in ownership patterns (egs. Disinvestment, increase in FDI limits, opening of business to private sector), policy change in pricing (eg. De-regulation of price control), policy change in funding (eg. Government funding programmes for upgradation of specific sectors) and any other change that may be initiated in future as a part of economic reforms.</p> <p>The government is also lining up significant spending on infrastructure, at a scale unprecedented in India's history. The planned investments are expected to increase the pace of GDP growth going forward. The Golden Quadrilateral and North South East West Corridor is the single largest example of infrastructure development, which could scale up economic growth substantially. Here the focus will be on companies/sectors which will benefit from large scale investments into infrastructure projects. Such changes, though gradual in their evolution, instill greater confidence in the minds of the investor, domestic or foreign. Such beneficial changes are catalysts, among others, for increased investor interest in the stock market as well.</p> <p>The Investment Manager will be adopting a combination of the top down approach and bottom up stock selection approach. From a top down perspective, the focus would be on an analysis of key policy changes, infrastructure spending, economic trends, and a sectorwise impact assessment. From a bottom up perspective, the focus would be on an analysis of corporate profitability and the impact of policy changes and infrastructure spending at a micro-level. The focus would be on sectors and corporates which could witness significant value creation and unlocking of value on the back of policy changes and infrastructure spending.</p>

	<p>In picking out individual investment opportunities for the portfolio, among the defined universe eligible for investment, the Investment Manager will seek both value and growth, which are likely to emanate from the ongoing structural changes in government policy and infrastructure development.</p> <p>The Investment Manager will conduct in-house research in order to identify various investment opportunities. The analysis of companies will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, market share, competitive edge, research and technological know-how.</p> <p>Strategy for Fixed Income Securities</p> <p>The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency such as CRISIL, ICRA, CARE, FITCH etc. or in unrated debt securities which the Investment Manager believes to be of equivalent quality. In the case of unrated debt securities, the approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment.</p> <p>Derivative Strategies</p> <p>The Scheme may use various techniques/strategies using derivative instruments for hedging as well as non-hedging purpose. Below is summary of some of the techniques which fund can employ. Please refer to Statement of Additional Information (SAI) for detailed description of derivative strategies.</p> <p><u>Equity Derivatives</u></p> <ol style="list-style-type: none"> 1) Index/ Stock spot - Index/ Stock Futures: <ul style="list-style-type: none"> • The Fund would sell futures contracts on securities/indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio • Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase 2) Index/ Stock options <ul style="list-style-type: none"> • The Scheme may purchase put and call stock/index options to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase. 3) Stock Arbitrage <ul style="list-style-type: none"> • This strategy is employed when the price of the future is trading at a premium to the price of its underlying in spot market. The Scheme shall buy the stock in spot market and endeavor to simultaneously sell the future at a premium on a quantity neutral basis. In this way scheme shall lock in a spread which is not affected by the price movement of cash market and futures market. 4) Index Arbitrage: <ul style="list-style-type: none"> • Index arbitrage opportunity exists when Index future is trading at a discount to the index (spot) and the futures of the constituent stocks are trading at a cumulative premium. • The investment manager shall endeavour to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index (constituent stock futures). Based on the opportunity, the reverse position can also be initiated 5) Corporate Action / Event Driven Strategies: <ol style="list-style-type: none"> I. IDCW Arbitrage
--	--

- At the time of declaration of IDCW, the stock futures / options market can provide a profitable opportunity. Generally, the stock prices decline by the IDCW amount when the stock becomes ex-IDCW.
- II. Buy-Back/ Open Offer Arbitrage**
- When the Company announces the buy-back or open offer of its own shares, there could be opportunities due to price differential in buyback price and traded price.
- III. Merger**
- When the Company announces any merger, amalgamation, hive off, de-merger, etc, there could be opportunities due to price differential in the cash and the derivative market.

6) Portfolio Hedging:

This strategy will be adopted:

- If in an already invested portfolio of a Scheme, the Investment manager is expecting a market correction, the Investment manager may sell Index Futures to insulate the portfolio from the market related risks.
- If there are significant inflows to the Scheme and the market expectations are bullish, the Investment manager may buy Index Futures to continue participation in the equity markets. This strategy is used to reduce the time to achieve the desired invested levels

7) Reverse Arbitrage:

- This strategy will be adopted if the cash price of a stock (say “XYZ”) is reasonably greater than single stock futures of XYZ, and then the Investment Manager may sell cash position in XYZ and buy single stock futures of XYZ. In this case the Investment Manager will still be having a long-term view on the stock XYZ but is able to minimize the cost of holding of XYZ.

Fixed Income Derivatives

1) Interest Rates Swap

- The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure

2) Interest Rate Futures (IRF)

- IRFs can be used for hedging interest rate exposure.

3) Forward Rate Agreement (FRA)

- An FRA is an off balance sheet agreement to pay or receive on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount.
- FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments

	<p>Portfolio Turnover Portfolio turnover is defined as the lower of the aggregate value of purchases or sales, as a percentage of the average corpus of the Scheme during a specified period of time. This will exclude purchases and sales of money market securities.</p> <p>The portfolio turnover in the Scheme will be a function of the inflows in the form of subscriptions into the Scheme and outflows in the form of redemptions from the Scheme, as well as the market opportunities available to the Investment Manager. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio(s). It will be the endeavor of the Investment Manager to keep portfolio turnover rates as low as possible. However, there are trading opportunities that present themselves from time to time, where in the opinion of the Investment Manager, there is an opportunity to enhance the total returns of the portfolio. The Investment Manager will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived therefrom. Although the exchange-traded equity derivatives contracts in India are available upto 3 months, the liquidity is predominantly in the one month contracts (near month contracts).</p>
Risk Profile of the scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>Risk of substantial redemption, Risks associated with transacting in scheme units through stock exchange mechanism, Risk associated with principles of efficient portfolio management, Risk associated with favorable taxation of certain scheme in India, Risk factors related to Taxation of overseas investments, Risks associated with Equity and Equity-related securities / investments, Risk associated with Securities Lending & Borrowing and Short Selling, Risks Associated with Trading In Equity Derivatives, Risk Factors associated with investments in Debt Securities and Money Market Securities, Risk associated with investments in debt instruments having Structured Obligations / Credit Enhancements, Risk factors associated with investment in Tri-Party Repo, Risks associated with Overseas Securities, Risk associated with investments in overseas mutual funds / ETFs / Index Funds, Additional Risk associated with investing in underlying ETFs, Risk factors associated with investments in Perpetual Debt Instrument (PDI), Risks associated with investments in Securitized Assets, Risk of Investing in Specific Sectors, Risks associated with companies operating in Infrastructure sector and/or where economic reforms are expected, Risks associated with investments in REITs & InvITs, Risks Associated with fixed income Derivatives, Risk factors with respect to imperfect hedging using interest rate futures, Risks associated with Depository Receipts</p> <p>For details on risk factors and risk mitigation measures, please refer SID.</p> <p><u>Risk Mitigation Strategies:</u></p> <p>Risks associated with Equity investments:</p> <ol style="list-style-type: none"> Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select securities, which have or are expected to have good secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. The first access to liquidity will be through cash and fixed income securities if any. Concentration Risk: The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low. Market Risk: The Investment Manager endeavors to invest in companies, where adequate due diligence and research has been performed by the Investment Manager. As not all these companies are very well researched by third-party research companies, the Investment Manager also relies on its own research. This involves one-to-one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company- wise analysis will focus, amongst others, on the historical and

	<p>current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know- how and transparency in corporate governance. The investment manager may use derivatives to hedge and limit the inherent market risk in scheme</p> <p>Risks associated with favorable taxation of equity-oriented Scheme: Investment Manager regular monitor's equity exposure of equity oriented Scheme of the Fund to ensure compliance with the relevant regulation.</p> <p>Risks associated with Stock Lending: The investment managers will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p> <p>Risks associated with Equity Derivative investments: The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.</p> <p>Risks associated with fixed income Derivative investments: Investment managers will ensure adherence to the limits and the guidelines as issued by SEBI / RBI from time to time for forward rate agreements and interest rate swaps and other fixed income derivative products.</p> <p>Risks associated with Debt Securities and Money Market Securities:</p> <ol style="list-style-type: none"> i. Market Liquidity Risk: The liquidity risk will be managed and/or sought to be addressed by creating a portfolio which has adequate access to liquidity. The Investment Manager will select fixed income securities, which have or are expected to have high secondary market liquidity. Market Liquidity Risk will be managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Amongst all the segments of the fixed income market in India, the government securities market demonstrates the highest market liquidity. The liquidity varies from security to security with benchmark securities for the reference tenors like 10 years, 5 years etc. showing relatively higher market liquidity. With time, the benchmark government security changes and thus hence liquidity propagates from one security to the other. ii. Credit Risk: Credit Risk associated with fixed income securities will be managed by making investments in securities issued by borrowers post detailed credit review internally. The credit research process includes a detailed in-house analysis and due diligence where limits are assigned for each of the issuer (other than government of India) for the amount as well as maximum permissible tenor. The credit process ensures that issuer limits are reviewed periodically by taking into consideration the financial statements and operating strength of the issuer. iii. Rating Migration Risk: The endeavor is to invest in well researched issuers. The due diligence performed by the fixed income team before assigning credit limits and the periodic credit review and monitoring should help keep the rating migration risk low for company-specific issues. iv. Interest Rate Risk: The investment managers will endeavor to keep the duration within the permissible limit as defined by the scheme document and based on the investment objectives. v. Re-investment Risk: The Investment Manager will endeavor that besides the tactical and/or strategic interest rate calls, the portfolio is fully invested.
--	--

	<p>vi. Term Structure of Interest Rates (TSIR) Risk: The Scheme is expected to have duration based on the investment objective and limits defined in the scheme documents. Depending on the nature of the scheme, the Term Structure of Interest Rates (TSIR) Risk cannot be eliminated and it exists as a primary feature of the scheme.</p> <p>Risk Associated with overseas mutual funds / ETFs and Index securities:</p> <p>i. Liquidity Risk on account of investments in overseas funds: The investments are made in international funds, which provide daily liquidity.</p> <p>ii. Expense Risks associated with investments in overseas funds: The aggregate of expenses incurred by the Indian Fund-of-Funds scheme and the underlying international funds is subject to limits prescribed by SEBI.</p> <p>iii. Portfolio Disclosure Risks associated with investments in overseas fund: Although full portfolio disclosure is not available at the end of each month, top ten holdings as well as sector holdings are made available at the end of each month for the overseas fund. Full portfolio holdings can be obtained from underlying Overseas funds generally with a three-month lag i.e. March portfolio can be obtained at the end of June</p> <p>iv. Investment Policy and/or fundamental attribute change risks associated with investments in overseas funds: Investments are made in such international funds, which have similar investment objectives to the domestic fund in India. However, there exists possibility that there is a change in the fundamental attributes of the international fund. In such circumstances, the Investment Manager will seek to invest in other international funds, which have the same investment objective as the domestic fund.</p> <p>v. Monitoring overseas investment limits:</p> <p>The Investment Manager will keep monitoring the overseas investments limits. In case of an adverse event the Investment Manager may initiate appropriate action like investing across other areas as permitted by the scheme document or any other action to ensure that the investor interest is safeguarded.</p> <p>Risks associated with companies operating in Infrastructure sector and/or where economic reforms are expected:</p> <p>This is the primary risk in the Scheme as the investment objective is to invest in companies operating in the infrastructure sector and/or where economic reforms are expected. As government policy defines both investments in the infrastructure sector as well as policy reforms, there exists a very high policy related risk. On its part, the endeavour would be to invest in companies, where adequate due diligence has been performed by the Investment Manager. Besides using research inputs from third party research companies, the Investment Manager will also rely on its own research. This involves one to one meetings with the management of companies, attending conferences and analyst meets and also tele-conferences. The company-wise analysis will focus, amongst others, on the historical and current financial condition of the company, potential value creation/unlocking of value and its impact on earnings growth, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, product profile, brand equity, market share, competitive edge, research, technological know-how and transparency in corporate governance.</p> <p>Risks associated with Investments in REITs and InvITs:</p> <p>The Investment Manager endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed by the Investment Manager. The Investment Manager also relies on its own research as well as third party research. Where the valid application is received after 3.00 p.m.	NAV of the next Business Day.

Transaction through online facilities/ electronic mode: The time of transaction done through various online facilities/electronic modes offered by the AMC, for the purpose of determining the applicability of NAV, would be the time when the request of purchase/sale/switch of units is received in the servers of AMC/RTA as per terms and conditions of such facilities.

With respect to investors who transact through the stock exchange, Applicable NAV shall be reckoned on the basis of the time stamping as evidenced by confirmation slip given by stock exchange mechanism.

Applicable Net Asset Value in case of Multiple applications/transactions received under all open-ended Schemes of the Fund: All transactions as per conditions mentioned below shall be aggregated and closing NAV of the day on which funds for respective transaction (irrespective of source of funds) are available for utilization.

- a. All transactions received on same Business Day (as per cut-off timing and Time stamping rule).
- b. Aggregation of transactions shall be applicable to the Scheme.

	<p>c. Transactions shall include purchases, additional purchases and exclude Switches, SIP/STP and trigger transactions.</p> <p>d. Aggregation of transactions shall be done on the basis of investor/s/Unit Holder/s Permanent Account Number (PAN). In case of joint holding in folios, transactions with similar holding pattern will be aggregated. The principle followed for such aggregation will be similar as applied for compilation of Consolidated Account Statement (CAS).</p> <p>e. All transactions will be aggregated where investor holding pattern is same as stated in point no.4 above.</p> <p>f. Only transactions in the same Scheme of the Fund shall be clubbed. It will include transactions at Plans/Options level (i.e. Regular Plan, Direct Plan, IDCW Option, Growth Option, etc).</p> <p>g. Transactions in the name of minor received through guardian will not be aggregated with the transaction in the name of same guardian. However, two or more transactions in folios of a minor received through same guardian will be considered for aggregation.</p> <p>h. In the case funds are received on separate days and are available for utilization on different business days before the cut off time, the applicable NAV shall be of the Business day/s on which the cleared funds are available for utilization for the respective application amount.</p> <p>i. Irrespective the date and time of debit to the customer bank accounts, the date and time of actual credit in the Scheme's bank account, which could be different due settlement cycle in the banking industry, would be considered for applicability of NAV.</p> <p>j. Investors are advised to make use of digital/electronic payment to transfer the funds to the Scheme's bank account.</p> <p>Note for switching: Where there is a switch application from one scheme to another, 'Switch out' shall be treated as redemption in one scheme and the Applicable NAV based on the cut off time for redemption and payout rules shall be applied. Similarly, the 'switch in' shall be treated as purchase and the Applicable NAV based on the cut off time for purchase and realization of funds by the 'switch in' scheme related rules shall be applied. Where an application is received and time stamping is done after the cut-off time, the request will be deemed to have been received on the next Business Day.</p>

Notes to Table:

^In addition to expenses as permissible under Regulation 52 (6) (c), the AMC may also charge the following to the Scheme of the Fund under Regulation 52 (6A):

- a. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions.

It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

- b. Additional expenses up to 0.30 per cent of daily net assets of the concerned Schemes of the Fund if new inflows from such cities as may be specified by Regulations from time to time are at least:
- 30 per cent of gross new inflows from retail investors* in the concerned Scheme, or;
 - 15 per cent of the average assets under management (year to date) of the concerned Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of (i) or (ii) mentioned above, such expenses on daily net assets of the concerned Scheme shall be charged on proportionate basis.

* Inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investors".

The additional expenses charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. The additional expense charged to the Scheme on account of inflows from such cities shall be credited back to the concerned Scheme in case such inflows are redeemed within a period of one year from the date of investment.

Note: Pursuant to the directions received from SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read along with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

- c. Additional expenses not exceeding 0.05 % of daily net assets of the scheme as per Regulation 52(6A)(c). Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable

Expense Structure for Direct Plan -

	<p>Direct Plan will have lower expense ratio than Regular Plan of the Scheme. The expenses under Direct Plan shall exclude the distribution and commission expenses and additional expenses for gross new flows from specified cities under regulation 52(6A)(b). INSTRUCTIONS

This form should be used by existing investors only by mentioning their folio number, name and Scheme details. Please read the Scheme related documents, Addenda, KIM and Instructions there-in and below mentioned instructions carefully before filling up the form. Investors should provide details/instructions only in the designated space provided in the form else the same may not be considered. ADDITIONAL PURCHASE & PAYMENT DETAILS: Investors should fill name of the scheme, plan, option and sub-option. In case the details are not proper and clear or in case of incomplete details, non-clarity or ambiguity, default options will be considered and applied. Separate cheques and form should be given for each separate investment in different scheme, plan or option. The first unit holder should be one of the bank account holders in the pay-in bank account. Purchase application through Cheque/DD/RTGS/NEFT/Funds transfer requests should necessarily mention the pay-in bank account details i.e. account number and bank, branch name of the bank account used for issuing the payments to the fund. If this is not evidenced on the payment cheque/funds transfer/RTGS/NEFT request, or in case of demand drafts, unit holder should attach necessary supporting documents as required by the fund, like bank certificate, bank passbook copy or statement to prove that the funds are from a bank account held by first unit holder only. If the documents are not submitted with the application, the fund reserves the right to reject the application or call for additional details. ADDITIONAL PURCHASE THROUGH OTM FACILITY: If you are making payment through OTM facility registered in your folio, please tick the relevant box and do not attach any cheque. If more than one bank accounts are registered in your folio under OTM facility, please mention the bank account number and bank name where you wish the debit to happen. If the same is not mentioned or is not registered, default bank mandate under OTM facility will be considered to debit the purchase amount. KYC COMPLIANCE: Investors shall note that KYC is mandatory and they need to comply with the ‘Know Your Client’ requirements as applicable from time to time. Applications are liable to be rejected without any intimation to the applicants, if required KYC compliance is not completed by all the applicants/unit holders. REDEMPTION REQUEST: Redemption may not be processed if folio number and full scheme name including plan and option is not mentioned. Please ensure that either of amount or units is mentioned in the redemption request. The fund offers a facility to register multiple bank accounts and designate one of the bank account as “Default Bank Account”. Default Bank Account will be used for all IDCW and redemptions payouts including FMP schemes maturity proceeds unless investor specifies one of the existing registered bank account in the redemption request for receiving redemption proceeds. A new non-registered bank account specified in the specific redemption request for receiving redemption proceeds will not be considered. Consequent to introduction of “Multiple Bank Accounts Facility”, the existing facility of redemption with change of bank mandate is discontinued by the fund. New bank accounts can only be registered using the designated “Bank Account Registration Form”. BANK ACCOUNT FOR REDEMPTION PROCEEDS: Please note the following important points related to payment of redemption proceeds: Proceeds of any redemption request will be sent only to a bank account that is already registered and validated in the folio at the time of redemption transaction processing. Unit holder(s) may choose to mention any of the existing registered bank accounts with redemption request for receiving redemption proceeds. If no registered bank account is mentioned, default bank account will be used. If unit holder(s) provide a new and unregistered bank mandate with a specific redemption request (with or without necessary supporting documents) such bank account will not be considered for payment of redemption proceeds. POA REGISTRATION: Only a General Power of Attorney agreement without any restrictions and perennial validity is accepted. The PoA must be executed on stamp paper and registered in India and a duly notarized copy should be enclosed. The PoA must have signatures of the investor as well the PoA holder. If the signature of PoA holder is not available, the fund may call for additional documents or declarations on a case to case basis. PoA will be registered within 10 working days of receipt of all valid documents. STP/SWP facility is available on all dates. SYSTEMATIC TRANSFER PLAN (STP) / SYSTEMATIC WITHDRAWAL PLAN (SWP): Please allow upto 7 days for STP/ SWP to be registered and first STP/ SWP transaction to happen. Hence form should be submitted atleast 7 days before STP / SWP start date. STP/ SWP is available in all the schemes of the Fund. STP/SWP of capital appreciation. For investors availing the transfer/ withdrawal of ‘appreciation’ option, where in any month or quarter, there is no appreciation or is less than Rs.100/-, switch/withdrawal as mentioned above, may not be carried out. In case the selected date falls on a Non-Business Day or on a date which is not available in a particular month, the SIP/STP/SWP will be processed on the immediate next business day/date. You can choose to discontinue this facility by giving 30 days written notice to the Registrar. IDCW TRANSFER PLAN: Please allow upto 7 days for IDCW Transfer Plan to be registered. Hence form should be submitted atleast 7 days before the record date of any forthcoming proposed IDCW. The Minimum amount of IDCW eligible for transfer under IDCW Transfer Plan is Rs. 100/-.

Terms and Conditions and Instructions

For detailed terms and conditions on SIP, including for OTM facility,

please visit our website www.dspim.com and also refer to scheme related documents.

- Investors who have already submitted an OTM form or already registered for OTM facility should not submit OTM form again as OTM registration is a one-time process only for each bank account. However, such investors if wish to add a new bank account towards OTM facility may fill the form.
- Other investors, who have not registered for OTM facility, may fill the OTM form and submit duly signed with their name mentioned.
- Mobile Number and Email Id: Unit holder(s) should mandatorily provide their mobile number and email id on the mandate form. Where the mobile number and email id mentioned on the mandate form differs from the ones as already existing in the folio, the details provided on the mandate will be updated in the folio. All future communication whatsoever would be, sent to the updated mobile number and email id.
- **The OTM forms require three important and mandatory dates to be filled in:**
 - a) **Mandate Registration Date:** This date is located on the top right corner of the form. This will be the initial date from which the mandate will be registered.
 - b) **Period "From" Date:** This is the starting date of the period for which the mandate will be applicable.
 - c) **Period "To" Date:** This date will be the end of the period for which the mandate is valid. The "To" date must be within 40 years from the Mandate Registration Date This is a strict requirement and should not be exceeded.
*The mandate will be rejected if the "To" date is either beyond 40 years, left blank, or if there are any ambiguities in the date provided.
- Unit holder(s) need to provide along with the mandate form an original cancelled cheque (or a copy) with name and account number pre-printed of the bank account to be registered or bank account verification letter for registration of the mandate failing which registration may not be accepted. The Unit holder(s) cheque/ bank account details are subject to third party verification.
- With the introduction of One Time mandate (OTM) facility, the mandate registration and SIP registration through OTM facility has been delinked. There are two separate forms, 1) for onetime mandate registration and 2) for SIP Registration.
- Where a onetime mandate is already registered in a folio for a bank account, the Unit Holder(s) will have to fill only the SIP Registration Form and there is no need of a separate cheque to be given along with the SIP Registration Form.
- Transaction amount should be less than or equal to the amount as mentioned in One Time Mandate already registered or submitted, if not registered.
- Where the mandate form and the SIP registration form are submitted together, debits for the SIP may happen only on successful registration of the mandate by the Unit holder(s) bank. The Fund / AMC would present the SIP transactions without waiting for the confirmation of the successful registration from the Unit holder(s)' bank.
- In case the onetime mandate is successfully registered, new SIP registration will take upto five business days. The first debit may happen any time thereafter, based on the dates opted by the Unit holder(s).
- While the Fund and RTA reserve the right to enhance the SIP period to ensure minimum installments as per respective scheme offer documents, even if the investor has submitted the form late or requested for a period less than minimum installments, they may reject the applications for less than minimum installments.
- If start date for SIP period is not specified, SIP will be registered to start anytime from a period after five business days from the date of receipt of application based on the SIP date available / mentioned, subject to mandate being registered. If end date is not specified the SIP will be registered for 40 years from the registration date or end date of mandate, whichever is earlier.
- Under Daily SIP, the Unit Holder can invest a fixed amount into the scheme on a daily basis. Daily SIP installment shall be processed only when it is a Business Day for the scheme.
- In case of Micro SIP application without PAN, the investor/s hereby declare that they do not have any existing Micro SIPs with DSP Mutual Fund which together with the current application will result in aggregate investments exceeding Rs. 50,000 in a year.
- In case the selected date falls on a Non-Business Day or on a date which is not available in a particular month, the SIP will be processed on the immediate next business day/date.
- For SIPs through OTM, the maximum per installment amount after Top-Up shall not exceed Rs. 5 lakhs or the maximum amount mentioned in OTM form, whichever is less.
- The Top-up details cannot be modified once enrolled. In order to make any changes, the investor needs to cancel the existing SIP and enroll for a fresh SIP with Top-up option.
- DSP Mutual Fund or the AMC, its registrars and other service providers are not responsible if the registration and subsequent transaction are delayed or not effected or the investor's bank account is debited in advance or after the specific SIP date due to local holidays or any other reason.
- Investors are deemed to have read and understood the terms and conditions of OTM Facility, SIP registration through OTM facility, the Scheme Information Document, Statement of Additional Information, Key Information Memorandum, Instructions and Addenda issued from time to time of the respective Scheme(s) of DSP Mutual Fund.

Instructions on Controlling Persons / Ultimate Beneficial Owner

As per PMLA guidelines and relevant SEBI circulars issued from time to time, non-individuals and trusts are required to provide details of controlling persons [CP] / ultimate beneficiary owner [UBO] and submit appropriate proof of identity of such CPs/ UBOs. The beneficial owner has been defined in the circular as the natural person or persons, who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted and includes a person who exercises ultimate effective control over a legal person or arrangement.

A. For Investors other than individuals or trusts:

- (i) The identity of the natural person, who, whether acting alone or together, or through one or more juridical person, exercises control through ownership or who ultimately has a controlling ownership interest. Controlling ownership interest means ownership of/entitlement to:
 - more than 10% of shares or capital or profits of the juridical person, where the juridical person is a company.
 - more than 15% of the capital or profits of the juridical person, where the juridical person is a partnership.
 - more than 15% of the property or capital or profits of the juridical person, where the juridical person is an unincorporated association or body of individuals.
- (ii) In cases where there exists doubt under clause (i) above as to whether the person with the controlling ownership interest is the beneficial owner or where no natural person exerts control through ownership interests, the identity of the natural person exercising control over the juridical person through other means like through voting rights, agreement, arrangements or in any other manner.
- (iii) Where no natural person is identified under clauses (i) or (ii) above, the identity of the relevant natural person who holds the position of senior managing official.

B. For Investors which is a trust:

The identity of the settler of the trust, the trustee, the protector, the beneficiaries with 10% or more interest in the trust and any other natural person exercising ultimate effective control over the trust through a chain of control or ownership.

C. Exemption in case of listed companies / foreign investors

The client or the owner of the controlling interest is a company listed on a stock exchange or is a majority-owned subsidiary of such a company, there is no need for identification and verification of the identity of any shareholder or beneficial owner of such companies and hence exempted from UBO declaration provided other requisite information is provided. Intermediaries dealing with foreign investors' viz., Foreign Institutional Investors, Sub Accounts and Qualified Foreign Investors, may be guided by the clarifications issued vide SEBI circular CIR/MIRSD/11/2012 dated September 5, 2012 and other circulars issued from time to time, for the purpose of identification of beneficial ownership of the client.

D. KYC requirements

Beneficial Owner(s) / Senior Managing Official (SMO) is/are required to comply with the prescribed KYC process as stipulated by SEBI from time to time with any one of the KRA & submit the same to AMC. KYC acknowledgement proof is to be submitted for all the UBO(s) / SMO(s).

INSTRUCTIONS/TERMS & CONDITIONS

These instructions form an integral part of scheme related documents and investors are advised to read and understand the same.

Please read carefully the Scheme Information Document (SID), Statement of Additional Information (SAI), Key Information Memorandum (KIM) and all relevant Addenda before filling up the application form. Investors are deemed to have read and accepted the terms, as prevailing on the date of application being accepted and units being allotted even if they are using an old application form, subject to which these offers are being made, and bind themselves to the terms upon signing the application form.

All applications will be accepted subject to verification. Invalid or incomplete applications are liable to be rejected after acceptance and verification, and information will be sent to the address by general post.

1. First Applicant's Details

- a. Applicants / Guardian should fill in all details as requested in the relevant section. Name of the Applicant/Guardian should exactly match with name mentioned in the PAN Card or Income Tax database. In case of any mismatch in the name as mentioned in the form and as available in the PAN Card or Income Tax database, the Fund/AMC reserves the right to update the name as available in the PAN Card or Income Tax database or the Fund/AMC reserves the right to reject the application without any prior intimation and the subscription amount would be refunded after realization and reconciliation of the funds.
- b. Date of Birth / Incorporation of all applicants as applicable is mandatory. The AMC reserves the right to reject the application in the absence of these details.
- c. Existing investors, having a folio number and who wish to get units allotted in non-demat mode, in the existing folio number, should mention their folio number. If existing folio number is mentioned, investors should only fill the section on Investment Details. Investors should skip and should not mention joint applicants, bank account, nomination and unit holding option. If an existing folio is mentioned, the investment will be in same folio, even if the joint holders are different. Further, other details like bank account, nomination etc will not be considered, even if mentioned differently from existing folio details. Investors should use separate designated forms for updating bank account details, nomination etc.
- d. Investors are requested to note that there can be only one tax status, either Resident (RI) or Non Resident (NRI) against a single PAN. There cannot be different tax status for different folios for the same investor, same PAN. In case the existing tax status in a folio is NRI and the investor makes a new investment with tax status as RI, the new investment will be processed with tax status as NRI. Similarly if the existing status in a folio is RI and the investor makes a new purchase with tax status as NRI, the tax status of the existing RI folio will be changed to NRI. In case of any change in tax status, Investors should submit a request for change of tax status request before submitting the new investment to avoid any inconvenience. The AMC reserves the right to reject or reverse & reprocess the transactions at a later date in case of any error.
- e. New Investors who do not have a folio or existing investors intending to get units allotted in demat mode or who wish to open a new folio should fill up the form without quoting existing folio number and should provide details in all sections as mentioned in the form.
- f. Applications under a Power of Attorney or by a limited company or a corporate body or an eligible institution or a registered society or a trust fund must be accompanied by the original Power of Attorney (or a duly certified true copy thereof) duly notarized, or the relevant resolution or authority to make the application (or duly certified copy thereof) as the case may be. All documents should be in English language or notarized translated copy in English language.
- g. For Investments 'On behalf of Minor': Where the investment is on behalf of minor by the guardian, please note the following important points.
 - i. The minor shall be the sole and only first holder in the account. Nomination facility is not available for applications/folios on behalf of a minor. Joint holders' details and nomination details, even if mentioned and signed will not be considered.
 - ii. Details like minor's date of birth, Guardian's relation with Minor, Guardian name, PAN, KYC are mandatory, along with supporting documents. • Photo copy of the document evidencing the date of birth of minor like i. Birth certificate of the minor, or ii. School leaving certificate / Mark sheet issued by Higher Secondary Board of respective states, ICSE, CBSE etc., or iii. Passport of the minor, or iv. Any other suitable proof should be attached with the application form. Where the guardian is not a natural guardian (father or mother) and is a court appointed legal guardian, suitable supporting documentary evidence should be provided.
 - iii. On the date of minor attaining majority, such minor turned major will have to complete all formalities as required by the fund to change the status on the folio. Further, from such date of minor turned major, the existing registered guardian will not be able to transact in the folio and only the minor turned major will be able to transact in the folio.

2. Contact Details and Correspondence Address

- a. Applicants should provide contact information such as email id, mobile number/s and correspondence address. However, the fund reserves the right to update communication postal address from KYC records registered with the SEBI designated KYC Registration Authority (KRA). Investors should also ensure that, the email id, mobile number provided in the application form is their own. Investors will clearly mention if the email id belongs to any of the immediate family member. The contact details should be same as the ones provided in the KRA. Where the email id, mobile number are not provided or where provided but the same is found to be invalid, or seems to be not pertaining to the investor or any of the immediate family member or is of a distributor or any other agency, then AMC/RTA reserves the right to remove the email id, mobile number without any notice and the email id, mobile number as per KRA records may be updated in the folio. Investors wanting to change their email id, mobile number & address must approach the KRA.
- b. It is mandatory for NRI investors to provide their overseas address in the application form as well as in the KYC records. NRI investors should mandatorily provide the overseas address in Section 2 of the application form. Application without overseas address is liable to be rejected even after allotment and subscription amount refunded in 5 days' time from the date of rejection.

Individual Investors:-

- i. Investors should provide email id/mobile number of self/family only
- ii. The email id/contact details mentioned on the application form should be same as the ones provided in the KRA. If found different, the details mentioned on KRA records will be updated in the folio
- iii. Investor will need to update the email id/mobile number with the KRA incase of any change
- iv. Account statements, newsletter, annual reports and other kinds of communication will be sent through email only instead of physical, for investors who provide their email address on the application form. Should they wish to have a hard copy, they are requested to send an email to the AMC/RTA. It is deemed that the applicants are aware of all the security risks associated with online communication, including possible third-party interception of documents sent via email.

3. KYC Requirements and Details

- a. Basic KYC: Applicants are required to provide basic KYC details like photograph, proof of identity, proof of address, a KYC form and other details as per KYC form, to update their KYC with the fund and update on SEBI designated KYC Registration Authority (KRA) systems. If applicants have already complied with basic KYC through some other intermediary, they may just provide a KYC acknowledgement of valid KYC status available through the KRA. Basic KYC is applicable for all applicants, Guardian and Power of Attorney Holders as well.
- b. Additional Details: Additional details like status, occupation details, gross annual income, net worth and other details as mentioned in the relevant sections of the application form are mandatory for all applicants as applicable, including joint holders. Details of net worth are mandatory for Non Individual applicants and optional for Individual applicants in lieu of gross annual income. While providing details of net worth, the same should be of a date which is within one year of the application.
- c. Individual Investors investing as Sole Proprietor will have to additionally complete & submit KYC for the Sole Proprietor firm in addition to the KYC of the individual investor. Investments in Sole Proprietor name will be rejected in case the KYC of the Sole Proprietor is not completed.
- d. Applications are liable to be rejected without any intimation to the applicants, if KYC requirements are not complied with by all the applicants, KYC acknowledgement is not enclosed or any of the additional details are not mentioned for any of the applicant at the time of purchase. In case where the KYC application is given along with the purchase and where the purchase is processed based on KYC application or based on KYC status as In Process, the purchase may be rejected in case the KYC is subsequently rejected or is on Hold.
- e. Non updation of PAN and/or KYC will lead to restriction of all future financial and non-financial transaction, including redemptions. Redemption of existing investments are liable to be rejected if KYC requirements are not complied with.
- f. Investors should further note that KYC applicability for various investor categories may change anytime in future. Hence, investors are requested to apprise themselves about KYC applicability before submitting their application or future transactions to avoid rejections. For any other further information related to KYC, applicants should mention the same in a separate sheet, duly signed and attach to the application.

4. Joint Applicants, if any and their details

- a. If there is more than one applicant, please fill in all details as requested in the relevant section.
- b. Date of Birth / Incorporation of all applicants as applicable is mandatory. The AMC reserves the right to reject the application in the absence of these details.
- c. Name of the Joint Applicant/s should exactly match with name/s mentioned in the PAN Card or Income Tax database. In case of any mismatch in the name/s as mentioned in the form and as available in the PAN Card or Income Tax database, the Fund/AMC reserves the right to update the name/s as available in the PAN Card or Income Tax database or the Fund/AMC reserves the right to reject the application without any prior intimation and the subscription amount would be refunded after realization and reconciliation of the funds.
- d. Applicants should specify the mode of holding. If the mode of holding is not specified or is ambiguous, the default option for such applications will be 'Joint'.
- e. PAN, KYC compliance and other KYC details are mandatory for all applicants, irrespective of mode of holding. For more details, please refer to KYC Requirements mentioned earlier.
- f. In the case of joint holders and irrespective of mode of holding, the sole/first-named applicant/unit holder will receive all account statements, IDCW or redemption/refund payments, and all other relevant correspondences.

5. FATCA and CRS related details

- a. The Central Board of Direct Taxes (CBDT) has notified Rules 114F to 114H, as part of the Income Tax Rules, 1962, which require Indian financial institutions to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all account holders and/or applicants.
- b. Applicants/Unit holders are required to mandatorily provide the relevant information for FATCA and CRS, including Ultimate Beneficial Ownership (UBO) details. In case of any change in any information provided, Unit holders should ensure to advise the Fund/RTA promptly i.e. within a period of 30 days.
- c. All Applicants/Unit holders, individuals and non individuals, must be aware that the failure to providing all relevant details in relevant section and/or relevant forms will result in rejection of their investment application form, refund of application money, reversal of units allotted and the Fund will not be liable for any consequent loss to the Applicants/Unit holders.

- d. Applicants like Individuals (including in the name of sole proprietorship firm), joint applicants, HUF, are required to provide details, as mentioned in this section, like Place and Country of birth, Country of Citizenship/Nationality mandatorily. If the applicant/s have any countries of tax residency other than India, details of all such countries and relevant tax identification number needs to be provided. If the space in the form is not adequate, applicants are required to attach additional sheets with information duly signed.
- e. All Non Individuals should fill and submit a separate form for FATCA and CRS declaration. Non-Individual entities, including partnerships, (other than those listed on a recognized stock exchange in India or is a subsidiary or related or controlled by such listed company) should also fill and submit a form for Ultimate Beneficial Ownership (UBO) details.
- f. If you have any questions about your tax residency or other definitions or terms used, please contact your tax advisor. If you are a US citizen or resident or greencard holder, please include United States in the foreign country information field along with your US Tax Identification Number.
- g. If you do not have a TIN, please attach any of the documents mentioned in this section duly self-attested depending status in that country.
- h. Applicant/unit holder should note that they also specifically authorize to disclose, share, remit in any form, mode or manner, all or any of the information provided by, including all changes, updates to such information as and when provided, to the Mutual Fund, its Sponsor, Asset Management Company, trustees, their employees / associated parties / RTAs ('the Authorized Parties') or any Indian or foreign governmental or statutory or judicial authorities/agencies including but not limited to the Financial Intelligence Unit-India (FIU-IND), the tax / revenue authorities in India or outside India and other investigation agencies without any obligation of advising me/us of the same. Further, applicant/unit holder also authorizes to share the given information to other SEBI Registered Intermediaries to facilitate single submission / updation and for other relevant purposes.
- i. Applicant/unit holder also undertakes to keep the Mutual Fund informed in writing about any changes / modification to the above information in future and also undertake to provide any other additional information / documentary proof as may be required.
- j. Please note that applicants/unit holders may receive more than one request for information if you have multiple relationships/accounts/folios with us. Therefore, it is important that you respond to each of our request, even if you believe you have already supplied any previously requested information.
- k. In case any of the specified information provided by the applicant/unit holder is found to be false or untrue or misleading or misrepresenting, applicant/unit holder will be solely liable and will indemnify the Mutual Fund, it's Sponsor, Asset Management Company, Trustees, their employees / associated parties and the RTAs. As per Income Tax clause 271FAA (2) if there is any inaccuracy in the statement of financial transactions submitted by a prescribed reporting financial institution and such inaccuracy is due to false or inaccurate information submitted by the account holder, a penalty of five thousand rupees shall be imposed on such institution, in addition to the penalty leviable on such financial institution in the said section, if any. This penalty shall be levied by the income tax authority prescribed under sub-section (1) of section 285BA of the Act. Further, the reporting financial institution may recover the amount so paid on behalf of the account holder or retain out of any money that may be in its possession or may come to it from every such reportable account holder
- l. In case applicant/unit holder has any of the Indicia, pertaining to a foreign country and yet declares self to be non-tax resident in the respective country, customer to provide relevant details as may be asked for.

6. Bank Account Details/ Multiple Bank Accounts Registration

- a. It is mandatory for all investors of mutual fund schemes to provide their bank mandate. Applications without the mandatory bank details are liable to be rejected. Investors should ideally mention account details of the same bank account from where the payment towards purchases is made. If the bank account details mentioned are different from purchase pay-in bank, investors should attach additional documents validating the bank account like cancelled cheque with name & account number pre-printed, latest bank statement, latest pass book, bank letter in original or attested. Should the investor fail to provide the documents, the Fund/AMC/RTA reserves the right to register the pay-in bank details as the redemption bank details and use such bank account for payment of any redemption/IDCW proceeds
- b. The investor agrees that the allotment information, account statement, proceeds towards redemptions and IDCW will be dispatched by a reasonable mode of despatch like courier, post, UCP, etc. in case of cheque/demand draft or directly credited to the bank account (as per the details mentioned by the investor) in case of using direct credit facility, RTGS or NEFT, entirely and solely at the risk of the investor. The investor will not hold the Mutual Fund or the AMC or the Registrar responsible for any non-receipt or delay of receipt of redemption & IDCW proceeds due to any negligence or deficiency in service by the courier company, postal authorities or the bank executing direct credits/RTGS/NEFT, or due to incorrect bank account details provided by the investor.
- c. Multiple Bank Accounts Registration Facility The fund offers its investors facility to register multiple bank accounts for pay-in & payout purposes and designate one of the bank account as Default Bank Account. This facility can be availed by using a designated 'Bank Accounts Registration Form'. In case of new investors, the bank account mentioned on the purchase application form, used for opening the folio, will be treated as default bank account till the investor gives a separate request to register multiple bank accounts and change the default bank account to any of other registered bank account. Registered bank accounts may also be used for verification of pay-ins (i.e. receiving of subscription funds) to ensure that a third party payment is not used for mutual fund subscription. Default Bank Account will be used for all IDCW and redemptions payouts including FMP schemes maturity proceeds unless investor specifies one of the existing registered bank account in the redemption request for receiving redemption proceeds.
- d. In case of investment in the name of minor, it is mandatory that the bank account provided is of the minor and not of the guardian. The funds for the investment has to be mandatorily from the minor's bank account and redemption proceeds will also be paid only to the minor's bank account. In case of existing folios, the bank account of the minor has to be updated in the folio before submitting the redemption request. Redemption will be rejected if the minor's bank account is not updated in the folio.
- e. Consequent to introduction of 'Multiple Bank Accounts Facility', the facility of redemption with change of bank mandate is discontinued by the fund. A new non-registered bank account specified in the specific redemption request for receiving redemption proceeds will not be considered. Please note the following important points related to payment of redemption proceeds

- i. Proceeds of any redemption request will be sent only to a bank account that is already registered and validated in the folio at the time of redemption transaction processing.
- ii. Unit holder(s) may choose to mention any of the existing registered bank accounts with redemption request for receiving redemption proceeds. If no registered bank account is mentioned, default bank account will be used.
- iii. If unit holder(s) provide a new and unregistered bank mandate with a specific redemption request (with or without necessary supporting documents) such bank account will not be considered for payment of redemption proceeds.
- iv. Any request without the above mentioned documents will be treated invalid and will not be acted upon and any financial transaction, including redemptions, will be carried with the previous details only. Valid change of bank mandate requests with supporting documents will be processed within ten working days of documents reaching the head office of the Registrar and any financial transaction request received in the interim will be carried with previous details only.

7. Investment and Payment Details

- a. Investors should fill in the desired Plan / Option / Sub Option clearly in the space provided in the application form. In case the investor does not fill in the desired Plan / Option / Sub Option properly and clearly or in the case of incomplete details, lack of clarity or ambiguity, the default option will be considered and applied. The Fund will not entertain any request from Unit Holders for a change in Plan / Option / Sub Option after the application is accepted.
- b. Any change in IDCW sub option due to additional investment or investor's request will be applicable to all existing Units in the IDCW option of the scheme concerned.
- c. There is a change in the nomenclature for the word "IDCW" used as part of scheme details. The word "IDCW" has been replaced with the words "Income Distribution Cum Withdrawal" or "IDCW". Accordingly investors should mention the word "IDCW" instead of IDCW while mentioning the scheme details in the transaction request. For example: "DSP Top 100 Fund - Regular Plan - IDCW Reinvestment" will be "DSP Top 100 Fund - Regular Plan - IDCW Reinvestment". The Account statements, Consolidated Account Statement will have the word IDCW instead of IDCW.
- d. Payments by cash, stock invests, credit cards, post-dated cheques (except through SIP), and post-dated account-to-account transfer instructions to credit the Designated Account will not be accepted.
- e. Investors residing in locations where Investor Service Centres or Collection Centres are not located are requested to make payment by demand drafts. Demand draft charges for such investors will be borne by the AMC, subject to the standard demand draft charges, as charged by the State Bank of India, and the investors attaching proof of the charges.
- f. The cheque or demand draft should confirm to CTS 2010 standards in banking industry and be payable locally at the centre where the application is deposited, and should be drawn on any bank that is a member of the Bankers' Clearing House.
- g. The cheque or demand draft should be drawn in favour of the 'Scheme Name', as the case may be, and should be crossed Account Payee Only.
- h. A separate cheque should be given for each separate investment in a different scheme or plan or option.
- i. It is mandatory for NRIs to attach a copy of the payment cheque / FIRC / Debit Certificate to ascertain the repatriation status of the amount invested. NRI Applicants should also clearly tick on account type as NRE or NRO or FCNR to determine the repatriation status of the investment amount. The AMC and the Registrar may ascertain the repatriation status purely based on the details provided in the form under Investment and Payment details and will not be liable for any incorrect information provided by the applicants. Applicants will have to coordinate with their authorized dealers and banks to repatriate the investment amount as and when needed.
- j. Third Party Payment Avoidance & additional documents/declaration required to safeguard the interests of applicant/investors and avoid fraudulent transactions in any other name, the mutual fund does not accept Third Party Payments. A payment towards mutual fund subscription by cheque/DD/RTGS/NEFT or any mode whatsoever is deemed as a Third-Party payment, if payment is issued from a bank account other than that of the beneficiary investor. The first holder of the mutual fund folio has to be one of the joint holders of the bank account from which payment is made via cheque/Demand Draft (DD)/Funds transfer/RTGS/NEFT. Therefore, it is important for investors to mention the bank account number, bank name & branch address from where the payment is issued and the same should match with details on payment cheque/document (where applicable). Where the payment instrument/advice does not mention the bank account holder's name/s, investor should attach bank passbook copy/bank statement/bank letter to substantiate that the first unit holder is one of the joint holders of the bank account. Where a payment is through a DD, a bank certification of bank account and account holders name of the bank account used for DD issuance should be attached, in the required format. In specific exceptional situations where Third Party payment is permitted like i. Payment by Parents or Legal Guardian. However any redemption / IDCW payout will be paid only to the bank account of the minor held singly or jointly with the parents or legal guardian. ii. Payment by an Employer on behalf of Employee or iii. Custodian on behalf of an FII or a client, iii. Payment by Asset Management Company to a Distributor empanelled with it on account of commission/incentive etc. in the form of the Mutual Fund Units of the Funds managed by such AMC through Systematic Investment Plans or lump sum / one-time subscription, subject to compliance with SEBI Regulations and Guidelines issued by AMFI, from time to time. KYC of the investor and the KYC of the person making the payment is mandatory irrespective of amount. Additionally, a joint declaration is also required to be submitted. Investors are advised to visit www.dspim.com for more details, including declaration formats or approach any of the offices of the fund.
- k. The AMC reserves a right to reject the transaction or call for additional details, if payment bank account and other details are not mentioned on the form and/or do not match with payment instrument and/or necessary documents and declaration, as applicable to respective investors and transactions, are not attached or are insufficient. In case the funds are transferred to the mutual fund account prior to the application rejection, then amount transferred may not be refunded or redeemed unless the investor establishes KYC with additional documentation.
- l. Returned cheques are not liable to be presented again for collection, and the accompanying application could also be rejected. In case returned cheques are presented, the necessary charges including returned charges may be debited to the investor.
- m. To safeguard the interests of applicant/investors and avoid fraudulent transactions in any other name, it is important for investors to mention the bank account number, bank name & branch address from where the payment instrument or funds transfer is issued and the same should match with details on payment cheque (where applicable). The AMC reserves a right to reject the transaction if such payment details are not mentioned and/or do not match.
- n. For general terms and conditions and more information on 'One Time Mandate (OTM)' Facility,

Unit holder(s) are requested to read Terms and Conditions, OTM registration form, addenda to Scheme Information Document and Key Information Memorandum available on www.dspim.com.

8. Nomination/Or Cancellation of Nomination

- a. The unit holder/s may nominate upto three nominees, in whom the units held by unit holder/s shall vest in the event of death of all unit holder/s.
- b. Nomination can be made only by individuals applying for / holding Units on their own behalf singly or jointly. Non-individuals (including societies, trusts, bodies corporate, partnership firms, etc.), Karta of Hindu Undivided Families (HUF) and holders of Power of Attorney cannot nominate. Nomination facility is also not available for investments held on behalf of minor.
- c. A minor can be nominated, and in that event, the name and address of the guardian of the minor nominee shall be provided by the Unit Holder. Nomination can also be in favour of the Central Government, State Government, a local authority; any person designated by virtue of his/her office, or a religious or charitable trust.
- d. The nominee shall not be a trust (other than a religious or charitable trust), society, body corporate, partnership firm, Karta of HUF or a Power of Attorney holder. An NRI can be a nominee, subject to the exchange controls in force from time to time. Where the nomination is in favour of a religious or charitable trust, the investor should attach a certificate confirming that the nominee is a religious or charitable trust.
- e. Nomination with the Fund can be made only by investors who opt for allotment in non-demat form. In case of Units held in demat form, the nomination details as recorded for the depository account will be applicable investors who hold units in demat form may approach their DP for availing the nomination facility.
- f. Nomination in respect of the units stands rescinded upon the transfer of units.
- g. Transfer of Units in favour of a nominee(s) shall be valid discharge by the AMC against the legal heir.
- h. On cancellation of the nomination, the nomination shall stand rescinded and the AMC shall not be under any obligation to transfer the Units in favour of the nominee(s).
- i. Nomination can be made in favour of more than one, and upto three individuals. Investors who desire to make nomination in respect of multiple nominees should clearly specify the percentages to be allocated between the nominees.
