II. MARKET REVIEW

a. Bond Market: 2013 - 14

FY2014 began on a positive tone as the Reserve Bank of India reduced the Repo Rate by 25 basis points to 7.25% in response to a decline in headline inflation. The benchmark 10Y bond yield declined from 8% level on March 31, 2013 to touch a low of around 7.12% in the last week of May 2013, as market participants began to discount more rate cuts by the Reserve Bank of India.

However, bond market sentiment began to worsen from June 2013 onwards after the FOMC chairman surprised the market by discussing the probability of Fed Tapering by as early as September 2013. This not only led to sudden hardening of bond yields in the US but also in emerging markets. It also resulted in massive outflows from EM bonds, amid sharp weakness in EM currencies.

Indian bond yields hardened and the INR weakened sharply after the Reserve Bank of India took a series of steps in mid July in order to stem the decline in the rupee. However, the market was unmoved by these steps as market participants began to focus on India's worsening current account deficit and the prospects of a further widening of the fiscal deficit. The INR touched a peak of 68.85 against the dollar on Aug 28, 2013 while the benchmark 10Y government bond yield touched a high of 9.50% on August 20, 2013.

Global bond markets got some respite after the FOMC decided to delay their tapering decision amid political uncertainties. This development provided a window of opportunity to both the RBI and the government to address some market concerns and take corrective steps.

The government and the RBI without any delay announced a series of measures to attract FII flows into the country to contain current account deficit. The government announced further curbs on gold imports and initiated a monthly 1% increase in diesel price with the aim of reducing under-recoveries of oil marketing companies. The RBI, under the leadership of Dr. Raghuram Rajan, announced an ambitious deposit program which managed to collect around \$34 billion through the FCNR-B deposit program as well as Tier-1 bank capital borrowing. This amount was higher than market participants' expectations of around \$15 billion.

The last quarter of FY2014 was better for the rupee after the RBI reiterated its focus on containing consumer price inflation and raised the Repo Rate by 75 basis points to 8% and maintained a tight liquidity bias. The rupee closed FY2014 at around 60 per dollar while the benchmark 10Y government bond yield closed at around 8.80% on March 28, 2014.

b. Equity Market: 2013 - 14

The first 6 months of FY2014 were riddled with poor macro-economic data (weak rupee, stubborn inflation and widening current account deficit) and volatile equity markets. The second half of the year was much better with improvements on the economic and policy front, thanks to decisive action by the RBI and progress on the legislative front. On the policy front, some significant decisions announced over the last several months include increase in the subsidized price of diesel, as also the opening up of foreign direct investment limit in various sectors like telecom and defence.

The equity markets closed the year on a positive note with the BSE Sensex gaining 19.7%. This has in part helped by improving sentiments in the run up to the General Elections in May 2014. The rupee had a volatile year and saw a low of

around INR 69/USD in August before bouncing back to current levels thanks to various measures announced by the RBI.

III. INVESTMENT OBJECTIVES & PERFORMANCE OF THE SCHEMES

Investment Objectives of the Schemes, one year and since inception performance vis-à-vis its benchmarks, closing Assets under Management ('AuM') as on March 31, 2014 for all open ended schemes of the Fund and DSP BlackRock RGESS Fund - Series 1 are given in **Annexure I** to this Report.

IV. BRIEF COMMENTARY ON ONE YEAR AND SINCE INCEPTION SCHEME PERFORMANCE

EQUITY SCHEMES

- a. DSP BLACKROCK EQUITY FUND:** The scheme outperformed its benchmark (CNX 500 Index) over the last financial year. The outperformance was largely due to the scheme's stock selection. The sector positions which added to relative performance were underweight in financials and consumer staples and overweight in information technology and industrials. The scheme also outperformed its benchmark since inception.
- b. DSP BLACKROCK TECHNOLOGY.COM FUND:** The scheme underperformed its benchmark (S&P BSE TECK Index) over the last financial year. The underperformance may be attributed to the scheme's underweight position in the telecom sector, and underweight in the media sector. However, the scheme has outperformed its benchmark since inception.
- c. DSP BLACKROCK OPPORTUNITIES FUND:** The scheme outperformed its benchmark (CNX 500 Index) over the last financial year. The outperformance was largely due to the scheme's stock selection. The sector positions which added to relative performance were underweight in financials and consumer discretionary and overweight in information technology and healthcare. The scheme also outperformed its benchmark since inception.
- d. DSP BLACKROCK TOP 100 EQUITY FUND:** The scheme underperformed its benchmark (S&P BSE 100 Index) over the last financial year. The underperformance was largely due to the scheme's stock selections within consumer discretionary and industrials. However, the scheme has outperformed its benchmark since inception.
- e. DSP BLACKROCK INDIA T.I.G.E.R. FUND (The Infrastructure Growth and Economic Reforms Fund):** The scheme underperformed its benchmark (S&P BSE 100 Index) over the last financial year. The underperformance was due to the scheme's stock selections within materials and consumer discretionary. Not owning benchmark positions in information technology, healthcare and consumer staples, as per mandate, also detracted from relative performance versus the benchmark. However, the scheme has outperformed its benchmark since inception.
- f. DSP BLACKROCK SMALL AND MID CAP FUND:** The scheme outperformed its benchmark (CNX Midcap Index) over the last financial year. The outperformance was largely due to the scheme's stock selection. The sector positions which added to relative performance were underweight in financials and healthcare and overweight in consumer discretionary and information technology. The scheme also outperformed its benchmark since inception.
- g. DSP BLACKROCK TAX SAVER FUND:** The scheme outperformed its benchmark (CNX 500 Index) over the last financial year. The outperformance was largely due to the scheme's stock selection. The sector positions which added to relative performance were underweight in financials and consumer discretionary and overweight in healthcare and information technology. The scheme also outperformed its benchmark since inception.
- h. DSP BLACKROCK MICRO CAP FUND:** The scheme outperformed its benchmark (S&P BSE Smallcap Index) over the last financial year. The outperformance was largely due to the scheme's stock selection within consumer discretionary, healthcare, information technology and financials. The scheme also outperformed its benchmark since inception.
- i. DSP BLACKROCK NATURAL RESOURCES AND NEW ENERGY FUND:** The scheme underperformed its benchmark (Composite Benchmark comprising 35% S&P BSE Oil & Gas Index, 30% S&P BSE Metals Index, 35% MSCI World Energy Index (net and expressed in INR)) over the last financial year. However, the scheme has outperformed its benchmark since inception.
- j. DSP BLACKROCK FOCUS 25 FUND:** The scheme underperformed its benchmark (S&P BSE 200 Index) over the last financial year. The underperformance was largely due to the scheme's stock selection within energy, industrials and telecom. The scheme also underperformed its benchmark since inception.

k. **DSP BLACKROCK RGESS FUND - SERIES 1:** The scheme underperformed its benchmark (S&P BSE 100) marginally. The underperformance was due to overweight positions in consumer discretionary and industrials, and underweight positions in materials.

FUND OF FUNDS SCHEMES

l. **DSP BLACKROCK WORLD GOLD FUND:** The scheme outperformed its benchmark (FTSE Gold Mines Index) over the last financial year. This outperformance by Underlying Fund can be attributed to off benchmark positions in royalty companies. Gold royalty companies have been comparatively good performers for some time as the market has shown itself willing to pay for high quality royalty exposure, given concerns over cost inflation and operational risk as well as its more defensive nature. The scheme has also outperformed its benchmark since inception. Given where valuations and margins currently stand, we can say that the beta (between gold equities and gold price) has returned. Moreover, with many new management teams in place, improving capital discipline and operational efficiency and a greater focus on shareholder returns are increasingly evident and should help to rebuild shareholder trust.

m. **DSP BLACKROCK WORLD ENERGY FUND:** The scheme underperformed its composite benchmark (Composite Benchmark comprising 70% MSCI World Energy (Net); 30% MSCI World (Net)) over the last financial year. The Underlying Fund's overweight to exploration and production companies hurt relative performance, with positions in Hurricane Energy and Cairn Energy among the top detractors over the period. The team became more positive on the outlook for large-capitalization, integrated oil stocks and as such reduced the Underlying Fund's underweight to the sub-sector. The Underlying Fund's underweight (albeit reduced underweight) weighed on relative performance as rhetoric from the integrated companies regarding improved capital discipline and increased focus on free-cash-flow helped drive unit price performance of the Underlying Fund. The scheme has also underperformed its benchmark since inception. The sector trades at a significant discount on both price-to-book and price-to-earnings multiples and the fund manager sees a potential for a rerating of certain stocks this year which should contribute to performance.

n. **DSP BLACKROCK WORLD MINING FUND:** The scheme outperformed its benchmark (HSBC Global Mining (cap) Index) over the last financial year. The Underlying Fund's outperformance can be primarily attributed to overweight positions in the copper and iron ore sub-sectors, with holdings in Freeport McMoran and iron ore producer Fortescue among the top relative performers. The Underlying Fund's exposure to nickel also aided relative performance as concerns over a potential future supply deficit buoyed the commodity price. However, the scheme has underperformed its benchmark since inception. The global economic backdrop is showing signs of synchronous growth and this has typically been supportive of commodity prices. Mining companies are trading on an undemanding valuation and an attractive dividend yield. With capital expenditure rolling off, management are guiding investors towards rising free cash flows.

o. **DSP BLACKROCK WORLD AGRICULTURE FUND:** The scheme outperformed its benchmark (DAX Global Agribusiness Index) over the last financial year. It was a difficult period for most agricultural commodities and as such the Underlying Fund's bias to midstream and downstream sub-sectors helped drive outperformance. The Underlying Fund's overweight to the livestock sub-sector aided relative returns, with a position in US livestock producer Tyson Foods the top-performer. An overweight to the agribusiness sub-sector also buoyed relative returns as the sub-sector enjoyed positive momentum following a recovery in grain volumes and utilization rates. However, the scheme has underperformed its benchmark since inception. Lower crop price levels present opportunities for downstream companies, such as in the livestock and agribusiness sub-sectors. Moreover, in time the market will absorb this volume as demand increases in the face of these lower prices, such that we should return to a scenario of rising commodity prices in order to incentivise supply growth once more.

p. **DSP BLACKROCK US FLEXIBLE EQUITY FUND:** The scheme underperformed its benchmark (Russell 1000 Index) over the last financial year. The Underlying Fund's overweight to IT and Financials and underweight to the defensive consumer staples, telecom and utilities were the drivers to the fund performance. The Underlying Funds performance was helped by exposure to a few US companies that benefited from the recovery in the European economy. The scheme has also underperformed its benchmark since inception. The base case assumption is that US underlying

corporate fundamentals in US remain constructive. This, coupled with an improving economic outlook in Europe and stable growth trajectory for the US economy, should allow for further, if more measured, equity market appreciation.

q. **DSP BLACKROCK DYNAMIC ASSET ALLOCATION FUND:** The scheme was launched in the financial year ending March 31, 2014 (NFO period was from January 17, 2014 to January 31, 2014). The scheme uses the yield gap model to allocate assets between equity and debt. Based on this model, the asset allocation of the scheme (as of April 30, 2014) is as follows: Equity 10%, Debt: 90%. The equity allocation of the scheme has been invested in DSP BlackRock Equity Fund and DSP BlackRock Top 100 Equity Fund and the debt allocation of the scheme has been invested in DSP BlackRock Short Term Fund, DSP BlackRock Strategic Bond Fund and DSP BlackRock Money Manager Fund.

HYBRID SCHEMES

r. **DSP BLACKROCK BALANCED FUND:** The scheme has underperformed its benchmark (CRISIL Balanced Fund Index) during the financial year. The underperformance was largely on account of overweight positions in telecom and underweight positions in materials. The units under the scheme were allotted on May 27, 1999 and the benchmark of the scheme was introduced on April 1, 2002. As such, the performance of the scheme vis-a-vis benchmark since inception is not available. However, the scheme has outperformed its benchmark from the date of introduction of benchmark.

s. **DSP BLACKROCK MIP FUND (Monthly income is not assured and is subject to availability of distributable surplus):** The scheme has outperformed its benchmark (CRISIL MIP Blended Index) during the financial year. The outperformance was largely on account of stock selection in information technology and healthcare. The scheme also outperformed its benchmark since inception.

INCOME SCHEMES

t. **DSP BLACKROCK LIQUIDITY FUND:** The scheme outperformed its benchmark (CRISIL Liquid Fund Index) in the first-half during the rising interest rate environment but underperformed it in the second-half when money market rates fell sharply after the RBI took steps to ease systemic liquidity. The scheme's relatively lower average maturity helped mitigate downside risk in a volatile year. The scheme underperformed its benchmark over the last financial year. However, the scheme outperformed its benchmark since inception.

u. **DSP BLACKROCK MONEY MANAGER FUND:** The scheme outperformed its benchmark (CRISIL Liquid Fund Index) in the last financial year. Its outperformance can be attributed to its appropriate positioning on the money market yield curve. The scheme's conservative rating profile and relatively lower average maturity also contributed to its better performance. The scheme also outperformed its benchmark since inception.

v. **DSP BLACKROCK STRATEGIC BOND FUND:** The scheme outperformed its benchmark (CRISIL Composite Bond Fund Index) in the last financial year. The scheme's outperformance can be attributed to its active duration management and optimal asset allocation amid a volatile interest rate environment during the first-half of the year. The scheme also outperformed its benchmark since inception.

w. **DSP BLACKROCK INCOME OPPORTUNITIES FUND:** The scheme underperformed its benchmark (CRISIL Liquid Fund Index) in the last financial year. Its underperformance can be attributed to its relatively higher average maturity in the second-half of the year. However, the scheme has outperformed its benchmark since inception.

x. **DSP BLACKROCK SHORT TERM FUND:** The scheme underperformed its benchmark (CRISIL Liquid Fund Index) in the last financial year. Its underperformance can be attributed to its relatively higher average maturity in the second-half of the year. However, the scheme has outperformed its benchmark since inception.

y. **DSP BLACKROCK BOND FUND:** The scheme underperformed its benchmark (CRISIL Composite Bond Fund Index) in the last financial year. The scheme's underperformance can be attributed to its relatively higher average maturity amid a volatile interest rate environment during the first-half of the year. The scheme also underperformed its benchmark since inception.

z. **DSP BLACKROCK GOVERNMENT SECURITIES FUND:** The scheme underperformed its benchmark (Long ICICI Securities Sovereign Bond Index) in the last financial year. The scheme's underperformance can be attributed to its relatively conservative duration profile in the second-half of the financial year. The scheme also underperformed its benchmark since inception.

Mafatlal Center, 10th Floor, Nariman Point, Mumbai – 400 021

aa. DSP BLACKROCK TREASURY BILL FUND: The scheme outperformed its benchmark (Short ICICI Securities Sovereign Bond Index) in the last financial year. The scheme's outperformance can be attributed to its active duration management in the first-half of the financial year. However the scheme has underperformed its benchmark since inception.

ab. DSP BLACKROCK BANKING & PSU DEBT FUND: The scheme was launched in September 2013 when money market rates were quite high. The scheme has benefitted by taking advantage of higher money market yields. The scheme has performed reasonably well since its short time span. The direct plan of the scheme has outperformed its benchmark since inception.

FIXED MATURITY PLANS/ FIXED TERM PLANS/ DUAL ADVANTAGE FUNDS (CLOSED-ENDED SCHEMES):

ac. DSPBRMF launched 33 Fixed Maturity Plans (FMPs), 6 Fixed Term Plans (FTPs) and 6 Dual Advantage Funds (DAFs), during the Financial Year 2013-2014. Details of these Schemes are given as **Annexure II**. FMPs, FTPs, and DAFs performed well and in accordance with their expectations at the time of their launches. However, their performance comparison with their respective benchmarks may vary depending on their tenor, portfolio construction, rating profile as well as sector allocation.

V. FUTURE OUTLOOK

a. Bond Market

We are turning cautiously optimistic regarding our future outlook on interest rates. We believe that the interest rate cycle is closer to its peak. After remaining higher since 2011, we expect the benchmark 10Y government bond yield to gradually decline over the next 12 to 18 months. We expect the RBI to maintain its focus on bringing down inflation. We also expect the government to maintain a contractionary fiscal policy stance in the current fiscal year and focus on addressing supply-side constraints which will help mitigate inflationary pressures over the next two years. A stable inflationary environment as well as contractionary fiscal policies by the new government may pave the way for a sustained decline in interest rates in the long-term.

b. Equity Market

The election verdict has been a truly historic one and we expect economic growth momentum to accelerate in the coming months, we expect to see progress on the economic reforms front, as the new government focuses on critical areas like infrastructure development, enabling industrial growth and kick starting capital investments.

We are optimistic that equity markets will continue to react positively after this landmark event. We see a period of strong earnings growth for Indian companies which should benefit from operating leverage with the revival of economic growth. Valuations are at fair levels for the broad market, and there are attractive investment opportunities in cyclical sectors like energy, financials and industrials, and from a bottom-up perspective in mid and small cap companies with solid fundamentals.

We believe that Indian equity markets are at the cusp of a strong uptrend that should likely deliver attractive returns over the next 3-5 years.

VI. BUSINESS OPERATIONS

Average Assets under Management of the Fund for the quarter ended March 31, 2014 stood at Rs 31,966.12 crore. The Fund managed 27 open ended schemes and 58 closed ended schemes as on March 31, 2014.

The Fund launched DSP BlackRock Dynamic Asset Allocation Fund, an open ended Fund of Funds Scheme, in January 2014 which seeks to dynamically manage the asset allocation between the specified equity schemes and debt schemes of the Fund based on the relative valuation of equity and debt markets. The Scheme collected Rs. 488 crore in the New Fund Offer period and the assets under management of the Scheme as on June 15, 2014 had crossed Rs. 1,000 crore.

VII. INVESTOR SERVICES

The Fund services an investor base of more than 29 lakhs accounts through AMC Offices as well as offices of its Registrar and Transfer Agent, Computer Age Management Services Pvt. Ltd. (CAMS) in about 200 locations across India. Additionally, the AMC has three dedicated Call Centres at Mumbai, New Delhi and Ahmedabad to service investors and distributors.

The Fund continues to provide value added services to investors and distributors

with a view to provide easier and better means of transacting, seeking information, etc.

For the convenience of its investors and distributors, the AMC initiated following key facilities during the year:

- Introduction of One Time Mandate (OTM) facility, which was the first of its kind in the industry. Through this facility the investor can register a debit mandate for a specified amount through a simple registration process. Thereafter the investor can subscribe into any scheme by sending a sms or through the mutual fund's website or Call Centre or even submit a physical purchase request without a cheque.
- Transacting with the Fund was made simpler for investors who have registered a One Time Mandate by offering facility to start new SIPs, submit redemption and switch request by sending an sms or through its website or Call Centre.
- Facility to register SIPs with multiple schemes, amount and dates through a simple SIP Registration Form for investors who have registered a one time mandate.
- The Fund now sends sms as well as emails on receipt of transactions i.e. 'Transaction Receipt Alerts' to acknowledge the receipt of transactions and also to alert the investor in case of any fraudulent transactions. This is in addition to the sms and emails which are sent after processing the transactions.
- The website of the Fund was enhanced for investors to generate their PIN without submitting a physical request and access their portfolio online.
- For the benefit of distributors, the Fund started daily automated emails to inform them about the list of all SIP/STP/SWP/OTM registrations / cancellations and help them to service their investors better.
- Monthly email reminders are sent to investors and distributors informing them about the FMP / FTP / DAF maturities in the following month which will help them plan their investments upon maturity.
- To assist investors awaiting their turn in front office counters, the AMC has put up an Insta Phone facility at most of the AMC Branches, for investors to instantly connect to the Call Centre for query resolutions.

VIII. INVESTOR COMPLAINTS

The Trustees were pleased to note that the grievances, complaints and queries of investors and distributors were resolved promptly by the Client Response Team of the AMC. There were 760 complaints received during the financial year 2013-14 which were all redressed within 30 days. The statement giving details of redressal of complaints received during the financial year is given in **Annexure III** attached to this Report.

PROXY VOTING POLICY
I. INTRODUCTION

The Corporate Governance Committee (**'the Committee'**) of DSP BlackRock Investment Manager Pvt. Ltd. (**'DSPBRIM'**), Asset Management Company to DSP BlackRock Mutual Fund (**'Fund'**), inter alia addresses proxy voting issues on behalf of all the Schemes of the Fund. The Committee comprises of the President & Chief

Investment Officer, Senior Fund Managers from the Investment team, Head of Risk, Chief Administrative Officer and the Compliance Officer. In keeping with its fiduciary responsibilities, the Committee reviews all proposals put up for voting even though they may be considered to be routine matters and exercises the votes in the best interest of its unitholders. Each proposal is considered based on the relevant facts and circumstances. From time to time, the Committee can avail/ engage professional Proxy Voting advisory firms to obtain research and voting

recommendations on resolutions proposed by investee companies. The Committee shall not be bound by the recommendations and shall act at its discretion keeping unitholders interest paramount. The Committee may deviate from the general policies and procedures when it determines the particular facts and circumstances that warrant such deviation to protect the interest of the unitholders.

II. PROXY VOTING POLICY**A. Corporate Governance**

Matters (including changes in the state of incorporation, merger, acquisitions and other corporate restructuring and anti-takeover provisions) will be subject to careful review by the research analyst to determine whether they would be beneficial to shareholders. DSPBRIM will analyze various economic and strategic factors in making the final decision on a merger or acquisition resolution. Corporate restructuring proposals are also subject to a thorough examination on a case-by-case basis.

B. Capital Structure

These proposals relate to various requests, principally from management, for approval of amendments that would alter the capital structure of the Company, such as an increase in authorized shares. As a general matter, DSPBRIM will support requests that it believes enhance the rights of common shareholders and oppose requests that appear to be unreasonably dilutive.

C. Compensation and Benefits

We generally support proposals for employee equity compensation plans and other employee ownership plans provided our research does not indicate that approval of the plan would be against shareholder interest. These proposals concern those issues submitted to shareholders related to management compensation and employee benefits. As a general matter, we favor disclosure of a Company's compensation and benefit policies and oppose excessive compensation, but believe that compensation matters are normally best determined by a corporation's Board of Directors, rather than shareholders. Proposals to "micro-manage" a Company's compensation practices or to set arbitrary restrictions on compensation or benefits would therefore generally not be supported.

D. Social and Corporate Social Responsibilities

These are shareholder proposals addressing either corporate social and environmental policies or requesting specific reporting on these issues. We generally do not support proposals on social issues that lack a demonstrable economic benefit to the issuer and the Fund investing in such issuer. DSPBRIM seeks to make proxy voting decisions in the manner most likely to protect and promote the long term economic value of the securities held in the scheme's accounts. We intend to support economically advantageous corporate practices while leaving direct oversight of the Company management and strategy to the Board of Directors. We seek to avoid micromanagement of Companies, as we believe that the Company's Board of Directors is best positioned to represent shareholders and oversee management on shareholders behalf. Issues of corporate social and environmental responsibility are evaluated on a case-by-case basis within the framework.

E. Board of Directors

DSPBRIM generally supports the Board's nominees in the election of Directors and generally supports proposals that strengthen the independence of the Board of Directors. As a general matter, we believe that a Company's Board of Directors (rather than shareholders) is most likely to have access to important, non-public information regarding a Company's business and prospects, and is therefore best-

positioned to set corporate policy and oversee management. We therefore believe that the foundation of good corporate governance is the selection of responsible, qualified, independent corporate Directors who are likely to diligently represent the interest of the shareholders and oversee management of the corporation in the manner that will seek to maximize shareholder value over time. In individual cases, consideration may be given to a Director nominee's history of representing shareholder interests as a Director of the company issuing the proxy or other companies, or other factors to the extent deemed relevant by the Committee.

F. Other issues**(a) Auditors:**

These proposals concern those issues submitted to shareholders related to the selection of the auditors. As a general matter, we believe that corporate auditors have a responsibility to represent the interest of shareholders and provide an independent view on the propriety of financial reporting decisions of corporate management. While we will generally defer to a corporation's choice of auditor, in individual cases, consideration may be given to an auditors' history of representing shareholder interests as auditor of the Company issuing the proxy or other Companies, to the extent deemed relevant.

(b) Corporate Charter and By-Laws:

These proposals relate to various requests for approval of amendments to a corporation's charter or by-laws. We generally vote against anti-takeover proposals and proposals that would create additional barriers and costs to corporate transactions that are likely to deliver premiums to shareholders.

(c) Conflict of Interest and governance measures for investment in group companies of AMC and investment in companies that have subscribed to the units of any scheme of DSP BlackRock Mutual Fund (Fund):

DSPBRIM is an affiliate of a large, diverse financial services firm with many affiliates and makes its best efforts to avoid conflicts of interest. However, conflict of interest can arise in certain situations. Few examples of such situations are:

- Investee Company is a client of DSPBRIM or its affiliates
- Investee Company is an entity participating to a material extent in the distribution of products managed or advised by DSPBRIM
- Investee Company has subscribed to the units of any of the schemes of Fund.

None of the schemes of the Fund shall invest in group companies of DSPBRIM. Further, DSPBRIM shall endeavour to resolve conflicts of interest in the interest of the unitholders. Nonetheless, even though a potential conflict of interest exists, DSPBRIM may vote in opposition to the recommendations of an investee company's management.

(d) Internal Control Mechanism:

Internal controls and checks are in place at various key steps in the process of exercise of votes as considered relevant/material by DSPBRIM. The Committee, periodically reviews the implementation of the policy and disclosure requirements.

III. REPORTS TO THE BOARD

DSPBRIM will report to the Trustee Company on proxy votes it has made on behalf of the Fund at least annually.
