UNITHOLDER INFORMATION REPORT

The Directors of DSP Trustee Private Limited ('the Trustee Company' or 'Trustee') have the pleasure of presenting the 28th Annual Report of DSP Mutual Fund for the financial year 2024-2025 along with the audited financial statements of the schemes for the financial year ended on March 31, 2025.

I. BRIEF BACKGROUND OF THE TRUST, SPONSORS, TRUSTEE COMPANY AND ASSET MANAGEMENT COMPANY

a. DSP MUTUAL FUND

DSP Mutual Fund ('DSPMF' or 'the Fund') was set up as a Trust by the Settlors, (DSP ADIKO Holdings Private Limited and DSP HMK Holdings Private Limited) on December 16, 1996, with DSP Trustee Private Limited, ('Trustee Company') as a Trustee in accordance with the provisions of the Indian Trusts Act, 1882 and is duly registered under the Indian Registration Act, 1908. The Trustee had entered into an Investment Management Agreement dated December 16, 1996, as amended from time to time, with DSP Investment Managers Private Limited ('DSPIM', 'former Asset Management Company') to function as the Investment Manager for all the schemes of the Fund. Pursuant to Demerger/scheme of arrangement between DSP Investment Managers Private Limited ('DSPIM') and DSP Asset Managers Private Limited ('DSPAM'/"AMC'), the asset management business has been transferred from DSPIM to DSPAM and consequently an amended Investment Management Agreement dated April 01, 2023 was entered into by the Trustees with DSPAM to function as the Asset Management Company of schemes of DSP Mutual Fund w.e.f. April 01, 2023. The Fund was registered with SEBI on January 30, 1997.

b. SPONSORS

The Fund is sponsored by DSP ADIKO Holdings Private Limited ('DSP Adiko') & DSP HMK Holdings Private Limited ('DSP HMK'). DSP Adiko & DSP HMK are the Settlors of the Mutual Fund trust. The Settlors have entrusted a sum of Rs. 1 lakh to the Trustee as the initial contribution towards the corpus of the Mutual Fund.

DSP Adiko and DSP HMK are companies incorporated in 1983 under the Companies Act, 1956 and are also registered with the Reserve Bank of India as non-deposit taking Non-Banking Finance Companies. Further, a fresh Certificate of Registration has been issued by the RBI for conversion from Type-II to Type-I NBFC-ND for not availing public funds and not having customer interface. These companies have been functioning as investment companies, dealing in the acquisition and holding of various investment instruments in the securities market in India.

c. DSP TRUSTEE PRIVATE LIMITED

The Trustee Company is the exclusive owner of the Trust Fund and holds the same in trust for the benefit of the unit holders. The Trustee Company has been discharging its duties and carrying out the responsibilities as provided in the SEBI (Mutual Funds) Regulations, 1996 ('MF Regulations') and the Trust Deed. The Trustee Company seeks to ensure that the Fund and the schemes floated thereunder are managed by the AMC in accordance with the objectives of the scheme, provisions of Trust Deed, Investment Management Agreement, the MF Regulations, directions and guidelines issued by SEBI, the Stock Exchanges, the Association of Mutual Funds in India ('AMFI') and other regulatory agencies. Further, DSP Trustee Private Limited, acts as Trustees to the DSP Alternative Investment Fund – Category III ('DSPAIF - C – III').

II. MARKET REVIEW AND FUTURE OUTLOOK

a. Fixed Income Market and outlook

After the fall in yields in previous year, the FY25 continuation of falling yields. While the RBI Monetary Policy Committee (MPC) did not change the rates, but a more prudent fiscal policy coupled with infusion of liquidity in H2 led to bond yields fall. Inflation remained largely within the RBI's target band of 2% to 6% - but it moved closer to the middle of the range.

The first half of the year witnessed bouts of tighter liquidity, which led to spikes in short-term yields. However, in the Q4FY25, RBI infused significant liquidity through FX swaps and OMO purchases that led to sharp fall in short term yields. RBI also continued to manage the liquidity situation through mix of Variable Repo and Variable Reverse Repo.

On the global front, the central banks started cutting rates after a prolonged pause. However, by the second half, as the tariff wars increased the US FED again paused the rate actions, waiting for more clarity on impact of tariffs. While there were times when inflation seemed to be coming under control, for most of the part inflation remained.

Going forward we expect globally the yield move to be uncertain. The impact of US fiscal policy, US-China cold war, US tariffs and the strength of dollar index is still uncertain and we expect more clarity in the latter part of FY26. While Globally the growth is expected to slow further, the supply shocks can lead to higher inflation. Moreover, In India, favorable demand and supply dynamics, and a dovish RBI policy may lead to a further rally in yields.

Credit Markets:

Review of FY25: After the tremendous stability shown in the post-Covid environment, credit markets stuttered in pockets in 2025. This was especially visible in microfinance and unsecured loans space, where customer overleveraging and some macro-economic instability (impact of higher inflation on net savings, some economic slowdown around the elections). This segment seems to be working its way out, even as other segments of the market held out. Corporate leveraging continues to be low as capex lags.

Outlook: After a few years of growth, we are facing geopolitical uncertainty as well as a soft spot in the growth cycle. What appears very visible, as opposed to last year, is a degree of awareness, even if not caution, among lenders. In the troubled pockets, standards have been tightened. However, it is important to remain cautious of narratives, even if we believe India as a well-regulated sweet spot is well positioned, although not immune to shocks. Our philosophy of choosing credits will be one where there are margins of safety as well as good governance practices.

b. Equity Market Commentary: – 2024-25 and outlook for 2025-26

FY25 review: India's Economic Resilience Amid Global Turbulence

FY25 was a year where macro stability remained solid, while growth consolidated. A sharp decline in retail inflation from 5.4% in FY24 to 4.6% in FY25, the lowest level in six years, was a key indicator of this resilience, along with contained current account deficit – likely to remain around 1%. At the same time, the government's unwavering commitment to fiscal consolidation and lowering of debt to GDP is very welcome in a world saddled with sovereign debt issues.

On the growth front, real GDP growth is likely to moderate to around 6.3-6.5% after averaging 8.8% over FY22-24. The moderation in some sense is essentially normalisation from very high levels of growth seen during the unlocking phase. Despite, the growth moderation India remains one of the faster growing economies of the world.

This macroeconomic prudence has not only safeguarded India against global shocks but also propelled it forward. Over the past decade, India has risen from the world's tenth-largest economy to the fifth. On a purchasing power parity basis, it is already the third largest. Even in nominal terms, India is poised to claim the third position soon reflecting the country's transformation into a global economic powerhouse.

Financial Sector: Strong and Stable

The strength of India's financial sector has been another pillar of this narrative. As of September 2024, the banking sector's gross non-performing assets ratio had improved to 2.6%, a significant reduction that signals the system's underlying health. Parallelly, the INR has demonstrated remarkable stability despite global currency volatility, outperforming many EM currencies and remaining among the least volatile against the US Dollar. This performance underscores the market's confidence in India's economic framework.

Capital markets, both equity and debt, have also witnessed deepening investor engagement. Retail and institutional participation reached record highs, with approximately 106 million unique demat accounts and over 54 million mutual fund accounts—channelling household savings into productive investments. Notably, more than 500 listed companies now command a market capitalisation of over USD 1 billion each, reinforcing the capital market's role as a key enabler of economic growth.

Foreign investor sentiment remained largely positive. Gross foreign direct investment (FDI) inflows rose from USD 65.2 billion in April–February FY24 to USD 75.1 billion in the same period of FY25. Although net FDI moderated due to higher repatriations and outward investment, this trend signifies a maturing economy where capital can move in and out with ease—highlighting the confidence of global investors in India's policy stability and market transparency. Concurrently, India's forex reserves continue to remain strong, offering a critical buffer against external shocks.

Indian Equities – A year of two halves:

The fiscal year was characterised by two distinct halves. The first half was marked by strong investor sentiment following the general election results, which reaffirmed political stability and continuity in economic policymaking. Markets rallied nearly 17% during this period. Yet, from October 2024 onwards, global developments—such as the rising US bond yields, softer corporate earnings and high valuations led to market caution, leading to five consecutive months of equity market declines from October to February.

This downtrend was arrested in March 2025, when markets staged a broad-based recovery. The Nifty surged 6.3%, with mid- and small-cap indices gaining 7.8% and 9.5%, respectively. Despite persistent global headwinds—including the return of protectionist sentiment under the new U.S. administration and fears of a potential slowdown—Indian markets ended FY25 in positive territory, a testament to their underlying strength and resilience.

For the fiscal year as a whole, Indian equities were flat for the year compared to 5% returns in EMs. However, when one looks at post covid period, India was the standout EM. Structural reforms, India INC.'s balance sheet restructuring helped India outperform the MSCI EM Index by over 110% from FY20-25 period, with India's weight in the index more than doubling to 18%.

With regards to flows, in FY25 FIIs turned net seller for the year selling USD15bn for the year (vs. USD25bn purchased in FY24). Domestic flows however continued to remain strong throughout the year, with monthly SIPs now reaching nearly USD3bn/month mark.

The primary market also reflected this optimism. FY25 witnessed the highest-ever fundraising from mainboard IPOs, with 78 companies raising ₹ 1.62 lakh crore. Flagship listings included Hyundai Motor India (₹ 27,859 crore), Swiggy (₹11,327 crore), and NTPC Green Energy (₹ 10,000 crore), underscoring the depth and maturity of India's capital markets.

On sectors, our analyst team completed a deep dive and here are some interesting takeaways:

- **Banks:** Banks reported mixed earnings in FY25, supported by lower-than-expected operating expenses and still benign credit costs. While NIMs saw a modest sequential decline, NBFCs continued to deliver strong growth. A sharp slowdown in unsecured lending aided capital conservation and risk control, though asset quality weakened in segments like credit cards, MFIs, and personal loans.
- **IT:** The IT sector showed signs of stabilisation in FY25, with most companies meeting or exceeding revenue growth expectations, signalling a positive demand outlook. Margin performance stabilised as wage pressures eased. Despite, global geopolitical concerns, deal conversion is improving, supporting a better growth trajectory ahead.
- **Autos:** The year saw a moderation in demand for Autos as the unlocking pent-up demand faded. Corporates however managed to maintain their high margins despite the moderation in demand.
- **Cement:** The sector saw a rebound in volume growth after a subdued first half, driven by improving government capex. However, profitability remained under pressure due to a fragile pricing environment. Pricing seems to be improving but needs to be seen if it will sustain in FY26.
- **Consumer durables:** Sector posted a resilient performance, particularly in cables and EMS, driven by healthy demand and capacity expansions across industries. Cables and wires (C&W) continued to perform well, although margins were pressured by competitive intensity and raw material volatility. FMEG growth was supported by channel expansion and product initiatives, with fans showing strong traction, though profitability remains under strain, especially in lighting due to pricing erosion.
- **Capital goods:** The sector remains buoyant, supported by a broad-based capex push across Power Generation, T&D, and Defence. While factory-linked capex in selective areas like Electronics, Data Centres, and Water Treatment remains strong, overall demand is still somewhat muted.
- **Pharmaceuticals:** It was a broadly positive year for pharma, with strong performances in cardiac and anti-diabetic therapies, stable price erosion, and improving gross margins aided by easing raw material costs. Large pharma players are preparing for capitalizing on new product opportunities, while EM/RoW markets and CDMOs continued to perform well with robust growth prospects. However, headwinds persist in the form of USFDA compliance challenges, rising R&D and litigation risks, and pressure on domestic acute therapies due to heightened competition. Investments in hospitals and diagnostics may also temporarily impact margins and returns.

Outlook FY26:

Looking ahead to FY26, global environment has turned volatile. However, what's encouraging is that policymakers have started to take proactive steps to support economic growth in the face of a subdued consumption and external environment. RBI pivoted towards growth-supportive measures by cutting the repo rate from 6.25% to 6.00% in April 2025—its second rate cut in nearly five years—as food inflation moderated. Since November 2024, the RBI has also enhanced liquidity injections to support the banking system, which slipped into deficit after December. These monetary policy actions are expected to benefit interest-sensitive sectors such as housing, banking, and automobiles.

On the fiscal side, the Union Budget for FY25 introduced personal income tax relief, aimed at stimulating urban consumption, particularly among upper middle-income households. Together, these measures are expected to revive aggregate demand and support broader economic momentum.

Despite a slight downward revision, the IMF forecasts India's GDP growth at 6.2% in FY26—still among the highest globally. This reflects India's demonstrated capacity to navigate external shocks, whether from trade tensions or geopolitical uncertainty. The RBI echoes this outlook, noting that global disruptions may, in fact, create strategic openings for India to enhance its position in the global economy.

Given the high global uncertainty, relatively weak growth but improving policy response markets are likely to be rangebound in the year. As it steps into FY26, India appears well-positioned to build on this momentum and advance further on its path to sustainable and inclusive growth.

III. INVESTMENT OBJECTIVES & PERFORMANCE OF THE SCHEMES

Investment objectives, one year and since inception performance vis-à-vis benchmarks, closing assets under management as on March 31, 2025 of all open ended schemes of DSP Mutual Fund are given in **Annexure IA** to this Report. Investment objectives, one year and since inception performance vis-a-vis benchmarks and closing Assets under Management as on March 31, 2025/Maturity Date of fixed maturity plan are given in **Annexure IB** to this Report.

IV. BRIEF COMMENTARY ON ONE YEAR AND SINCE INCEPTION PERFORMANCE OF THE SCHEMES VIS-VIS THEIR BENCHMARKS BASED ON DIRECT PLAN OF THE SCHEMES

A. EQUITY SCHEMES

a. **DSP FLEXI CAP FUND:** The scheme outperformed its benchmark (Nifty 500 TRI) over the last financial year. The key sectoral contributors were overweight in Financials and Consumer Discretionary, coupled with stock selection in Information Technology, led to positive performance. Also, the scheme has outperformed its benchmark since inception.

b. **DSP EQUITY OPPORTUNITIES FUND*:** The scheme outperformed its benchmark (Nifty LargeMidcap 250 TRI) over the last financial year and since inception. The outperformance was largely driven by being overweight in Financials, Consumer Discretionary, and Information Technology.

c. **DSP TOP 100 EQUITY FUND*:** The scheme outperformed its benchmark (BSE 100 TRI) over the last financial year. Overweight in Financials and stock selection in Consumer Discretionary aided the performance. The scheme has underperformed its benchmark since inception.

d. **DSP INDIA T.I.G.E.R. FUND (The Infrastructure Growth and Economic Reforms Fund):** The scheme outperformed its benchmark (BSE India Infrastructure TRI) over the last financial year. Overweight in Industrials and Utilities, and stock selection in Financial Sector were the main driver of the fund overperformance. The return of benchmark since the inception of the scheme is not available, hence the performance comparison for since inception period is not given.

e. **DSP MID CAP FUND:** The scheme outperformed its benchmark (Nifty Midcap 150 TRI) over the last financial year. The key sectoral contributors were overweight in Material and Communication Services, have contributed to the fund's performance positively. The scheme has underperformed its benchmark since inception.

f. **DSP ELSS TAX SAVER FUND:** The scheme outperformed its benchmark (Nifty 500 TRI) over the last financial year. Overweight in Financials and Consumer Discretionary aided the performance. The scheme has outperformed its benchmark since inception.

g. **DSP SMALL CAP FUND:** The scheme outperformed its benchmark (BSE 250 SmallCap TRI) over the last financial year. Overweight in Materials and Consumer Staples, and underweight in Consumer Discretionary aided the performance. The scheme has outperformed its benchmark since inception.

h. **DSP NATURAL RESOURCES AND NEW ENERGY FUND:** The scheme outperformed its benchmark (Composite Benchmark comprising 35% BSE Oil & Gas Index+ 30% BSE Metal Index+ 35% MSCI World Energy 30% Buffer 10/40 Net Total Return & Expressed in INR; Normalized values) over the last financial year. Its allocation in the Materials sector is driving the outperformance. The scheme has outperformed its benchmark since inception.

i. **DSP FOCUS FUND*:** The scheme outperformed its benchmark (Nifty 500 TRI) over the last financial year. Overweight in Financials and Healthcare aided the performance. The scheme has slightly underperformed its benchmark since inception.

j. **DSP EQUITY SAVINGS FUND:** The scheme has outperformed the benchmark (Nifty Equity Savings Index TRI) over the last one year, while the scheme has slightly outperformed the benchmark since inception. The fund has outperformed the Nifty 50 due to overweight in Energy and Financials sector. The scheme also invests in money market instruments, corporate debt securities and government securities such that Macaulay duration of the portfolio is between 1 year and 3 years. During the year, the fund changed its duration to reflect the changing duration of the Short Term fund. With the MPC signalling the end of the rate hike cycle in the early part of the year, the fund maintained its duration closer to 3y most part of the year.

k. **DSP ARBITRAGE FUND:** The scheme outperformed its benchmark (Nifty 50 Arbitrage Index) over the last financial year. Heightened volatility during the course of the year and availability of arbitrage opportunities has aided the category. The scheme has outperformed its benchmark since inception. The debt portion is primarily meant to support the arbitrage portion by investing in instruments eligible to be placed as margin with PCM for trading in equity derivatives. A small portion is also invested in debt instruments with maturity upto 2 years.

l. **DSP DYNAMIC ASSET ALLOCATION FUND:** The scheme outperformed its benchmark (CRISIL Hybrid 50+50 – Moderate Index) during the last financial year and underperformed the benchmark since inception. For the equity part, the fund has outperformed the BSE200. This was led by overweight in Financials and Energy Sector.The fixed income component of the scheme mirrors the strategy on short term fund scheme. The scheme maintained a modified duration in the range of 1year-3year. The fixed income component is invested in AAA/AA+ Corporate Bonds, Indian Government Bonds and State Development Bonds.

m. **DSP HEALTHCARE FUND:** The scheme underperformed the benchmark (BSE Healthcare TRI) in the last financial year. Since it is a sectoral scheme, the performance is attributable to stock selection. The scheme's overseas investments are the cause of the underperformance. The scheme has outperformed its benchmark since its inception.

n. **DSP QUANT FUND:** The Scheme has underperformed the benchmark (BSE 200 TRI) over the last financial year and since inception. Being overweight in quality factor compared to value led to its underperformance. Starting in 2025, the model has been enhanced by incorporating additional signals, allowing it to adapt more effectively to changing market regimes.

o. **DSP VALUE FUND:** The scheme's investment strategy is to invest in quality companies at reasonable valuations. The Scheme has outperformed the benchmark (NIFTY 500 TRI) over the last financial year and has outperformed since its inception. The overperformance is largely due to overseas investments.

p. **DSP MULTICAP FUND:** The scheme outperformed its benchmark (Nifty 500 Multicap 50:25:25 TRI) last year and since inception. The sector positions contributing to the performance were overweight in Industrials and Consumer Discretionary.

q. **DSP BANKING & FINANCIAL SERVICES FUND:** The scheme outperformed the benchmark (Nifty Financial Services TRI) last year and since inception. Better selection in the NBFC industry is the main factor driving the outperformance.

r. **DSP BUSINESS CYCLE FUND:** The fund has launched recently in December 2024 and has had a negative performance since its inception. However, it has outperformed its benchmark, the NIFTY 500 TRI. The scheme's outperformance relative to the benchmark has been primarily driven by its higher cash holdings.

s. **DSP NIFTY 50 EQUAL WEIGHT INDEX FUND (ERSTWHILE DSP EQUAL NIFTY 50 FUND):** DSP Nifty 50 Equal Weight Index Fund has underperformed its benchmark (Nifty 50 Equal Weight TRI) in the last financial year and since inception. The nature of the scheme is to passively replicate the portfolio to its underlying index and the underperformance to the benchmark is broadly caused by two main reasons - transaction costs and other scheme expenses.

t. **DSP NIFTY 50 INDEX FUND:** DSP Nifty 50 Index Fund has underperformed its benchmark (Nifty 50 TRI) in the last financial year and since inception. The nature of the scheme is to passively replicate the portfolio to its underlying index and the underperformance to the benchmark is broadly caused by two main reasons - transaction costs and other scheme expenses.

u. **DSP NIFTY NEXT 50 INDEX FUND:** DSP Nifty Next 50 Index Fund has underperformed its benchmark (Nifty Next 50 TRI) in the last financial year and since inception. The nature of the scheme is to passively replicate the portfolio to its underlying index and the underperformance to the benchmark is broadly caused by two main reasons - transaction costs and other scheme expenses.

v. **DSP Nifty Midcap 150 Quality 50 Index Fund:** DSP Nifty Midcap 150 Quality 50 Index Fund has underperformed its benchmark Nifty Midcap 150 Quality 50 TRI in the last financial year and since inception. The nature of the scheme is to passively replicate the portfolio to its underlying index and any performance divergence from the benchmark is broadly caused by two main reasons - transaction costs and other scheme expenses.

w. **DSP Nifty Smallcap250 Quality 50 Index Fund:** DSP Nifty Smallcap250 Quality 50 Index Fund has underperformed its benchmark Nifty Smallcap 250 Quality 50 TRI in the last financial year and since inception. The nature of the scheme is to passively replicate the portfolio to its underlying index and any performance divergence from the benchmark is broadly caused by two main reasons - transaction costs and other scheme expenses.

x. **DSP Nifty Bank Index Fund:** DSP Nifty Bank Index Fund has underperformed its benchmark (Nifty Bank TRI)since the launch in May 2024, subject to tracking error. The nature of the scheme is to passively replicate the portfolio to its underlying index and any performance divergence from the benchmark is broadly caused by two main reasons - transaction costs and other scheme expenses.

y. **DSP Nifty Top 10 Equal Weight Index Fund:** DSP Nifty Top 10 Equal Weight Index Fund has underperformed its benchmark (Nifty Top 10 Equal Weight TRI) since the launch in Sept 2024, subject to tracking error. The nature of the scheme is to passively replicate the portfolio to its underlying index and the underperformance to the benchmark is broadly caused by two main reasons - transaction costs and other scheme expenses

B. FUND OF FUNDS SCHEMES

a. **DSP WORLD GOLD FUND OF FUND (ERSTWHILE KNOWN AS DSP WORLD GOLD FUND):** The scheme underperformed its benchmark the (FTSE Gold Mine TR) (in INR Terms) over the last financial year and since it's inception. The scheme currently invests in BGF World Gold fund and Vaneck Gold Miners ETF. The underlying BGF World Gold Fund underperformed by not holding lower-quality stocks, such as Coeur and Harmony Gold, detracted from relative performance as these stocks rallied in the rising gold price environment. The underlying fund has been deliberate in maintaining a larger underweight than is imposed upon by UCITS restrictions (i.e. maximum 10% in a single issuer). The companies of the underlying fund encountered higher-than-expected cost inflation and struggled to translate higher gold prices into strong free cash flow. Whereas the Fund's underweight exposure to Agnico Eagle detracted from performance as the stock experienced strong gains following the release of its results.

b. **DSP GLOBAL CLEAN ENERGY FUND OF FUND (ERSTWHILE KNOWN AS DSP WORLD ENERGY FUND):** The scheme underperformed its benchmark (MSCI ACWI IMI Clean Energy Infrastructure Index) over the last financial year. Benchmark of this scheme changed during the year, the return of benchmark since the inception of the scheme is not available, hence the performance comparison for since inception period is not given. The underlying Fund's performance was driven by a combination of what the Fund owned and did not own. Starting with what the underlying Fund did own, market sentiment remained broadly negative towards sustainable energy equities throughout the reporting period, primarily driven by the US election outcome and its potential implications for US energy policy..

c. **DSP WORLD MINING FUND OF FUND (ERSTWHILE DSP WORLD MINING FUND):** During the year, DSP World Agriculture Fund was merged into this scheme. The scheme outperformed its benchmark the (Composite Benchmark = MSCI ACWI Metals and Mining 30% Buffer 10/40 (1994) Net Total Return Index) marginally over the last financial year and underperformed since inception. Stock selection negatively impacted relative returns, whereas sub-sector allocation contributed positively to relative performance. The underlying Fund's strategic overweight position in gold companies, including Agnico Eagle and Wheaton Precious

Metals, positively impacted relative performance, driven by rising gold prices. Whereas the underlying Fund's overweight position in Ivanhoe Mines detracted from relative returns. The stock was adversely affected by ongoing political uncertainty in the Democratic Republic of Congo. During the period, the underlying fund's overweight position in Glencore, a UK-listed diversified miner, was among detractors from relative performance.

Investors are requested to note that DSP World Agriculture Fund has been merged with DSP World Mining Fund of Fund (Erstwhile Known as DSP World Mining Fund), effective from close of business hours of October 4, 2024. ("Effective Date"). For performance details of DSP World Agriculture Fund, Investors may request to DSP Asset Managers Private Limited ("AMC"), Investment Manager for DSP Mutual Fund at The Ruby, 25th Floor, 29, Senapati Bapat Marg, Dadar West, Mumbai 400028.

d. **DSP US FLEXIBLE EQUITY FUND OF FUND:** The scheme underperformed its benchmark (Russell 1000 TR) over the last financial year and since inception. The largest detractor from performance was stock picking and an underweight allocation to IT sector – in particular, our underweight to NVIDIA and software companies where expectations for future growth appear overly optimistic. Materials also dragged relative performance, mainly due to stock picks in Chemicals and Container & Packaging. On the other hand, having no positioning in Utilities helped offset some of the losses in the fund, as return of the sector lagged behind others. In addition, Financials also contributed to relative performance, led by strong stock selection in insurance.

e. **DSP GLOBAL INNOVATION FUND OF FUND:** The scheme underperformed its benchmark (MSCI ACWI Net total return expressed in INR) over the last financial year. This is driven by the sustained rally in US mega caps and other AI / Semiconductor themed businesses which were underweighted by the scheme due to elevated valuations. The scheme has however outperformed its benchmark since inception.

f. **DSP US TREASURY FUND OF FUND:** The scheme has outperformed its benchmark (S&P US Treasury Bond Index) over the last financial year. This is driven by higher modified duration profile scheme portfolio which benefitted from the volatility in US yields. The scheme has underperformed its benchmark since inception.

g. **DSP GOLD ETF FUND OF FUND:** DSP Gold ETF Fund of Fund has underperformed its benchmark (the domestic price of physical gold) in the last financial year and since inception. The underperformance to the benchmark is broadly caused by two main reasons - transaction costs and other scheme expenses.

h. **DSP INCOME PLUS ARBITRAGE FUND OF FUND (ERSTWHILE DSP GLOBAL ALLOCATION FUND OF FUND):** The scheme underperformed the benchmark over the last financial year. The performance has been in line with benchmark (40% NIFTY 50 Arbitrage Index + 60% CRISIL Dynamic Bond A-III Index) since inception. Unitholders are requested to make note that this may not be a relevant comparison as the scheme underwent changes to its fundamental attributes effective March 11, 2025. The scheme got repositioned to a domestic fund of fund investing in arbitrage and debt schemes and this involved change in underlying schemes as well as the benchmark.

C. **HYBRID SCHEMES AND MULTI ASSET SCHEME**

a. **DSP AGGRESSIVE HYBRID FUND (ERSTWHILE KNOWN AS DSP EQUITY & BOND FUND):** The scheme outperformed its benchmark (CRISIL Hybrid 35+65 - Aggressive Index) over the last financial year and since inception. For the equity part, the fund has outperformed the Nifty 500. Being overweight in Financials and underweight in Consumer Discretionary contributed to the performance. The fixed income component of the scheme tracks the strategy of the Banking & PSU debt scheme. The scheme maintained a modified duration in the range of 3 years to 6 years. The fixed income component is invested in AAA/AA+ Corporate Bonds, money market instruments and Government Bonds. With the MPC signalling the end of the rate hike cycle in the early part of the year, the fund maintained its duration between 3 and 6 years through most part of the year.

b. **DSP REGULAR SAVINGS FUND:** The scheme outperformed its benchmark (CRISIL Hybrid 85+15 - Conservative Index) over the last financial year. For the equity part, the fund has outperformed the BSE200. Being overweight in Financials Sector and stock selection in Materials contributed towards the performance. The scheme has slightly underperformed its benchmark since its inception. The fixed income component of the scheme tracks the strategy of the short term debt scheme. The scheme maintained a modified duration in the range of 2 years to 3 years. The fixed income component is invested in AAA Corporate Bonds and Government Bonds. With the MPC signalling the end of the rate hike cycle in the early part of the year, the fund maintained its duration between 2 and 3 years through most part of the year. The scheme underperformed its benchmark (CRISIL Hybrid 85+15– Conservative Index) since inception.

c. **DSP MULTI ASSET ALLOCATION FUND:** The scheme has outperformed its benchmark (Composite Benchmark: 40% NIFTY500 TRI + 20% NIFTY Composite Debt Index + 15% Domestic Price of Physical Gold (based on London Bullion Market Association (LBMA) gold daily spot fixing price) + 5% iCOMDEX Composite Index + 20% MSCI World Index) since its inception i.e. September 27, 2023 and last year. The outperformance was primarily driven by active management within the asset classes, namely stock selection and duration positioning.

D. **INCOME SCHEMES AND COMMODITY EXCHANGE TRADED FUNDS**

a. **DSP GILT FUND ('ERSTWHILE DSP GOVERNMENT SECURITIES FUND'):** The scheme mildly underperformed its benchmark (CRISIL Dynamic Gilt Index) in the last Financial Year. The scheme underperformed as it was heavily invested in the 30y-40y segment and the curve steepened. The scheme has outperformed its benchmark since inception.

b. **DSP CREDIT RISK FUND:** The scheme was closed for subscription in FY25 due to uncertainties in recoveries from a few exposures, including large ones, and rumours of resolution bringing in speculative flows which become difficult to manage and are potentially inimical to long-term investors in the Fund. The Fund will be opened as it is our belief that a bulk of the inflows from resolution in defaulted papers is through. As a part of that resolution, the Fund also received InVITs of Roadstar Infa Investment Trust which will be sold in due course when there is sufficient liquidity. The small fund size poses challenges of getting quality papers and liquidity, but part inflows from one of the defaulted papers in the past has helped outperform the benchmark (CRISIL Credit Risk Debt B-II Index) in the past year and has outperformed the benchmark since inception.

c. **DSP SAVINGS FUND:** The scheme outperformed its benchmark (CRISIL Money Market A-I Index) in the last financial year. During the year, the funds positioning was changed - earlier it used to invest in money market papers, which would roll down to March every year and reinvest for a further period of a year. Since October 2024, we changed the fund away from a roll down fund to one which manages tenure/credits within accepted boundaries. The scheme underperformed its benchmark since inception.

d. **DSP LOW DURATION FUND:** The scheme outperformed its benchmark (NIFTY Low Duration Debt Index A-I) in the last financial year as it maintained aggressive duration profile. The duration of the scheme was actively managed to balance the opportunities to earn higher accruals with risks emerging from low systemic liquidity during major part of the year. The scheme maintains a conservative credit profile, investing only in long term AAA rated Corporates/Banks in addition to government securities. The scheme has outperformed its benchmark since inception.

e. **DSP BANKING & PSU DEBT FUND:** The scheme outperformed its benchmark (Nifty Banking & PSU Debt Index A-II) in the last financial year as it maintained aggressive duration and asset allocation profile. The scheme benefited from lower yields in both government securities as well as AAA corporate bond curve as the scheme was invested in higher duration. The scheme has also outperformed its benchmark since inception.

f. **DSP BOND FUND:** Over the last couple of years, the scheme has moved to a more passive strategy by keeping the average maturity at ~4 years. This is also in line for the duration specified for Medium Term Funds. The scheme continues to invest in highly rated companies and IGBs/SDLs. The scheme outperformed the benchmark (CRISIL Medium Duration Debt A-III Index) in the past year, but has underperformed since inception.

g. **DSP 10Y G-SEC FUND:** The scheme underperformed its benchmark (CRISIL 10-year Gilt index) during the last one year. This scheme predominantly maintains allocation to benchmark (on the run) ten-year government security and is managed passively. This scheme has outperformed the benchmark since inception.

h. **DSP SHORT TERM FUND:** The scheme outperformed its benchmark (CRISIL Short Duration Debt A-II Index) in the last Financial Year as it maintained aggressive duration profile and Risk adjusted allocation towards Credit assets. The scheme remained invested in 1-3Y quality AAA bonds and Government securities and increased allocation to AA+ assets. Overall duration management has helped to maintain consistent performance. The maturity profile remained well positioned for expected rally in G-sec and other assets. The scheme has outperformed its benchmark since inception.

i. **DSP STRATEGIC BOND FUND:** The scheme outperformed its benchmark (CRISIL Dynamic Bond A-III Index) in the last Financial Year as it maintained aggressive duration and asset allocation. The scheme remained invested in primarily in the 10y+ segment in government securities and state government securities. Overall duration management has helped in maintaining consistent performance. The scheme has also outperformed its benchmark since inception.

j. **DSP LIQUIDITY FUND:** The scheme outperformed its benchmark (CRISIL Liquid Debt A-I Index) in the last financial year. The fund took advantage of the high spreads during tight liquidity conditions to earn high accrual. Since this category is predominantly used for cash management, the underlying portfolio securities are predominantly of high liquidity and credit quality. The scheme has outperformed its benchmark since inception.

k. **DSP ULTRA SHORT FUND:** The scheme outperformed its benchmark (CRISIL Ultra Short Duration Debt A-I Index) during the last financial year as it maintained aggressive duration profile. The scheme attempts to the play the subtle moves in the money market curve through the year, influenced by changing liquidity conditions and demand/supply dynamics. It also allocates a portion of the portfolio to AA+ to AA- rated issuers in an effort to optimise returns. The scheme has underperformed its benchmark since inception.

l. **DSP CORPORATE BOND FUND** - The scheme outperformed its benchmark (CRISIL Corporate Debt A-II Index) in the last financial year. The scheme follows a roll down strategy, which will be reset in early 2027. The Fund invests in Government Securities and AAA Bonds with maturities majorly in mid-2026 to 2027. The scheme has outperformed its benchmark since inception.

m. **DSP OVERNIGHT FUND:** The scheme's performance was in line with its benchmark (CRISIL Liquid Overnight Index) in the last financial year, further the index returns do not reflect expenses. The scheme has performed in line with its benchmark since inception as it deployed its funds in a combination of overnight instruments to optimise returns.

n. **DSP FLOATER FUND:** The scheme outperformed its benchmark (CRISIL Short Duration Debt A-II Index) in the last financial year as it maintained a higher allocation to Floating rate bonds and dynamically managed the duration. The scheme remained invested in Government securities, state government securities, AAA and AA+ corporate bonds. The scheme has also outperformed since inception.

o. **DSP NIFTY 1D RATE LIQUID ETF (ERSTWHILE DSP LIQUID ETF):** The scheme has been providing current income, commensurate with relatively low risk while providing a high level of liquidity, primarily through a portfolio of Tri-party Repo, Repo in Government Securities, Reverse Repos and similar other overnight instruments. The scheme has underperformed its benchmark (Nifty 1D Rate Index) in the last financial year and since inception mainly due to expenses and variance in the benchmark rate against actual deployment on a daily basis.

p. **DSP Nifty SDL Plus G-Sec Jun 2028 30:70 Index Fund:** The investment objective of the scheme is to track the Nifty SDL Plus G-Sec Jun 2028 30:70 Index by investing in Government Securities (G-Sec) and SDLs, maturing on or before June 2028 and seeks to generate returns that are commensurate (before fees and expenses) with the performance of the underlying Index, subject to tracking error & tracking difference. DSP Nifty SDL Plus G-Sec June 2028 30:70 Index Fund has delivered under performance in last year and since inception, commensurate to the underlying index subject to the permissible tracking difference. The tracking difference was primarily due to expense charged by the fund, outflow from and inflows in funds and periodical rebalancing to align it with the benchmark.

q. **DSP CRISIL SDL Plus G-Sec Apr 2033 50:50 Index Fund^:** The investment objective of the scheme is to track the CRISIL SDL Plus G-Sec Apr 2033 50:50 Index Fund by investing in Government Securities (G-Sec) and SDLs, maturing on or before April, 2033 and seeks to generate returns that are commensurate (before fees and expenses) with the performance of the underlying Index, subject to tracking error & tracking difference. DSP CRISIL SDL Plus G-Sec Apr 2033 50:50 Index Fund has delivered under performance in last year and since inception, commensurate to the underlying index subject to the permissible tracking difference. The tracking difference was primarily due to expense charged by the fund, outflow from and inflows in funds and periodical rebalancing to align it with the benchmark.

r. **DSP Nifty SDL Plus G-Sec Sep 2027 50:50 Index Fund:** The investment objective of the scheme is to track the Nifty SDL Plus G-Sec Sep 2027 50:50 Index by investing in Government Securities (G-Sec) and SDLs, maturing on or before September, 2027 and seeks to generate returns that are commensurate (before fees and expenses) with the performance of the underlying Index, subject to tracking error & tracking difference. DSP Nifty SDL Plus G-Sec Sep 2027 50:50 Index Fund has delivered under performance in last year and since inception, commensurate to the underlying index subject to the permissible tracking difference. The tracking difference was primarily due to expense charged by the fund, outflow from and inflows in funds and periodical rebalancing to align it with the benchmark.

s. **DSP BSE LIQUID RATE ETF:** The scheme has been providing current income, commensurate with relatively low risk while providing a high level of liquidity, primarily through a portfolio of Tri-party Repo, Repo in Government Securities, Reverse Repos and similar other overnight instruments. The scheme has underperformed its benchmark (BSE Liquid Rate Index) in the last financial year and since inception mainly due to expenses and variance in the benchmark rate against actual deployment on a daily basis

t. **DSP Silver ETF:** DSP Silver ETF has underperformed its benchmark (the domestic price of physical silver) in the last financial year and since inception. The underperformance to the benchmark is broadly caused by two main reasons - transaction costs and other scheme expenses.

u. **DSP GOLD ETF:** DSP Gold ETF has underperformed its benchmark (the domestic price of physical gold) during this financial year and since its inception. The underperformance to the benchmark is broadly caused by two main reasons - transaction costs and other scheme expenses.

VI. INVESTOR SERVICES

With a presence across India, the Fund serves over 4.11 million investors through its wide-reaching network. The AMC operate through 39 offices and 216 Investor Service Centres (ISCs), managed by the AMC's Registrar and Transfer Agent, Computer Age Management Services Limited (CAMS), ensuring accessibility and support for investors across the country.

The AMC's dedicated Contact Centre in Chennai is committed to providing consistently high-quality service to all investors and distributors. From handling inquiries to resolving concerns, the Contact Centre ensures a smooth, efficient, and supportive experience for all stakeholders.

DSP Mutual Fund is committed to providing smooth and accessible experience for investors by combining easy-to-use digital platforms with a strong physical support network. This balanced approach ensures convenience, responsiveness, and personalized service across all touchpoints.

The AMC's aim is to help investors achieve their financial goals by simplifying their journey through innovation and streamlined operations, ensuring maximum convenience at every step. This year, the AMC have introduced several improvements to further support investors in their financial journey.

- The AMC launched an annual review of an investor's portfolio with DSP, available on the AMC's website and app, through interactive charts and graphs. It is called as **The Rearview Mirror Report 2024**. It's an annual report, designed to provide investors with a clear snapshot of their progress and achievements over the past year. The report includes an overview of their current portfolio, XIRR, asset allocation, purchase and redemption trends, SIP behavior, and the drivers behind those decisions, to help them make informed decisions in the future.
- The **SMART SOA** (Statement of Account) has been introduced as an interactive dashboard by the AMC to help investors easily review their recent transactions and verify all investor related details in their folio. On processing of any financial transactions, investors receive a **SMART SOA link** via both SMS and email, which is valid for 15 days from the date and time of receipt. The statement is available for download as a PDF. It provides a comprehensive view of the last five processed transactions, including a breakdown of allocations by scheme category, cost, and current value. Additionally, it enables investors to track all their SIPs, STPs, and SWPs in one place while offering clear insights into exit load charges.
- The **WhatsApp Authentication** initiative aims to enhance investor convenience and security. Through this service, investors receive WhatsApp alerts on their registered mobile numbers for important non-financial requests, such as **changes to bank details**, **mobile number**, and **email ID**. This ensures they remain informed and can easily track the status of their requests. Investors can also notify us promptly if they have not initiated a particular transaction. Additionally, for financial transactions like **redemptions** and **switches up to ₹ 5 lakhs**, investors are notified in case of a signature mismatch. If the investor confirms they have initiated the transaction, it is processed without further delay. This initiative simplifies the process and adds an extra layer of assurance, making the overall experience smoother and more efficient for investors.
- The AMC has **implemented Aadhaar - based OTP Authentication** for the following Non-Financial Transactions (NFTs): Change of Bank, Change of IDCW Option, Change of Name, and Change of Tax Status. In case of any signature mismatch due to which the request cannot be processed, an email is sent with details of the NFT transaction, along with a weblink for approval or disapproval. This helps in reducing the number of rejections through a secure method for validating the request.
- The AMC launched a **'Need Help'** button on website to assist investors in quickly raising questions or seeking clarifications related to new investments, service queries, or providing feedback on the website/app.
- The AMC introduced MITRA, an initiative designed to help investors track and claim unclaimed investments or assets. This service assists investors in locating and retrieving their unclaimed units. MITRA streamlines the process, offering a transparent and user-friendly platform for resolving unclaimed holdings. This service is available on our website.

Information Ratio:

Considering the significance of volatility of performance in determining the suitability of Mutual Fund schemes, SEBI vide its circular no. SEBI/HO/IMD/IMD-PoD-2/P/CIR/2025/6 dated January 17, 2025 has introduced Information Ratio (IR) which is an established financial ratio to measure the Risk Adjusted Return (RAR) of any scheme portfolio. Further, in order to ensure better understandability about IR by investors and to create awareness among investors, DSP has released educational social media posts (0.7L impressions) and a video (5.7L views) and published an article in the "Learn" section to deepen investor understanding

For detailed understanding regarding Information Ratio, Investors are requested to click on the link
https://www.amfiindia.com/information-ratio

- Enhancements Made to the Website/App to Improve the Investor Journey:
  a) The AMC now display the capital gains at the time of redemption and switching to help investors know the expected tax implications.
  b) The AMC has introduced Live XIRR in the app, which calculates returns based solely on active units in the investor's portfolio. This provides a more accurate view of current performance, unlike traditional XIRR that includes redeemed units and may distort the actual picture.
  c) The AMC redesigned the folio creation journey in the app to reduce clicks and user effort, simplifying the process and making it faster for investors to create their folios.
  d) The product pages now feature a more detailed and intuitive portfolio breakdown, offering investors greater clarity on asset types and underlying exposures. This enhancement empowers investors to better understand the composition of their investments and make more informed decisions.

e) Improved user experience by consolidating three deferred redemption prompts into a single screen, ensuring a quicker and smoother redemption process.

f) The AMC introduced an online facility that allows unit holders to add a joint holder in the following two scenarios:

- When a minor reaches the age of majority and wishes to add a joint holder (parent, guardian, sibling, or spouse).
- When a surviving joint holder wishes to add a new joint holder after the transmission of units.

The AMC strongly encourage our investors to validate their KYC in line with the latest guidelines. Please visit www.dspim.com to review the updated changes to the KYC procedures. Keeping your KYC details up to date is crucial for maintaining compliance and ensuring smooth transaction processing.

The AMC also recommend that investors proactively review and update their information, including KYC details, PAN, email address, mobile number, and bank account details. This will help ensure a seamless and convenient investment experience while meeting regulatory requirements.

VII. INVESTOR COMPLAINTS

The Trustees were pleased to note that the grievances, complaints and queries of investors and distributors were resolved promptly by the Client Response Team of the AMC. There were 62 complaints received during the financial year 2024-2025 which were all redressed within a reasonable time. The statement giving details of redressal of complaints received during the financial year is given in Annexure III attached to this Report.

Further, Clause 5.13.1 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 prescribed a new format for disclosure of investor complaint on AMC and AMFI website on monthly basis. The link of the monthly disclosure being made by AMC on its website is appended below:

https://www.dspim.com/mandatory-disclosures/monthly-investor-complaint-data

The Trustees strongly advise investors to regularly check their account statements issued by the Fund and inform the AMC should there be any difference in the investors' details or the transaction details as reflected in the account statement. Investors are requested to reconcile their bank account statements with the account statement sent by the Fund and contact the AMC in case of any non receipt of redemption/Income distribution-cum capital withdrawal distribution ("IDCW distribution", erstwhile termed as "dividend" till March 31, 2021) proceeds. Investors can approach any of the AMC offices or contact the Call Centre for claiming the same.

We take this opportunity to encourage investors to provide their valuable feedback by email at service@dspim.com or call us on 1800-208-4499 / 1800-200-4499.

VIII. SIGNIFICANT ACCOUNTING POLICIES

Accounting policies for preparation of financial statements of all the schemes are in accordance with the MF Regulations and circulars issued thereunder.

IX. IDCW Distribution

DSPMF has made IDCW distributions in various schemes during the financial year 2024-2025. Details of distributions are available on the website (https://www.dspim.com/investor-centre/idcw).

X. UNCLAIMED IDCW DISTRIBUTION AND REDEMPTION AMOUNTS

Unitholders are requested to regularly check regarding receipt of IDCW distributions, redemption proceeds to ensure that no payment to the unitholders is lying unclaimed by them. The Fund also endeavours to follow up with the investors and distributors for any such payment instrument not encashed by the investor, within 90 days of sending the instrument.

As on March 31, 2025 the Fund had 1,70,777 unclaimed IDCW distribution cases amounting to Rs. 41,43,75,783.29 and 5,489 unclaimed Redemption cases amounting to Rs. 16,70,82,636.43. The unclaimed amounts have been invested in line with the Clause 14.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 in DSP Overnight Fund - Unclaimed Plan in the Investors' folio. Scheme wise details of the same are given in Annexure IV.

Note: With effect from April 1, 2021 nomenclature of the term 'Dividend' has been changed to 'Income Distribution cum Capital Withdrawal ('IDCW').

XI. LARGE HOLDING IN THE SCHEMES (I.E. IN EXCESS OF 25% OF THE NET ASSETS) AS ON MARCH 31, 2025

There were two investors holding in excess of 25% of the net assets as on March 31, 2025 in DSP Overnight Fund and DSP Global Clean Energy Fund of Fund.

XIII. REPORTING ON DISCHARGE OF STEWARDSHIP RESPONSIBILITY

Securities and Exchange Board of India (SEBI) vide its circular CIR/CFD/CMD1/168 /2019, dated December 24, 2019, requires reporting of the status of compliance with the stewardship principle as part of its annual intimation to clients / beneficiaries. The stewardship code was applicable with effect from July 1, 2020.

The subsequent paragraphs detail the manner in which the elements of the stewardship code have been discharged by the AMC.

The Board of the Company and DSP Trustee Private Limited (Trustee Company) at its meeting held on April 24, 2025 and April 25, 2025, respectively, had approved the Amended policy on discharge of stewardship responsibilities. The policy on discharge of stewardship responsibilities ('Policy") sets out the framework and guidelines on discharge of the stewardship responsibilities of the AMC. The responsibility for the overall implementation and execution of policy rests with the Stewardship Committee of the AMC. Accordingly, the Stewardship Committee of the AMC, with an endeavor to safeguard the interests by enhancing monitoring and engagement with investee companies, has laid down certain principles. During the year, 4 stewardship meeting(s) were conducted.

Throughout the year, as part of responsible investing efforts, the AMC closely monitored and actively interacted with the investee companies. The AMC focused on various aspects such as their operational and financial performance, strategic decisions, corporate governance practices, and environmental, social, and governance (ESG) factors that could impact their success. The Stewardship Committee plays a vital role in this process. They have established a threshold level that determines the significance of our exposure to an investee company, which guides in deciding the level of engagement and intervention necessary with the investee company. Specifically, the investment team of the AMC ensures that companies meeting the threshold of 3% of equity of the investee company or 5% of assets under management (AUM) comply with the Stewardship policy. Additionally, the team also pays attention to companies that fall below this threshold but have experienced controversies or corporate governance events.

The monitoring and engagement activities cover a wide range of topics. The team delve into areas such as the company's strategic direction, overall performance, industry trends, management effectiveness, board composition, leadership quality, and corporate governance matters such as executive compensation, board structure (including factors like diversity and independent directors). The team is also actively involved in monitoring related party transactions and engaging with companies on environmental, social, and governance (ESG) issues. To gather information for our monitoring efforts, the AMC rely on publicly available data, conduct management meetings, analyze sell-side research, and gather industry insights. This comprehensive approach allows the AMC to stay informed and actively participate in shaping the success and sustainability of the companies we invest in.

The Status of Compliance with the Stewardship Code is stated below:

Principle	Description	Compliance status	Remarks
Principle 1	Institutional investors should formulate a comprehensive policy on the discharge of their stewardship responsibilities, publicly disclose it, review and update it periodically	Complied	The Policy on discharge of stewardship responsibilities (Policy) had been approved by the Board of the Company and Trustee Company. The Policy is disclosed on the website of the Company under mandatory disclosure section. https://www.dspim.com/mandatory-disclosures/stewardship/stewardship-policy-mutual-fund.pdf
Principle 2	Institutional investors should have a clear policy on how they manage conflicts of interest in fulfilling their stewardship responsibilities and publicly disclose it.	Complied	The conflict of interest policy disclosed on the website under mandatory disclosure section specifies various control measures and prescribes procedures to be followed by the Company for identifying and managing conflicts. There was no instance of conflict of interest noted by the stewardship committee at its meeting held during the period in relation to any investee company.
Principle 3	Institutional investors should monitor their investee companies	Complied	The Investment Team of the Company engages with the investee companies as part of the research process that leads to an investment in an investee company, which include meeting with the management. The stewardship committee at its periodic meetings has reviewed monitoring and engagement activities carried out by the investment team for the said period.
Principle 4	Institutional investors should have a clear policy on intervention in their investee companies. Institutional investors should also have a clear policy for collaboration with other institutional investors where required, to preserve the interests of the ultimate investors, which should be disclosed.	Complied	The Policy covers when and how to intervene, if any intervention is required in the investee companies. The stewardship committee reviews the intervention in the investee companies.
Principle 5	Institutional investors should have a clear policy on voting and disclosure of voting activity	Complied	DSP Mutual Fund has comprehensive voting policy which includes details of mechanisms of voting, circumstances in which voting should be for/against, disclosure of voting, the voting policy, voting decisions (including rationale for decision), use of proxy voting/voting advisory services, etc. The quarterly voting disclosure are published on website under mandatory disclosure section linked here. https://www.dspim.com/mandatory-disclosures/proxy-voting
Principle 6	Institutional investors should report periodically on their stewardship activities	Complied	This report on stewardship activities for Financial Year 2024-2025 is uploaded on the AMC website and forms part of the Annual Report which is being sent to the Unitholders.

PROXY VOTING POLICY

I. INTRODUCTION

The Stewardship Committee (the Committee) of DSP Asset Managers Private Limited (DSPAM), Asset Management Company to DSP Mutual Fund (Fund), interalia addresses proxy voting issues on behalf of all the Schemes of the Fund. The Committee comprises of the Managing Director & Chief Executive Officer, Chief Operating Officer, Head of Equities, Head of Passive Investments, Head of Fixed Income, Head of Legal & Compliance, Chief Risk Officer and Head of Quantitative Investments and Analytics. In keeping with its fiduciary responsibilities, the Committee reviews all proposals put up for voting even though they may be considered to be routine matters and exercises the votes in the best interest of its unitholders. Each proposal is considered based on the relevant facts and circumstances. From time to time, the Committee can avail/engage professional Proxy Voting advisory firms to obtain research and voting recommendations on resolutions proposed by investee companies. The Committee shall not be bound by the recommendations and shall act at its discretion keeping unit holders interest paramount. The Committee may deviate from the general policies and procedures when it determines the particular facts and circumstances warrant such deviation to protect the interest of the unit holders. This Policy takes into account the relevant regulatory guidelines issued by Securities and Exchange Board of India (SEBI) from time to time.

The vote shall be casted at Fund level. However, in case Fund Manager/(s) of any specific scheme has strong view against the views of Fund Manager/(s) of the other schemes, then the voting shall be done at scheme level and the detailed rationale supporting their voting decisions shall be recorded.

The provisions of SEBI (Mutual Fund) Regulations, 1996 and circulars/notifications/letters issued thereunder from time to time read with guidelines/ notifications issued by AMFI shall prevail over the provisions of the Policy.

Mechanism for Voting

Since the introduction of voting through electronic means, DSPAM casts its votes on the voting platforms offered by Central Depository Services Limited (CDSL), National Securities Depository Limited (NSDL), KFin Technologies Limited (KFin), Link Intime India Private Limited (Link Intime) and Broadridge Financial Solutions and other service providers. In cases where e-voting is not possible or not mandated, DSPAM endeavours to exercise its vote at such meetings through a proxy appointed in accordance with Companies Act, 2013.

Further, even after a vote has been cast through the electronic means/otherwise, the fund managers may attend the general meetings of the investee companies, to pose questions to the management of the Investee Company pertaining to various matters.

II. PROXY VOTING POLICY

A. Corporate Governance matters (including changes in the state of incorporation, mergers and other corporate restructuring and anti-takeover provisions)
Mergers and acquisitions will be subject to careful review by the research analyst to determine whether they would be beneficial to shareholders. DSPAM will analyze various economic and strategic factors in making the final decision on a merger or acquisition resolution. Corporate restructuring proposals are also subject to a thorough examination on a case-by-case basis.

B. Capital Structure

These proposals relate to various requests, principally from management, for approval of amendments that would alter the capital structure of the Company, such as an increase in authorized shares. As a general matter, DSPAM will support requests that it believes enhance the rights of common shareholders and oppose requests that appear to the unreasonably dilutive.

C. Compensation and Benefits

We generally support proposals for employee equity compensation plans and other employee ownership plans provided our research does not indicate that approval of the plan would be against shareholder interest. These proposals concern those issues submitted to shareholders related to management compensation and employee benefits. As a general matter, we favor disclosure of a Company's compensation and benefit policies and oppose excessive compensation, but believe that compensation matters are normally best determined by a corporation's Board of Directors, rather than shareholders. Proposals to "micro-manage" a Company's compensation practices or to set arbitrary restrictions on compensation or benefits should therefore generally not be supported.

D. Social and Corporate Social Responsibilities

These are shareholder proposals addressing either corporate social and environmental policies or requesting specific reporting on these issues. We generally do not support proposals on social issues that lack a demonstrable economic benefit to the issuer and the Fund investing in such issuer. DSPAM seeks to make proxy voting decisions in the manner most likely to protect and promote the long-term economic value of the securities held in the scheme's accounts. We intend to support economically advantageous corporate practices while leaving direct oversight of the Company management and strategy to the Board of Directors. We seek to avoid micromanagement of Companies, as we believe that the Company's Board of Directors is best positioned to represent shareholders and oversee management on shareholders behalf. Issues of corporate social and environmental responsibility are evaluated on a case –by –case basis within the framework.

E. Board of Directors

DSPAM generally supports the Board's nominees in the election of Directors and generally supports proposals that strengthen the independence of the Board of Directors. As a general matter, we believe that a Company's Board of Directors (rather than shareholders) is most likely to have access to important, nonpublic information regarding a Company's business and prospectus, and is therefore best-positioned to set corporate policy and oversee management. We therefore believe that the foundation of good corporate governance is the selection of responsible, qualified, independent corporate Directors who are likely to diligently represent the interest of the shareholders and oversee management of the corporation in the manner that will seek to maximize shareholder value over time. In individual cases, consideration may be given to a director nominee's history of representing shareholder interests as a director of the company issuing the proxy or other companies, or other factors to the extent deemed relevant by the Committee.

F. Other issues

i. Auditors

These proposals concern those issues submitted to shareholders related to the selection of the auditors. As a general matter, we believe that corporate auditors have a responsibility to represent the interest of shareholders and provide an independent view on the propriety of financial reporting decisions of corporate management. While we will generally agree to a corporation's choice of auditor, in individual cases, consideration may be given to an auditors' history of representing shareholder interests as auditor of the Company issuing the proxy or other Companies, to the extent deemed relevant by the Committee.

ii. Corporate Charter and By-Laws

These proposals relate to various requests for approval of amendments to a corporation's charter or by-laws. We generally vote against antitakeover proposals and proposals that would create additional barriers and costs to corporate transactions that are likely to deliver premiums to shareholders.

iii. Conflict of Interest and governance measures for investment in group companies of DSPAM (AMC) and investment in companies that have subscribed to the units of any scheme of the Fund:

However, for all remaining resolutions other than the mentioned above, it shall be compulsorily for Mutual Fund to cast their votes effective April 01, 2022.

DSPAM is an affiliate of a large, diverse financial services firm with many affiliates and makes its best efforts to avoid conflicts of interest. However, conflict of interest can arise in certain situations. Few examples of such situations are:

- Investee Company is a client of DSPAM or its affiliates
- Investee Company is an entity participating to a material extent in the distribution of products managed or advised by DSPAM
- Investee Company has subscribed to the units of any of the schemes of Fund

None of the schemes of the Fund shall invest in DSP Group of companies. Further, DSPAM shall endeavor to resolve conflicts of interest in the interest of the unitholders. Nonetheless, in above cases DSPAM may vote as per recommendation by proxy advisors.

G. Related party transactions of the investee companies (excluding DSP group companies).

Related party transactions (RPTs) are transactions between a company and its related parties, and generally come in two forms: a) one-off transactions, typically asset purchases or disposals, and b), recurring transactions occurring during the ordinary course of business, usually in the form of the ongoing sale and purchase of goods and services.

According to the materiality and nature of the transaction the exercise of votes shall be assessed on a case-by-case basis exercise of votes as the committee is convinced by the strategic rationale and the fairness of the transaction terms and accordingly shall take the voting decisions.

"Related Party Transactions" shall have the same meaning as defined in SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015 and as amended from time to time.

Related party transactions with reference to the above means a transfer of resources, services or obligations between a listed entity and a related party, regardless of whether a price is charged and a "transaction" with a related party shall be construed to include a single transaction or a group of transactions in a contract.

H. Internal Control Mechanism:

Internal controls and checks are in places at various key steps in the process of exercise of votes as considered relevant/material by DSPAM. The Committee periodically reviews the implementation of the policy and disclosure requirements.

III. PROXY ADVISORY

DSPAM may use its discretion to avail the services of Proxy Advisor(s) to arrive at a suitable decision for voting. The fund managers shall, subject to the Stewardship Policy, use their discretion whether to rely and/or act on the suggestions/recommendations given by such Proxy Advisor(s).

REPORTS TO THE BOARD

DSPAM will report to the DSP Trustee Private Limited on proxy votes it has made on behalf of the Fund at least annually.

IV. DISCLOSURES

This Policy shall be put up on the Mutual Fund's website: www.dspim.com

The following periodical disclosures shall be made available on the aforesaid website:

a) Voting exercised and abstained along with the rationale on the quarterly basis within 10 (ten) working days from the end quarter in the format prescribed by SEBI, as amended from time to time. INDEPENDENT AUDITOR'S REPORT

To the Trustees of DSP Mutual Fund

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the schemes mentioned in Annexure 1 (collectively "the Schemes"), which comprise the Balance Sheets as at March 31, 2025, the Revenue Accounts, the Cash Flow Statements and the Statement of changes in net assets attributable to unit holders of the schemes for the year/period then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements of the Schemes give a true and fair view in conformity with the accounting principles generally accepted in India, including the accounting policies and standards specified in the Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, as amended ("the SEBI Regulations"):

(a) in the case of the Balance Sheets, of the state of affairs of the Schemes as at March 31, 2025;

(b) in the case of the Revenue Accounts, of the surplus/deficit for the year/period ended on that date;

(c) in the case of the Cash Flow Statements, of the cash flows for the year/period ended on that date; and

(d) in the case of Statement of changes in Net assets, of the changes in net assets attributable to the unit holders of the respective schemes for the year/period ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India ("the ICAI"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Schemes in accordance with the 'Code of Ethics' issued by the ICAI together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Key audit matters	How our audit addressed the key audit matter
Information Technology systems and controls	
As a Mutual Fund, the reliability of Information Technology ('IT') systems plays a key role in the business operations. Since large volume of transactions are processed, the IT controls are required to ensure that systems process data as expected and that changes are made in an appropriate manner. The IT infrastructure is critical for smooth functioning of the Fund's business operations as well as for timely and accurate financial accounting and reporting. Due to the pervasive nature and complexity of the IT environment and large volume of transactions we have considered IT systems and controls as a key audit matter.	Our audit procedures on the IT infrastructure and applications relevant to financial reporting of the Fund included the following: • We assessed the information systems used by the Fund for: (i) IT General Controls (ITGC) and (ii) Application controls; • We obtained an understanding of the process, evaluated the design of IT systems and tested the operating effectiveness of the controls by also engaging IT specialists • Performed tests of controls (including other compensatory controls wherever applicable) on the IT application controls and IT dependent manual controls in the system; and • Tested the design and operating effectiveness of compensating controls in case deficiencies were identified, and where necessary, extended the scope of our substantive audit procedures.
Existence and Valuation of investments (as described in note 5 of the financial statements)	
The investments held by the Schemes as at March 31, 2025 mainly comprised of listed equity instruments, debt securities, gold, silver, and money market securities. There is a risk on existence of investments and that the fair value of investments not determined appropriately. Accordingly, the existence and valuation of investments is considered as a key audit matter.	Our audit procedures in relation to existence and valuation of investments included the following: • Assessed the design and implementation of controls over existence and valuation of investments; • On a sample basis, tested the key controls on existence and valuation of Investments; • Traced the existence of investments held by the Schemes from the confirmation provided by the Custodian with the holding as per the books of account as at March 31, 2025; • On a sample basis, tested the valuation of investments as per the investment valuation policy and in accordance with the SEBI Regulations; and • Assessed that the disclosures in the financial statements are in accordance with the SEBI Regulations.

INDEPENDENT AUDITOR'S REPORT

Information Other than the Financial Statements and Auditor's Report Thereon

The Board of Directors of DSP Asset Managers Private Limited (the "AMC") and DSP Trustee Private Limited (the "Trustees") are responsible for the other information. The other information comprises the information included in the Trustee report, but does not include the financial statements and our auditor's report thereon. The Trustee report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the trustee report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and to comply with the relevant applicable requirements of the standards on auditing for auditor's responsibility in relation to other information in documents containing audited financial statements. We have nothing to report in this regard.

Responsibilities of management and Those Charged With Governance for the Financial Statements

The Board of Directors of the AMC and the Trustees are responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance, cash flows and changes in net assets attributable to unitholders of the Schemes in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS), read with the SEBI Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the SEBI regulations for safeguarding of the assets of the Schemes and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent, the design, implementation and maintenance of adequate internal controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Schemes or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are also responsible for overseeing the Scheme's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Schemes to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the management, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year ended March 31, 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our

INDEPENDENT AUDITOR'S REPORT

report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:
   a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
   b. In our opinion, the balance sheets and revenue accounts dealt with by this report have been prepared in conformity with the accounting policies and standards specified in the Ninth Schedule to the Regulations; and
   c. The balance sheets, the revenue accounts, the cash flow statements and statement of changes in net assets attributable to unit holders of schemes dealt with by this report are in agreement with the books of account of the Schemes.
2. On the basis of information and explanations given to us, the schemes does not have any non-traded securities valued in good faith as at March 31, 2025 and hence reporting requirement of Eighth Schedule of the SEBI Regulations is not applicable.

INDEPENDENT AUDITOR'S REPORT

To the Trustees of DSP Mutual Fund

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the schemes mentioned in Annexure 1 (collectively "the Schemes"), which comprise the Balance Sheets as at March 31, 2025, the Revenue Accounts, the Cash Flow Statements and the Statement of changes in net assets attributable to unit holders of the schemes for the year/period then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements of the Schemes give a true and fair view in conformity with the accounting principles generally accepted in India, including the accounting policies and standards specified in the Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, as amended ("the SEBI Regulations"):

(a) in the case of the Balance Sheets, of the state of affairs of the Schemes as at March 31, 2025;

(b) in the case of the Revenue Accounts, of the surplus/deficit for the year/period ended on that date;

(c) in the case of the Cash Flow Statements, of the cash flows for the year/period ended on that date; and

(d) in the case of Statement of changes in Net assets, of the changes in net assets attributable to the unit holders of the respective schemes for the year/period ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India ("the ICAI"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Schemes in accordance with the 'Code of Ethics' issued by the ICAI together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Board of Directors of DSP Asset Managers Private Limited (the "AMC") and DSP Trustee Private Limited (the "Trustees") are responsible for the other information. The other information comprises the information included in the Trustee report, but does not include the financial statements and our auditor's report thereon. The Trustee report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the trustee report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and to comply with the relevant applicable requirements of the standards on auditing for auditor's responsibility in relation to other information in documents containing audited financial statements. We have nothing to report in this regard.

Responsibilities of management and Those Charged With Governance for the Financial Statements

The Board of Directors of the AMC and the Trustees are responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance, cash flows and changes in net assets attributable to unitholders of the Schemes in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS), read with the SEBI Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the SEBI regulations for safeguarding of the assets of the Schemes and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent, the design, implementation and maintenance of adequate internal controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Schemes or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are also responsible for overseeing the Scheme's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.

INDEPENDENT AUDITOR'S REPORT

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Schemes to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the management, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by Regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:
   a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
   b. In our opinion, the balance sheets and revenue accounts dealt with by this report have been prepared in conformity with the accounting policies and standards specified in the Ninth Schedule to the Regulations; and
   c. The balance sheets, the revenue accounts, the cash flow statements and statement of changes in net assets attributable to unit holders of schemes dealt with by this report are in agreement with the books of account of the Schemes.
2. On the basis of information and explanations given to us, the respective Schemes as applicable, have valued non-traded securities as at March 31, 2025 in good faith as required by Eighth Schedule of the SEBI Regulations.

Scheme merged during the period April 01, 2024 to March 31, 2025

Short Name	Transferor Scheme Full Name	Short Name	Transferee Scheme Full Name	Effective Date
DSPWAF	DSP World Agriculture Fund	DSPWMFOF	DSP World Mining Fund of Fund	04-Oct-24

During the financials year, The DSP World Agriculture Fund ('DSPWAF'/ 'Merging Scheme') has been merged with DSP World Mining Fund of Fund (erstwhile known as 'DSP World Mining Fund') ('DSPWMFOF'/ 'Surviving Scheme'), effective from close of business hours of October 4, 2024. ('Effective Date').
On the effective date DSPWAF has been merged into DSPWMFOF. The unit holders of Merging Scheme as at the close of business hours, have been allotted units under the corresponding option of the Surviving Scheme at the last available applicable Net Asset Value ('NAV') on the effective date. Thus, units have been allotted in DSPWMFOF in the same Plan (Regular or Direct) & Options [Growth or Income Distribution cum Capital Withdrawal (IDCW)] as is in the DSPWAF.
Merger of schemes would result in no change to the value of investments of the Unit Holders on the date of merger. Further, as per addendum issued by DSP Mutual Fund dated October 1, 2024, any fresh lump sum subscription, switch-in, new SIP/STP/ IDCW Transfer Plan registration requests shall not be accepted in Surviving scheme till further notice.

Note: There is no assurance that the investment objective of the Schemes will be realised.

20. Basis of preparation

20.1 Statement of compliance

The Securities & Exchange Board of India (SEBI) has made an amendment to Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 (as amended) (the 'Regulations') vide notification dated 25 January 2022, which directs implementation of Indian Accounting Standards (Ind AS) for mutual funds from 1 April 2023. As per the amended regulation 50(1) of SEBI MF Regulations, the financial statements and accounts of the mutual fund schemes shall be prepared in accordance with Ind AS, as notified by the Companies (Indian Accounting Standards) Rules, 2015. Further, it states that in case there is any conflict between the requirements of Ind AS and Regulations and the guidelines issued thereunder, the requirements specified under the Regulations shall apply.

DSP Mutual fund ('Fund') has adopted Indian Accounting Standards ('Ind AS') and have prepared the Financial Statements in accordance with the recognition and measurement principles as per Indian Accounting Standards (Ind AS) read with Companies (Indian Accounting Standards) Rules, 2015 and the Ninth Schedule of the Regulations, and the presentation and disclosure requirements of the Eleventh Schedule of the Regulations and the accounting principles generally accepted in India. The Fund has adopted Ind AS with effect from 01 April 2023.

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

20.2 Presentation of financial statement

The financial statements of the Fund are presented as per Guidelines on Accounting with respect to Indian Accounting Standards (IND AS) issued by SEBI as per clause 17.14 of SEBI Master circular ""SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90"" dated June 27, 2024 (""the Master Circular""). The Statement of Cash Flows has been presented as per the requirements of Ind-AS 7 Statement of Cash Flows.

The Financial statements have been prepared on going concern basis using a historical cost, except for the certain financial assets and certain financial liabilities which have been measured at fair value.

DSP MUTUAL FUND
Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Fund and/or its counterparties.

20.3 Functional and presentational currency- The financial statements are presented in Indian Rupees (₹) which is also functional currency of the Fund and the currency of the primary economic environment in which the Fund operates. All amounts are rounded off to the nearest lakhs, unless otherwise indicated.

20.4 Significant Accounting estimates and judgments

The preparation of the Fund's financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities (including contingent liabilities) at the date of the financial statements and the reported amounts of revenues and expenses for the reporting period. The estimates and assumptions used in the financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements. Actual results could differ from these estimates. Any revisions to accounting estimates are recognized prospectively in the current and future periods.

(i) Recognition and measurement of provisions and contingencies

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources and on past experience and circumstances known at the reporting date. The actual outflow of resources at a future date may therefore, vary from the amount included in other provisions. ₹ in Lacs

(ii) Assumptions and estimation uncertainties

Measurement of fair values

The fair value of financial instruments is the price that would be received on sell of an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Investment are classified at Fair Value through Profit and Loss as per Ind AS 109.

(iii) Impairment & ECL provision are determined using reasonable & supportable information available and as per the Writeoff policy mentioned in Note 3.1.

Any revisions to accounting estimates are recognized prospectively in the current and future periods.

21. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION

21.1 Financial instruments - A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1. Financial assets

Financial assets include cash, or an equity instrument of another entity, or a contractual right to receive cash or another financial asset from another entity.

Initial Recognition and Measurement

Financial assets are recognised when the Fund becomes a party to the contractual provisions of the instruments.

All financial assets are recognised initially at fair value adjusted for incremental transaction costs that are directly attributable to the acquisition of the financial asset or issue of financial assets except for Financial assets measured at FVTPL which are recognised at fair value i.e. Transaction costs directly attributable to the acquisition of financial assets at FVTPL are recognised immediately in Revenue Account.

Classification and Subsequent measurement of financial assets –

For the purpose of subsequent measurement, financial assets are classified into three categories:

a) Financial assets carried at amortized cost.

b) Financial assets carried at Fair Value Through Other Comprehensive Income (FVTOCI).

c) Financial assets carried at Fair Value through Profit & Loss (FVTPL).

DSP MUTUAL FUND
Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

Annexure 2
Fair Value Disclosure

Fair value hierarchy

The Scheme measures its investments in financial instruments, such as Shares, Derivaties, Debentures/ Bond, Certificates of deposit, Domestic / Overseas Mutual funds Commercial paper, Treasury bills, Cash management bills, InVITs, Foreign securities, State Government Securities, Central Government Securities, AIF,Gold, Silver and REIT at fair value at each reporting date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability.

The Fund recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. No such instances of transfers between levels of the fair value hierarchy were recorded during the reporting period.

Valuation Techniques and Classification:

As per the Securities & Exchange Board of India (SEBI) (Mutual Funds) (Amendment) Regulations, 2012, issued on February 21, 2012, the Eighth schedule to the Regulations was amended to include "Principles of Fair Valuation" which required the Mutual Funds to value their investments in accordance with the specified overarching principles so as to ensure fair treatment to all investors including existing investors as well as investors seeking to purchase or redeem units of Mutual Funds in all Schemes at all points of time.

During the year/period, the Fund has fairly valued its investments in accordance with the Regulations, as amended from time to time, by using the below mentioned methodology / principles. All investments are marked to market and are stated in the Balance Sheet at their fair value. In valuing the Scheme's Investments:

Category	Traded	Pricing Source
Equity Shares / Preference Shares / Warrants / Equity related securities awaiting listing		
-Traded	Level 1	Last quoted closing price on the Stock Exchange
-Non-Traded	Level 3	Valued in accordance with the fair valuation norms prescribed in the SEBI guidelines.

Evaluation of Business Model

1) An entity's business model reflects how it manages its financial assets in order to generate the cash flows, its business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets or both. This assessment is performed on the basis of scenarios that the entity reasonably expects to occur.

   For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

   In assessing whether the contractual cash flows are SPPI, the Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

   In making this assessment, the Fund considers:

   contingent events that would change the amount or timing of cash flows;

   – leverage features;

   – prepayment and extension features;

   – terms that limit the Fund's claim to cash flows from specified assets (e.g. non-recourse features); and

   – features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

   Once the financial asset meet the above criteria the respective financial assets are classified at amortised cost.

2) Other Business Model:

   This includes investments. These financial assets are managed, and their performance is evaluated, on a fair value basis and the investments are held with intention of trading. These financial assets are classified as financial assets at fair value through Profit/Loss.

   In making an assessment of the objective of the business model in which a financial asset is held, the scheme considers all of the relevant information about how business is managed, including.

   - The documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities, or expected cash outflows or realizing cash flows through the sale of the assets.
   - How the performance of the portfolio is evaluated and reported to the Fund's management.
   - The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed.
   - How the investment manager is compensated: e.g., whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
   - The frequency, volume, and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

   Further, In making an assessment of the objective of the business model in which a financial asset is held, the fund considers all of the relevant information about how business is managed.

   One business model that results in measurement at fair value through profit or loss is one in which an entity manages the financial assets with the objective of realising cash flows through the sale of the assets. The entity makes decisions based on the assets' fair values and manages the assets to realise those fair values.

   A portfolio of financial assets that is managed and whose performance is evaluated on a fair value basis is neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets. The entity is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. For such portfolios, the collection of contractual cash flows is only incidental to achieving the business model's objective. Consequently, such portfolios of financial assets must be measured at fair value through profit or loss.

   Further, as per Eighth Schedule of the SEBI Mutual Fund Regulations, the valuation of investments shall be based on the principles of fair valuation i.e. valuation shall be reflective of the realizable value of the Securities. The Valuation shall be done in good faith and in true and fair manner through appropriate valuation policies and procedures.

   The Fund's portfolio of financial assets is managed, and its performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy, together with other related financial information.

   The Fund is required to fair value investment as per SEBI Regulations.

   Basis the above, the financial assets are classified in the below categories:

   a) Financial assets carried at amortized cost - A financial instrument is measured at amortized cost if both the following conditions are met:

   - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
   - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

   The Scheme financial assets include Cash & cash equivalents, Balances with Banks, trade & other receivables, and other financial assets such as income receivable on investments, margin money, share application money etc. Receivables and other financial instruments are measured at amortized cost.

DSP MUTUAL FUND
Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

b) Financial assets measured at fair value through other comprehensive income.

When the financial assets are held in order to collect contractual cash flows and selling the financial assets and contractual terms give rise to cash flows that are solely payments of principal and Interest on principal amount outstanding.

c) Financial Assets measured at Fair value through Profit & Loss

Financial Assets shall be classified at Financial Assets measured at Fair value through Profit & Loss when Financial Asset is.

- Held for Trading
- A debt instrument that does not qualify to be measured at amortized cost or FVOCI.
- An equity investment which the entity has not elected to classify as FVOCI.
- An entity may, at initial recognition, irrevocably designate a financial asset as measured at fair value through profit or loss when permitted by paragraph 4.3.5 of Ind AS 109, or when doing so results in more relevant information, because either:
  - I. It eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as 'an accounting mismatch') that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.
  - II. A group of financial liabilities or financial assets and financial liabilities is managed, and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the entity's key management personnel.

All financial assets not classified as measured at amortised cost or FVOCI are measured at FVTPL. This includes all derivative financial assets.The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss

The Fund has following type of financial assets which has been measured at FVTPL –

1. **Investments** – The investments measured at FVTPL include all investments disclosed in Note 5 to the Balance Sheet. Purchase and sale of Investments are accounted on the date of the transaction at their respective fair values.

Brokerage and transaction cost incurred for the purpose of execution of cash market transaction shall be charged to the Fund as per Regulation 52 (6A) up to 12 bps. Any payment towards brokerage and transaction costs, over and above the said 12 bps may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under the Regulations.

Bonus entitlements are recognised as investments on the 'ex-bonus date'.

Rights entitlements are recognised as investments on the 'ex-rights date'.

Investments in foreign securities are accounted at the exchange rate prevailing on the transaction date. Differences in exchange rate till settlement are recognised as income or expense.

Fair Value Hierarchy

The Scheme measures its investments in financial instruments as disclosed in Note 4 to the Balance Sheet, at fair value at each reporting date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability.

The Fund recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. No such instances of transfers between levels of the fair value hierarchy were recorded during the reporting period.

Kindly refer **Annexure 2** for detailed classification of scheme wise fair value hierarchy.

Valuation Techniques and Classification:

As per the Securities & Exchange Board of India (SEBI) (Mutual Funds) (Amendment) Regulations, 2012, issued on February 21, 2012, the Eighth schedule to the Regulations was amended to include ""Principles of Fair Valuation"" which required the Mutual Funds to value their investments in accordance with the specified overarching principles so as to ensure fair treatment to all investors including existing investors as well as investors seeking to purchase or redeem units of Mutual Funds in all Schemes at all points of time.

During the year/period, the Fund has fairly valued its investments in accordance with the Regulations, as amended from time to time, by using the below mentioned methodology / principles. All investments are marked to market and are stated in the Balance Sheet at their fair value. In valuing the Scheme's Investments:

DSP MUTUAL FUND
Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

I. Valuation of Equity and Equity Related Securities

Asset Class	Traded /Non Traded	Basis of Valuation
Equity Shares, Preference Shares, Equity Warrants, Partly Paid Up shares	Traded	On the valuation day, at the last quoted closing price on the National Stock Exchange (NSE)/ Bombay Stock Exchange (BSE) or other stock exchange, where such security is listed. If not traded on the primary stock exchange, the closing price on the other stock exchange will be considered. NSE will be the primary stock exchange. For Index Funds / Exchange Traded Funds, exchange of underlying benchmark index would be the primary stock exchange.
	Non Traded	1. When a security is not traded on any stock exchange, on the date of valuation, then the previous closing price on NSE / any other SE will be used, provided such closing price is not exceeding a period of 30 calendar days. 2. In all other cases **a. Equity Shares:** Based on the latest available Balance Sheet, net worth shall be calculated as follows : i. Net Worth per share = [share capital+ reserves (excluding revaluation reserves) – Misc. expenditure and Debit Balance in P&L A/c] Divided by No. of Paid up Shares. ii. Average capitalisation rate (P/E ratio) for the industry based upon either BSE or NSE data (which should be followed consistently and changes, if any noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P/E shall be taken as capitalisation rate (P/E ratio). Earnings per share of the latest audited annual accounts will be considered for this purpose. iii. The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 10% for ill-liquidity so as to arrive at the fair value per share. iv. In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalised earning. v. In case where the latest balance sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero. vi. In case an individual security accounts for more than 5% of the total assets of the Scheme, an independent valuer shall be appointed for the valuation of the said security. To determine if a security accounts for more than 5% of the total assets of the Scheme, it should be valued by the procedure above and the proportion which it bears to the total net assets of the Scheme to which it belongs would be compared on the date of valuation. **b. Preference Shares: Intrinsic value will be considered** **c. Equity Warrants / Rights entitlement / partly paid up rights shares:** Valuation price will be arrived, after applying appropriate discount (valuation committee delegated the power to decide the discount factor), after reducing the exercise price / issuance price from the closing price of the underlying cash equity security. **d. Partly Paid Up Share** - If the partly paid up share is not traded on any stock exchange on the date of valuation, then it should be valued at the price derived after reducing the uncalled amount from the Closing price of underlying fully paid up share. Further Valuation Committee to decide on application of illiquidity discount as deemed appropriate on case to case basis.
		e. Demerger: i. Where there is one resulting Company along with the demerged company and such resulting company is unlisted - The resulting company will be valued by residual price methodology, which would be traded value of the demerged company on the day before the demerger less value of the demerged company immediately post demerger. However, if value of demerged entity is greater or equal to the value of the demerged entity before demerger, then the resulting company would be valued at zero. ii. Where there are more than one resulting companies along with the demerged company and all or some resulting companies are unlisted - The resulting companies will be valued by residual price methodology which would be traded value of the demerged entity on the day before the demerger less value of the demerged entity immediately post demerger. The residual value would be allocated into resulting companies in the ratio provided as a part of Scheme of arrangement or such other ratio as decided by the Valuation Committee. If one of the resulting companies is listed, the residual value for unlisted companies would be further determined by reducing the traded value of listed resulting companies from the residual value computed as above. iii. In case where the resulting companies and the demerged company are unlisted – The traded value of demerged company on the day before the demerger would be allocated between the resulting companies and demerged company in the ratio provided as a part of Scheme of arrangement or such other ratio as decided by the Valuation Committee.

Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

Asset Class	Traded /Non Traded	Basis of Valuation
Equity Shares, Preference Shares, Equity Warrants, Partly Paid Up shares	Non Traded	If the above companies remained unlisted for more than 3 months, illiquidity discount on the derived prices may be applied on the basis of the market capitalization of the issuer viz. at 5% ,10% and 15%, for Large cap, Mid cap, Small cap respectively. In case of the above listed, Valuation committee may decide fair value other than guided above, post considering facts on a case-to-case basis. Further guidance from valuation committee would be sought for any exceptional cases not covered above. **f. Merger:** Valuation of resulting company would be determined by valuation of merging / amalgamating company immediately prior to the ex-date of merger / amalgamation. i) In case merging / amalgamating companies being listed, valuation of resulting companies would be summation of valuation of entities immediately prior to merger date. Further, if listed company merges into an unlisted surviving company, then the surviving company should be valued at the traded value of merging company immediately before merger. Example: • If Company A and Company B merge to form a new Company C then Company C would be valued at the price equals to A+B. • If Company A which is a listed company merges into Company B which is an unlisted company would be valued at traded price of A immediately before merger ii) In case, one of the merging / amalgamating companies being unlisted, valuation of resulting companies would be valued on the principles of fair valuation as guided by the valuation committee. If the above companies remained unlisted for more than 3 months, illiquidity discount on the derived prices may be applied on the basis of the market capitalization of the issuer viz. at 5% ,10% and 15%, for Large cap, Mid cap, Small cap respectively. In case of the above listed, Valuation committee may decide fair value other than guided above, post considering facts on a case-to-case basis. Further guidance from valuation committee would be sought for any exceptional cases not covered above.
Equity Shares, Preference Shares, Equity Warrants, Partly Paid Up shares	Thinly Traded	Policy similar to non-traded Equity Shares. Definition of thinly traded equity/ equity related security: When trading in an equity/equity related security in a calendar month is both less than INR 5 lacs and the total volume is less than 50,000 shares, it shall be considered as a thinly traded security.
	Unlisted Equity Shares	Unlisted equity shares of a company shall be valued ""in good faith"" on the basis of the valuation principles laid down below: a. Based on the latest available audited balance sheet, net worth shall be calculated as lower of (i) and (ii) below: i. Net worth per share = [share capital plus free reserves (excluding revaluation reserves) minus Miscellaneous expenditure not written off or deferred revenue expenditure, intangible assets and accumulated losses] divided by Number of Paid up Shares. ii. After taking into account the outstanding warrants and options, Net worth per share shall again be calculated and shall be = [share capital plus consideration on exercise of Option/Warrants received/ receivable by the Company plus free reserves (excluding revaluation reserves) minus Miscellaneous expenditure not written off or deferred revenue expenditure, intangible assets and accumulated losses] divided by {Number of Paid up Shares plus Number of Shares that would be obtained on conversion/exercise of Outstanding Warrants and Options} The lower of (i) and (ii) above shall be used for calculation of net worth per share and for further calculation in (c) below. b. Average capitalisation rate (P/E ratio) for the industry based upon either BSE or NSE data (which should be followed consistently and changes, if any, noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P/E shall be taken as capitalisation rate (P/E ratio). Earnings per share of the latest audited annual accounts will be considered for this purpose. c. The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 15% for illiquidity so as to arrive at the fair value per share. The above methodology for valuation shall be subject to the following conditions: i. All calculations as aforesaid shall be based on audited accounts. ii. In case where the latest balance sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero. iii. If the net worth of the company is negative, the share would be marked down to zero. iv. In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalised earning.

Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

Asset Class	Traded /Non Traded	Basis of Valuation
		v. In case an individual security accounts for more than 5% of the total assets of the Scheme, an independent valuer shall be appointed for the valuation of the said security. To determine if a security accounts for more than 5% of the total assets of the Scheme, it should be valued in accordance with the procedure as mentioned above on the date of valuation. At the discretion of the AMC and with the approval of the trustees, an unlisted equity share may be valued at a price lower than the value derived using the aforesaid methodology.
	Lock-in Shares	In case of Equity share under lock in for more than 3 months from the date of purchase / allotment, which are traded on the stock exchanges, the investment manager may apply appropriate discount to the closing price quoted on the stock exchange as may be decided by the investment committee on a case to case basis.
	Inter-Scheme Transfers	Inter-Scheme would be done at the Price of the security prevailing on the primary stock exchange at the time of effecting the transfer. If not traded on the primary stock exchange, the closing price of other stock exchange (BSE) will be considered.
Futures & Options	Traded/Non Traded	On the valuation day, at the settlement price provided by the respective stock exchanges.
Qualified Institutional Placement (QIP) / Follow on Public Offer (FPO)/ Initial Public Offer (IPO)		In case of QIP and FPO recognition and valuation would start from the date of allotment. In case of IPO the security would be valued at cost from the date of allotment till a day prior to listing and on last quoted closing price (as mentioned above under Traded criteria) from the day of listing.
Convertible Debentures		In respect of convertible debentures and bonds, the non-convertible and convertible components shall be valued separately. The non-convertible component (Debt) should be valued on the same basis as would be applicable to a debt instrument. The convertible component (Equity) should be valued on the same basis as would be applicable to an equity instrument/equity derivative. If, after conversion the resultant equity instrument would be traded pari passu with an existing equity instrument which is traded, the value of the latter instrument can be arrived at after an appropriate discount for non-tradability, time value, volatility etc. of the equity instrument during the period preceding the conversion. While valuing such instruments, the fact whether the conversion is optional should also be factored in.

II. Valuation of Fixed Income and related securities

Category	Policy
Valuation of all Debt, Money Market Instruments and Repo (including Tri Party Repo) other than Overnight Repo	At average of the security level prices provided by valuation agencies. In case security level prices are not given by valuation agencies, then such securities will be valued at weighted average purchase yield on the date of allotment / purchase.
Overnight Repo (including Tri Party Repo) and Bank Fixed Deposits	Overnight Repo (including Tri Party Repo) and Bank Fixed Deposits will be valued at cost plus accruals/ amortization basis.
Valuation of money market and debt securities classified as below investment grade or default.	All money market and debt securities which are rated below investment grade shall be valued at the average of the security level price provided by valuation agencies. Till such time the valuation agencies compute the valuation of money market and debt securities classified as below investment grade, such securities shall be valued by the valuation agencies on the basis of indicative haircuts. If security is traded, it will be valued at lower of weighted average traded price available on public platform or average of the security level price provided by valuation agencies. The traded qualification criteria shall be as determined by valuation agencies. In the absence of the information on the traded qualification criteria from the valuation agencies, the qualification criteria shall be as determined by the Investment Committee. In absence of the above information the valuation shall be arrived at basis guidance from Investment Committee. In case of any deviation from the valuation price for money market and debt securities rated below investment grade provided by the valuation agencies, AMC shall follow the procedure as mentioned in SEBI Circular No SEBI/HO/IMD/DF4/CIR/P/2019/41 dated March 22, 2019 and SEBI Circular No SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019
Interest Rate Futures	The exchange traded Interest Rate Futures would be valued based on the Daily settlement Price or any other derived price provided by the exchange
Interest Rate Swaps and other Debt OTC Derivatives	Valuation would be done at average of Price provided by valuation agencies. In absence of Price from valuation agencies, valuation shall be arrived at basis guidance from Investment Committee.
Market Linked Debentures	Valuation would be done at average of Price provided by valuation agencies. In absence of Price from valuation agencies, valuation shall be arrived at basis guidance from Investment Committee.
Inter-Scheme Transfers(IST)	Inter-scheme transfer of all debt and money market securities would be done as per the Price provided by valuation agencies for the said purpose.
	If Prices from both the valuation agencies are received within the pre-agreed turnaround time (TAT) plus an additional grace time of 30 minutes, an average of the prices so received shall be used for IST.
	If Prices from only one valuation agency are received within the agreed TAT plus an additional grace time of 30 minutes, then that Price will be used for IST. In case prices from any of the valuation agencies are received beyond the additional grace time of 30 minutes and are adopted for IST trade, then the same shall be approved by Investment Committee.
	For securities where price is not provided by valuation agencies, the below mentioned approach would be adopted.
	For Fixed Income Securities (excluding Government Securities, Treasury Bills, Cash Management Bills, State Development Loans, Ujwal DISCOM Assurance Yojana (UDAY) Bond, etc)

DSP MUTUAL FUND

Category	Policy
Inter-Scheme Transfers(IST)	Inter-scheme will be done at the weighted average YTM of all trades for **same or similar security** on a public platform with minimum traded lot of INR 25 crore of face value at the time of inter-scheme. If there are eligible trades in the same security, the weighted average YTM of these will be considered. If there are no eligible trades in the same security, then weighted average YTM of similar securities will be considered. **Criteria for identifying the similar securities:** Similar security should be identified by the following waterfall logic: 1. Same issuer with maturity date within ± 5 days of maturity date of security for inter-scheme transfer shall be considered first. If no such instance is available, then Step 2 to be followed: • Example: For inter-scheme transfer of Canara Bank CD maturing on 15-Jun-2016, all secondary market trades of Canara Bank CD maturing within 10-Jun-2016to 20-Jun-2016 will be considered first. 2. Similar security from a different issuer within the same category (PSU Bank, Private Bank or Financial Institution etc) and having same credit rating, with maturity date within ± 5 days of maturity date of security considered for inter-scheme transfer • Example: For inter-scheme transfer of Canara Bank CD maturing on 15-Jun-2016, all secondary market trades of similar public sector bank CDs maturing within 10-Jun-2016 to 20-Jun-2016 having same credit rating will be considered 3. Provided the maturity dates are within the same calendar quarter. **Note:** Outlier trades, if any, should be ignored after suitable justification by Valuation Committee. In case no data point is available for a security, in accordance with above principles: Inter-Scheme valuation will be at previously valued YTM. For Government Securities, Treasury Bills, Cash Management Bills, State Development Loans, Ujwal DISCOM Assurance Yojana (UDAY) Bond, etc. Inter-scheme done would be at the last traded YTM on NDS-OM at the time of inter-scheme. In case of no trade on NDS-OM at the time of inter-scheme, previous day's YTM will be considered.

III. Valuation of Investment in Mutual Fund (including ETF's) and Corporate Debt Market Development Fund Units

Category	Policy
Domestic Mutual Fund	As per guidelines issued by AMFI, Mutual Fund Units (including ETF's) listed and traded on exchanges would be valued at the last quoted closing price on the National Stock Exchange (NSE)/ Bombay Stock Exchange (BSE) or other stock exchange, where such security is listed. If not traded on the primary stock exchange, the closing price on the other stock exchange will be considered. NSE will be the primary stock exchange. Unlisted Mutual Fund Units and listed but not traded Mutual Fund Units (including ETF's) would be valued at the NAV as on the valuation day. In case if on any valuation day the domestic mutual fund is having a non-business day then previous day closing price / NAV would be considered for valuation.
Overseas Mutual Fund	"Overseas Mutual Fund Units (including ETF's) listed and traded on exchanges would be valued at the last quoted closing price on the overseas stock exchange, where the security is listed on multiple exchanges, price of the primary stock exchange in the respective jurisdiction would be considered for valuation. Unlisted Mutual Fund Units and listed but not traded Mutual Fund Units (including ETF's) would be valued at the NAV as on the valuation day. In case if on any valuation day the overseas mutual fund is having a non-business day then previous day closing price / NAV would be considered for valuation.
Corporate Debt Market Development Fund	Units of Corporate Debt Market Development Fund (CDMDF) would be valued at the published NAV as on the valuation day.

IV. Valuation of Foreign Securities including ADR/GDR

Category	Policy
Traded	Foreign security shall be valued based on the last quoted closing price available on the overseas stock exchange, where the security is listed on multiple exchanges, price of the primary stock exchange in the respective jurisdiction would be considered for valuation. When a security is not traded on stock exchange on the date of valuation, then the previous closing price will be used for valuation, provided such closing price is not exceeding a period of 30 calendar days. However, in case of an extra ordinary event in other markets during the market hours or post the closure of the markets but before NAV computation, the AMC shall value the security at suitable fair value as determined by the Valuation Committee on a case-to-case basis. Further the valuation committee reserves right to suitably modify the defined priority or valuation methodology by documenting rationale for exception to the above defined policy. On valuation date, all assets and liabilities in foreign currency shall be valued in Indian Rupees at the reference rate available on FBIL.'s (Financial Benchmarks India Pvt Ltd) website as at the close of banking hours on the relevant business day in India. For securities / exposure where RBI / FBIL reference rate is not available, the valuation committee would approve the exchange rate to be used. In case the direct exchange rates are not available, then cross currency rate with USD would be considered. The valuation committee reserves the right to change the source for determining the exchange rate with appropriate rationale in case of exceptional scenarios.
Non Traded	Where the security is not traded, on the date of valuation, on any of the exchanges the last quoted closing price on the selected / primary stock exchange shall be used provided such date is not more than thirty days prior to the valuation date. Securities not traded for more than thirty days shall be valued by AMC at fair value after considering relevant factors on case-to-case basis. On valuation date, all assets and liabilities in foreign currency shall be valued in Indian Rupees at the reference rate available on FBIL.'s (Financial Benchmarks India Pvt Ltd) website as at the close of banking hours on the relevant business day in India. For securities / exposure where RBI / FBIL reference rate is not available, the valuation committee would approve the exchange rate to be used. In case the direct exchange rates are not available, then cross currency rate with USD would be considered. The valuation committee reserves the right to change the source for determining the exchange rate with appropriate rationale in case of exceptional scenarios.

V. Valuation of ReITs, InvITs

₹ in Lacs

Category	Policy
ReITs / InvITs	On the valuation day, at the last quoted closing price on the National Stock Exchange (NSE)/ Bombay Stock Exchange (BSE) or other stock exchange, where such security is listed. If not traded on the primary stock exchange, the closing price on the other stock exchange will be considered. NSE will be the primary stock exchange. When security is not traded on any stock exchange, on the date of valuation, then the previous closing price on NSE / any other stock exchange will be used, provided such closing price does not exceed a period of 30 calendar days. In case of the below mentioned scenarios, the valuation committee would recommend appropriate valuation methodology to determine the fair value of the security: i) Security is not traded beyond 30 calendar days ii) Any unlisted security received as a part of mandatory corporate action or any other such events impacting the schemes.

VI. Foreign currency translation

- Initial recognition

  Transactions in foreign currencies are recognised at the prevailing exchange rates between the reporting currency and a foreign currency on the transaction date.

- Subsequent measurement

  Transactions in foreign currencies are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in Revenue account.

  Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. Thus, translation differences on non- monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss.

- Conversion

  Foreign currency monetary items are reported using the Reserve Bank of India (RBI) exchange rate prevalent on the valuation date / date of the transaction.

- Exchange differences

  Exchange differences arising on the settlement of monetary items or on reporting monetary items of the Scheme at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

VII. Waterfall Mechanism for valuation of money market, debt and government securities:Valuation of ReITs, InvITs

SEBI vide circular no. SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019 has laid down broad principles for waterfall approach to be followed for valuation of debt, money market and government securities. The said circular prescribes AMFI shall ensure valuation agencies have a documented waterfall approach for valuation of Debt & money market securities.

The AMFI best practices guidelines circular (135/BP/83/2019-20) dated November 18, 2019 provided guidelines on waterfall approach to be followed for valuation money market and debt securities.The waterfall approach is documented in Annexure II of the valuation policy.

DSP MUTUAL FUND
Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

VIII. Gold, Silver, Other Commodities and Exchange Traded Commodity Derivatives.

Category	Policy
Gold	The physical Gold held by scheme shall be valued at the AM fixing price of London Bullion Market Association (LBMA) in US dollars per troy ounce for gold having a fineness of 995 parts per thousand, subject to the following:
	(a) adjustment for conversion to metric measure as per standard conversion rates.
	(b) adjustment for conversion of US dollars into Indian rupees as per the RBI reference rate available on FBIL.'s (Financial Benchmarks India Pvt Ltd) website as at the close of banking hours on the relevant business day in India; and
	(c) addition of-
	(i) transportation and other charges that may be normally incurred in bringing such gold or silver from London to the place where it is stored on behalf of the mutual fund; and
	(ii) notional customs duty and other applicable taxes and levies that may be normally incurred to bring the gold or silver from the London to the place where it is actually stored on behalf of the mutual fund;
	Provided that the adjustment under clause (c) above may be made on the basis of a notional premium that is usually charged for delivery of gold to the place where it is stored on behalf of the mutual fund; If the Gold held by a scheme has a greater fineness; the relevant LBMA prices of AM fixing shall be taken as the reference price.
	If the Gold acquired by the scheme is not in the form of standard bars, it shall be assayed and converted into standard bars which comply with the good delivery norms of the LBMA and thereafter valued in terms of above-paragraph.
	MCX spot price would be considered for determining a suitable notional premium to arrive at the fair valuation reflecting the domestic prices of Gold. Instances where MCX spot price is lower than the price as determined above, a suitable notional discount would be applied. On days MCX spot price is not available, IBJA (India Bullion and Jewellers Association Ltd.) spot rates would be considered for the above.
	In case where both the spot rates are not available, any other appropriate source / methodology may be used as guided by the Valuation Committee to ensure fair valuation.
	If on any day, LBMA price is not available due to holiday, the last published LBMA price will be considered for valuation by applying last available RBI reference rate.
Silver	The physical Silver held by scheme shall be valued at the AM fixing price of London Bullion Market Association (LBMA) in US dollars per troy ounce for Silver having a fineness of 999 parts per thousand, subject to the following:
	(a) adjustment for conversion to metric measure as per standard conversion rates;
	(b) adjustment for conversion of US dollars into Indian rupees as per the RBI reference rate available on FBIL.'s (Financial Benchmarks India Pvt Ltd) website as at the close of banking hours on the relevant business day in India; and
	(c) addition of-
	(i) transportation and other charges that may be normally incurred in bringing such silver from London to the place where it is actually stored on behalf of the mutual fund; and
	(ii) notional customs duty and other applicable taxes and levies that may be normally incurred to bring the silver from London to the place where it is actually stored on behalf of the mutual fund:
	Provided that the adjustment under clause (c) above may be made on the basis of a notional premium that is usually charged for delivery of silver to the place where it is stored on behalf of the mutual fund. Where the silver held by a scheme has a greater fineness, the relevant LBMA prices of AM fixing shall be taken as the reference price.
	MCX spot price would be considered for determining a suitable notional premium to arrive at the fair valuation reflecting the domestic prices of Silver. Instances where MCX spot price is lower than the price as determined above, a suitable notional discount would be applied. On days when MCX spot price is not available, IBJA (India Bullion and Jewellers Association Ltd.) spot rates would be considered for the above.
	If on any day, LBMA price is not available due to holiday, the last published LBMA price will be considered for valuation by applying last available RBI reference rate.
	In case where both the spot rates are not available, any other appropriate source / methodology may be used as guided by the Valuation Committee to ensure fair valuation.
Exchange Traded Commodities Derivatives (ETCDs) Contracts	Futures and Options will be valued at the settlement price provided by the respective commodity exchange where they are listed/ traded. In case necessary details to value ETCDs are not available the same would be valued based on guidance from valuation committee.
Other Commodities (physical received from trading in ETCDs other than the Gold & Silver)	On receipt of the physical stocks at the accredited warehouses of the exchanges, at the allocated location, the commodity will be valued daily at the pooled physical price of the respective location published by the respective commodity exchanges.
	If the pooled physical prices are not available on the respective commodity exchanges, then below waterfall approach would be adopted.
	a) Price of the derivative position best reflecting the physical holding (location of warehousing & expiry) which the scheme owns will be considered for valuation.
	b) Previous day valuation price
	In case necessary details to value are not available the same would be valued based on guidance from valuation committee.

2. Derivatives

The Fund enters into derivative transactions in equity/ index options, futures, Interest Rate Futures (IRF) and Interest Rate Swaps (IRS). "Derivative margin deposits" representing the margins towards equity derivative contracts entered into by the Fund are disclosed under "Other Financial Assets.

(a) Options - Premium paid on bought option contracts is debited to "Margin Money- Derivative " and recorded as an asset. Premium paid is marked to market based on the last available quote on NSE and the balance marked to market amount is treated as liability / asset till the position is expired / squared off / assigned.

When the option contracts are squared off before expiry, the difference between the premium paid and received on the squared off transactions is recognised in the revenue account. When the option contracts are exercised on or before expiry, the difference between the option settlement price as determined by the exchange and the premium is recognised in the revenue account.

DSP MUTUAL FUND
Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

(b) Futures

Initial margin paid against equity futures and IRFs is accounted as Other Financial assets. Futures contracts are marked to market daily at the futures settlement price as determined by the exchange. The variation margin calculated as the difference between the trade price or the previous day's settlement price, as the case may be, and the current day's settlement price is recorded as a marked to market gain/loss receivable or payable. When a contract is closed (squared off)/ settled (on expiry), the difference between the final settlement / square-off price and the contract price is recognised in the Revenue Account.

Derivatives are initially recognized at fair value at the date the contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain/ loss is recognised in Revenue Account immediately. Brokerage and transaction cost incurred for the purpose of execution of derivative contracts shall be charged to the Fund as per Regulation 52 (6A) (a) up to 5 bps. Any payment towards brokerage and transaction costs, over and above the said 5 bps may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under the Regulations.

3. Cash and cash equivalents

Cash and cash equivalents include cash on hand, reverse repurchase transactions/TREPS that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

4. Bank balance

Bank balances include items such as Balances with banks in current accounts, deposits held as margin money or security, etc. and fixed deposits.

De-recognition of financial assets

A financial asset is de-recognised when:

- The rights to receive cash flows from the asset have expired, or
- The Fund have transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either

(a) The schemes have transferred substantially all the risks and rewards of the asset, or

(b) The Fund have neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Schemes has retained.

On derecognition of a financial asset, the difference between the carrying amount (measured at the date of derecognition) allocated to financial asset and the consideration received is recognized in the revenue account.

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition unless the Fund were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model. Since the strategy adopted by the Fund is held for trading, business model assessment is not required. Thus, reclassification of financial assets on account of change in business model would not be applicable to the Fund.

Impairment of financial assets

In accordance with Ind AS 109, the Fund uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

i) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or

ii) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

When determining whether credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Fund considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, including on historical experience and forward-looking information. The Fund continuously assesses whether there has been a significant increase in credit risk, or the asset has become credit impaired since initial recognition based on below criteria..

- Historical trend of collection from counterparty
- Schemes contractual rights with respect to recovery of dues from counterparty
- Credit rating of counterparty and any relevant information available in public domain

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

The Fund apply expected credit loss (ECL) model for measurement and recognition of impairment loss on the Balances with Banks, Cash & cash equivalents, and receivable & other financial assets which are measured at amortised cost.

-Receivables, the Fund applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Funds have determined based on historical experience and expectations that the ECL on its receivables (apart from receivables from issuers which are due but not received) is insignificant and was not recorded. At every reporting date, these historical default rates are reviewed and changes in the forward-looking estimates are analysed.

DSP MUTUAL FUND
Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

The Funds have to also adhere to the provisions of downgrade and default as prescribed by SEBI from time to time. Accordingly, A money market or debt security shall be classified as "Default" if the interest and / or principal amount has not been received, on the day such amount was due or when such security has been downgraded to "Default"grade by a CRA. In case of debt and money market securities classified as ""below investment grade or default"", provision is made for the income so accrued / to be accrued in the manner specified in SEBI guidelines. Such securities are valued as per the approved valuation policy.

Cash and Cash Equivalents and Balances with Bank

The Funds hold cash and cash equivalents and other bank balances, the credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be high and accordingly it carries low credit risk as they are settled in short term and there has been no significant increase in the risk of default since initial recognition and hence expected credit loss is immaterial

Other Financial assets

Other financial assets include security interest receivable and other deposits which has low credit risk as they are settled in short term and there has been no significant increase in the risk of default since initial recognition hence expected credit loss is immaterial.

Thus, the Funds have not recognised any provision for expected credit loss apart from those mentioned above during the year ended 31 March 2025 as the credit rating and historical experience of downgrade & default in a way reflects reasonable and supportable information that is available without undue cost or effort at the reporting date.

5. Financial liabilities

A financial liability is a contractual obligation to deliver cash or another financial asset or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Schemes.

Initial Recognition and Measurement

All financial liabilities are recognised initially at fair value adjusted for incremental transaction costs that are directly attributable to the financial liabilities except in the case of financial liabilities recorded at FVTPL where the transaction costs are charged to revenue account.

Classification and Subsequent measurement of financial liabilities

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost. Interest expense and foreign exchange gains and losses are recognised in revenue account. Any gain or loss on derecognition is also recognized in revenue account.

DSP MUTUAL FUND
Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

The funds have following financial liabilities -

(1) Derivative financial instruments payable - Derivative Financial Instruments payable is measured at Fair value through profit & loss.

Brokerage and transaction cost incurred for the purpose of execution derivative contracts shall be charged to the Fund as per Regulation 52 (6A) (a) 5 bps. Any payment towards brokerage and transaction costs, over and above the said 5 bps may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under the Regulations.

(2) Payables - Payables includes payable for investment in securities, redemption/switch out, income distribution, payable to AMC and other liabilities.

(3) Borrowings - The borrowings are done to meet the temporary liquidity needs of the Fund for the purpose of repurchase, redemption of units and income distribution to the unitholders within the limits specified by the Regulations.

(4) Other Financial Liabilities - The Fund includes in this category finance cost on borrowings, management fees and other opertaing expenses payables and sundry creditors- All other financial liabilities are measured at amortized cost.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the revenue account.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the scheme or the counterparty.

21.2 Determination of net asset value ('NAV')

The net asset value of the units of the Scheme is determined separately for the units issued under the plans.

For reporting multiple net asset values within the portfolio, the Scheme's daily income earned, including realised profit or loss and unrealised gain or loss in the value of investments, and expenses incurred, are allocated to the related plans in proportion to their respective net assets (net assets of previous day plus subscription less redemption for the day) of the plan.

21.3 Unit capital and Reserves

a. Unit capital - Unit Capital represents the net outstanding units as at the Balance Sheet date. The unit capital and unit premium reserve is maintained at an option level. The options are

i. Growth - Under the Growth option, there will be no distribution of income and the return to investors will be only by way of capital gains.

ii. Income distribution cum capital withdrawal (IDCW) option - The IDCW option will be available under two sub options – The Payout option and the Reinvestment Option.

The unit capital are redeemable at applicable NAV on any day for open ended schemes and on maturity in case of close ended schemes.There are no preferential rights attributable to any units.

b. Unit Premium Reserve and Income Equlisation Reserve - Upon issue and redemption of units, the net premium is apportioned between UPR and IER in accordance with regulations and guidelines prescribed by the SEBI. When units are issued or redeemed, the distributable surplus is appropriated to / from the income equalisation reserve. Upon issue and redemption of units below par, the net discount is appropriated to income equalisation reserve in accordance with regulations and guidelines prescribed by the SEBI.

The purpose is to ensure that the per unit amount of the continuing unit holders' share of the undistributed income / loss remains unaffected by the movement in unit capital. At the year end, the balance in the income equalisation account is transferred to the Revenue Account.

c. Unrealised Appreciation Reserves - For investments and derivatives, the change in net unrealised depreciation, if any, between two balance sheet dates / date of determination is accounted for through the Revenue Account.The net change in unrealised appreciation, if any, between two balance sheet dates / date of determination is accounted through the Revenue Account and thereafter transferred from the Revenue Account to the unrealised appreciation reserve.Net unrealised appreciation is reduced from distributable income at the time of distribution.

d. Revenue Reserve - Revenue Reserve represents surplus in Revenue account except Unrealised Appreciation amount.

21.4 Revenue recognition

- Income on investments is recognised on accrual basis except where there is uncertainty about ultimate recovery/ realisation. Such income is recognised when the uncertainty is resolved.
- For quoted shares the dividend income earned by a Scheme is recognised on the date the shares are quoted on an ex-dividend basis. For investments in shares, which are not quoted on the stock exchanges, the dividend income is recognised on the date of declaration of dividend.
- Interest income is recognised on a day to day basis as it is earned as per the Ninth Schedule of the Regulations (interest paid for the period from the last interest due date up to the date of purchase, is not treated as a cost of purchase, but debited to interest accrued but not due account. Similarly, interest received at the time of sale for the period from the last interest due date up to the date of sale is not treated as an addition to sale value but credited to interest accrued but not due account).

DSP MUTUAL FUND
Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

- Profit or loss on sale of investments is recognised on the trade date and is determined on the basis of the weighted average cost method.
- Dividend and interest income for units of Infrastructure Investment Trust (InvIT) and Real Estate Investment Trust (REIT) is accrued on ex-date. Capital reduction is adjusted towards cost of investment on ex-date.
- Interest Rate Swap (IRS) contract is recognised on the trade date and income on IRS contract is measured at net basis i.e. different between the interest on Fixed leg and Floating leg of IRS contract. Mark to market gain / (loss) on IRS contract is recognize as difference between notional value and fair value of the IRS contract (which is provided by the valuation agencies).
- Gain / Loss on fair value changes:

  The gross change on account of Gain / loss on fair value changes in the value of investments is determined separately for each category of investments. The change if any, between two balance sheet dates is recognized in the revenue account and thereafter the net gain, if any, is transferred to the unrealised appreciation reserve.
- Lending fees (net of brokerage) on security lending are recognized based on amortization throughout the lending of security.
- When income receivable on investment is accrued but has not been received or incase of debt securities classified as below investment grade provision shall be made against the income already accrued in the manner specified in SEBI circular SEBI/HO/MD/DF4/CIR/P/2019/102 dated 24 September 2019.
- Income on Non-performing Assets (NPA) is recognized on a cash basis.

21.5 Foreign Currency Transactions and Balances

Initial recognition

Transactions in foreign currencies are recognised at the prevailing exchange rates between the reporting currency and a foreign currency on the transaction date.

Subsequent measurement

Foreign exchange gains and losses resulting from the settlement of transactions in foreign currencies and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in Revenue account.

The books and records of the Fund are maintained in Indian rupees. Amounts denominated in or expected to settle in foreign currencies are translated into Indian rupees including Market value of investments, other assets and liabilities at the closing rate of exchange on the Balance Sheet date / valuation date.

Net realised foreign exchange gains and losses arising from sales of foreign currency denominated securities, currency gains or losses realised between trade and settlement dates of foreign currency denominated securities transactions and the difference between the recorded amounts of foreign currency denominated dividends, interest and expenses recorded in the Fund's books and the Indian rupee equivalent amounts actually received or paid is transfered to the revenue account. Net unrealised foreign exchange gains and losses arising from changes in value of assets and liabilities denominated in foreign currency resulting from changes in foreign exchange rate are included in net unrealised appreciation or depreciation in value of investments and foreign currency denominated assets and liabilities.

21.6 Expenses

a. All expenses are accounted for on accrual basis within the limits prescribed under the Regulations.

b. Management fees are paid on the basis of terms of the Scheme Information Document. Management fees are computed after adjusting for units held by AMC and interscheme investments, if any. In respect of Debt and Liquid schemes the management fee is not charged on amount invested in short term deposits of scheduled commercial banks.

c. As per para 10.1.12(a) of the Master Circular, all the Scheme related expenses including commission paid to distributors, by whatever name called and in whatever manner paid, are borne and paid by the Schemes within regulatory limits mandated under regulation 52 of the Regulations. Expenses not identifiable to any particular scheme are allocated to the schemes on the basis of Asset under Management / transaction count, etc. as appropriate depending upon the nature of expense.

d. The Trusteeship fees are charges as per the provision of the Trust Deed and are subject to maximum of 0.02% per annum of the average AUM of the schemes. It has been decided by the Trustee to allocate the Trusteeship Fees in proportion to the monthly average net assets of the Scheme of the Mutual Fund. Notes to Financial Statements for the year ended 31 March 2025 / Date of Merger

21.7 Borrowing Costs:

The interest on borrowing for meeting redemption and income distribution to the extent of Gross YTM of the fund as on previous day is borne by the scheme. Any excess cost over the Gross YTM of the previous day is borne by the AMC as per para 10.9 of the Master Circular.

21.8 Load Charges:

Load represents amounts charged by the schemes to the investors at the time of exit from the Scheme. It is an amount which is paid by the investor to redeem the units from the Scheme. Load amounts are variable and are subject to change from time to time. It is calculated as a percentage of the NAV and subtracted from the NAV to calculate the redemption price.

From October 01, 2012, based on SEBI notification no LAD-NRO/GN/2012-13/17/21502 dated September 26, 2012 exit load collected is credited to the Scheme and is considered as income to unitholders in determining the net asset value of the Scheme. The exit load so credited is after due discharge of the applicable GST on load collected.

21.9 Income distribution cum capital withdrawal:

Income distribution during the financial year was made from the distributable surplus of year's / period's earnings and accumulated reserves of earlier years.

21.10 Income Tax

No provision for income tax has been made since the income of the scheme is exempt under Section 10 (23D) of the Income Tax Act , 1961. However, some dividend and interest income received by the Fund is subject to witholding tax imposed in certain countries of origin. Income that is subject to such tax is recognised net of the taxes and the corresponding witholding tax is not recognised as tax expense.

FINANCIAL RISK MANAGEMENT

The fund's strategy on the management of various investment risk is driven by the respective fund's investment objective.

The Fund's investing activities expose it to various types of risks that are associated with the different financial instruments and jurisdictions in which it invests. Some of the most important types of financial risks to which the Fund is exposed to are Market risk, Credit risk and Liquidity risk.

Primarily every schemes of DSP Mutual Fund adheres to the investments limits as mandated by the SEBI Mutual Fund Regulations read with various circulars issued from time to time and the respective Scheme Information Documents. Additionally, there are internal limits set by DSP Mutual fund, which the fund are expected to adhere.

Exposure to credit risk, liquidity risk, and market risks arises in the normal course of the Fund's business and these risks are mitigated by the Fund's financial risk management policies and practices.

The Fund's AMC has overall responsibility for the establishment and oversight of the Fund's risk management framework. The Fund's risk management policies are established to identify and analyse the risks faced by the Fund, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Fund's activities. The Fund's Trustees monitors compliance with the Fund's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Fund.

The Fund uses different methods to measure and manage the various types of risk to which it is exposed to; these methods are explained below.

i) Market Risks

Market risk is the risk of possible loss of future earnings, fair values or future cash flows related to financial instrument that may result from adverse changes in market rates and prices (such as foreign exchange rates, interest rates, other prices). The Fund is exposed to market risk primarily related to Price risk, Currency risk, and Interest rate risk.

a) Price Risks

Price risk is the risk that the value of the financial instrument will fluctuate as a result of changes in market prices and related market variables whether caused by factors specific to an individual investment, its issuer or the market.

Schemes with investment in Equity securities are susceptible to price risk, which pertains to the possibility of the instrument's value fluctuating due to changes in market prices. These changes can be primarily driven by factors specific to individual investments, their issuers, or broader market conditions affecting instruments.

To moderate price risk, DSPAM employs a disciplined approach to stock selection and investment where detailed research is concluded before any investments and thereafter periodical review is conducted to ensure that investments continues to be in the best interest of the investors. Additionally, DSPAM periodically monitors the prices of financial instruments held by the Fund and reviews target prices for equity positions as part of its investment decision-making process. This assessment considers various factors including the macroeconomic landscape, position size, hedging strategies, derivatives usage, exposure to key thematic risks, and the overall financial position exposure.

The Board oversees the investment performance of the funds, ensuring a comprehensive review of strategies to manage price risk effectively.

The Fund's exposure to price risk arises from investments in Equity and equity related instruments, derivatives, etc. which are classified as financial assets measured at Fair Value Through Profit and Loss.

(b) Currency risk

Schemes with investments in overseas securities are susceptible to currency risk. The risk arises when the fund engages in transactions denominated in foreign currencies, exposing it to fluctuations in exchange rates. Specifically, currency risk emerges as the value of future transactions, recognized monetary assets, and liabilities denominated in foreign currencies fluctuates due to changes in foreign exchange rates. DSPAM does not hedge any currency risk and thus the scheme's overseas investments continues to be exposed to the fluctuations in exchange rates.

Currency risk exposure

Refer **Annexure 5** "Forex Exposure" for overall exposure of the scheme to foreign currency risk expressed in INR.

Foreign currency sensitivity

Refer **Annexure 5** "Forex Sensitivity" which demonstrates the sensitivity to a reasonably possible change in the foreign currency exchange rate, with all other variables held constant, Net assets attributable to holder of redeemable units & the profit /loss (due to changes in the fair value of monetary assets and liabilities).For a one per cent weakening of the INR against the relevant currency, there would be a comparable impact on the profit.

(c) **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Schemes with investments in debt securities are susceptible to Interest rate risk.

Moreover, stress testing are conducted monthly according to SEBI-mandated parameters to assess the potential impact on Net Asset Value (NAV) based on fluctuations in interest rates and the same is compared to the thresholds defined at industry level by AMFI & at individual scheme level defined by DSP Mutual Fund.

Refer **Annexure 6** "Exopsure to Debt Securities" for the exposure of the Fund's financial assets and financial liabilities as at 31 March 2025, 31st March 2024:

ii) Credit risk

Credit risk is the risk that the Fund will incur a loss because its counterparties fail to discharge their contractual obligations. The Fund is exposed to the risk of credit-related losses that can occur as a result of a counterparty or issuer being unable or unwilling to honour its contractual obligations.Schemes with investment in debt securities are subject to Credit risk, which pertains to the possibility of financial loss should the issuer of a bond or money market instrument default on interest and/or principal payments. This risk stems from uncertainty regarding the issuer's capacity or willingness to fulfil contractual obligations. Additionally, even in the absence of default, the security's price may fluctuate in response to anticipated changes in the issuer's credit rating, particularly pronounced in non-exchange traded instruments where counterparties lack the support of an exchange clearing house.

To mitigate this risk, DSPAM employs a governance framework. The Board oversees the approval of the Credit Risk Assessment (CRA) policy, while a dedicated Credit Committee, comprising the Managing Director & CEO, Head of Risk, and Head of Fixed Income, is responsible for regularly evaluating the effectiveness of the CRA policy to ensure continuous risk management. Furthermore, the committee is authorized to establish, modify, and revoke limits for issuers, with any adjustments triggered by early warning indicators meticulously documented. A dedicated team of credit risk professionals periodical evaluates and reviews the universe of the issuer's creditability and updates the credit committee about the same.

DSPAM further assesses the credit risk of its schemes through tools mandated by SEBI such as the Risk-o-meter and PRC (Potential Risk Class). Additionally, stress testing scenarios are conducted monthly as per SEBI mandated parameters to gauge the potential impact on Net Asset Value (NAV) due to adverse credit events and the same is compared to the thresholds defined at industry level by AMFI & at individual scheme level defined by DSP Mutual Fund.

The Fund is also exposed to credit risk on cash and cash equivalents, balances with banks and other financial assets. These instruments carry very minimal credit risk based on the financial position of parties and Fund's historical experience of dealing with the parties. No assets are considered impaired and no amounts have been written off in the period.

The funds adhered to the sector concentration norms as specified in the Regulation. Few Mutual Fund Schemes, by mandate, restricts its investments only to a particular sector; there arises a risk called concentration risk. If the sector, for any reason, fails to perform, the portfolio value will plummet and the Investment Manager will not be able to diversify the investment in any other sector. Investments under such funds will be in the financial instruments across a few selected sectors. Hence the concentration risks could be high (will vary scheme to scheme).

For significant sector concentrations: Refer **Annexure 18** Industry wise classification of investments

Write off policy

Financial assets are written off either partially or in their entirety when the Management has reasons to believe that the amounts are not recoverable within a foreseeable future. The investments may be written off if there is a default in the payment of principal or interest on maturity / call date and interest payment date respectively. The Fund may write-off financial assets that are subject to enforcement activity. The Fund may still seek to recover amounts it is legally entitled to recover in full, but which have been fully / partially written off due to no reasonable expectation of full recovery. Any subsequent recoveries are credited to the scheme's Revenue Account.

Expected Credit Loss principles

In accordance with Ind AS 109, the Fund uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or

- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument) to the extent of receivables from issuers which are due but not received.

For receivables, the Fund applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Fund has determined based on historical experience and expectations that the ECL on its receivables is insignificant and was not recorded except to the extent of receivables from issuers which are due but not received.At every reporting date, these historical default rates are reviewed and changes in the forward-looking estimates are analysed.

For other assets, the Fund uses 12-month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

Cash and Cash Equivalents and Balances with Bank

The schemes hold cash and cash equivalents and other bank balances, the credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be high and accordingly it carries low credit risk and hence expected credit loss is immaterial. Thus, no assets are considered impaired and no amount have been written off in the period.

Other Financial assets

Other financial assets include security interest receivable and other deposits which has low credit risk as they are settled in short term and there has been no significant increase in the risk of default since initial recognition hence expected credit loss is immaterial.

The main concentration of credit risk to which the Fund is exposed to arises from the Fund's investments in debt securities such as Corporate Bond, Certificates of deposit, Commercial paper, State Government Securities and Central Government Securities, etc. These classes of financial assets are not subject to IND AS 109's impairment requirements as they are measured at FVTPL. The carrying value of these assets represents the Fund's maximum exposure to credit risk on financial instruments not subject to the Ind AS 109 impairment requirements on the respective reporting dates. Hence, no separate maximum exposure to credit risk disclosure is provided for these instruments.

iii) Liquidity risks

Liquidity risk is the risk that the Fund will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Fund's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation.

Schemes with investment in Equity and Fixed Income securities are susceptible to Liquidity risk, which represents the risk of difficulty in unwinding assets/ positions in an adequatetime frame with limited market price impact, due to nature of the market i.e. over the counter, insufficient market depth (event based or otherwise) or a market disruption/dislocation, which may lead to a failure to pay out investor redemptions or other liabilities.

For open ended debt scheme, DSPAM uses the following measures to manage Liquidity Risk management:

(i) The Fund manages liquidity risk by maintaining adequate reserves, banking facilities and by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. Additionally, adequate borrowing facilities are available to take care of redemption pressures either through TREPS borrowing or Bank borrowing.

(ii) DSPAM adopts the Liquidity Risk Management framework mandated by SEBI and AMFI which helps estimates liquidity requirement by determining liquidity risk arising from the liability side and tries to covers all potential liquidity risk scenarios up to agreed confidence interval and has mandated remedial measures both for managing the risk on an ongoing basis (LRaR & LCRaR) as well as action plan in case there is a difference between actual outcome and projected outcome. The Liquidity risk management framework primarily evaluates the Asset Liability Mismatch (ALM) which addresses the gap in the estimated potential liquidity requirement over a 30-day period & 90-day period compared with investment / assets liquidity to meet the potential liability.

(iii) DSPAM periodically stress test the scheme portfolio to addresses the asset side risk from a Liquidity Risk perspective at an aggregate portfolio level and evaluate the stress in terms of its impact on the NAV of the scheme. The stress test is performed using the methodology and periodicity as mandated by AMFI in consultation to SEBI to assess the potential impact on Net Asset Value (NAV) on account of adverse market event and the same is compared to the thresholds defined at industry level by AMFI & at individual scheme level defined by DSP Mutual Fund.

(iv) DSPAM has enabled Swing Pricing policy for specified open ended debt scheme to help in case of severe liquidity stress at an AMC level or a severe dysfunction at market level, the Swing Pricing offers the contingency plan in case of extreme exigencies.

(v) DSPAM participates by investing through specified open ended debt schemes in the Corporate Debt Market Development Fund (CDMDF). CDMDF is set up as a scheme of the Trust registered as an Alternative Investment Fund ('AIF') in accordance with the SEBI (Alternative Investment Funds) Regulations, 2012 ("AIF Regulations"). The objective of the CDMDF is to help to develop the corporate debt market by providing backstop facility at the time of market dislocation to benefit the wider corporate debt market. The primary motive to set up a back stop facility is to instil confidence amongst the participants in the corporate debt/bond market during times of market dislocation and to enhance the secondary market liquidity. Further, in times of market dislocation, the aforesaid specified debt-oriented schemes of DSP Mutual Fund shall have access to sell corporate debt securities held in the portfolio and CDMDF shall purchase listed corporate debt securities from the said schemes. The trigger and period for which the backstop facility will be open shall be as decided by SEBI.

Refer **Annexure 3** for maturity analysis of financial liabilities of the Fund based on contractually agreed undiscounted cashflows.

23. CAPITAL MANAGEMENT

The Fund is not subject to externally imposed capital requirements and has no restrictions on issue and redemption of units. The Fund's objective for managing capital are:

1. To invest the capital in investments in order to meet its objective.
2. To achieve consistent returns while safeguarding capital by investing in a diversified portfolio,

The management of the Fund's capital position is undertaken by the Investment Manager.

1. For companies which have invested more than five percent of the net asset value of the Schemes of DSP Mutual Fund during the current financial year, the investment made by that scheme or by any other scheme of DSP Mutual fund in that company and its subsidiaries, during the quarter of investment by the former, immediately preceding 12 months and succeeding 12 months of that quarter up to the date of Balance Sheet has been reported by DSP Mutual fund.
2. With respect to companies which have invested more than 5% of the net asset value of a scheme of DSP Mutual Fund during the current financial year as well as the previous financial year, investments by the schemes of DSP Mutual Fund in such companies and their subsidiaries have been reported only for the current financial year.
3. The negative values denote short positions
4. The Investment Manager is of the opinion that the investments are made by the Schemes in such companies since they are perceived as fundamentally strong and possess a high potential for growth. Further, investments in fixed income instruments issued by the aforesaid companies would yield attractive returns commensurate with the risks associated with the issuer.

48 Details of securities below investment grade or that have defaulted principal or interest as of year ended March 31, 2025.

(For all the below issuers, investor are requested to refer the Update on credit events occurred during the Financial Year 2023-24 section in the Unit Holders Reports for detailed management updates)

a. IL&FS Energy Development Company Limited and IL&FS Transportation Networks India Limited:-

Pursuant to the rating downgrade of securities of IL&FS Energy Development Company Limited (IEDCL) and IL&FS Transportation Networks India Limited (ITNL) during FY 2018-19 and default in payment of maturity proceeds by the said issuers, the securities were classified as ""below investment grade or default"". Claim of INR 257 crores an INR 382 crores was admitted for IEDCL & ITNL respectively under the INSOLVENCY AND BANKRUPTCY BOARD OF INDIA REGULATIONS, 2016. DSPAM has filed a case against IL&FS before Hon. NCLAT against the order of NCLT for admission of claim in case of ITNL NCDs.

As a part of IL&FS group's ongoing resolution effort, the group companies have initiated second interim distribution to all eligible creditors during the current half year. The second distribution involved distribution cash as well as units of InVITs. The cash was received as a part of the second distribution has been factored in the NAV of February 27, 2025 and has been paid to unit holders of matured scheme. The impact of InVITs has been factored in the NAV of the respective scheme on the March 07, 2025 on which the INVITs were allotted. The provision of 10% is created on all the distributions of ITNL including prior distribution to safeguard the interest of unit holders as ITNL may claw back the amount in case the distribution results in excess distribution than what the debenture holders ought to have received.

Any future gains from these securities will be credited to the Schemes [paid to the investor for matured schemes].

Any substantial future gains from these securities will be paid to investors or credited to the scheme, as the case may be. The decision to distribute and determination of the 'substantial' amount shall be taken by DSP Trustee Private Limited.

49 Pursuant to claue 14.3 of the master circular, the Fund had created separate plans in DSPSF with effect from April 22, 2016 and accordingly, entire amounts held under "Unclaimed Redemptions" and "Unclaimed Income Distribution cum Capital Withdrawal" were invested in DSPSF. The plan had separate options for unclaimed amounts up to 3 years and beyond 3 years for "Unclaimed Redemption" and Unclaimed Income Distribution cum Capital Withdrawal". Returns were disclosed for plans up to 3 years' option and not for beyond 3 years' option since the net income earned is transferred to investor education fund to be used for purpose of investor education.

Further, AMC introduced 'Unclaimed Plan' under DSP Overnight Fund with effect from October 29, 2021 ('Effective Date'). The Unclaimed Plan of DSP Savings Fund was discontinued and the amount as on the Effective date held in the Unclaimed Plan of DSP Savings Fund was switched to Unclaimed Plan of DSP Overnight Fund in the following manner.

Sr. No.	Switch-out Option of DSP Savings Fund- Unclaimed Plan	Switch-in Option of DSP Overnight Fund- Unclaimed Plan
1	Redemption: Upto 3 years	Redemption: Upto 3 years
2	Redemption: Beyond 3 years	Redemption: Beyond 3 years
3	Income Distribution cum Capital Withdrawal ('IDCW'): Upto 3 years	Income Distribution cum Capital Withdrawal ('IDCW'): Upto 3 years
4	Income Distribution cum Capital Withdrawal ('IDCW'): Beyond 3 years	Income Distribution cum Capital Withdrawal ('IDCW'): Beyond 3 years

Accordingly, the end of the period values of previous year related to net assets, unit capital, NAV and returns have been disclosed upto 29th October, 2021 for the Unclaimed plan under DSP Savings Fund.
