UNITHOLDER INFORMATION REPORT

From the Board of Directors, DSP BlackRock Trustee Company Private Limited

DSP BLACKROCK MUTUAL FUND

DSP BlackRock Mutual Fund (DSPBRMF or the Fund) (previously known as DSP Merrill Lynch Mutual Fund) was set up as a Trust on 16th December, 1996, with DSP BlackRock Trustee Company Pvt. Ltd. (the Trustee Company) (previously known as DSP Merrill Lynch Trustee Company Pvt. Ltd.) as a Trustee in accordance with the provisions of the Indian Trusts Act, 1882 and is duly registered under the Indian Registration Act, 1908. The Trustee has entered into an Investment Management Agreement dated 16th December, 1996 with DSP Merrill Lynch Fund Managers Ltd. now known as DSP BlackRock Investment Managers Private Limited (the AMC) to function as the Investment Manager for all the Schemes of DSPBRMF. DSPBRMF was registered with SEBI on 30th January, 1997.

On account of the global merger of the investment management businesses of Merrill Lynch and BlackRock Inc., a change in shareholding of the AMC and Trustee Company was effected on November 03, 2008, wherein the stake of DSP Merrill Lynch Ltd. in the AMC and the Trustee Company was transferred to BlackRock Advisors Singapore Pte. Ltd., a wholly owned subsidiary of BlackRock Inc., resulting in change of name of the AMC, Trustee Company, DSPBRMF and the Schemes of DSPBRMF.

Further, the AMC converted itself from a Public Limited Company to a Private Limited Company, with effect from May 27, 2009 and is now known as DSP BlackRock Investment Managers Private Limited.

DSP BLACKROCK TRUSTEE COMPANY PRIVATE LIMITED

The Trustee is the exclusive owner of the Trust Fund and holds the same in trust for the benefit of the unit holders. The Trustee has been discharging its duties and carrying out the responsibilities as provided in the Regulations and the Trust Deed. The Trustee seeks to ensure that the Fund and the Schemes floated there under are managed by the AMC in accordance with the Trust Deed, the Regulations, directions and guidelines issued by the SEBI, the Stock Exchanges, the Association of Mutual Funds in India and other regulatory agencies.

MARKET REVIEW

Bond Market

Financial Year 2009-10 can be characterized as a year of surplus liquidity in the banking system due to government stimulus packages and declining credit off-take as market participants preferred to play safe amid the volatile economic scenario in the global markets. World economic outlook remained fragile through most part of the year despite massive stimulus being doled out by the respective governments which increased the budget deficits in many countries around the world. The financial year began with all eyes on the result of the Stress Test being performed by the Federal Reserve on the health of 19 systematically important US financial institutions. The

world financial markets expressed a big sigh of relief when it was revealed that those banks collectively needed "only \$75 billion" to bolster their combined capital. The Elections in May resulted in a majority for the Congress Party, leading to a big rally in the stock markets. However the Union Budget unveiled in the month of July put a dampener on the sentiments of the bond market participants as the government had to increase the total gross borrowing program for FY2009-10 by Rs. 91,000 crore to Rs. 4,51,000 crore suggesting a fiscal deficit of 6.8%. Bond yields hardened by around 50 basis points to touch 7.5% p.a. in the month of September 2009 as it became evident that the rains had not been sufficient in many parts of the country. Insufficient rains and a sustained hike in the minimum support prices of grains and pulses by the government brought led to concerns of food price inflation as many essential items began to show a double-digit increase in prices on a sustained basis in the second-half. With the short-end of the yield curve well-anchored due to surplus liquidity and low credit off-take, the medium and long-end of the curve began to inch up amid rising commodity prices and sustained supply of bonds throughout the year. The spread between 1Y & 10Y government bonds widened to around 340 basis points in the month of December 2009 from a low of around 120 basis points in the month of January 2009. Rising food and commodity prices also led to concerns of liquidity withdrawing measures by the RBI in the last quarter – albeit at a gradual pace. This, along with prospects of higher borrowing in the Union Budget, pushed the benchmark 10Y yield to 8% p.a. towards the end of the year.

Equity Market

For the financial year 2009-2010, the BSE-30 index, the Sensex, finished up more than 80%. This mirrored the trend in global equity markets which rallied on the back of liquidity and risk appetite fuelled by financial stimulus. India saw significant flows from FII, with the economy steadily improving under a stable new government.

Indian equities rallied in the month of April 2009 following the G-20 summit and continued liquidity support for financial markets by central banks. Following this initial rally, the Sensex rallied further post the election results in May 2009. The index was up almost 20% on one single day after the elections. Global risk appetite also continued to recover during the year, barring some minor corrections along the way. Oil and commodity prices continued to rise and a deficient monsoon pushed up food prices fuelling inflation for the domestic economy.

October 2009 saw another global market correction when concerns regarding sovereign credit issues began to emanate. Indian markets, however, continued to outperform global markets on the back of strong corporate earnings growth and closed out the calendar year on a high. Sovereign default risk continued to spook the global markets from January to March 2010. Greece reported a higher than estimated fiscal deficit and required funding from EU members after their credit spreads had widened to default-like levels.

The market rally through the fiscal year saw the small and mid-cap stocks significantly outperform the larger capitalisation stocks. The BSE Small Cap Index finished up 168% during the year, while the CNX Mid Cap Index was up 126% in the same period.

Objectives, Investment Policy and Performance of the Schemes (Past performance may or may not be sustained in future and should not be used as a basis for comparison with other investments)

EQUITY SCHEMES

DSP BLACKROCK EQUITY FUND

The primary investment objective of the scheme is to seek to generate long term capital appreciation, from a portfolio that is substantially constituted of equity securities and equity related securities of issuers domiciled in India. Equity related securities include, but are not limited to, fully convertible debentures, partly convertible debentures, convertible preference shares and warrants converting into equity securities. The scheme may also invest a certain portion of its corpus in debt and money market securities, in order to meet liquidity requirements from time to time. There can be no assurance that the investment objective of the scheme will be realized.

The scheme outperformed its benchmark (the S&P CNX Nifty Index) over the last financial year. The out-performance was largely due to the scheme's overweight position in pharmaceuticals and technology with an underweight position in telecom. Superior stock selection across sectors also aided the fund's performance.

As of June 15, 2010, the net assets of the scheme were Rs. 1,990.84 crore.

DSP BLACKROCK TECHNOLOGY.COM FUND

The scheme focuses on investing in technology and technology dependent companies, including businesses relating to hardware, peripherals and components,

software (products and services), telecom, telecommunications and media and entertainment, internet and E-commerce, and other technology enabled companies (e.g. transaction processing and call centers). The primary investment objective of the scheme is to seek to generate long term capital appreciation and the secondary objective is income generation and the distribution of dividend from a portfolio constituted of equity and equity related securities concentrating on the investment focus of the scheme. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme outperformed its benchmark (the BSE Teck Index) over the last financial year. The out-performance may be attributed to the scheme's overweight position in small and mid-cap stocks, which outperformed the large cap stocks across sectors over the fiscal year.

As of June 15, 2010, the net assets of the scheme were Rs. 89.98 crore.

DSP BLACKROCK OPPORTUNITIES FUND

The scheme focuses on responding to the dynamically changing Indian economy by moving its investments amongst different sectors such as the Lifestyle sector, Pharmaceuticals sector, Cyclical sector and Technology sector as prevailing trends change. This scheme allows the Investment Manager to be highly concentrated in any of two or more Sectors. The Investment Manager may at any given time have a zero weight age in any or more of the sectors.

The investment objective of the scheme is to seek to generate long term capital appreciation and the secondary objective is income generation and the distribution of dividend from a portfolio constituted of equity and equity related securities concentrating on the investment focus of the scheme. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme outperformed its benchmark (the S&P CNX Nifty Index) over the last financial year. The out-performance was largely due to the scheme's overweight position in pharmaceuticals and technology with an underweight position in telecom. Superior stock selection across sectors also aided the fund's performance.

As of June 15, 2010, the net assets of the scheme were Rs. 873.66 crore.

DSP BLACKROCK TOP 100 EQUITY FUND

The primary investment objective of the scheme is to generate capital appreciation, from a portfolio that is substantially constituted of equity securities and equity related securities of the 100 largest corporates by market capitalisation, listed in India. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme underperformed its benchmark (the BSE 100 Index) over the last financial year. The underperformance was largely due to its overweight position in consumer staples and energy. The fund's high cash levels also contributed to this underperformance.

As of June 15, 2010, the net assets of the scheme were Rs. 2,769.10 crore.

DSP BLACKROCK INDIA T.I.G.E.R. FUND (THE INFRASTRUCTURE GROWTH AND ECONOMIC REFORMS FUND)

The investment objective of the scheme is to seek to generate capital appreciation, from a portfolio that is substantially constituted of equity securities and equity related securities of corporates, which could benefit from structural changes brought about by continuing liberalization in economic policies by the Government and / or from continuing investments in infrastructure, both by the public and private sector. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme underperformed its benchmark (the BSE 100 Index) over the last financial year. The underperformance was largely due to its overweight position in consumer staples and energy. The fund's high cash levels also contributed to this underperformance.

As of June 15, 2010, the net assets of the scheme were Rs. 3,167.87 crore.

DSP BLACKROCK SMALL AND MID CAP FUND

The primary investment objective is to seek to generate long term capital appreciation from a portfolio that is substantially constituted of equity and equity related securities which are not part of the top 100 stocks by market capitalization. From time to time, the Investment Manager will also seek participation in other equity and equity related securities to achieve optimal portfolio construction. This shall be the fundamental attribute of the scheme. The scheme may also invest a certain portion of its corpus in debt and money market securities, in order to meet liquidity requirements from time to time. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme outperformed its benchmark (the CNX Midcap Index) over the last financial year. The out-performance was largely due to superior stock selection. The scheme's overweight position in pharmaceuticals and technology with an underweight position in telecom also aided the performance.

As of June 15, 2010, the net assets of the scheme were Rs. 872.41 crore.

DSP BLACKROCK TAX SAVER FUND

The primary investment objective of the scheme is to seek to generate medium to long term capital appreciation, from a diversified portfolio that is substantially constituted of equity securities and equity related securities of corporates and to enable investors avail of a deduction from total income, as permitted under the Income Tax Act, 1961 from time to time. However, there can be no assurance that the investment objectives of the scheme will be realized.

The scheme outperformed its benchmark (the S&P CNX 500 Index) over the last financial year. The fund's performance can be attributed to the gradual build up of the overweight positions in the pharmaceuticals and in small and mid-cap stocks. Superior stock selection across sectors also aided the fund's performance.

As of June 15, 2010, the net assets of the scheme were Rs. 843.26 crore.

DSP BLACKROCK MICRO CAP FUND

The primary investment objective of the scheme is to seek to generate long term capital appreciation from a portfolio that is substantially constituted of equity and equity related securities, which are not part of the top 300 companies by market capitalisation. From time to time, the Investment Manager will also seek participation in other equity and equity related securities to achieve optimal portfolio construction. This shall be the fundamental attribute of the scheme. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme outperformed its benchmark (the BSE Smallcap Index) over the last financial year. The scheme's performance can be attributed to its overweight position in capital goods and consumer durables sector. Superior, bottom-up stock selection across sectors also aided performance.

As of June 15, 2010, the net assets of the scheme were Rs. 298.70 crore.

DSP BLACKROCK NATURAL RESOURCES AND NEW ENERGY FUND

The scheme was launched on March 3, 2008 and was open for subscription between March 3, 2008 and March 31, 2008. Thereafter, the scheme was reopened for subscription and redemption on April 28, 2008.

The primary investment objective of the scheme is to seek to generate long term capital appreciation by investing in equity and equity related securities of companies domiciled in India whose pre-dominant economic activity is in the: (a) discovery, development, production, or distribution of natural resources, viz., energy, mining etc.; (b) alternative energy and energy technology sectors, with emphasis given to renewable energy, automotive and onsite power generation, energy storage and enabling energy technologies. The Scheme will also invest a certain portion of its corpus in the equity and equity related securities of companies domiciled overseas, which are principally engaged in the discovery, development, production or distribution of natural resources and alternative energy and/or the units/shares of BlackRock Global Funds – New Energy Fund, BlackRock Global Funds – World Energy Fund and similar other overseas mutual fund Schemes. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme outperformed its benchmark (Composite Benchmark comprising 30% BSE Metals, 35% BSE Oil & Gas and 35% MSCI World Energy Index) over the last financial year. The scheme's performance can be attributed to superior stock selection across sectors as well as tactical fund positioning in overseas securities.

As of June 15, 2010, the net assets of the scheme were Rs. 184.62 crore.

FUND OF FUNDS SCHEMES

DSP BLACKROCK WORLD GOLD FUND

The primary investment objective of the scheme is to seek capital appreciation by investing predominantly in BlackRock Global Funds - World Gold Fund (BGF-WGF). The scheme may, at the discretion of the Investment Manager, also invest in the units of other similar overseas mutual fund Schemes, which may constitute a significant part of its corpus. The scheme may also invest a certain portion of its corpus in money market securities and/or money market / liquid Schemes of DSPMLMF, in order to meet liquidity requirements from time to time. However, there is no assurance that the investment objective of the scheme will be realized.

The scheme outperformed its benchmark FTSE Gold Mines (cap) Index. The scheme out performance over the last financial year can be attributed to the BGFWorld

Gold Funds gradual build up of overweight positions in high conviction mid-tier companies with good production growth capabilities.

As of June 15, 2010, the net assets of the scheme were Rs. 1,334.40 crore.

DSP BLACKROCK WORLD ENERGY FUND

The primary investment objective of the Scheme is to seek capital appreciation by investing predominantly in the units of BlackRock Global Funds-World Energy Fund (BGF-WEF) and BlackRock Global Funds-New Energy Fund (BGF-NEF). The Scheme may, at the discretion of the Investment Manager, also invest in the units of other similar overseas mutual fund Schemes, which may constitute a significant part of its corpus. The Scheme may also invest a certain portion of its corpus in money market securities and/or money market/liquid Schemes of DSP BlackRock Mutual Fund, in order to meet liquidity requirements from time to time. There is no assurance that the investment objective of the Scheme will be realized.

The scheme underperformed its benchmark (Composite Benchmark comprising 70% MSCI World Energy Index and 30% MSCI World Index) since inception. The underperformance of the scheme can be attributed to the under performance of the New Energy sector reflected in the BGF New Energy Fund.

As of June 15, 2010, the net assets of the scheme were Rs. 319.21 crore.

DSP BLACKROCK WORLD MINING FUND

The primary investment objective of the Scheme is to seek capital appreciation by investing predominantly in the units of BlackRock Global Funds – World Mining Fund (BGF – WMF). The Scheme may, at the discretion of the Investment Manager, also invest in the units of other similar overseas mutual fund Schemes, which may constitute a significant part of its corpus. The Scheme may also invest a certain portion of its corpus in money market securities and/or money market/liquid Schemes of DSP BlackRock Mutual Fund (Fund), in order to meet liquidity requirements from time to time. There is no assurance that the investment objective of the Scheme will be realized.

The scheme outperformed its benchmark (HSBC Mining Index) since inception. The scheme's performance can be attributed to BGF World Mining Fund's holdings in companies exposed to bulk commodities and copper miners. Superior stock selection across sectors also aided the performance of the BGF World Mining Fund.

As of June 15, 2010, the net assets of the scheme were Rs. 209.68 crore.

HYBRID SCHEMES

DSP BLACKROCK BALANCED FUND

The primary investment objective of the scheme is to seek to generate long-term capital appreciation and current income from a portfolio constituted of equity and equity related securities as well as fixed income securities (debt and money market securities). Equity related securities include, but are not limited to, fully convertible debentures, partly convertible debentures, convertible preference shares and warrants converting into equity securities. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme has delivered 66.41% in the last financial year as compared to 47.31% by its benchmark (the CRISIL Balanced Fund Index) in the same period. The scheme's performance was contributed to its overweight position in the consumer and pharmaceutical sector, underweight position in the real estate, banking and infrastructure sector and the dynamic allocation between the bond and equity components of its portfolio.

As of June 15, 2010, the net assets of the scheme were Rs. 689.32 crore.

DSP BLACKROCK SAVINGS MANAGER FUND - MODERATE

The objective of the scheme is to generate attractive returns with prudent risk from a portfolio which is substantially constituted of quality debt securities. The scheme will also seek to generate capital appreciation by investing a smaller portfolio of its corpus in equity and equity related securities of the 100 largest corporates, by market capitalization listed in India. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme has been actively managing the equity component of the portfolio, in keeping with its prevailing outlook on the equity market. The fixed income component of the portfolio was largely invested in floating rate assets and shorter-tenor assets. The scheme has delivered 12.69% return in the last financial year as compared to 14.25% return by the benchmark CRISIL MIP Blended Index. The under-performance of the scheme is due to its higher exposure to floating rate assets as compared to the benchmark. Floating rate assets have under-performed money market assets in the second-half of FY2009-10.

As of June 15, 2010, the net assets of the scheme were Rs. 150.37 crore.

DSP BLACKROCK SAVINGS MANAGER FUND - AGGRESSIVE

The objective of the scheme is to generate attractive returns with prudent risk from a portfolio which is substantially constituted of quality debt securities. The scheme will also seek to generate capital appreciation by investing a smaller portfolio of its corpus in equity and equity related securities of the 100 largest corporates, by market capitalization listed in India. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme has been actively managing the equity component of the portfolio, in keeping with its prevailing outlook on the equity market. The fixed income component of the portfolio was largely invested in floating rate assets and shorter-tenor assets. The fund has delivered 18.92 % return in the last financial year as compared to 14.25% return by the benchmark CRISIL MIP Blended Index. The out-performance of the scheme is due to its higher exposure to money market assets as compared to the benchmark. Money market assets have out-performed floating rate assets in the second-half of FY2009-10.

As of June 15, 2010, the net assets of the scheme were Rs. 162.10 crore.

DSP BLACKROCK SAVINGS MANAGER FUND - CONSERVATIVE

The objective of the scheme is to generate attractive returns with prudent risk from a portfolio which is substantially constituted of quality debt securities. The scheme will also seek to generate capital appreciation by investing a smaller portfolio of its corpus in equity and equity related securities of the 100 largest corporates, by market capitalization listed in India. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme has been actively managing the equity component of the portfolio, in keeping with its prevailing outlook on the equity market. The fixed income component of the portfolio was largely invested in floating rate assets and shorter-tenor fixed rate assets. The scheme has delivered 5.50 % return in the last financial year as compared to 14.25 % return by benchmark CRISIL MIP Blended Index. The under-performance of the scheme is due to its lower exposure to equity assets as compared to the benchmark as well as higher exposure to floating rate assets as compared to the benchmark. Floating rate assets have under-performed money market assets in the second-half of FY2009-10.

As of June 15, 2010, the net assets of the scheme were Rs. 23.63 crore.

INCOME SCHEMES

DSP BLACKROCK LIQUIDITY FUND

The primary investment objective of the scheme is to seek to generate a reasonable return commensurate with low risk and a high degree of liquidity, from a portfolio constituted of money market securities and high quality debt securities. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme witnessed healthy inflow in the last quarter of FY2009-10 as the fund was able to deploy its surplus cash prudently in the rising interest rate scenario and thereby generate healthy returns. The scheme has delivered 3.80% in the last financial year under its institutional plan as against 3.69% return by the CRISIL Liquid Fund Index. The scheme's out-performance against the benchmark is mainly due to higher asset allocation in money market assets than its benchmark and its positioning as an accrual fund as against its benchmark which is marked-to-market daily.

DSP BlackRock Cash Manager Fund, an open ended liquid scheme of the Fund merged into DSP BlackRock Liquidity Fund with effect from February 20, 2010. All relevant provisions of the SEBI (Mutual Funds) Regulation, 1996 in this regard have been duly complied with.

As of June 15, 2010, the net assets of the scheme were Rs. 1,023.90 crore.

DSP BLACKROCK MONEY MANAGER FUND

The scheme is an open ended income scheme which seeks to generate reasonable returns commensurate with low risk and a high degree of liquidity, from a portfolio constituted of money market securities and high quality debt securities. However, there can be no assurance that the objective of the scheme can be realized.

This category became quite popular among investors. The scheme has delivered 3.96% return under its Institutional Plan in the last financial year as compared to 3.69% return by the benchmark CRISIL Liquid Fund Index. The scheme's out-performance was mainly due to its higher allocation to money market assets as compared to the benchmark.

As of June 15, 2010, the net assets of the scheme were Rs. 538.71 crore.

DSP BLACKROCK STRATEGIC BOND FUND

The primary objective of the scheme is to generate optimal returns with high liquidity through active management of the portfolio by investing in high quality debt and money market assets.

The scheme witnessed some outflow during the second-half of the year as investors increased their risk appetite in favour of higher yielding assets. The scheme continues to position itself as a portfolio of high quality money market assets with predominantly PSU banks assets. The scheme has delivered a return of 4.49% under its Institutional Plan in the last financial year as against 5.41% by the benchmark CRISIL Bond Fund Index. The scheme's under-performance was mainly due to its positioning at the short-end of the money market yield curve while the benchmark holds high duration corporate assets which out-performed during the period of declining interest rates in the second-half of the year.

As of June 15, 2010, the net assets of the scheme were Rs. 919.81 crore.

DSP BLACKROCK FLOATING RATE FUND

The primary investment objective of the scheme is to generate interest income through investments in acceptable floating rate assets commensurate with the credit risk. The scheme may also invest in fixed rate debt securities.

The scheme witnessed healthy inflows in the last year as investors rushed to take advantage of attractive short-term yield amid a high level of liquidity in the banking system and low credit off-take. The scheme has delivered a return of 4.88% under its Institutional Plan in the last financial year as compared to 3.69% return by the benchmark CRISIL Liquid Fund Index. The out-performance of the fund was mainly due to its high exposure to medium-term money market assets as compared to its benchmark.

As of June 15, 2010, the net assets of the scheme were Rs. 2,992.22 crore.

DSP BLACKROCK SHORT TERM FUND

The primary investment objective of the scheme is to generate income commensurate with prudent risk, from a portfolio constituting of money market securities, floating rate debt securities and debt securities. However, there can be no assurance that the investment objective of the scheme will be realized.

The scheme witnessed healthy inflow in the FY2009-10 as investors preferred its positioning of medium-term high quality money market assets with low volatility in returns. The scheme has delivered 4.19% return in last one year as compared to 3.69% return by the benchmark CRISIL Liquid Fund Index. The scheme has out-performed mainly due to higher exposure to medium-term money market assets as compared to its benchmark.

As of June 15, 2010, the net assets of the scheme were Rs. 817.45 crore.

DSP BLACKROCK BOND FUND

The primary investment objective of the scheme is to seek to generate an attractive return, consistent with prudent risk, from a portfolio which is substantially constituted of high quality debt securities of issuers domiciled in India and the secondary objective of the scheme is to seek capital appreciation. The scheme will also invest a certain portion of its corpus in money market securities, in order to meet liquidity requirements from time to time. There can be no assurance that the investment objective of the scheme will be realized.

This category witnessed significant outflow in the second-half of the financial year as investors rushed to take shelter in shorter-dated assets after significant jump in the borrowing program in the interim budget in July 2009. The scheme has delivered 4.79% return under its regular plan in the last financial year as compared to 5.41% return by the benchmark CRISIL Composite Bond Fund Index. The under-performance was mainly due to asset allocation.

As of June 15, 2010, the net assets of the scheme were Rs. 138.46 crore.

DSP BLACKROCK GOVERNMENT SECURITIES FUND

The primary investment objective of the scheme is to seek to generate income through investments in Central Government Securities of various maturities. The scheme will typically invest in long-term Government Securities with a residual maturity upto 30 years or more. However, there can be no assurance that the investment objectives of the scheme / plans will be realized.

DSP BlackRock Government Securities Fund has delivered 3.68% return in the last financial year as compared to 3.09% return by the benchmark Long ICICI Securities Sovereign Bond Index (LIBEX). The out-performance was mainly due to active duration management.

As of June 15, 2010, the net assets of the scheme were Rs. 67.59 crore.

DSP BLACKROCK TREASURY BILL FUND

The primary investment objective of the scheme is to generate income through investment in a portfolio comprising Treasury Bills and other Central Government Securities with a residual maturity of less than or equal to 1 year.

The investment objective, asset allocation pattern, and nomenclature of the erstwhile DSP BlackRock Government Securities Fund – Plan B (DSPBRGF – Plan B) was modified with effect from July 10, 2009, to bring more clarity in the asset allocation pattern and investment objectives of both plans under DSPBRGF and to align the nomenclature with its investment objective. Accordingly, DSPBRGF – Plan B was renamed as DSPBRTBF. All relevant provisions of the SEBI (Mutual Funds) Regulation, 1996 in this regard have been duly complied with.

DSP BlackRock Treasury Bill has delivered 2.30% return in the last financial year as compared to 6.10% return by the benchmark Short ICICI Securities Sovereign Bond Index (SIBEX). The under-performance is mainly due to lower duration profile as compared to the benchmark and relatively higher cash component in the scheme.

As of June 15, 2010, the net assets of the scheme were Rs. 5.44 crore.

FUTURE OUTLOOK

Bond Market

The Indian economy is likely to grow at around 8% YoY in the next financial year. The stimulus package provided by the government has helped to maintain economic growth momentum in the FY2009-10. Although the bond market's initial reaction to the gross budgeted borrowing program is cautious, the bond market participants will be keenly watching if the government will be able to reduce its fiscal deficit from 6.8% YoY this year to a deficit of 5.5% YoY. Introduction of new Goods & Services Tax (GST) is also likely to support government tax revenue. On the negative side, the bond market participants will have to deal with a series of rate increases in a declining liquidity environment. The key economic indicators are likely to show strength in the first-half of the year due to strong growth momentum as well as a favorable base effect. We believe that the short-end of the money market curve is likely to shift upward in response to the likely rate hikes during the year while government bond yields may likely remain range-bound in the first-half before trending down in the tapering down of the borrowing program as well as a favorable base-effect.

Equity Market

Maintaining a balance between promoting growth and keeping inflation in check, the Reserve Bank of India (RBI) in its April meeting increased both the short term lending (repo) as well as borrowing rates (reverse repo) by 25 basis points. RBI expects inflation to peak by July and hence has resisted increasing rates rapidly to curb double digit inflation.

We remain positive on the Indian equity markets over the long-run as India continues to be a largely domestic economy with inherent demographic advantages that would be the key drivers of the Indian economy. However, we expect markets to remain volatile given the uncertainty in the global macroeconomic scenario and flow of risk capital between the developed and emerging markets.

Earnings growth is likely to be robust for FY11 and FY12 as corporate India rebounds after displaying relatively subdued earnings growth during past two years. India's expected GDP growth of approximately 8.0% p.a. over the next two years, principally driven by domestic consumption and investment in infrastructure remains attractive against a backdrop of sluggish global growth.

INVESTOR SERVICES

Trustees are happy to note that investor grievances / queries are resolved promptly by the customer response associates.

During the year, the AMC continued to provide quality services and facilities to investors. During the year, Registrars & Transfer Agents (CAMS) to the Fund increased their reach to 206 locations in the country to cater to investors in various cities. The AMC, revamped its call centre technology to provide new value added services like fax back services, statements on demand etc. The AMC has received encouraging response to the new call centre services.

As part of e-Initiatives, the AMC launched a unique ePayIn facility, whereby investors can transfer funds towards subscription to the AMC through the internet banking facility by just mentioning their folio number and the scheme name.

SEBI enabled transactions in mutual funds through the stock exchange platforms in November 2009. The Trustees have made all its schemes available on both the exchanges viz. National Stock Exchange (NSE) and The Stock Exchange, Mumbai (BSE).

The Trustees continues to promote systematic investments and added 2 more banks viz. Corporation Bank and Union Bank of India in the list of banks through which investors could register for SIP auto debit facility.

The operations team continues to focus on electronic modes of payment which significantly cut down the remittance time to investors and distributors, in addition to preventing fraudulent encashment of cheques and increasing the overall efficiency of the process.

Trustees advise investors of the Fund to check their statements regularly and especially for any unclaimed dividend or unclaimed redemptions and approach the Company or the registrar for claiming the same.

Trustees encourage investors to provide their valuable feedback by email at service@dspblackrock.com or call us on 1800 200 4499.

AUDITORS' REPORT

To the Trustee of

DSP BlackRock Mutual Fund:

(Formerly DSP Merrill Lynch Mutual Fund)

We have audited the attached balance sheets of the schemes mentioned below (collectively 'the Schemes') as at March 31, 2010 and the revenue accounts and cash flow statements for the period from date of launch of the respective schemes to March 31, 2010 ('the period') annexed thereto. These financial statements are the responsibility of the management of DSP BlackRock Investment Managers Private Limited (formerly DSP BlackRock Investment Managers Limited), the Schemes' asset manager. Our responsibility is to express an opinion on these financial statements based on our audit. Presentation of these separate balance sheets, revenue accounts and cash flow statement in a columnar form is not intended to indicate that they bear any relation to each other, or are interdependent or comparable in any way.

Scheme Name	Launch Date
DSP BlackRock FMP 13 M Series 2	March 02, 2010
DSP BlackRock FMP 13 M Series 3	March 17, 2010

We conducted our audit in accordance with auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

We report that:

- i. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit.
- ii. The balance sheets, revenue accounts and cash flow statement, where applicable, dealt with by this report are in agreement with the books of account.

- iii. In our opinion, the balance sheet and revenue accounts dealt with by this report have been prepared in conformity with the accounting policies and standards specified in the Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 ('the SEBI Regulations').
- iv. In our opinion, and on the basis of information and explanations given to us, the methods used to value non traded securities, where applicable, as at March 31, 2010, are in accordance with the SEBI Regulations and other guidelines issued by the Securities and Exchange Board of India as applicable and approved by the Board of Directors of DSP BlackRock Trustee Company Private Limited (formerly DSP Merrill Lynch Trustee Company Private Limited), and are fair and reasonable.
- v. In our opinion, and to the best of our information and according to the explanations given to us, the said financial statements give the information required by the SEBI Regulations as applicable and give a true and fair view in conformity with the accounting principles generally accepted in India:
 - a) in the case of the balance sheets, of the state of affairs of the Schemes as at March 31, 2010;
 - b) in the case of the revenue accounts, of the surplus, as applicable, for the period, ended on March 31, 2010; and
 - c) in case of the cash flow statements, of the cash flows for the period ended on March 31, 2010.

SCHEDULE 7: NOTES TO ACCOUNTS

1. Organisation

In conformity with Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 (the Regulations), DSP BlackRock Investment Managers Private Limited (formerly DSP Merrill Lynch Fund Managers Limited) has been set up to act as the Asset Management Company (the AMC) to DSP BlackRock Mutual Fund (the Fund) (formerly DSP Merrill Lynch Mutual Fund). In terms of the Investment Management Agreement (IMA) dated December 16, 1996, as amended by supplementary IMA dated November 03, 2008 entered into between DSP BlackRock Trustee Company Private Limited (the Trustee) (formerly DSP Merrill Lynch Trustee Company Private Limited) and the AMC, the AMC has been appointed as the Investment Manager to the Schemes of the Fund.

With effect from May 27, 2009, the AMC converted itself from a Public Limited Company to a Private Limited Company and is now known as 'DSP BlackRock Investment Managers Private Limited'.

Shareholding and sponsor change

On November 03, 2008 BlackRock Advisors Singapore Pte. Ltd., a wholly owned subsidiary of BlackRock Inc. (BlackRock) acquired the entire 40% stake held by DSP Merrill Lynch Limited (DSPML) in the AMC and 49% stake in the Trustee Company. The balance 60% stake in the AMC and 51% stake in the Trustee Company continue to be with DSP ADIKO Holdings Private Limited, DSP HMK Holdings Private Limited and Mr. Hemendra Kothari in the case of the AMC, and Mr. Hemendra Kothari in the case of the Trustee Company. DSPML ceased to be a sponsor of the Fund and BlackRock has become a co-sponsor of the Fund, through its wholly owned subsidiary, BlackRock Advisors Singapore Pte. Ltd.

2. Significant Accounting Policies

2.1 Basis of Accounting

The financial statements are prepared on the accrual basis of accounting, under the historical cost convention, as modified for investments, which are 'marked to market'. The financial statements have been prepared in accordance with the Regulations as amended from time to time.

2.2 Determination of net asset value ('NAV')

- The net asset value of the units of the Scheme is determined separately for the units issued under the Plans.
- For reporting the two net asset values within the portfolio, the Scheme's daily income earned, including realised profit or loss and unrealised gain or loss in the value of investments, and expenses incurred, are allocated to the related plans in proportion to their respective capital (Net Asset of previous day plus subscription and redemption for the day) of the plan.

2.3 Unit Capital

Unit Capital represents the net outstanding units as at the Balance Sheet date.

Upon issue and redemption of units, the net premium or discount to the face value of units is credited or debited respectively to the Unit Premium Reserve account.

2.4 Investments

a) Accounting for investment transactions

Investments are accounted on the date of the transaction at cost after considering transaction costs as applicable excluding custodian transaction charges. The front-end fee receivable, if any, is reduced from the cost of such investment.

REVENUE ACCOUNT FOR THE PERIOD FROM LAUNCH OF THE SCHEME TO MARCH 31, 2010**

b) Valuation of investments

During the year, the Fund has valued its investments in accordance with the Regulations, as amended from time to time. All investments are marked to market and are stated in the balance sheet at their market / fair value. In valuing the Scheme's investments:

I. Valuation of Traded Securities

Debt Securities

Traded Debt Securities (other than Government Securities) are valued at the last quoted price on the NSE on the day of valuation.

II. Valuation of Thinly Traded Securities/ Non-traded and Unlisted Securities

II.I Debt Securities of upto 182 Days to Maturity

Non-traded / thinly traded / unlisted debt securities of upto 182 days to maturity are valued at cost or last valuation price (in case of securities having maturity period of more than 182 days at the time of purchase) plus difference between the redemption value and the cost or last valuation price spread uniformly over the remaining maturity period of the security.

II.II Debt Securities of over 182 Days to Maturity

Non traded / thinly traded / unlisted debt securities of over 182 days to maturity are valued in good faith by the investment manager on the basis of valuation principles laid down by the SEBI. The approach in valuation of a non-traded / thinly traded / unlisted debt security is based on the concept of using spreads over the benchmark rate to arrive at the yields for pricing the security.

III. Valuation of Non-Traded /Thinly Traded and Unlisted Floating Rate Debt Securities (Floaters)

There are no valuation guidelines prescribed by SEBI for Valuation of Non Traded / Thinly Traded and Unlisted Floating Rate Debt Securities. These securities are valued as determined by the investment manager based on policy as approved by the Board of Trustees.

IV. Valuation of Government Securities

Government Securities are valued at the prices provided by the agency (currently Crisil Limited) approved by the Association of Mutual Funds of India (AMFI), on a daily basis.

V. Valuation of securities with Put/Call Options

V.I Securities with Call option

The securities with call option are valued at the lower of the value as obtained by valuing the security to final maturity and valuing the security to call option. In case there are multiple call options, the lowest value obtained by valuing to the various call dates and valuing to the maturity date is taken as the value of the instrument.

V.II Securities with Put option

The securities with put option are valued at the higher of the value as obtained by valuing the security to final maturity and valuing the security to put option. In case there are multiple put options, the highest value obtained by valuing to the various put dates and valuing to the maturity date is taken as the value of the instruments.

V.III The securities with both Put and Call option on the same day would be deemed to mature on the Put/Call day and would be valued accordingly.

VI. Valuation of Money Market Instruments

Investments in CBLO and short-term deposits with banks are valued at cost plus accrued interest.

Money market instruments are valued at the last traded yield on the date of valuation. In case the Money market instrument is not traded on the valuation day then it is valued on straight-line amortization over the maturity period of the instrument.

In accordance with the Guidance Note on Accounting for Investments in the Financial Statements of Mutual Funds issued by the Institute of Chartered Accountants of India (pursuant to the Eleventh Schedule to the SEBI Regulations), the net unrealized gain or loss in the value of investments is determined separately for each category of investments. The change in the net unrealized loss, if any, between two balance sheet dates is recognized in the revenue account and the change in net unrealized gain, if any, is adjusted in an unrealized appreciation reserve. The loss on investments sold/transferred during the year is charged to the revenue account instead of being first adjusted against the provision for depreciation, if already created in the prior year, as recommended by the Guidance Note. However, this departure from the Guidance Note does not have any net impact on the Scheme's net assets.

2.5 Revenue recognition

- a. Income on investments is recognized on accrual basis except where there is uncertainty about ultimate recovery/realization. Such income is recognized when the uncertainty is resolved.
- b. Interest income is recognised on an accrual basis (interest paid for the period from the last interest due date up to the date of purchase, is not treated as a cost of purchase, but debited to interest accrued but not due account. Similarly, interest received at the time of sale for the period from the last interest due date up to the date of sale is not treated as an addition to sale value but credited to interest accrued but not due account). In respect of discounted securities, the discount to redemption value is amortized and recognized as interest income equally over the period to redemption.
- c. Profit or loss on sale of investments is recognized on the trade date and is determined on the basis of the weighted average cost method.

2.6 Expenses

- a. All expenses are accounted for on accrual basis.
- b. **New Fund offer expenses:** New Fund offer expenses for the Schemes were borne by the AMC.

2.7 Exit Load

Pursuant to SEBI Circular No. SEBI/IMD/CIR No. 4/ 168230/09 dated 30 June, 2009 with effect from August 01, 2009, no entry load is charged. Exit load up to 1% of the redemption value charged to the unit holder by the Scheme on redemption/switch-outs of units is retained by each of the Schemes in a separate account and

**DSP BLACKROCK MUTUAL FUND (FORMERLY DSP MERRILL LYNCH MUTUAL FUND)

is utilized for payment of commissions to the distributors and to take care of other marketing and selling expenses. Any amount in excess of 1% of the redemption value charged to the unit holder as exit load is credited to the respective Scheme on the date of recording of transaction. Any excess amount after being utilized for expenses as permitted by SEBI, will be credited to the Scheme concerned, whenever felt appropriate by the AMC.

3. INVESTMENTS

1. Investments of the schemes, except for Government Securities, are registered in the name of the Trustees for the benefit of the schemes' unit holders. Investments in Government Securities are held in the name of the fund.

Investments made in companies which have invested more than five percent of the net asset value of the Schemes of DSP BlackRock Mutual Fund in terms of Regulation 25 (11)

- Investment in Companies includes investment in subsidiaries.
- Purchases represents purchases (including inter-scheme transactions) made during the period prescribed under regulation 25(11).
- Value represents closing market value of investments as of March 31, 2010 of the respective scheme.
