#### MARKET REVIEW

##### Bond Market

The financial year 2010-11 can be characterized as a year of tight liquidity conditions, higher headline inflation and RBI's calibrated rate hike approach to strike a balance between economic growth and inflation. The first quarter of the financial year began with benign liquidity conditions due to low credit off-take amid high headline inflation, mainly on account of higher food prices. However, the easy liquidity scenario

changed dramatically when the Government of India auctioned 3G spectrum and raised around Rs.1,05,000 crore against their estimate of Rs.35,000 crore. The benchmark 10Y bond yield tumbled by more than 70 basis points to 7.40% pa as market participants reacted positively to the success of the auction. However, systemic liquidity tightened in the second quarter as telecom companies borrowed heavily from the banking system to pay for their 3G licences. The Reserve Bank of India found its gradual monetary tightening approach beginning to gain traction. During the financial year, the Reserve Bank of India hiked both the Repo Rate and the Reverse Repo Rate seven times to curb inflationary pressures and to reduce negative real interest rates. The Reserve Bank of India made the Repo Rate effectively the Policy Rate and hiked interest rates by 350 basis points. During the third quarter, even though a good monsoon eased some pressure on food prices, fuel prices began to inch up as crude oil prices along with other commodity prices began to harden, ostensibly in response to the quantitative easing by the US Federal Reserve (QE2). As fuel under-recoveries mounted, the government responded by hiking fuel prices marginally. The last quarter of the year witnessed further hardening of money market rates due to better credit off-take from the corporate sector and tight systemic liquidity conditions due to lack of government spending. The year ended with both 3M & 12M bank CD yields crossing 10% pa, a level not seen since December 2008.

#### **Equity Market**

For the financial year 2010-2011, the BSE-30 index, the Sensex, finished up 10.94%. This mirrored the trend in global equity markets which rallied on the back of continued liquidity support and risk appetite fuelled by financial stimulus. India saw significant flows from FIIs with the economy demonstrating steady growth.

Indian equities were subdued for the first few months of the year after a massive rally in the previous year, as the index consolidated and awaited further catalysts. A good monsoon, followed by a second round of quantitative easing in the US led to a 11% move in the index in the month of September 2010. Risk appetite was back and the index rally was led by banks and commodity stocks. Strong earnings for the first half of the year led to upward revisions to earnings estimates for the year and there was continued optimism in the markets.

November 2010 saw the first signs of weakness with several scandals hurting the political environment and the financial sector. Markets also started getting edgy as inflation remained stubbornly high and commodity prices reached new highs. The RBI started tightening aggressively, and the banks had to follow suit by raising deposit rates. Globally, there were renewed concerns about the Euro zone and sovereign debt concerns continued to plague the markets as global cyclical once again underperformed. January 2011 saw one of the worst performances of the market since 2009 with the Sensex index losing more than 10%. The weakness continued in February with signs of margin pressure hurting corporate earnings for the quarter. The market rallied again in March as FII inflows outweighed domestic concerns.

The market rally for the first half of the fiscal year saw the small and mid-cap stocks significantly outperform the larger capitalisation stocks. This, however, was more than reversed in the second half and the BSE Small Cap Index finished down 3.7% during the year, while the BSE Mid Cap Index was up only 1% in the same period.

##### **DSP BLACKROCK SAVINGS MANAGER FUND**

DSP BlackRock Savings Manager Fund is an open ended income scheme, seeking to generate income, consistent with prudent risk, from a portfolio which is substantially constituted of quality debt securities. The scheme has delivered a 4.57% return in FY 2010-11 as compared to 6.17% return from the benchmark CRISIL MIP Blended Index. #### **FUTURE OUTLOOK**

##### **Bond Market**

Bond Market participants are likely to focus on three key economic indicators in the next fiscal year: Inflation, fiscal deficit and Industrial Production. Market participants expect headline inflation to remain above 8% for a better part of the year before declining. The main drivers of high inflationary pressures are higher crude oil prices and higher input costs for the manufacturing sector. We expect the Reserve Bank of India to hike rates by another 50 bps to curb inflationary pressures. The RBI is also likely to keep systemic liquidity tight in the banking system. The fiscal deficit is also likely to be in focus this year. Market participants believe that tax collections may get impacted in the event of a slowdown in economic growth. That may in turn result in either extra borrowing by the government or a reduction in government spending. Market participants also expect the RBI to conduct Open Market Operations in the second-half of the year, similar to last year. This may provide the market with much needed liquidity and may keep government bond yields in a range. We expect the benchmark 10Y yield to trade in a range of 8.30-8.50% pa in the first-half of the year. However, global events may have an over-arching impact on sentiment and market conditions in the second-half of the year.

##### **Equity Market**

At current levels, the BSE Sensex is trading at 15x FY12 earnings which is near its long term (15 year) median PE.

Headwinds do remain in the form of stubborn inflation and high global commodity prices but with the trend changing in the recent past and commodity and crude prices having corrected, inflation could begin to moderate later this year. The RBI will likely hike rates by a further 50 bps between now and March 2012.

Global growth seems to be under threat given the sovereign risk emanating from Europe, and the continued softening of growth in both the US, as well as China. However, we remain positive on the Indian equity markets over the long-run as India continues to be a largely domestic economy with inherent demographic advantages.

Earnings growth is likely to be 15-18% for FY12 as corporate India continues to grow and manage margin pressures. India's expected GDP growth of approximately 8.0% p.a. over the next two years, principally driven by domestic consumption and investment in infrastructure remains attractive against a backdrop of sluggish global growth.

##### **INVESTOR SERVICES**

The Fund services a client base of more than 22 lakh accounts through over 200 Investor Service Centres (ISCs) pan India. The Fund uses the services of Investor Service Centres and Transaction Points of its Registrar and Transfer Agent – M/s Computer Age Management Services Pvt. Ltd. at 222 locations across the country as official points of acceptance. In its endeavor to provide newer, quicker, easier and better means of transacting, the Fund has introduced the following facilities during the year:

- Online transaction facility through the website of DSP BlackRock Mutual Fund, [www.dsblackrock.com](http://www.dsblackrock.com), was introduced. The facility gives investors the advantage of transacting at their convenience without having to visit the service centers. The fund has received an encouraging response to the online transaction facility.
- The website of the Fund, [www.dsblackrock.com](http://www.dsblackrock.com), provides comprehensive information on the various products and services of the Fund. The website has been further enhanced by making various forms and stationery available online, thereby making it easy for investors to download forms for their use at a click.
- Dividend Transfer Plan (DTP) has been introduced during the year which is a facility enabling the investors to opt for automatically investing the dividend receivable into other eligible schemes of the Fund.
- The facility of Switch Upon Maturity for Fixed Maturity Plans of the Fund has been introduced. This facility enables the investor to give an advance intimation to the Fund to switch the maturity proceeds receivable into another scheme of the Fund.
- State Bank of India was added to the list of Electronic Clearing Services (ECS) locations enabling auto debit facility for investors having a bank account with the State Bank of India, for their Systematic Investment Plan (SIP) instalments.
- Multiple Bank Accounts Registration facility, a facility for registering upto five bank accounts of the investor in a folio for receiving redemption and dividend proceeds, was started during the year. Registering for this facility enables investors to receive redemption proceeds into any one of the registered bank accounts without providing any additional supporting documents at the time of redemption.
- All the income and fund of funds schemes were added to the list of eligible schemes for trading through the infrastructure of the National Stock Exchange of India (NSE) and the Bombay Stock Exchange (BSE).

The Trustees were pleased to note that the grievances, complaints and queries of investors and distributors have been resolved promptly by the Client Response Associates Team.

The client response team continues to focus on increasing the electronic modes of payment, thereby cutting down significantly the remittance time to investors and distributors, in addition to preventing fraudulent encashment of cheques and increasing the overall efficiency of the process.

We advise investors of the Fund to check their statements regularly, especially for any dividend or redemptions that may have been unclaimed and approach the AMC or the Registrar for claiming the same.

**PROXY VOTING POLICY**

**I. INTRODUCTION**

The Corporate Governance Committee (“the Committee”) of DSP BlackRock Investment Manager Pvt. Ltd. (DSPBRIM), *inter alia* addresses proxy voting issues on behalf of all the Schemes of DSP BlackRock Mutual Fund. The Committee comprises

of the President & Chief Investment Officer, Head of Equities and Senior Fund Managers from the Investment team, Head of Risk, Chief Administrative Officer and the Compliance Officer. In keeping with its fiduciary responsibilities, the Committee reviews all proposals put up for voting even though they may be considered to be routine matters and exercises the votes in the best interest of its unitholders. Each proposal is considered based on the relevant facts and circumstances. The Committee may deviate from the general policies and procedures when it determines the particular facts and circumstances warrant such deviation to protect the interest of the unit holders.

**II. PROXY VOTING POLICY**

**A. Corporate Governance matters** (including changes in the state of incorporation, merger and other corporate restructuring and anti takeover provisions) Mergers and acquisitions will be subject to careful review by the research analyst to determine whether they would be beneficial to shareholders. DSPBRIM will analyze various economic and strategic factors in making the final decision on a merger or acquisition resolution. Corporate restructuring proposals are also subject to a thorough examination on a case-by-case basis.

**B. Capital Structure**

These proposals relate to various requests, principally from management, for approval of amendments that would alter the capital structure of the Company, such as an increase in authorized shares. As a general matter, DSPBRIM will support requests that it believes enhance the rights of common shareholders and oppose requests that appear to be unreasonably dilutive.

**C. Compensation and Benefits**

We generally support proposals for employee equity compensation plans and other employee ownership plans provided our research does not indicate that approval of the plan would be against shareholder interest. These proposals concern those issues submitted to shareholders related to management compensation and employee benefits. As a general matter, we favor disclosure of a Company's compensation and benefit policies and oppose excessive compensation, but believe that compensation matters are normally best determined by a corporation's Board of Directors, rather than shareholders. Proposals to "micro-manage" a Company's compensation practices or to set arbitrary restrictions on compensation or benefits would therefore generally not be supported.

**D. Social and Corporate Social Responsibilities**

These are shareholder proposals addressing either corporate social and environmental policies or requesting specific reporting on these issues. We generally do not support proposals on social issues that lack a demonstrable economic benefit to the issuer and the Fund investing in such issuer. DSPBRIM seeks to make proxy voting decisions in the manner most likely to protect and promote the long term economic value of the securities held in the scheme's accounts. We intend to support economically advantageous corporate practices while leaving direct oversight of the Company management and strategy to the Board of Directors. We seek to avoid micromanagement of Companies, as we believe that the Company's Board of Directors is best positioned to represent shareholders and oversee management on shareholders behalf. Issues of corporate social and environmental responsibility are evaluated on a case –by –case basis within the framework.

**E. Board of Directors**

DSPBRIM generally supports the Board's nominees in the election of Directors and

generally supports proposals that strengthen the independence of the Board of Directors. As a general matter, we believe that a Company's Board of Directors (rather than shareholders) is most likely to have access to important, nonpublic information regarding a Company's business and prospects, and is therefore best-positioned to set corporate policy and oversee management. We therefore believe that the foundation of good corporate governance is the selection of responsible, qualified, independent corporate Directors who are likely to diligently represent the interest of the shareholders and oversee management of the corporation in the manner that will seek to maximize shareholder value over time. In individual cases, consideration may be given to a Director nominee's history of representing shareholder interests as a Director of the company issuing the proxy or other companies, or other factors to the extent deemed relevant by the Committee.

**F. Other issues**

**(a) Auditors**

These proposals concern those issues submitted to shareholders related to the selection of the auditors. As a general matter, we believe that corporate auditors have a responsibility to represent the interest of shareholders and provide an independent view on the propriety of financial reporting decisions of corporate management. While we will generally defer to a corporation's choice of auditor, in individual cases, consideration may be given to an auditors' history of representing shareholder interests as auditor of the Company issuing the proxy or other Companies, to the extent deemed relevant.

**(b) Corporate Charter and By-Laws**

These proposals relate to various requests for approval of amendments to a corporation's charter or by-laws. We generally vote against antitakeover proposals and proposals that would create additional barriers and costs to corporate transactions that are likely to deliver premiums to shareholders.

**(c) Conflict of Interest and governance measures for investment in group companies of AMC and investment in companies that have subscribed to the units of any scheme of DSP BlackRock Mutual Fund (Fund):**

DSPBRIM is an affiliate of a large, diverse financial services firm with many affiliates and makes its best efforts to avoid conflicts of interest. However, conflict of interest can arise in certain situations. Few examples of such situations are:

- Investee Company is a client of DSPBRIM or its affiliates
- Investee Company is an entity participating to a material extent in the distribution of products managed or advised by DSPBRIM
- Investee Company has subscribed to the units of any of the schemes of Fund

None of the schemes of the Fund shall invest in group companies of DSPBRIM. Further, DSPBRIM shall endeavor to resolve conflicts of interest in the interest of the unitholders. Nonetheless, even though a potential conflict of interest exists, DSPBRIM may vote in opposition to the recommendations of an investee company's management.

**(d) Internal Control Mechanism:**

Internal controls and checks are in places at various key steps in the process of exercise of votes as considered relevant/material by DSPBRIM. The Committee, periodically reviews the implementation of the policy and disclosure requirements.

**III. REPORTS TO THE BOARD**

DSPBRIM will report to the Trustee Company on proxy votes it has made on behalf of the Fund at least annually.

In conformity with Securities and Exchange Board of India (SEBI) (Mutual Funds) Regulations, 1996 (the Regulations), DSP BlackRock Investment Managers Private Limited has been set up to act as the Asset Management Company (the AMC) to DSP BlackRock Mutual Fund (the Fund). In terms of the Investment Management Agreement (IMA) dated December 16, 1996, as amended by supplementary IMA dated November 03, 2008 entered into between DSP BlackRock Trustee Company Private Limited (the Trustee) and the AMC, the AMC has been appointed as the Investment Manager to the Schemes of the Fund.

With effect from May 27, 2009, the AMC converted itself from a Public Limited Company to a Private Limited Company and is now known as 'DSP BlackRock Investment Managers Private Limited'.

**Shareholding and sponsor change**

On November 03, 2008 BlackRock Advisors Singapore Pte. Ltd., a wholly owned subsidiary of BlackRock Inc. (BlackRock) acquired the entire 40% stake held by DSP Merrill Lynch Limited (DSPML) in the AMC and 49% stake in the Trustee Company. The balance 60% stake in the AMC and 51% stake in the Trustee Company continue to be with DSP ADIKO Holdings Private Limited, DSP HMK Holdings Private Limited and Mr. Hemendra Kothari in the case of the AMC, and Mr. Hemendra Kothari in the case of the Trustee Company. DSPML ceased to be a sponsor of the Fund and BlackRock has become a co-sponsor of the Fund, through its wholly owned subsidiary, BlackRock Advisors Singapore Pte. Ltd.

2. SEBI circular no. 16/193388/2010 ('the SEBI circular') dated February 02, 2010 on "Valuation of Debt and Money Market Instruments", all debt and money market instruments with residual maturity of over 91 days not traded on a particular valuation day shall be valued at benchmark yield/ matrix of spread over risk free benchmark yield obtained from agency (ies) entrusted for the said purpose by AMFI.

Pursuant to the SEBI circular, debt instruments (with maturity greater than 91 days and less than 182 days) and money market instruments with residual maturity of over 91 days, not traded on the valuation date are valued using Crisil matrix & ICRA matrix / prices provided by such agencies as against the earlier practice of determining the valuation price based on straight-line amortization over the maturity period of the instrument.

In compliance with the above mentioned circular, with effect from August 1, 2010 (the cutoff date prescribed in circular), the Fund has changed basis of determination of market price for valuation of the above mentioned debt securities including money market instruments over 91 days maturity, not traded on valuation date.

9. SEBI Circular No.18/198647/2010, dated March 15, 2010, clarified the method of calculation of Unit Premium Reserve (UPR). Further, the Circular also states that the UPR shall not be used for dividend distribution. In view of the above clarification and in order to reflect the correct UPR balance as per the above Circular, UPR has been recomputed since inception in all the schemes. Further, upto March 14, 2010 UPR was considered as available for dividend distribution. This change in accounting policy does not have any impact on the net asset values declared in the past for any of the schemes and has only resulted in inter-se adjustments between UPR and Retained Earnings Reserve (RER).

The following table summarises the impact on the balances of UPR and the RER as on March 31, 2010 due to recomputation of UPR as stated above and utilization of UPR for dividend distribution since inception upto March 14, 2010, if any:

<sup>^</sup>Benchmark. "Since inception" returns are calculated on ₹ 10/- invested at inception, viz. date of allotment. All returns are for Regular Plan - Reinvest Dividend Option, assuming reinvestment of dividend. DSPBREF, which is benchmarked to the S&P CNX 500 Index, is not sponsored, endorsed, sold or promoted by India Index Services & products Limited (IISL). IISL is not responsible for any errors or omissions or the results obtained from the use of such index and in no event shall IISL have any liability to any party for any damages of whatsoever nature (including lost profits) resulted to such party due to purchase or sale or otherwise of DSPBREF marked to such index. \*The SIP investment returns table assumes monthly investments being invested since the Date of Allotment. The SIP returns are computed on the assumption that the monthly installments were received across time periods from the start date of SIP. The CAGR is computed based on IRR since the SIP instalments are received at different intervals across the SIP period. XIRR calculates internal rate of return for a series of cash flows. The benchmark returns are computed on the assumption that the value of the benchmark index is the price of one unit and "Since inception" returns are computed from the "Start date of SIP". Past performance may or may not be sustained in future and should not be used as a basis for comparison with other investments.
