#### **Auditor's Responsibility**

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. In making those risk assessments, the auditor considers internal control relevant to the Scheme's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Significant Accounting Policies:

#### 2.1 Basis of Accounting

The financial statements are prepared on the accrual basis of accounting, under the historical cost convention, as modified for investments, which are 'marked to market'. The financial statements have been prepared in accordance with the Regulations as amended from time to time. The accounting policies have been

2.2 As per the Securities & Exchange Board of India (SEBI) (Mutual Funds) (Amendment) Regulations, 2012, issued on 21 February, 2012, the Eighth regulations was amended to include "Principles of Fair Valuation" which required the mutual funds to value their investments in accordance with the specified overarching principles so as to ensure fair treatment to all investors including existing investors as well as investors seeking to purchase or redeem units of mutual funds in all schemes at all points of time.

In compliance with the said amendments and based upon the valuation methodology suggested by AMFI Committee on Valuation (as a guiding principle) for valuing Debt and Money Market instruments, the Fund has changed the basis of determination of market price for valuation of debt and money market securities, effective April 26, 2012, (refer Note 2.5 Valuation of Investments)

#### 2.3 Determination of net asset value ('NAV')

- a) The net asset value of the units of the Scheme is determined separately for the units issued under the Plans.
- For reporting multiple net asset values within the portfolio, the Scheme's daily income earned, including realised profit or loss and unrealised gain or loss in the value of investments, and expenses incurred, are allocated to the related plans in proportion to their respective net asset (net assets of previous day plus subscription less redemption for the day) of the plan.

#### 2.4 Unit Capital

Unit Capital represents the net outstanding units as at the Balance Sheet date.

#### 2.5 Investments

#### a) Accounting for investment transactions

Purchase and sale of Investments are accounted on the date of the transaction at cost and sale price respectively after including all transaction costs as applicable like brokerage, commission, charges paid to Clearing Corporation of India Limited and fees payable or receivable, if any but excluding custodian transaction charges. The front end fee receivable, if any, is reduced from the cost of such investment w.e.f October 01, 2012 capitalisation of such brokerage and transaction costs incurred for the purpose of execution of trades is restricted to 12 bps in case of cash market transactions and 5 bps in case of derivative transactions. Any cost in excess of the specified limits is charged to the revenue account of the scheme as part of the total expense ratio.

Bonus entitlements are recognised as investments on the 'ex-bonus date'.

Rights entitlements are recognised as investments on the 'ex-rights date'.

#### Valuation of investments

All investments are marked to market and are stated in the Balance Sheet at their fair value. In valuing the scheme's investments

Average capitalisation rate (P/E ratio) for the industry based upon either BSE or NSE data (which should be followed consistently and changes, if any noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P/E shall be taken as capitalisation rate (P/E ratio). Earnings per share of the latest audited annual accounts will be considered for this purpose.</li> <li>iii. The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 10% for ill-liquidity so as to arrive at the fair value per share.</li> <li>iv. In case an individual security accounts for more than 5% of the total assets of the scheme, an independent valuer shall be appointed for the valuation of the said security.</li> </ul> |  |
|   |   | To determine if a security accounts for more than 5% of the total assets of the scheme, it should be valued by the procedure above and the proportion which it bears to the total net assets of the scheme to which it belongs would be compared on the date of valuation. |
|   |   | b. <b>Preference Shares:</b> Intrinsic value will be considered  |

|   |   | Eg: If Company A and Company B merge to form a new Company C then Company C would be valued at the price equals to A+B   |
