STEP INTO A SECURE NEW YEAR

- Ensure strong & unique passwords

- Keep your apps & devices updated

- Enable Multi-Factor Authentication

- Evaluate and update permissions for third-party apps, services & devices

- Ensure anti-virus & anti-malware software is installed & keep it up to date

- Consider using a VPN while connecting to public Wi-Fi

- Think twice before clicking on links or opening attachments from emails or SMS

- Backup your important data

- Review and update privacy settings on social media accounts

- Don't overshare on social media
